Description guest@ncgdacva.ondeman...

To add a connection enter the information below and select **Next**.

Note: The information below is case sensitive.

- **Domain:** ncgdacva.ondemand.sas.com
- **Port:** 443
- **Secure Connection:** Yes (slide to select Yes)

Select **Log on as guest** and then select **Next**.

Note: If you change the text under “Miscellaneous” (guest@ncgdacva.ondemand.sas.com), you cannot tap **Next** to continue.

Select **Next** to complete the connection verification step.

Using the App

Add Reports

Access the **Library** and follow the path **guest@ncgdacva.ondemand.sas.com**.

Select **OSBM** and then select the report you want to access.

> guest@ncgdacva.ondemand.sas.com > OSBM

Select the report called **“Search”**.
