Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, and observations made during the site-review, and a detailed description of any follow-up work conducted
during the post-audit phase. The narrative should describe the techniques the auditor used to sample
documentation and select interviewees, and the auditor’s process for the site review.

Maury Correctional Center, located in Maury, North Carolina is operated by the North Carolina
Department of Public Safety. This is the facility’s second PREA audit. The current audit was attained and
assigned to Robert Manville a certified DOJ Auditor by TrueCore Behavioral Solutions, of Tampa, Florida.
Glynn Maddox a certified DOJ auditor assisted in reviewing investigations and interviewing inmates.

Prior to the on-site visit, the facility PREA Compliance Manager forwarded to the auditor all policy and
supporting documentation, including the completed Pre-Audit Questionnaire, administrative reports,
contracts, incident reports, memorandums, policies, brochures, staff rosters, PREA audit notices, staffing
plans, training information, and other reference materials for examination prior to the on-site visit.
Clarification was requested in some areas and responses were returned within an appropriate timeline.

On the first day of the onsite audit, entrance meetings was held at the facility to discuss any concerns
regarding the audit process and finalize the facility tour and interview schedules. The following persons
were in attendance: PREA Compliance Manager, Assistant Compliance Manager, and Acting
Superintendent. After the in briefing with staff, a tour of the facility was conducted. The tour included
the intake processing areas, all housing units, recreation areas, facility support areas, education and
vocational area, health service area, food service area, and the visiting rooms. Persons of the opposite
gender announced themselves each time they entered a housing unit or dormitory.

Signs were posted (in English and Spanish) informing inmates “That employees of the opposite gender
were present in the housing units. Postings regarding PREA violation reporting and the agency’s zero-
tolerance policy for sexual abuse and sexual harassment were prominently displayed in all housing units,
meeting areas and throughout the facility. There was a posting, notifying inmates of how to
confidentially report sexual abuse and sexual harassment to Forgiven Ministries. Also posting included
how to receive victim services for sexual abuse or sexual harassment and Victim support services
provided by Rape Crisis Center (SAFE) of Lenoir County. Audit notice postings with the PREA auditors’
contact information were also located in the same areas. Inmates are able to shower, dress and use the
toilet facilities without exposing themselves to employees of the opposite gender. Informal and formal
conversations with employees and inmates regarding the PREA standards were conducted. The Auditor
received one (1) confidential letters from inmates or staff as a result of the audit notice postings. The
inmate phone system was tested for serviceability for reporting allegations to outside sources. The
facility provided documentation (picture) confirming the audit notice date of May 2, 2018.

All housing units contain toilets and showers that provide privacy. Inmates did report a concern that they
could be seen from persons of the opposite gender. A review from the control room confirmed that
privacy is provided in both the bathrooms and showers for all housing units. There were some areas in
the medical area that included toilets and one shower that did not private privacy for inmates to shower
or toilet. This area is address in later standards and corrective action plan.

Both medical and mental health staff are available at the facility and are available as requested. Sexual
Assault Forensic Examinations are conducted at Vidant Medical Center located in Greenville, North
Carolina. The facility also has a SART (Sexual Assault Response Team) that consists of the Administrator,
PREA Compliance Manager, investigators, and PREA Support Persons (PSP) who respond as necessary.
PREA Support Persons are that staffs who have been trained to assist the victim through all processes,
including providing assistance in obtaining outside support services. The facility has a Memorandum of Understanding (MOU) with Rape Crisis Center of SAFE Lenoir County to provide victim abuse programming.

Following the tours of the facility, interviews were conducted with specialized staff. The interviewed included the PREA compliance manager, acting superintendent, assistant superintendent for programs, one (1) clinical psychologists, two (2) investigators, two (2) staff assigned as PREA Support persons, nursing supervisor, volunteer coordinator, education director, personnel director, officers in charge (OIC) for first and second shift, volunteer and two (2) medical contractors. A facility staff roster was provided by the PREA Compliance Manager and the Auditor randomly chose available staff from the roster to be interviewed.

On day two and three of the onsite audit, the Auditor reviewed ten (10) personal staff files, fifteen (15) inmate records, fifteen (15) employee training records, fifteen (15) computerized screening instrument, thirty nine (39) investigative files, review team findings, and the institution’s grievance log.

During the second day several of the dormitories were revisited and general conversation with staff and inmates were engaged during the visit. During the tours, staffs were observed to be interacting with inmates in a positive and helpful manner.

