NORTH CAROLINA REGISTER

The North Carolina Register is published bi-monthly and contains information relating to agency, executive, legislative and judicial actions required by or affecting Chapter 150B of the General Statutes. All proposed, administrative rules and amendments filed under Chapter 150B must be published in the Register. The Register will typically comprise approximately fifty pages per issue of legal text.

State law requires that a copy of each issue be provided free of charge to each county in the state and to various state officials and institutions. The North Carolina Register is available by yearly subscription at a cost of one hundred and five dollars ($105.00) for 24 issues.

Requests for subscriptions to the North Carolina Register should be directed to the Office of Administrative Hearings, P. O. Drawer 11666, Raleigh, N. C. 27604, Attn: Subscriptions.

ADOPTION, AMENDMENT, AND REPEAL OF RULES

An agency intending to adopt, amend, or repeal a rule must first publish notice of the proposed action in the North Carolina Register. The notice must include the time and place of the public hearing; a statement of how public comments may be submitted to the agency either at the hearing or otherwise; the text of the proposed rule or amendment; a reference to the Statutory Authority for the action and the proposed effective date. The Director of the Office of Administrative Hearings has authority to publish a summary, rather than the full text, of any amendment which is considered to be too lengthy. In such case, the full text of the rule containing the proposed amendment will be available for public inspection at the Rules Division of the Office of Administrative Hearings and at the office of the promulgating agency.

Unless a specific statute provides otherwise, at least 30 days must elapse following publication of the proposal in the North Carolina Register before the agency may conduct the required public hearing and take action on the proposed adoption, amendment or repeal.

When final action is taken, the promulgating agency must file any adopted or amended rule for approval by the Administrative Rules Review Commission. Upon approval of ARRC, the adopted or amended rule must be filed with the Office of Administrative Hearings. If it differs substantially from the proposed form published as part of the public notice, upon request by the agency, the adopted version will again be published in the North Carolina Register.

A rule, or amended rule cannot become effective earlier than the first day of the second calendar month after the adoption is filed with the Office of Administrative Hearings for publication in the NCAC.

Proposed action on rules may be withdrawn by the promulgating agency at any time before final action is taken by the agency.

TEMPORARY RULES

Under certain conditions of an emergency nature, some agencies may issue temporary rules. A temporary rule becomes effective when adopted and remains in effect for the period specified in the rule or 180 days, whichever is less. An agency adopting a temporary rule must begin normal rule-making procedures on the permanent rule at the same time the temporary rule is adopted.

NORTH CAROLINA ADMINISTRATIVE CODE

The North Carolina Administrative Code (NCAC) is a compilation and index of the administrative rules of 25 state agencies and 38 occupational licensing boards. The NCAC comprises approximately 15,000 letter size, single spaced pages of material of which approximately 35% is changed annually. Compilation and publication of the NCAC is mandated by G.S. 150B-63(b).

The Code is divided into Titles and Chapters. Each state agency is assigned a separate title which is further broken down by chapters. Title 21 is designated for occupational licensing boards.

The NCAC is available in two formats.

1. Single pages may be obtained at a minimum cost of two dollars and 50 cents ($2.50) for 10 pages or less, plus fifteen cents ($0.15) per each additional page.

2. The full publication consists of 52 volumes, totaling in excess of 15,000 pages. It is supplemented monthly with replacement pages. A one year subscription to the full publication including supplements can be purchased for seven hundred and fifty dollars ($750.00). Individual volumes may also be purchased with supplement service. Renewal subscriptions for supplements to the initial publication available.

Requests for pages of rules or volumes of the NCAC should be directed to the Office of Administrative Hearings.

NOTE

The foregoing is a generalized statement of the procedures to be followed. For specific statutory language, it is suggested that Articles 2 and 5 of Chapter 150B of the General Statutes be examined carefully.

EXECUTIVE ORDER NUMBER 95
(REPLACING EXECUTIVE ORDER NO. 57)
GOVERNOR’S BLUE RIBBON COMMISSION
ON COASTAL INITIATIVES

Executive Order Number 57, executed November 23, 1987 is hereby repealed and replaced in its entirety by this Executive Order.

