AUDIT FINDINGS

NARRATIVE

Craggy Correctional Center received an on-site PREA audit on August 8th and 9th, 2016 by DOJ Certified PREA Auditor G. Peter Zeegers. Prior to the on-site visit, the facility provided a completed PREA Questionnaire and a flash-drive with the requested documents. The auditor reviewed the same documents prior to the on-site visit. The auditor contacted the facility one week prior to the audit to review the on-site audit process, time lines, and to request additional information be made available on the first day of the audit. These documents included inmate rosters and staff assignments. There were no inmate letters received before the on-site audit.

The on-site audit began with a meeting between the PREA Auditor, Acting Superintendent, Assistant Superintendent of Operations/Facility PREA Compliance Manager, Program Supervisor/ Alternate PREA Compliance Manager, Regional Security Coordinator, a Captain, and Training Specialist. The discussion focused on the audit process, the interim/final 30-day report, Corrective Action Plan period, and the final report. The meeting was followed by a tour of the program.

During the tour, the auditor observed PREA notices and Zero Tolerance posters in the facility where both inmates and staff had access to the information. The tour included the Medium Unit, Minimum Unit, and the Old Craggy Facility, which is now the Enterprise Agency Laundry Facility. At the Medium Unit an administration area, visitation, programming offices, intake/receiving, medical/dental, recreation areas, education, chapel, laundry, central control, dining hall, kitchen/food service, maintenance, vocational classrooms, canteen, and (3) housing units were viewed. Each housing unit holds a few wings. This tour included a minimum unit located outside of the main institution housing as many as 182 inmates. There were no privacy bathroom/shower issues for the inmates noted during the tour.

Interviewees were randomly selected for both inmates and staff. There were a total of 10 random inmates interviewed. A total of 10 random staff were interviewed, as well as 12 specialized interviews were conducted. The Agency Head and Agency-wide PREA Coordinator were interviewed prior to this audit by DOJ Certified Auditor Kevin Maurer, and the information was provided to this auditor.

There were two (2) allegations of sexual harassment within the facility in the past 12 months. Both were unsubstantiated. All allegations were investigated in a timely manner according to policy and procedures.

DESCRIPTION OF FACILITY CHARACTERISTICS

Craggy Correctional Center is a state prison and is operated by the state of North Carolina and is used to house and rehabilitate the inmates. Inmates at NCDPS – CCC are generally housed in locked cells during the night and are provided certain privileges such as the use of a recreation area, TV, phones and in some cases many have a job within the institution. CCC is a medium and minimum security facility opened in 1989. NCDPS – CCC has a reinforced perimeter around the medium facility. Inmates are housed in open bay dorms. The safety of the inmates is closely monitored, with a high number of staff with inmate movement closely monitored. The NCDPS Mission is to promote the elimination of undue familiarity and sexual abuse amongst the offender population.

This facility sits on land on the outskirts of Asheville, NC and houses a maximum of 590 inmates. The facility is operated under the Unit Management concept which allows the facility to break down a large inmate population into smaller, more manageable groups. This concept provides more individualized correctional services to inmates, while maintaining safe and humane living conditions. There are approximately 177 staff to accommodate the daily operations.

There are three main housing units at the medium unit. There is also a minimum housing unit located outside of the main prison. It can house up to 182 inmates. At the entrance of each building, there is a PREA bulletin board that provides information regarding the Agency's Zero-Tolerance information, including how to report and access to outside services. Inmates and staff pass these boards multiple times during a 24-hour period moving from the dorms to meals, education, vocation, and recreation. All housing units contain toilets and showers that have been modified to provide privacy.

Craggy Correctional Center provides educational and vocational programming to inmates. These include but not limited to: facility maintenance, grounds keeping, small engines, electrical wiring, HVAC, plumbing, culinary arts, and computer programming taught through the local Asheville – Buncombe Technical Community College. Inmates are provided several jobs opportunities around the facility in order to keep the day-to-day operations progressing. Programming offered includes religious services, AA/NA, Thinking for a Change, a 120-day substance abuse treatment program, and a re-entry program. There is also a dog training program offered to inmates. The program called New Leash on life opened on June 26th, 2012. In 2010, the members of Craggy's Community Resource Council were given a challenge by prison officials to raise \$6,000.00 to build a kennel and the program and then the program would begin. The Council met the goal within a few months. Animal Haven Farm is Craggy's partner for New Leash on Life. Through Animal Haven, food, toys, free vet care, and a trainer are provided. The dogs live at Craggy for 12 weeks. Each dog has an inmate trainer and an alternate. The dogs and trainers go almost everywhere throughout the camp during the day. At the end of the 12 weeks, the dogs graduate in a special ceremony, and most leave with their new owners.