A total of twenty one (21) correctional staff and a total of fifty (50) inmates were interviewed. Included in this inmate population were three (3) inmates identified by mental health staff as having cognitive deficiencies, two (2) inmates that were English proficient, nine (9) inmates who have made allegations of abuse or harassment including three (3) inmates who had made allegations using the agency grievance system, two (2) inmates that were identified during screening as being subject to victimization and two (2) inmates that identified as gay, one (1) inmate that was identified as transgender and one (1) inmate that had contacted the auditor prior to audit. There were no other targeted populations interviewed to require interviewing.

During the audit period, there were a total of one hundred and four (104) allegations of sexual abuse or sexual harassment filed by inmates. The investigative files contained forms provided to inmates on retaliation monitoring and notification of outcome of investigation. Investigative findings determined that sixteen (16) were unfounded, eighty three (83) were unsubstantiated, four (4) were substantiated and one (1) was transferred to local law enforcement agency for investigation. Criminal investigations are conducted through an agreement with Greene County Sheriff’s Office. This investigation was still being investigated. None of the cases required forensic evidence collection by a SANE service provider in the community. The PREA Compliance Manager has continuous conversations with Greene County Sheriff Investigators.

Number of Standards Exceeded:

Number of Standards Met: 45

Number of Standards Not Met: 0

Summary of Corrective Action (if any)

115.15 (d)

- Does the facility implement a policy and practice that enables inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks?

Touring the tour and during a review of the camera monitors from the medical area identified one shower and three toilets that did not provide privacy for inmates being housed or held in this area. Previously these cameras were utilized for inmates on suicide prevention. However, other rooms have been converted to suicide prevention rooms. A corrective action was completed during the interim period prior to completion of the final review. The facility modified the camera placements and placed a shower curtain in the cells located in the medical area. Compliance was verified through interview and documentation received from the facility.

115.42 (d)

- Are placement and programming assignments for each transgender or intersex inmate reassessed at least twice each year to review any threats to safety experienced by the inmate?
The facility's case manager meets with the transgender inmate on a monthly basis. These monthly meetings do not include all areas required for reassessment of transgender inmate. A corrective action plan was required to comply with this subsection of this standard. The facility has a formal classification committee that includes case managers, facility psychologist, education and other support staff that meets on a monthly basis to review housing, job and program placement. The facility superintendent has issued requirement that transgender inmates be reviewed quarterly by the classification committee. By meeting in a formal group the center can access safety of transgender inmate as required by standard.

### Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency ensures each facility’s staffing plan takes into consideration the number and placement of supervisory staff in calculating adequate staffing levels and determining the need for video monitoring. The facility had developed and implemented North Carolina Department of Public Safety Chapter F.1600, of Management of Security Posts Policy which mandates compliance with standard. Section F.1600 mandates that all facilities have developed a staffing plan that provides for adequate levels of staffing and, where applicable, video monitoring to protect inmates against sexual abuse. The facility has documented a staffing plan that provides for adequate levels of staffing and, where applicable, video monitoring to protect inmates against
sexual abuse. The facility’s staffing plan takes into consideration the generally accepted correctional practices in calculating adequate staffing levels and determining the need for video monitoring. The agency provided the facility with PREA incidents reported including time, place and after action reports. This information is utilized to review the facility staffing plan for the upcoming fiscal year.

The facility’s staffing plan takes into consideration any judicial findings of inadequacy in calculating adequate staffing levels and determining the need for video monitoring, and that the facility’s staffing plan takes into consideration any findings of inadequacy from Federal investigative agencies in calculating adequate staffing levels and determining the need for video monitoring. The facility’s staffing plan takes into consideration any findings of inadequacy from internal or external oversight bodies in calculating adequate staffing levels and determining the need for video monitoring. The Policy requires that the facility’s staffing plan takes into consideration any findings of inadequacy from Federal investigative agencies in calculating adequate staffing levels and determining the need for video monitoring. The Policy provides that the facility’s staffing plan takes into consideration the composition of the inmate population in calculating adequate staffing levels and determining the need for video monitoring.

The facility’s staffing plan takes into consideration the programs occurring on a particular shift in calculating adequate staffing levels and determining the need for video monitoring. Staffing plans also consider any applicable State or local laws, regulations, or standards in calculating adequate staffing levels; prevalence of substantiated and unsubstantiated incidents of sexual abuse; staffing levels and, any other relevant factors in calculating adequate staffing levels. The facility provided a staffing analysis for 2018 which included all areas of the aforementioned Policy requirements. There have been no findings of inadequacy relevant to this standard.

