<tr>
<td>2. The Vendor shall schedule and coordinate the work with the user to cause the least possible interference with or interruption of the user’s activities. It is intended that work be performed during normal working hours. At the request of the user, installations shall include tank line and any hardware necessary for connections. Vendor shall also leave equipment ready for use. Charges for line and other necessary hardware shall be in accordance with “Parts Cost Markup” below, with invoicing provided to the agency. See labor rates for acceptable labor charges.</td>
</tr>
<tr>
<td>3. The Vendor shall be completely responsible for any damages caused solely by the Vendor or its agent(s) to any buildings, its contents, or the surrounding grounds as a direct result of the installation, maintenance, or removal of any equipment.</td>
</tr>
<tr>
<td>4. Upon completion of the work, the Vendor shall remove all debris, cartons, etc., which was caused specifically by the Vendor or its agent(s), and shall maintain all exit ways free and clear at all times.</td>
</tr>
</tbody>
</table>
5. In the event the contract is not be renewed after the initial term of the contract, Vendor shall reimburse the using agency for the unused gallons in the tank, within thirty (30) days based on the per gallon rate in effect when the last delivery was made and, remove its tanks within 5 business days. Evidence of such reimbursement shall be provided to the Division of Purchase & Contract. Any and all line and hardware shall be left intact and ready for acceptance of another tank.

6. There shall be no separate charges for installation or removal of tanks, nor any dues or fees for the use of the specified equipment except as provided under "All Other Labor".

7. Due to the fact that in most instances tanks belong to the Vendor, we discourage the practice of installing underground tanks for storage of product purchased from this contract.
