Regional Joint Land Use Study

Promote military mission via land coordination

Military mission de-confliction tool for planning
Regional Joint Land Use Study

- Started June 2015; consolidated JLUS products
  - Fort Bragg
  - Camp Lejeune / MCAS New River & Cherry Point
  - Seymour-Johnson AFB
  - Camp Butner NG Training Center
  - NAS Oceana and other VA bases as appropriate

- Final report offers 9 general recommendations plus 2 specific recommendations for Dare County Range
Regional Joint Land Use Study

Recommendations to NCMAC:

1. Provide sustainable ongoing communication between State and military
2. Establish State and military secure data and information exchange procedures
3. Adopt State compatible land use planning goals for local use
4. Establish alternative energy development de-confliction with military missions
5. Establish permanent funding sources for local military compatibility planning
6. Leverage Federal investment for education and awareness
7. Protect Dare County Range/Assets/Airspace
Regional Joint Land Use Study

RJLUS Compatible Use Map

Statewide military influence areas (Rec 3 & 4)
Compatible Use Map* (RYG)

Introduction

RYG
Way Ahead

Primary purpose: a tool to identify areas within NC where military ops occur so they can be protected or monitored to reduce current and future development of incompatible uses.

Steps in this process:

- Characterizations of military operations and influence areas (vertical and horizontal)
- Capture Service and installation requirements and operating area footprints.
Compatible Use Map (RYG)

Approach used:

- Data collection included interviews and importing GIS info from various public sources
- Discussions with various stakeholders was critical to data collection: state reps; military officials; and, energy providers
Compatible Use Map (RYG)

Low Level Flight Compatibility - Assessment
Compatible Use Map (RYG)

Communication & Implementation

- State business development
- Online tools
- Legislation
- Interagency de-confliction (Agriculture, Commerce, Energy, Transportation, etc)

You own tool and data base; put it to work for NC