All essential posts are filled each shift and no essential posts are kept open. When programs are offered, staffing is increased to provide additional supervision. The review of the facility’s PREA rounds logs confirmed intermediate-level or higher-level supervisors, including shift supervisors, (and department heads at a minimum) conduct and document such visits throughout the facility also at night and on the weekends.

Policy F.1600 Management of Security Post requires that facility heads and facility assistants conduct unannounced rounds on each shift. It also prohibits staff from alerting other staff members that these rounds are occurring unless such announcement is related to the legitimate operational function of the facility. Maury Correctional Center’s supervisor’s post orders require that supervisors complete inspections of all areas of the facility and document checks on a regular basis. A review of the log books, interviews with staff and supervisor provided documentation that the shift supervisor, assistant director and facility acting superintendent make unannounced rounds in the living units on a routine basis including nights and weekends. Maury Correctional Center provided a daily narrative log which includes PREA daily unannounced rounds of all living units.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)
Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

North Carolina Department of Public Safety Prison Policy F.0100 Operational Searches and Maury Correctional Center SOP 8.9 Searches establishes the governance of searches at the facility. The facility policy requires all pat searches be conducted by staff of the same gender accept in exigent circumstances and then with the approval of the OIC. Males will pat search only males and female staff may pat search males with prior approval with the OIC. Gender specific staff will conduct all strip searches with the exception of exigent and documented exigent circumstances and with the approval of the OIC. Any strip search by a non-gender specific staff will be forwarded to the Department’s OPUS Incident reporting system and will be forwarded for investigation. There have been no strip searches conducted by non-gender specific staff at Maury during the last several years. The facility does not house female inmates.

A tour of the facility included the facility shower and toilet areas. The facility has shower partition off from view of staff. The partition allows for staff to observe the head and feet levels of each inmate while block view of the mid-section. During the tour and during a review of the camera monitors one area was identified as have a shower and three toilets that did not provide privacy for inmates being housed or held in this area. There was also one camera that provided full view of inmate showering, changing clothes are utilizing the toilet. Previously these cameras were utilized for inmates on suicide prevention. However, other rooms have been converted to suicide prevention rooms. A corrective action was completed during the interim period prior to completion of the final review.

All staff members are trained on gender specific guidelines. This training includes that all inmates are allowed to shower, perform bodily functions, and change clothing without staff of the opposite gender viewing their buttocks or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Maury SOP .4900 Sexual Abuse and Sexual Harassment mandates this requirement as well as the policy to address requirement that staff of the opposite gender announce their presence when entering an inmate housing unit. There are posters located in the day room, officers’ stations and other areas throughout the facility that state staff must announce their presence in entering an area of the facility that houses the gender different from the staff member.

Part of the Training for initial and then yearly training also confirmed that staff are trained on the mandate that all staff of the opposite gender must announce their presence when entering a housing unit. North Carolina Department of Public Safety has issued a statement that is located in all the officers’ stations and on bulletin boards that includes all areas of requirements for cross gender viewing and searches by facilities. Prior to taking over, the oncoming shift announce a female is working the building and then female staff announces their presence again when they enter the living area.

Verification of the requirements was documented in the training logs, during interviews with staff and inmates and during tours throughout the facility. Facility Policy F.1600 mandates staff will receive training and will comply with policy and that staff do not search or physically examine a transgender or intersex
inmate for the sole purpose of determining the inmate’s genital status. Interviews with inmates confirmed that they had been pat-searched by officers properly and professionally. Staff training records and staff interviews verified that they had received training which includes who may be searched and the professional manner to complete searches. Interviews with staff/inmates, personal observations and an examination of policy and supporting documentation including of corrective actions confirm compliance with this standard.

The agency provided a number of documents that validate policy for all areas of this standard. These include New Hiring Prohibitions, Promotion Prohibitions, New Employee Hiring Policy, Hiring Process Manual, External Web Employee with DPS and several memos forwarded to the facility staff. Each of these documents require Pre-employment background checks, a minimum of background checks within five (5) years of initial employment and background checks for all promotions prior to being offered a promotion.

Ten (10) personnel files were examined by the Auditor to ensure compliance with all aspects of this standard. All employees who have contact with inmates have had a full background check. Two employees that have been promoted in last twelve months also had documented background checks completed prior to being approved for promotion.

