Title: **Mutual Agreement Parole Program (MAPP)**
Issue Date: 02/02/18
Supersedes: 06/11/10

POLICY & PROCEDURES

.1701 GENERAL

- (a) The Mutual Agreement Parole Program (MAPP) is designed to prepare selected offenders for release through structured activities; scheduled progression in custody, participation in community based programs and established parole. It is not a legally enforceable contract, but is an Agreement which is established jointly by Prisons and the NC Post-Release Supervision and Parole Commission.
- (b) Objectives
- (1) Prepare the offender for parole and expedite readiness for parole by specifying criteria and standards to be met by the offender.
 - (2) Provide the NC Post-Release Supervision and Parole Commission with objective criteria for assessing offender readiness for parole, and allow the Parole Commission immediate input regarding an offender's program while incarcerated.
 - (3) Permit the offender an opportunity to take responsibility for his or her future by engaging in the process of long-range planning to develop and fulfill individualized goals for self-improvement.
 - (4) Reduce offender management problems for the prison facility by providing the offender the incentive of a fixed parole date and/or work release date for appropriate behavior and the satisfaction of working towards defined goals.
 - (5) Improve communications and coordination and establish linkage with relevant community resources.
 - (6) Provide incentives for participation in specific programs such as academic and vocational training.
 - (7) Enable long-range program planning with regard to the type, location and scale of programs by keeping better account of the programs and options available to offenders both inside and outside of the prison facilities and to eventually provide data on the impact of various programs.

.1702 PROCEDURES

- (a) Eligibility Requirements: Offenders are reviewed for the MAPP during their first parole review date and each year afterwards that they are eligible for parole. If they have a favorable parole review they may be considered for MAPP participation provided the following criteria are met:
- (1) The offender is in either medium or minimum custody;
 - (2) The offender is not subject to a detainer or pending court action which may result in further confinement;
 - (3) The offender has not had an infraction within 90 days;
- (b) Administrative Requirements
- (1) There should be a recognizable need on the part of the offender for involvement in the MAPP Program and the offender should express an interest in one or more of the following: learning a skill, improving educational achievements, modifying specific behaviors, engaging in personal growth programs and participating in Community Based Programs to aid in their transition from Prison.
 - (2) Offenders not currently in minimum custody will be given a Community Risk Assessment if they meet the established criteria usually applied to offenders convicted of sexual or assaultive crimes.
 - (3) A MAPP Agreement should have duration of not less than twelve (12) months and not more than 36 months.
- (c) Referrals. Any offender who meets the eligibility requirements can be identified for MAPP by either the NC Post-Release Supervision and Parole Commission or Prisons.
- (1) Referrals initiated by the NC Post-Release Supervision and Parole Commission - Referrals are made to Prisons through the MAPP Director, a designated staff person from Rehabilitative Programs and Services.
 - (A) Referrals will be made in OPUS and will normally include recommended parameters requested by the NC Post-Release Supervision and Parole Commission.
 - (B) The MAPP Director will review the referral for technical correctness as well as program suitability and merit.

- (C) If the MAPP Director approves the referral request, the appropriate Facility will be notified of the Parole Commission request for MAPP consideration via OPUS.
 - (D) The MAPP Director should be notified of a MAPP decision by Prisons within thirty (30) days from the date of receipt of a Parole Commission referral.
 - (E) If the MAPP Director disapproves the referral request, the Parole Commission will be notified at which point MAPP development will be terminated.
 - (F) If the NC Post-Release Supervision and Parole Commission choose to appeal a referral for MAPP participation denied by Prisons or the MAPP Director, the final approving authority will be the Director of Prisons.
- (2) Referrals initiated by Prisons: Referrals are made to the NC Post-Release Supervision and Parole Commission through the MAPP Director.
- (A) Referrals will be made in OPUS by the Facility to the MAPP Director following approval by the Facility originating the request for MAPP consideration. Referrals should be submitted for offenders who are within a parole review date and who have not been recently denied parole.
 - (B) The MAPP Director will review the referral for technical correctness as well as program suitability and merit.
 - (C) If the MAPP Director approves the referral request, it will be routed to the Director of Prisons or their designee if needed or requested by the referring authority.
 - (D) The MAPP Director will forward all approved referrals from Prisons to the NC Post-Release Supervision and Parole Commission for consideration.
 - (E) The MAPP Director will notify the referring authority of final decisions including negative findings by the NC Post-Release Supervision and Parole Commission.
 - (F) If the MAPP Director disapproves the referral request, the originating Facility will be notified and further MAPP development will be terminated. There will be no appeals of referrals disapproved by the MAPP Director.