North Carolina’s coastal sounds and waterways represent unique and invaluable natural and historic resources for all the people of North Carolina.

The use and preservation of these resources is especially important to those recreational boaters, sports fishermen and vacationers who utilize our coastal areas.

In order to protect these natural and historic resources, provide for the orderly growth of marine related activity, and promote environmentally sound economic development along our coast, it is essential that North Carolina develop and implement a Coastal Initiatives Plan. This plan should work to enhance the quality of our coastal environment by clustering marine related development in carefully selected locations while other more ecologically sensitive areas are given increased environmental protection.

Therefore, by authority vested in me as Governor by the Constitution and laws of North Carolina, IT IS ORDERED:

Section 1: ESTABLISHMENT
There is hereby established the Governor’s Blue Ribbon Commission on Coastal Initiatives.

Section 2: MEMBERSHIP
The Commission shall be composed of not less than 10 members appointed by the Governor. The membership shall include the Secretaries of:

a. Department of Natural Resources and Community Development
b. Department of Commerce
c. Department of Administration
d. Department of Transportation
e. Department of Human Resources
f. Department of Cultural Resources

In addition to those representatives set forth above, the Commission shall include representatives from interested environmental groups, local governments and marine activity related businesses. All members hereof named pursuant to Executive Order 57 retain their appointments to this Commission to serve at the pleasure of the Governor.

The Governor shall designate the chairman of the Commission and all members shall serve at the pleasure of the Governor. All vacancies shall be filled by the Governor.

Section 3: MEETINGS
The Commission shall meet at such times and at such locations as directed by the Chairman.

Section 4: DUTIES
(i) It shall be the responsibility of the Commission to develop and implement a long-term plan to provide additional protection for environmentally sensitive areas in the 20 coastal counties and to encourage and facilitate clustered development in selected local communities seeking to improve shoreline and marine related development.

Recommendations and areas of program implementation in the plan shall include, but not be limited to:

- protection measures for marine, coastal and historic resources
- navigation aids, including a waterways system plan
- incentives to support local community shoreline or marine activity related economic development

(ii) The Commission shall have the authority to advise and recommend such policies, goals and plans as its members may deem appropriate to the Secretary of the North Carolina Department of Natural Resources and Community Development or its successor agency.

Section 5: ESTABLISHMENT OF ADMINISTRATIVE AUTHORITY
The Secretary of the North Carolina Department of Natural Resources and Community Development or its successor agency is designated as the chief operating official of this Commission. In such capacity, the said Secretary shall:

(i) Receive the advice and recommendations of the Commission concerning the policies and goals of the Coastal Initiative Plan.

(ii) With the approval of the Governor, establish the final policies, goals, and plan of this Coastal Initiative.

(iii) Establish such interdepartmental working groups as he may deem necessary to carry out the policy, goals and plan of this Coastal Initiative.

(iv) Be responsible for implementing such governmental actions as he deems necessary to carry out the policies, goals and plan of this Coastal Initiative.

(v) Call upon the various secretaries of the several departments named in Section 2 of this ORDER to assist him to carry out the duties set forth in this section.
Section 6: ADMINISTRATIVE SUPPORT AND EXPENSES
The North Carolina Department of Natural Resources and Community Development shall provide the necessary staffing and administrative support for the Commission. All of the various department secretaries listed in Section 2 of this ORDER shall assist the Secretary of the North Carolina Department of Natural Resources and Community Development or its successor agency in this undertaking by rendering such attendance, staffing, and assistance as may be requested by the said chief operating official in order to implement this Coastal Initiative.

Members of the Commission shall be entitled to such per diem expenses and reimbursement for travel expenses as authorized under N.C.G.S. 138-5. Members who are State employees shall be reimbursed as authorized by N.C.G.S. 138-6.

Funds for reimbursement of these and other administrative expenses of the Commission shall be made available from funds provided by the North Carolina Department of Administration, the North Carolina Department of Transportation, and the North Carolina Department of Natural Resources and Community Development, the Department of Commerce and the Department of Cultural Resources as authorized and directed by the Office Management and Budget.