Contractors and volunteers who have regular contact with inmates also have criminal background checks completed prior to having contact with inmates. Volunteer and contractor background checks are repeated yearly. A review of the volunteer file provided update background checks. The facility does not hire or promote anyone who may have contact with inmates, and does not enlist the services of any contractor who may have contact with inmates who has engaged in any type of sexual abuse or sexual harassment (no exceptions). Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Agency Prison Policy F.3400 Inmate Sexual Abuse and Sexual Harassment establishes the requirements for first responders, investigators and medical staff to secure the crime scene including the areas of the offense, the victim, and alleged abuser for the preservation of usable evidence. The Policy mandates that persons responsible for investigating allegations of sexual abuse follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecution.

Investigators are trained and follow appropriate curriculum for a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecution. North Carolina Public Safety Prison Health Services Policy and Procedure Manual Policy CP-18 References that this policy and procedure is based on Department of Justice “National Protocol for Sexual Assault Medical Forensic Examination, Adults / Adolescents.

The facility has developed and trained staff on a Coordinated Response Plan. The facility also has trained all PREA Support Person roles and responsibilities to assist in coordinated responses of sexual abuse. The facility uses the services at Vidant Medical Hospital that maintains a Sexual Assault Nurse Examiner at all times. The facility also has a Memorandum of Agreement with Rape Crisis Center, SAFE of Lenoir County. Based on the MOU and interview with the Crisis Center representative, the Center provides a person to accompany the victim during the forensic examination. Further, the Crisis center has a working relationship with Vidant Hospital to also assist victims during the investigation process.

The Rape Crisis Center also provides emotional support, crisis intervention, information, and referrals. The facility has a full-time Licensed Psychologist that also provides support. Based on interviews with the center director, all staff members providing services for the Crisis Center have educational and training qualification in order to provide the services as indicated in the MOU which mandates that Rape Crisis Center provide a certified rape crisis advocate to provide services as part of the response to a sexual abuse victim.

Auditor Overall Compliance Determination

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Then North Carolina Department of Public Safety (NCDPS) Prison Policy F.3400 Inmate Sexual Abuse and Sexual Harassment addresses the requirements of the standard. The facility's training addresses all of the topics identified in the standard. Related education is provided annually during refresher training. The review of lesson plans, training logs and PREA power point presentations confirmed that the provided training also addresses all elements identified in the standard.

Employees have PREA information noted on posters available to them and located throughout the facility. They are provided a PREA Brochure developed by the NCDPS PREA office and all carry a PREA reference card. Staff annual training files were reviewed and contained documentation supporting
compliance with this standard. All staff interviewed indicated they received the required PREA training initially and annually.

The agency maintains a Learning Management System for employees and it maintains all staff records. In order to show completion of the training, staff must first receive the training and pass a test. Staff members are required to use their personal information to enter the course and indicate they have received and meet the minimum test requirements. The extensive training provided and staff knowledge of PREA requirements confirmed that the facility is compliant with this standard. All staff members interviewed were aware of all aspects of the training and each interviewed indicated they had received training in the previous year. All staff members that attend the Basic Training Class received the training and are then required to attend the refresher within 90 days of returning to the facility. Compliance was confirmed by reviewing policies, fifteen (15) training records and interviews with facility staff.

The facility has a person assigned to provide the management of volunteers. Volunteers are managed in accordance with agency Policy F.0604, Community Volunteer Program. The volunteers, including one time visitor, two medical and one education contractors were interviewed. Each receive PREA training and undergo a yearly background check prior to being allowed into the facility or supervise inmates. NCDPS has provided a poster that is located in the visitation room and a smaller copy is given to volunteers that provide PREA information and ways to report sexual abuse and sexual harassment.

A review of the PREA training rosters signed by contract staff, a review of the volunteer and training files confirmed all information required to document training. All background checks are maintained in the administrative offices and were reviewed and found up to date. All volunteer or contract staff receives copies of a PREA updates. Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

NCDPS Prison Policy F .3400 Inmate Sexual Abuse and Sexual Harassment mandates training for all inmates during their initial stay at a facility and anytime they move to another facility. Prior to being assigned to this facility each inmate goes through a diagnostic program or intake center. During diagnostic procedures, each inmate receives training on PREA and each inmate is provided a pamphlet describing the agency's PREA compliance program. The information identifies the key elements of the program and informs them of the zero-tolerance policy regarding sexual abuse and sexual harassment and multiple ways to report sexual abuse or sexual harassment. The information also informs the inmates they will be free from retaliation for reporting an incident and that both male and female staff members routinely work in and monitor the housing units. The information is available in English and Spanish languages.

