Chapter: E
Section: .2500
Title: **Inmate Death
Procedures**
Issue Date: 5/10/17
Supersedes: 09/05/14

POLICY AND PROCEDURE

.2501 Purpose

To establish operational procedures for the proper reporting, documentation and investigation of inmate deaths within North Carolina's Prisons. The procedure should be consistent for all prisons, institutions, correctional centers, plants, office buildings and other properties operated under the authority of North Carolina Prisons.

.2502 Policy

Proper reporting, documentation and investigation of inmate deaths are important and necessary to ensure that the details, facts and chronological order of events are maintained in an incident resulting in the end of an inmate's life. Whether the incident be natural or of unnatural causes, division staff should ensure meticulous documentation of all pertinent facts surrounding the moments before, leading up to the inmate's death as well as what actions were taken once staff became aware of the inmate's death.

.2503 Resource & Reference

The North Carolina Department of Public Safety, Prisons Health Care Procedure Manual AD V-2 should be utilized as a guide for this policy.

.2504 Procedures

Upon the death of an inmate, no person shall be authorized to disturb the body at the scene of death. This prohibition does not limit or prohibit resuscitation efforts and is not intended to interfere with such efforts. At the time the inmate death is discovered, the Facility OIC should utilize Form DPIDC included at the end of this policy to ensure all policy requirements have been met. The facility medical staff will also complete a list of tasks as required in Prisons Health Care Procedure Manual AD V-2.

Unless a valid DNR document is in place the County Medical examines will be contacted to conduct an autopsy for all inmate deaths.