Section 7: EFFECTIVE DATE
This ORDER shall be effective immediately, and shall remain in effect until December 31, 1992.
Done in the City of Raleigh, State of North Carolina, this the 25th day of July, 1989.

EXECUTIVE ORDER NUMBER 96
AMENDING EXECUTIVE ORDER NUMBER 92 ENTITLED
ESTABLISHING THE WESTERN NORTH CAROLINA ENVIRONMENTAL COUNCIL

By the authority vested in me as Governor by the Constitution and laws of North Carolina, it is ORDERED:

.0308 NOTIFICATION OF REVIEW (REPEALED)

Statutory Authority G.S. 131E-177.

.0309 REVIEW PERIOD

(a) Except as otherwise provided in Paragraphs (c) and (d) of this Rule, no review shall take longer than 90 days from the date of notification of review to the date of the final decision. The date of notification of beginning of review is determined in accordance with Rule .0308 of this Subchapter. The date of final decision is determined in accordance with Rule .0313 of this Subchapter. The review of an application for a certificate of need should be completed within 90 days from the beginning date of the review period for the application, except as provided in Paragraph (b) of this Rule.

(b) Unless a health systems agency agrees to a shorter review period in writing, it shall have 60 days to complete its review of an application. If the review period is extended, the agency shall notify the health systems agency as to how much, if any, additional time is allotted to it for its review.

(c) If after a review has begun the agency or the health systems agency requires the applicant to submit additional information, the applicant shall have at least 15 days to submit the information. Upon request of the applicant, the agency shall extend its review period by the length of time given to the applicant to submit the additional information. The extension shall apply to each of the applications that is being reviewed competitively with the application for which the additional information is required. Applications are competitive if they, in whole or in part, are for the same or similar new institutional health service and the agency determines that the approval of one or more of the applications may result in th

(d) (b) In addition to the reasons set forth in Paragraph (e) of this Rule, the period for review may be extended for up to 60 days by the agency if it determines that, for one or more of the following reasons, it is not practical to fairly and thoroughly complete the review within 90 days:

(1) the extension is necessary to consider conflicting, contradictory, or otherwise relevant matters;

(2) the total number of applications assigned to the project analyst for review, including those in other review periods, preclude the project analyst from completing the review within 90 days; or

(3) the complexity of the application or applications to be reviewed make it prudent to extend the review period;

(4) the review of an applicant's response to the agency's request for additional information has not been completed;

(5) the timing of the public hearing which was held for the application or applications under review does not allow sufficient time to consider the information presented;

(6) extension of previous reviews necessitated by illness, annual leave, litigation associated with other reviews, or other duties and responsibilities;

(7) the availability of the project analyst due to illness, annual leave, litigation associated with other reviews, or other duties and responsibilities.

(e) Unless the applicant or applicants agree otherwise, the review period may be extended no more than 60 days in total.

(f) Applicants will be provided written notice of the extension of the review period after the agency determines that an extension is necessary. Failure to receive such notice prior to the last day of the scheduled review period, however, does not entitle an applicant to a certificate of need nor authorize an applicant to proceed with a project without one.

Statutory Authority G.S. 131E-177.

.0313 FINAL DECISION

(a) Unless the review period is extended under Rule .0309 of this Subchapter, or unless the applicant or applicants agree in writing to an extension of the review period, the final decision

NORTH CAROLINA REGISTER 597
shall be made in writing within 90 days from the date of the notification of review, as defined in Rule 0.0308(c) of this Subchapter.

(b) (a) The agency shall determine whether a proposal is consistent with the review criteria set forth in G.S. 131-181 131E-183 and the standards, plans, and criteria promulgated thereunder in effect at the time the review commences. The agency shall determine which standards, plans, and criteria are applicable to the proposal. If a proposal is consistent with all applicable standards, plans, and criteria, the final decision shall be to issue the certificate of need. If a proposal is not consistent with all applicable standards, plans, and criteria, the agency shall either not issue the certificate of need or issue one subject to those conditions necessary to insure that the proposal is consistent with applicable standards, plans, and criteria. The agency may only impose conditions which relate directly to applicable standards, plans, and criteria.