A staff member conducts an education program regarding the PREA programs for all inmates upon arrival at the facility within 30 days of their arrival at the facility. The PREA education program includes definitions of sexually abusive behavior and sexual harassment, prevention strategies and reporting modalities. Inmates also view a comprehensive orientation video that explains the facility's zero-tolerance policy and covers the inmate's right to be free from sexual abuse, sexual harassment and retaliation. Telephonic translation services are available to inmates who are not proficient in English or are otherwise unable to communicate (deaf, blind, mentally impaired etc.).

Inmate interviews confirmed that they received PREA information and they were aware of numerous reporting methods to include anonymous and third-party reporting, the zero tolerance policy and their right to be free from retaliation. The tour of the Facility confirmed that several PREA education posters
were prominently displayed in all housing units, the visiting rooms and common/program areas. Each time an Inmate receives training it is documented in his institutional record and in the OPUS online Education Program Search Screen. Interviews with staff and inmates; visual observations of posters/notices; examination of policy and other documentation; review of institutional files; and observation of intake procedures confirmed the facility is in compliance with this standard.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

NCDPS Prison Policy F .3400 Inmate Sexual Abuse and Sexual Harassment addresses all components of this standard for screening new and transferring inmates. NCDPS Prison Diagnostic Procedure .305 Psychological and Psychiatric Referral provides all requirements mandated in NCDPS Prison Policy F .3400. The initial screening of inmates is conducted during their intake into the Department’s Diagnostic Centers. The agency Prison has developed a diagnostic Center Procedural Manual for all new intakes into the system. The Manual requires that within three days diagnostic staff will administer the Department of Corrections Mental Health Screening Inventory and Screening for Risk of Victimization and Abusiveness to all newly admitted inmates. Results of the screening will be entered into the OPUS system. All diagnostic records are confidential and only available on a need to know basis. A review of the screening instrument contains all requirements identified in the standard. The system is pass word protected for need to know staff. When transferred to another facility, the inmate receives a screening review by the Case Manager or Counselor within the first 72 hours of the inmate’s arrival, but this activity ordinarily occurs within a few hours on the first day of arrival to the facility. The review of screening documents by the Auditor confirmed that inmates identified as high risk for sexual victimization or at risk of sexually abusing other inmates were referred to a mental health professional and all received further
(10) intake files were examined by the Auditor. Staff also reviews records or other
information and information from other facilities.

The staff psychologist reviews and conducts additional screening on inmates. The facility screening
instrument provides that the facility will reassess the intake screening within 30 days of the inmate
arriving at the center. The inmate tracking system contains all information in computerized inmate files.
Information received during the screening process is confidential and only available to staff with a need
to-know and never to other inmates. Staff and inmate interviews, a review of policy/documentation
(including screening documents and inmate tracking system) and observations of the intake process
confirmed compliance with this standard.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

NCDPS Prison Policy F.3400 Inmate Sexual Abuse and Sexual Harassment, and the North Carolina Department of Public Safety Prisons Administration- Health Services Policy TX I-13 Evaluation and Management of Disorders of Gender Dysphoria, address this standard. Risk screening information is used to determine housing, bed, work, education, and program assignments, with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. Determinations for these assignments are made on a case-by-case basis. Staff members assigned to conduct intake screening have been provided additional training and resource materials. The agency working with Prison Administration Office of Health and Mental Health Services and through a multi-disciplinary review panel decides whether to assign a transgender or intersex inmate to a facility for male or female inmates.

The facility operates a classification committee that reviews inmate’s behavior, risk, and mental health status in assigning jobs and housing. Inmates may be reassigned based on any of these variables in order to maintain the inmate’s safety.

The agency has no dedicated facilities for transgender or intersex inmates. The facility determines other housing and programming assignments for transgender or intersex inmates on a case-by-case basis, to include whether a placement would ensure the inmate’s health and safety and whether the placement would present management or security problems. Policy mandates placement and programming assignments for each transgender or intersex inmate are reassessed at least once every six months. While the transgender inmate meets with the case manager monthly there is no formal review or assessment completed on the transgender inmate assigned. A corrective action plan was required to comply with this subsection of this standard. The center has implemented a policy that transgender inmates will be reviewed quarterly by the facilities classification committee. Policy states that a transgender or intersex inmate’s own views, with respect to their own safety, are given serious consideration when making these assignments. Policy also mandates that transgender and intersex inmates are given the opportunity to shower separately from other inmates.
The facility shower areas are modified to establish privacy from staff of the opposite gender. Inmates are also allowed to dress and complete bodily functions without being in view of person of the opposite gender.

