What is Interscope+?

Interscope was originally created in 1999 for the State Construction Office for internal use to track Capital Projects.

In 2012, the decision was made to create a state-wide Capital Project System that would be used by the Community College System, University System and all State Agencies.
What is Interscope+?

Interscope+ is designed to track the life cycle of Capital Projects from the time they are authorized until they are closed out, including funding sources and HUB data. It is not intended to be an accounting system.

- Budgets
- Contracts
- Milestones (P6 Linking Forthcoming)
- HUB Information
- Optional detailed expenditure tracking is available. Not linked to NCAS.
What can Interscope+ do?

Provides a single Capital Projects Management System for the State Construction Office, Universities, Community Colleges and State Agencies. Provides MBE (HUB) data integration.

• Track funding sources and budgets
• Track commitments
• Reduce conflicting data
• Provide consistent reporting
• Replace HUBSCO for reporting HUB data
• Integrate Primavera P6 schedule data

Left to Right Tabs are sub folders of the currently open Master tab. Above, is an example of an open construction contract.

It may help to think of each Interscope+ tab as a nested file folder
**Project Types**

**Standard Project** - Default project type that will apply to most Capital projects.

**Performance Contract** - Applies to Guaranteed Energy Savings Performance Contracts

**Foundation Projects/Other** - Applies primarily to UNC System projects that are designed/constructed by a foundation but must be reviewed by SCO

**Non-Code-Item Projects** - Projects that do not go through the normal State authorization process, such as county funded projects at Community Colleges, or projects completed with operating funds. This will also be used for reporting small project HUB information. May have code review. An Estimated Project Completion date, Funding Source, and Fiscal Year Funded must be entered. These fields appear for entry only when the Non-Code-Item type is selected. Example: Electrical

**Non-Code-Item (HUB Only)** – Small Non-Code-Item projects that do not require a design contract, package or code review. Example: Painting
Fund Source Types

There are 6 different source of funds within Interscope+ system.

1. **General Fund**: Appropriated funds
2. **Non-General Fund**: Receipts, grants, gifts, cash, County appropriated funds, etc.
3. **State Debt**: State Bonds, COPS, or Special Indebtedness
4. **Non-State Debt**: Debt issued by the institutions, county, or entity other than the State of North Carolina
5. **R&R**: Funding for R&R from appropriations
6. **R&R Debt**: Funding for R&R from State Debt, such as Special Indebtedness or COPS
## Interscope “SCO” ID Number

### # 16-02222-02-A

- **Project Year** is the calendar year that the project was created.
- **Project “Sequence” Number** is assigned by Interscope and is a unique number for the project.
- **Design Contract Number** designates which design contract is selected. A project may have multiple design contracts.
- **Package ID** is the indicator letter for the selected Interscope package, the process container for Design and Construction as well as the State Construction Office. *Only one milestone schedule is available per package.*
R&R (Repair and Renovation)

- **Authorization**
  - **Program**
    - **Project**
      - **Design Contract**
        - **Interscope Package**
          - **Construction Contract**
            - **HUB Data**

- **Allocate Funds**
- **Assign Funds**
- **Commit Funds**
HUB Decision Tree

1. **Project**
   - Code-Item Funding Source?
     - No: Non-Code-Item Program
     - Yes: Standard Project in Code-Item Program

2. Non-Code-Item Program
   - Designer or Code Review?
     - No: HUB Only
     - Yes: Non-Code-Item Project in Non-Code-Item Program

---

**Special Project Designation:**
- Standard Project
- Performance Contract
- Foundation Project
- Non-Code-Item Project

---

**Special Project Designation:**
- Foundation Project
- Non-Code-Item Project
- HUB Only
HUB Only Project Type

• HUB Only projects are inherently Non-Code-Item projects. Therefore, there are no fund assignments or financial controls.
• HUB Only projects do not have a design contract or Interscope package.
Thank you...