(c) If the agency decides to issue a certificate of need, it shall determine in accordance with G.S. 131E-183 when the service or equipment shall be available or when the project shall be completed and the timetable to be followed in doing so.

(d) (b) The written final decision shall include the following:

(1) the basis for the decision;
(2) the findings required by Paragraph (c) of this Rule and regarding the extent to which the proposal meets the criteria set forth in G.S. 131E-183;
(3) the time when the service or equipment is to be available or the project completed and the timetable to be followed; and
(4) the approved capital expenditure for the project.

(e) The written final decision shall include findings regarding the extent to which the proposal meets the criteria set forth in G.S. 131-181(a)(2), (3a), and (13); including a finding as to the accessibility of the facility as a whole. Such findings are not required if:

(1) the proposal is described in G.S. 131-181(a)(a); or
(2) the proposal is a proposed capital expenditure not directly related to the provision of health services or to beds or to major medical equipment; or
(3) the proposal is made by or in behalf of an HMO or a health care facility which is controlled, directly or indirectly, by an HMO.

Any final decision which includes a finding that the proposal does not meet the criteria set forth in G.S. 131-181(a)(2), (3a), and (13), shall be sent to the appropriate regional office of the Department of Health and Human Services.

(f) If the agency decision is inconsistent with the recommendation of the health systems agency, the goals of the applicable health systems plan, or the priorities of the applicable annual implementation plan, the agency shall include in the final decision a detailed statement of the reasons for the inconsistency.

(g) (c) The final decision shall be sent to the applicant and to the appropriate health systems agency. Any other person may obtain a copy of a final decision by requesting it from the agency, for which there will be a charge to cover the cost of reproducing the document. For a proposal made by an HMO, the agency shall also send a copy of the final decision to the regional office of the Department of Health and Human Services.

Statutory Authority G.S. 131E-177; 131E-186.

.0315 ISSUANCE OF A CERTIFICATE OF NEED

(a) A certificate shall not be issued until 30 days after the date of the final decision under Rule .0313 of this Section. If no request for a contested case hearing is received by the agency within that time, the agency shall issue the certificate. If a request for a contested case hearing is received within that time, the certificate shall not be issued until the final agency decision from the contested case hearing has been issued.

(b) The certificate, or attachments, shall specify:

(1) the scope of the project;
(2) the physical location of the project;
(3) the person to whom the certificate was issued;
(4) the maximum capital expenditure, if any, which may be obligated under the certificate;
(5) the timetable to be followed in making the service or equipment available or in completing the project; and
(6) when the first progress report under Rule .0316 of this Section is due.

(c) The date of issuance of a certificate is the date on the certificate. The effective date of the issuance of a certificate should be the first day after the 30 day appeal period expires, the date the agency receives notice of withdrawal of the request for a contested case hearing, the date of the Department’s final decision made in accordance with G.S. 131E-183(a), or the date the agency determines that the conditions of approval are satisfied, whichever is later.
.0316 PROGRESS REPORTS

(a) The holder of a certificate of need shall submit a report on the progress made in making the service or equipment available or in completing the project. These reports shall also include information as to the total dollar amount of capital expenditures which have been obligated under the certificate, and any changes in amounts of proposed or previously obligated capital expenditures. These reports will be made on a form provided by the agency and will be due on the date or dates indicated by the agency on the Certificate of Need and in subsequent correspondence.

(b) The agency may also request additional reports as often as necessary in order to determine:

1. if the timetable specified in the certificate is being met;
2. if the scope of the project is being completed as described on the certificate and in the application for the certificate of need; and
3. if the amount of the capital expenditure or expenditures obligated under the certificate has exceeded or can be expected to exceed the maximum under the certificate; and
4. if the condition(s) of approval have been satisfactorily met.

.0317 WITHDRAWAL OF A CERTIFICATE

(a) A certificate of need may be withdrawn for the reasons set forth in G.S. 131E-189. Before a certificate of need is withdrawn the agency shall follow the procedures set forth in this Rule.