Overall compliance of the standard was verified through review of policies, interviews with PREA Compliance Manager, Case Managers, facility Acting Superintendent, and psychologist, other correctional staff, inmates and tour of the facility. The corrective action plan was implemented during the audit period that provided compliance with this standard.

Auditor Overall Compliance Determination

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

NCDPS Prison Policy F .3400 Inmate Sexual Abuse and Sexual Harassment mandates inmates at high risk for sexual victimization shall not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. If a facility cannot conduct
such an assessment immediately, the facility may hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment.

Inmates placed in segregated housing for this purpose shall have access to programs, privileges, education, and work opportunities to the extent possible. If the facility restricts access to programs, privileges, education, or work opportunities, the facility shall document: the opportunities that have been limited, the duration of the limitation; and the reasons for such limitations.

The facility shall assign such inmates to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged, and such an assignment shall not ordinarily exceed a period of 30 days.

The facility has not placed an inmate in segregation in response to an allegation of sexual abuse or sexual harassment. Five inmates in the restricted housing unit were interviewed due to having made allegations of sexual harassment. All five indicated they claimed the harassment happened while in the restricted housing unit. Three of the inmates claimed they filed the complaint because of staff harassment and in an attempt to have staff removed from the restricted housing unit and were not in fear of their safety, however did not like certain offices that worked in the restricted housing unit.

Compliance was determined by review of the agency policy, interviews with PREA compliance manager, review of investigative files and interviews inmate housed in the restricted housing unit and with staff assigned to supervise the restricted housing unit.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
NCDPS Prison Policy F.3400, Inmate Sexual Abuse and Sexual Harassment, addresses this standard as well as NCDPS Prison Policy D.0300 Inmate Use of Mail. Sexual abuse and sexual harassment can be reported in writing, anonymously, privately, and from a third party. Staff documents all allegations. Staff members are trained to immediately report and document any sexual abuse or sexual harassment allegation. There are posters and other documents on display throughout the facility that also explain reporting methods. The facility provides a posting explaining at least one way for inmates to report sexual abuse or sexual harassment to an entity that is not part of the agency.

NCDPS has developed a Memorandum of Understanding (MOU) with Forgiven Ministries to receive and immediately forward inmate reports of sexual abuse or sexual harassment to agency officials. The purpose of this MOU is to allow inmates to contact NCDPS through a third-party. Inmates may contact Forgiven Ministries by telephone and the contact may be made anonymously. There are phone numbers posted on all PREA posting areas and next to telephones for inmates to contact Forgiven Ministries without having to use inmate PIN or providing any other information about the reporting person. Staff members are encouraged to report anonymously through Office of Fraud, Waste, Abuse and Misconduct. Additionally, NCDPS provides staff with a brochure that provides multiple ways for staff to report allegations of sexual abuse or sexual harassment. Interviews with staff and inmates; observations of posters addressing reporting methods; and an examination of policies, documentation, and the MOU confirm compliance with this standard.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
NCDPS Prison Policy E.0300 Administrative Remedy provides all areas indicated in the PREA standard for exhausting of administrative remedies. The policy also provides for Inmates to transfer grievances. Inmates are not required to use an informal grievance process or otherwise attempt to resolve an alleged incident of sexual abuse with staff. There are no time limits when sexual abuse allegations can be made. Inmates are able to submit grievances without giving the document to the staff person involved.

The standard requires a decision be made on the merits of any grievance alleging sexual abuse within 90 days. NCDPS Prison Policy requires a response time of 30 days. Policy and procedures permits third parties to assist inmates in filing request for administrative remedies relating to allegations of sexual abuse and are also permitted to file such requests on behalf of an inmate. Policy and procedures are in place that allow for an inmate to file an emergency grievance alleging that there is substantial risk of imminent sexual abuse. Any grievance received by staff alleging an inmate is subject to a substantial risk of imminent sexual abuse will be reported to the OIC (Officer in Charge) at which point immediate corrective action may be taken. The initial response is completed before the end of the shift in which the incident was reported. The final agency decision is completed within five days. There were twenty two (22) grievances alleging sexual abuse or sexual harassment filed within the last 12 months. A review of the grievances found that all grievances were responded to within the time frame for grievances.

The extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws is provided to each inmate.

