FEEDBACK ON DRAFT INNOVATIONS
WAIVER SERVICE DEFINITIONS
FEEDBACK WE HAVE GOTTEN FROM STAKEHOLDERS?

- Needs to follow the natural flow of everyday life
- A blended service makes more sense
- Needs to address the needs of people with intensive training needs without being too restrictive
- Does not need to dictate how many hours of habilitation or support is enough
- Better address the needs of people who have intensive medical needs
- Make the technical assistance to unpaid supports optional and clarify who can receive it
- Clarify how the Limits on Sets of Service apply
- Clarify the option to meet exceptional needs
- Clarify the terms used