Sexual Assault Forensic Examinations are conducted at Memorial Mission Hospital. Both medical and mental health staff are located at the facility and are available as requested.

SUMMARY OF AUDIT FINDINGS

The facility has a Sexual Assault Response Team (SART) and PREA Support Persons (PSP). Both groups are activated when there is an allegation of sexual assault. The PREA Support Person plays an important role in assisting the victim through the various activities associated with an allegation (investigation, medical exam, interview, support services).

Computerized Incident Reports are well written and contain documentation of medical/mental health services provided as required. Additionally, outside law enforcement investigations are noted, where appropriate, and the outcome is documented.

The facility staff were very helpful, very professional, and well versed in PREA activities at the facility level. The facility response to privacy concerns were immediately addressed and that confirms the facility commitment to ensuring the safety of all inmates. It was a pleasure to work with the Acting Superintendent and his staff.

The agency conducts a risk assessment at the reception and diagnostic center upon the initial intake of inmates into the state system. This is completed within 72 hours of arrival. The risk assessment contains all elements of the standard. This assessment is required to be reviewed within 30 days of intake. If the inmate reports a victimization or identifies as sexually aggressive, notification is made to medical, the Superintendent and the PREA Compliance Manager to begin services as required by policy. The policy prohibits inmates from being disciplined for refusing to answer questions from the screening. Only those staff with appropriate credentials have access to this electronically maintained information.

The agency produces a High Risk of Victimization list (HRV) to the facility that is reviewed alongside the High Risk of Abusiveness List (HRA) to ensure that all housing, work, and programming services are assigned with the protection of the inmates as a key factor. Upon intake at a reception center, the inmate and staff complete the Mental Health Screening Inventory. This tool identifies all required components of the standard. From this document, two lists are produced – the HRV and the HRA (see above). These lists are protected from viewing of staff who do not have an immediate need to know and access is only provided to the Acting Superintendent, Assistant Superintendent of Operations/Facility PREA Compliance Manager, and the Inmate Assignment Coordinators, or IAC. It is the responsibility of the designated staff to run these lists at a minimum of weekly to review for appropriate placement.

The policy addresses clear guidelines, including limits, for housing and work assignments based on the safety of all inmates. The policy

requires a bi-annual review of housing for transgender and intersex inmates. The policy also provides for all transgender and intersex inmates to shower separately from all other inmates, and are assessed for their own perception of risk at the facility.

The current system includes a review of the High Risk Victimization (HRV) and the High Risk of Abusive (HRA) list at the facility on a weekly basis, or more often if needed, to ensure that inmates are placed in educational, vocational, and housing that ensures their safety. Inmates who are identified as HRV are placed in closer proximity to the staff in the housing units.

Agency policy prohibits the involuntary placement of inmates in segregated housing unless there are no available alternatives. Policy and interviews confirm that services for an inmate who may be placed in protective custody are continued as normal unless there is a specific documented reason for restriction. Policy dictates documentation of the use of protective custody when necessary and 30 day reviews of such placement.

The agency has numerous ways for an inmate to internally report sexual abuse or sexual harassment. Methods of reporting include reporting to a staff, writing a grievance or letter to the PREA Coordinator and third-party reporting. Externally, the agency provides the address of the North Carolina Prison Legal Services (PLS). It was confirmed through conversation with the administration that mail sent to the PLS or the PREA Coordinator is treated as legal correspondence and is not opened at the facility level. The posters in the facility provided the address for PLS, and inmate brochures detailed this as a method of reporting sexual abuse or sexual harassment. Interviews confirmed that staff at the program are aware that they may report privately through the Fraud/Waste/Abuse Hotline or through email with the PREA Coordinator if they do not wish to report through the Chain of Command.