(b) At any time after the date on which the first progress report is due, the certificate of need is issued the agency may commence a proceeding to withdraw a certificate of need. In determining whether to institute a withdrawal proceeding, the agency may consider the progress reports and any other information which it has received or obtained.

(c) If the agency initiates a withdrawal proceeding, it shall send out a notice of review which complies with Rule .0318 of this Subchapter. If the agency initiates a withdrawal proceeding, it shall send out a notice to the holder of the certificate providing an opportunity for the holder to demonstrate that:

1. it is making a good faith effort to meet the timetable specified by the agency;

2. it is developing or operating the service in a manner consistent with the representations made in the application or with any condition or conditions the Department has placed on the certificate of need; and

3. if the transfer of ownership or control of the facility has been made prior to the completion of the project or licensure of the facility without specific Department approval. The agency shall consider a transfer of ownership or control to have occurred if:

   A. there is a change in the membership of the firm, association or partnership to whom the certificate was issued involving the acquisition of a 25 percent or greater share in the firm, association or partnership by someone who did not previously own a 25 percent or greater share; or
   B. twenty-five percent or more of the stock of the corporation to whom the certificate was issued is acquired by someone who did not previously own 25 percent or more of the stock.

(d) The agency shall comply with Rules .0310, .0311, and .0312 of this Subchapter in any withdrawal proceeding. The holder of the certificate shall have 15 days to respond to the notice and provide information as to why the certificate should not be withdrawn.

(e) After the date on which the recommendation of the health systems agency is due, the agency shall make a written decision. If the decision is inconsistent with the recommendation of the health systems agency, the goals of the applicable health systems plan, or the priorities of the applicable annual implementation plan, it shall include a detailed statement of the reasons for the inconsistency. The decision shall be sent to the holder of the certificate of need and the health systems agency in the health service area in which the proposal was located. Copies of the decision are available to other persons upon request. In the case of certificates of need held by HMOs, the agency shall also send a copy of the decision to the regional office of the Department of Health and Human Services. The agency shall review the information provided by the holder, or lack thereof, and shall make a determination as to whether to withdraw the certificate. The agency will not consider the reasonableness of the timetable specified on the certificate to be an issue in determining whether to withdraw the certificate.

(f) Upon compliance with Rule .0314 of this Subchapter a reconsideration hearing shall be held on the decision to withdraw or not to withdraw the certificate. The hearing shall be conducted in accordance with Rule .0314 of this Subchapter.
Subchapter. The holder of the certificate should be informed in writing within 45 days from the date of the notice of the agency's decision regarding the withdrawal.

(g) A decision to withdraw a certificate immediately revokes the right of the holder of the certificate to continue the development or operation of the facility except under conditions approved by the Department.

(h) A contested case hearing under Section .0400 of this Subchapter is available to any affected person on a decision to withdraw or not to withdraw a certificate of need. The reasonableness of the timetable shall not be an issue at such a hearing. That issue may only be addressed in a reconsideration or contested case hearing on the agency's final decision following the review of an application.

(i) A decision to not revoke a certificate on any given occasion does not preclude the right of the agency to withdraw that certificate at a later date providing the agency follows the procedures outlined in this Rule.

Statutory Authority G.S. 131E-177; 131E-189.

SECTION .0400 - CERTIFICATE OF NEED APPEAL PROCESS

(a) All contested cases shall be commenced by the filing of a petition with the office of the director within 30 days of a decision of the agency to issue, deny or withdraw a certificate of need or to grant or deny an exemption or to assess a civil penalty. If the petition does not show on its face that the applicant is an affected person as defined in G.S. 131E-158(c) or if the petition is not filed timely, the agency shall send notice to the applicant within 15 days of the date the petition is filed, that the request for contested case hearing is denied. If the petition does show on its face that the applicant is an affected person as defined in G.S. 131E-158(c) and if the petition is filed timely, the agency shall, within 45 days of the date the petition is filed, send notice to the applicant of the appointment of a hearing officer. If the applicant requests that a hearing officer from the Office of Administrative Hearings hear the case, in accordance with the provisions of G.S. 150B, the agency shall request that the Chief Hearing Officer of the Office of Administrative Hearings name the hearing officer in the case.