The advocacy Executive Director was interviewed utilizing the interview guideline provided to Auditor as part of working papers. The Executive Director was very familiar with all of the aspects of services provided to the inmate population and also mandated reporting rules. Inmates are advised of requirements for reporting allegations. This was verified by review of the MOU dated 5/18/2018, interviews with Executive Director of advocacy agency and PREA Compliance Manager.

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The facility operates under the NCDPS Prison.3400 Inmate Sexual Abuse and Sexual Harassment Policy. The facility has a local SOP .4901 (PREA) Institutional Response Plan. The Policy outlines duties, procedures and actions for first responders to an allegation of sexual abuse. The PREA training lesson plan outlines the duties and responsibilities for first responders and medical staff in the event an inmate is sexually abused. Inmates may report acts of sexual assault, abuse, or harassment to any employee, contract employee, or volunteer.

Upon learning of an allegation that an inmate was sexually abused, if the responder is a correctional officer: 1) separate alleged victims and alleged abuser; 2) preserve and protect the crime scene; 3) if the time allows for the collection of physical evidence, make appropriate request for it; 4) if the abuse occurred within a time period that allows for physical evidence, ensure the alleged abuser does not destroy evidence. First responders interviewed were knowledgeable about their duties and responsibilities. All staff were carrying an embossed card as reference to direct them as to their responsibilities as a first responder to an allegation of a PREA incident.

During the last 12 months there have been thirty six (36) allegations of sexual abuse reported to correctional staff. Only one (1) report was made within a time frame for the staff to respond as first responders. In this case staff completed all requirements of this standard. During the last 12 months there have been twelve (12) allegations of sexual abuse reported to non-correctional staff. All twelve (12) allegations were reported to a correctional staff member. None of these twelve (12) reported in time for staff to report as first responder and collect any evidence. Compliance was verified through review of policy, training plan, investigative files, and interviews with correctional (including first responder) and non-correctional staff.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Facility Policy F.3400 Inmate Sexual Abuse and Sexual Harassment, addresses the requirements of this standard. The policy specifically prohibits any type of retaliation to any inmate or staff member who has reported sexual abuse, sexual harassment or has cooperated with such investigations. NCDPS has developed and implemented two statewide forms for facility staff to document monitoring for retaliation. “PREA SEXUAL ABUSE and HARASSMENT” provides documentation of staff being assigned to monitor for retaliation. “RETAIATION REPORT (STAFF)” provides documentation of staff that have contacted...
inmate and monitored retaliation monitoring. Both forms provide all documentation required to ensure facility staff monitor inmates who are subject to retaliation. The facility has designated PREA Support Persons (PSP) as the designated staff members that monitor the conduct or treatment of inmates who have reported sexual abuse to insure any type of retaliation does not occur.

When interviewed, several of the PSPs stated they would document and follow up on all potential cases to ensure policy is being enforced. They will conduct periodic status checks on the frequency of incident reports, housing reassignments, program changes, any negative consequences for reporting abuse and negative performance reviews/staff job reassignments (all steps required of 115.67c). If there was a concern that there was the potential for possible retaliation, the PSP stated they would monitor the situation indefinitely. The monitoring of any type of retaliation will be done for at least 90 days or as long as needed to make sure the inmate is safe from retaliation or the inmate is transferred.

Policy outlines the protection measures available and requires the prompt remediation of any type of retaliation. NCDPS has developed a designated form to be used when retaliation is being monitored. This document maintains all of the requirements established in the standard for agency protection against retaliation. A review of the retaliation found that all inmates making allegations were assigned a PSP. A review of the PSP files and interview with the inmate and PSP confirmed substantiated compliance with this standard.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
Policy F.3400 Inmate Sexual Abuse and Sexual Harassment mandates that the use of protective custody only if no other alternative means of protection is available, or if inmates request this level of protection. Inmates requesting this level of protection may complete the Request for Protective Custody and must document the reasons for the request. There were no instances where protective custody or restrictive housing was used at this facility. Voluntary or involuntary restrictive housing requires weekly reviews by the case manager. Compliance was confirmed by review of policy, segregation logbooks and interview with case manager supervisor and PREA compliance manager.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

NCDPS F.3400 and Facility SOP .4900 Inmate Sexual Abuse and Sexual Harassment of allegation of sexual abuse or sexual harassment are promptly, thoroughly and objectively investigated. The agency policy requires that criminal investigations are conducted by outside law enforcement, therefore the facility investigators only conduct an initial investigation to determine if outside law enforcement is to be notified for criminal allegations. The Facility or other Prison agency investigators conduct administrative investigations. When the facility conducts investigations, the agency uses investigators who have received specialized training in conducting sexual abuse investigations in a confinement setting.