- (G) The MAPP Director should be notified of a MAPP decision by the NC Post-Release Supervision and Parole Commission within forty-five days upon receipt of a Prisons MAPP referral.
- (d) Design of the MAPP Proposal and Program Agreement (i.e., Terms of Agreement.)
- (1) After it is determined that the offender is a potential candidate, the offender's Case Manager, with the offender's input, will formulate a worksheet in OPUS on the IP82 screen.
 - (2) In developing a proposed agreement, both the offender and the Case Manager should plan a full-time program of activities with emphasis on areas seen as the most beneficial to the offender in preparing for his or her return to the community. Objectives set through MAPP should be realistic and should reflect both the needs and the desires of the offender and of Prisons. When known, MAPP proposal content will give consideration to program structure suggested by the NC Post-Release Supervision and Parole Commission. MAPP proposals can include any available program for which the offender is eligible. Appropriate emphasis should be given to academic and vocational training, counseling programs, self-improvement programs, work opportunities, opportunities for involvement with other agencies, and community based programs. Proposed dates for program participation and progression in custody classification should be included in the MAPP proposal.
 - (3) The referral is then forwarded to the Facility Head for approval. The proposal will then be routed to the Region Director and then to the MAPP Director.
 - (4) Final MAPP negotiations should occur as soon after the MAPP selection and referral as feasible.
- (e) Negotiation and Approval of the MAPP Agreement.
- (1) Final negotiation of the MAPP Agreement occurs in a meeting of the MAPP Negotiation Committee. The MAPP Negotiation Committee will include the MAPP Director (Chairperson), representatives of the NC Post-Release Supervision and Parole Commission, Facility MAPP Coordinator or Designee and the offender. Inclusion of other members will be at the discretion of the committee. It will be the function of the MAPP Negotiation Committee to formulate the final MAPP Agreement. It should be understood by all parties that department rules, policies, and procedures are non-negotiable.
 - (2) At this meeting, the MAPP Agreement will be defined and agreed upon by all parties after open negotiation. Offenders should be allowed to speak freely and be able to participate in the design of a realistic and constructive program of their own choice. The components of the MAPP Agreement should be measurable

objectives that are clearly stated. It is essential that all parties, and specifically the offender, fully understand the various components of the agreement.

- (3) When all parties have agreed to the components of the proposal, the DC-401 form will be completed at the negotiation, signed by the offender, MAPP Director, NC Post-Release Supervision and Parole Commissioner and by the approving authority for the Prisons' Facility Head or designee.
- (4) Upon receipt of the DC-401 from the NC Post-Release Supervision and Parole Commission, the MAPP Director will forward a copy of the DC-401 to the offender and the Facility MAPP Coordinator.
- (5) If the parties in negotiation are unable to reach an agreement, the offender can return to the general prison population without prejudice.
- (6) Once all signatures are completed on the DC-401 MAPP Agreement, the information will be entered in OPUS.

In cases where the NC Post-Release Supervision and Parole Commission disagree with the recommendation of the Facility Head, the Director of Prisons or the designated reviewing authority will make the final decision for Prisons.
 - (2) A violation resulting from failure to complete the Terms of Agreement as stated should be addressed through a modification following the process in Section (d) below.
 - (3) A violation resulting from an active detainer being placed on file can be grounds for immediate MAPP termination in that the basic eligibility requirements (Section .1702 (a)) disqualifies an offender with a detainer. Documentation of the detainer will be sent to the MAPP Director who will gather information regarding the nature of the detainer and solicit the recommendations of both Prisons and the NC Post-Release Supervision and Parole Commission as to the MAPP disposition.
 - (4) Following violation of the Agreement the participant can be removed from any program participation granted through the MAPP if deemed ineligible as the result of disciplinary action or if approved by the Facility Head.

 - (C) If the offender participant fails to complete the Terms of Agreement.

 - (E) If important information, formerly unknown, is brought to the attention of Prisons and the NC Post-Release Supervision and Parole Commission.
- (2) A request for renegotiation on any of the above grounds must be forwarded to the MAPP Director. The MAPP Director will then ensure that the appropriate parties or persons are notified to give the request proper consideration.
 - (3) In some instances, the MAPP Director may be able to resolve proposed changes in the Agreement in order to avoid violation or renegotiation with a modification of the terms. Any changes that alter in any substantial manner the context of the terms of Agreement will require renegotiation or modification involving both the NC Post-Release Supervision and Parole Commission and Prisons.
 - (4) Those cases that are continued on the MAPP following renegotiation or modifications will be documented on an amended MAPP Agreement form and signed by the offender and Prison staff. If the offender agrees to the modification(s), documentation of the modification(s) will be entered in OPUS. If the offender does not agree to the modification(s), the Form is forwarded to the NC Post-Release Supervision and Parole Commission for final review and the status of the offender's participation on the MAPP will be determined.