(b) All petitions filed under this Rule shall be verified or supported by affidavit and shall state facts tending to establish that in making the decision or decision at issue, the agency:

1. exceeded its authority or jurisdiction;
2. acted erroneously;
3. failed to use proper procedure;
4. acted arbitrarily or capriciously; or
5. failed to act as required by law or rule.

The only decisions which shall be the subject of the contested case hearing shall be those specifically appealed by the appellant and those which were considered competitively under Rule .0200(c) with those specifically appealed by the appellant.

The CON Section will not issue a certificate of need to any applicant so long as any affected person has filed a petition for a contested case challenging the agency decision to award a certificate to that or any other competing applicant, or so long as any unsuccessful applicant whose application was considered competitively has filed a contested case petition challenging the merits of the agency decision denying it a certificate.

CHAPTER 1 - DEPARTMENTAL RULES

SUBCHAPTER 1I - FOREST PRACTICES
GUIDELINES RELATED TO WATER QUALITY

SECTION .0100 - GENERAL PROVISIONS

.0101 INTRODUCTION AND PURPOSE

(a) Forests are a major contributor to the economy and quality of the environment in North Carolina. Forestry best management practices allow for the production, harvesting, and utilization of forest resources while maintaining satisfactory water quality. The rules in this Subchapter establish performance standards for the protection of water quality. The intent and purpose of these rules is not to cease or obstruct the lawful, proper and responsible use of forest resources. Persons must adhere to the standards related to land disturbing activities in order to retain the forestry exemption provided in the N.C. Sedimentation Pollution Control Act of 1973 as amended in 1989.

(b) The Division of Forest Resources is responsible for the protection and development of forest resources in North Carolina, and has been designated by the Secretary of North Carolina Department of Environment, Health and Natural Resources as the Division within the Department best able to assist the Secretary in the implementation of these rules.

(c) The Forestry Best Management Practices Manual, published by the Division of Forest Resources in September, 1989, and as amended from time to time, contains specifications for a variety of practices which may be used to meet the performance standards set forth in this Subchapter. Best Management Practices (BMPs) shall be selected to allow for the variation in weather, topography, soil, and vegetation expected for the site and season. Implementation of these rules shall recognize that extreme and unusual weather can cause reasonable and otherwise adequate application of BMPs to fail to control sedimentation. Where installed BMPs fail, additional and more effective BMPs may be required. This manual and the rules in this Subchapter may be obtained by contacting the Director, Division of Forest Resources, Raleigh, North Carolina.

Statutory Authority G.S. 113-3; 113-8; 113A-52(6); 113A-52.1; 143B-10.

This Article shall not apply to the following land-disturbing activities:

(a) Those undertaken on agricultural land for the production of plants and animals useful to man, including but not limited to: forages and sod crops, grains and feed crops, tobacco, cotton, and peanuts; dairy animals and dairy products; poultry and poultry products; livestock, including beef cattle, sheep, swine, horses, ponies, mules or goats, including the breeding and grazing of any or all such animals; bees and apiary products; fur animals;

(b) Those undertaken on forestland for the production and harvesting of timber and timber products and which are conducted in accordance with Forest Practice Guidelines Related to Water Quality (best management practices) as adopted by the Department; and

(c) Activities undertaken by persons as defined in G.S. 113A-52(8) who are otherwise regulated by the provisions of G.S. 74-76 through G.S. 74-68, the Mining Act of 1971.

(b) "Intermittent stream" means a stream that flows only during wet periods of the year (30-90 percent of the time) and flows in a well-defined channel.

(c) "Perennial stream" means a stream that flows throughout a majority of the year (greater than 90 percent of the time) and flows in a well-defined channel.

(15) "Streamside Management Zone (SMZ)" means an area along both sides of intermittent and perennial streams and perennial waterbodies where extra precaution is used in carrying out forest practices in order to protect water quality.