Administrative investigations address staff actions, credibility and a review of fact and findings of the criminal investigation (if applicable). All interviews are conducted as approved by the Office of Special Investigations and Compliance. Both criminal and administrative investigations are well documented and maintained in the files. Files reviewed included a copy of the law enforcement report, if they conducted a criminal investigation, statements of victim, alleged abuser (if identified) and witnesses, and statements by the PSP and Investigator as to the steps they took during the investigation.

Investigators gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data. Investigators interview alleged victims, suspected perpetrators, and any other possible witnesses. Investigators review prior reports and complaints of sexual abuse involving the suspected perpetrator. The agency only conducts compelled interviews after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution.
Substantiated allegations of conduct that appear to be criminal are referred for prosecution. The credibility of an alleged victim, suspect or witness is assessed on an individual basis and is not determined by the person’s status as inmate or staff. The agency does not require an inmate who alleges sexual abuse to submit to a polygraph examination or other truth assessment device as a condition for proceeding with the investigation of such an allegation.

All administrative investigations include an effort to determine whether staff actions or failures to act contributed to the abuse. Administrative investigations are documented in written reports that include a description of the physical evidence and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. Criminal investigations are documented in a written report that contains a thorough description of the physical, testimonial, and documentary evidence. The agency retains all written reports pertaining to the administrative or criminal investigation of alleged sexual assault or sexual harassment for as long as the alleged abuser is incarcerated or employed by the agency, plus five years.

The agency does ensure that the departure of an alleged abuser or victim from the employment or control of the agency does not provide a basis for terminating an investigation. When an outside entity investigates sexual abuse, the facility cooperates with outside investigators and endeavors to remain informed about the progress of the investigation. Utilizing the working paper documents for conducting reviews of investigative files, thirty nine (39) case files of inmates alleging sexual abuse or sexual harassment were reviewed. The findings were that cases were managed appropriately, completed promptly, thoroughly and in compliance with Policy. Compliance with this standard was determined by a review of policy/documentation, investigations and interviews with five (5) investigators. During the last 12 months the facility has identified one (1) case that rose to the level of criminal action that was transferred to Greene County Sheriff’s office. The determination of prosecution is ongoing at the time of the audit. The inmate involved was notified of the findings of the Sheriff’s department.

If the agency did not conduct the investigation into an inmate’s allegation of sexual abuse the agency or facility will request the relevant information from the investigative agency in order to inform the inmate. Following an inmate’s allegation that a staff member has committed sexual abuse against him, unless the agency has determined that the allegation is unfounded or unless the inmate has been released from custody, the agency subsequently informs the inmate whenever the staff member is no longer posted within the inmate’s unit or the agency learns that the staff member has been indicted on a charge related to sexual abuse in the facility. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

NCDPS Prison Policy F .3400 Inmate Sexual Abuse and Sexual Harassment establishes the agency’s practices for Medical and Mental Health Screening. **Instructions for Overall Compliance Determination Narrative**

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

NCDPS Prison Policy F.3400 Inmate Sexual Abuse and Sexual Harassment addresses this standard and requires that each facility conduct a sexual abuse incident review at the conclusion of every criminal or administrative sexual abuse investigation, unless the allegation has been determined to be unfounded. The facility has a local SOP .4600 that also mandates and establishes members of the incident review team. The review is conducted within 30 days of the conclusion of the sexual abuse investigation.

The incident review team includes upper-level management officials, with input from line supervisors, investigators, and medical and/or mental health practitioners. The review team considers whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse in each review. The review team also considers whether the incident or allegation was motivated by race; ethnicity; gender identity; gay, bisexual, transgender, or intersex identification, status, or perceived status; gang affiliation; or other group dynamics at the facility.

The area in the facility where an incident allegedly occurred is assessed by the incident review team as to whether physical barriers in the area may enable abuse. Additionally, the review team assesses the adequacy of staffing levels in the area of the facility where a sexual abuse incident allegedly occurred, during different shifts. The review team also assesses whether monitoring technology should be deployed or augmented to supplement supervision by staff on each incident. A written report of the incident review team’s findings, including any recommendations for improvement is developed and submitted to the Acting Superintendent. The incident review team provided documentation of incident reviews, completed investigative information, findings of Incident Reports and documentation supporting implementations or reasons for not implementing recommendations. Compliance with this standard was determined through interviews with three incident review team members, a review of policy, and a review of incident review team reports.