(16) "Visible Sediment" means solid particulate matter, both mineral and organic, which can be seen with the unaided eye that has been or is being transported by water, air, gravity, or ice from its site of origin.

SECTION .0200 - PERFORMANCE STANDARDS

.0201 STREAMSIDE MANAGEMENT ZONE

(a) A streamside management zone (SMZ) shall be established and maintained along the margins of intermittent and perennial streams and perennial waterbodies. The SMZ shall be of sufficient width to confine within the SMZ visible sediment resulting from accelerated erosion.

(b) Ground cover, or other means, within the SMZ shall be sufficient to restrain accelerated erosion.

(c) Access roads, skid trails, logging decks and mill sites shall be placed outside of SMZs. When barriers such as property lines or limiting land features prohibit the location of any of these outside of SMZs, they can be located within the SMZs. When located within SMZs they shall have effective erosion control and sediment control structures or measures installed to restrain accelerated erosion and prevent visible sediment from entering intermittent or perennial streams or perennial waterbodies.

Statutory Authority G.S. 113A-52.1.
0.0202 PROHIBITION OF DEBRIS ENTERING STREAMS AND WATERBODIES
Stream obstruction and the impediment of stream flow shall be prevented by keeping debris from construction, harvesting, mill site residue, and site preparation out of intermittent and perennial streams and perennial waterbodies.

Statutory Authority G.S. 77-13; 77-14:113A-52.1.

0.0203 ACCESS ROAD AND SKID TRAIL STREAM CROSSINGS
Stream crossings shall be avoided when possible. Access roads and skid trails which must cross intermittent or perennial streams or perennial waterbodies shall be installed so that:
1. stream flow will not be obstructed or impeded;
2. no stream channel or perennial waterbody shall be used as an access road or skid trail;
3. crossings are provided with effective structures or ground cover to protect the banks and channel from accelerated erosion;
4. they shall have sufficient water control devices to collect and divert surface flow from the access road or skid trail into undisturbed areas or other control structures to restrain accelerated erosion and prevent visible sediment from entering intermittent and perennial streams; and
5. ground cover, or other means, sufficient to prevent visible sediment from entering intermittent and perennial streams and perennial waterbodies shall be provided within ten working days of initial disturbance and will be maintained until the site is permanently stabilized.

Statutory Authority G.S. 113A-52.1.

0.0204 ACCESS ROAD ENTRANCES
Access road entrances intersecting public highways shall be constructed and maintained with measures, devices or techniques effective to prevent excessive soil and other debris from being carried to and deposited on the highway to the extent that sedimentation problems will result.

Statutory Authority G.S. 113A-52.1.

0.0205 PROHIBITION OF WASTE ENTERING STREAMS/WATERBODIES/GROUNDWATER
Measures shall be taken to prevent equipment servicing waste, petroleum, fertilizers or other chemical waste from entering streams, perennial waterbodies, and or groundwater.

Statutory Authority G.S. 113A-52.1.

0.0206 PESTICIDE APPLICATION
Application of pesticides shall be limited to those labeled for that intended use and applied in a manner to prevent adverse impacts on water quality.

Statutory Authority G.S. 113A-52.1.

0.0207 FERTILIZER APPLICATION
When used, fertilizers shall be applied in a manner to prevent adverse impacts on water quality.

Statutory Authority G.S. 113A-52.1.

0.0208 STREAM TEMPERATURE

Statutory Authority G.S. 113A-52.1.

0.0209 REHABILITATION OF PROJECT SITE
Areas on the project that have the potential for accelerated erosion, resulting in concentrated flow directly entering an intermittent or perennial stream or perennial waterbody, shall be provided with ground cover or other means of adequate sedimentation control within 30 working days after ceasing any phase of an operation or beginning a period of inactivity. Treatment and maintenance of those areas shall be sufficient to restrain accelerated erosion and prevent visible sediment from entering intermittent and perennial streams and perennial waterbodies until the site is permanently stabilized.

Statutory Authority G.S. 113A-52.1.
