NORTH CAROLINA REGISTER

The North Carolina Register is published bi-monthly and contains information relating to agency, executive, legislative and judicial actions required by or affecting Chapter 150B of the General Statutes. All proposed, administrative rules and amendments filed under Chapter 150B must be published in the Register. The Register will typically comprise approximately fifty pages per issue of legal text.

State law requires that a copy of each issue be provided free of charge to each county in the state and to various state officials and institutions. The North Carolina Register is available by yearly subscription at a cost of one hundred and five dollars ($105.00) for 24 issues.

Requests for subscriptions to the North Carolina Register should be directed to the Office of Administrative Hearings, P. O. Drawer 11666, Raleigh, N. C. 27604, Attn: Subscriptions.

ADOPTION, AMENDMENT, AND REPEAL OF RULES

An agency intending to adopt, amend, or repeal a rule must first publish notice of the proposed action in the North Carolina Register. The notice must include the time and place of the public hearing; a statement of how public comments may be submitted to the agency either at the hearing or otherwise; the text of the proposed rule or amendment; a reference to the Statutory Authority for the action and the proposed effective date.

The Director of the Office of Administrative Hearings has authority to publish a summary, rather than the full text, of any amendment which is considered to be too lengthy. In such case, the full text of the rule containing the proposed amendment will be available for public inspection at the Rules Division of the Office of Administrative Hearings and at the office of the promulgating agency.

Unless a specific statute provides otherwise, at least 30 days must elapse following publication of the proposal in the North Carolina Register before the agency may conduct the required public hearing and take action on the proposed adoption, amendment or repeal.

When final action is taken, the promulgating agency must file any adopted or amended rule for approval by the Administrative Rules Review Commission. Upon approval of ARRC, the adopted or amended rule must be filed with the Office of Administrative Hearings. If it differs substantially from the proposed form published as part of the public notice, upon request by the agency, the adopted version will again be published in the North Carolina Register.

A rule, or amended rule cannot become effective earlier than the first day of the second calendar month after the adoption is filed with the Office of Administrative Hearings for publication in the NCAC.

Proposed action on rules may be withdrawn by the promulgating agency at any time before final action is taken by the agency.

TEMPORARY RULES

Under certain conditions of an emergency nature, some agencies may issue temporary rules. A temporary rule becomes effective when adopted and remains in effect for the period specified in the rule or 180 days, whichever is less. An agency adopting a temporary rule must begin normal rule-making procedures on the permanent rule at the same time the temporary rule is adopted.

NORTH CAROLINA ADMINISTRATIVE CODE

The North Carolina Administrative Code (NCAC) is a compilation and index of the administrative rules of 25 state agencies and 38 occupational licensing boards. The NCAC comprises approximately 15,000 letter size single spaced pages of material of which approximately 35% is changed annually. Compilation and publication of the NCAC is mandated by G.S. 150B-63(b).

The Code is divided into Titles and Chapters. Each state agency is assigned a separate title which is further broken down by chapters. Title 21 is designate for occupational licensing boards.

The NCAC is available in two formats.

1. Single pages may be obtained at a minimum cost of two dollars and 50 cents ($2.50) for 1 pages or less, plus fifteen cents ($0.15) per each additional page.

2. The full publication consists of 52 volume totaling in excess of 15,000 pages. It is supplemented monthly with replacement pages. One year subscription to the full publication including supplements can be purchased for seven hundred and fifty dollars ($750.00). Individual volumes may also be purchased with the service. Renewal subscriptions for supplements to the initial publication available.

Requests for pages of rules or volumes of the NCAC should be directed to the Office of Administrative Hearings.

NOTE

The foregoing is a generalized statement of the procedures to be followed. For specific statutory language, it is suggested that Articles 2 and 5 of Chapter 150B of the General Statutes be examined carefully.

SUBCHAPTER 30D - STATE BUILDING COMMISSION DESIGNER AND CONSULTANT SELECTION POLICY

SECTION .0100 - GENERAL PROVISIONS

.0101 AUTHORITY

The State Building Commission, hereinafter referred to as SBC, is a statutory body, empowered by Public Law to perform a multiplicity of duties with regard to the State's Capital Facilities Development and Management Program. In the specific area of state capital improvement project design selection, the SBC is empowered to adopt rules establishing standard procedures and criteria to assure that the designer selected for each state capital improvement project and the consultant selected for planning and studies of an architectural and engineering nature associated with a capital improvement project or a future capital improvement project has the qualifications and experience necessary for that capital improvement project or the proposed planning or study project. The SBC is responsible and accountable for the final selection of the designer and the final selection of the consultant. The exceptions are: The University of North Carolina and the General Assembly which shall be responsible and accountable for the final selection of designers and the final selection of consultants for capital projects in which they are the funded agencies.

.0102 POLICY

It is the policy of the SBC to select designers and consultants for capital improvement projects as defined in G.S. 143-135.27, based on criteria contained herein and to make available to every designer and consultant duly licensed to practice in North Carolina, the opportunity to be considered for providing professional services for those departments and agencies under its jurisdiction. The SBC considers that the selection of competent designers and consultants is vital to providing the State of North Carolina with best and most appropriate facilities consistent with authorized funds. These procedures are intended to provide a basis for the fair and uniform selection of designers and consultants. These procedures for defined projects are intended to be consistent with the 1987 N.C. Session Laws 102. Projects not covered by this policy shall also be consistent with the 1987 N.C. Session Laws 102.

.0103 DEFINITIONS

For purposes of this Subchapter, the following definitions shall apply:

SECTION .0200 - PROJECT INFORMATION

.0201 PROJECT DESCRIPTION
It shall be the responsibility of each Capital Projects Coordinator to provide the State Construction Office with a written description of the professional services desired, the program or scope of work, schedule requirements, amount of authorized funds and other appropriate information for each project requiring professional services. This information should be provided to the State Construction Office seven days prior to the publication dates of the first and fifteenth of each month for the North Carolina Purchase Directory. The Capital Projects Coordinator is responsible for prompt initiation of the designer or consultant selection process to enable the completion of designer or consultant selection with 60 days of the date of the above notification. Funds are appropriated for a project by the General Assembly or the date of project authorization by the Director of the Budget. The State Building Commission may grant an exception to this requirement upon written request of the funded agency if:

(1) no site was selected for the project before the funds were appropriated; or
(2) funds were appropriated for advance planning only.

.0202 PUBLIC ANNOUNCEMENT
Based upon project information furnished by a Capital Projects Coordinator, the State Construction Office shall publish an announcement of the need for professional services, a designated contact person in the using agency and the closing date in the North Carolina Purchase Directory. Public announcement is required prior to designer or consultant selection except in the event of emergency. In the event of an emergency, public announcement is not required and
the procedure outlined in Rule .0302 (4) of this policy will be followed. On projects, the closing date for being considered for professional services shall not be less than ten days for minor projects and 15 days for major projects nor more than 21 days from date of publication in the Purchase Directory.

A letter of interest for each project must be received by the contact person prior to a designer's being considered for professional services.

SECTION .0300 - SELECTION OF DESIGNERS OR CONSULTANTS

.0301 DESIGNER OR CONSULTANT QUALIFICATIONS

All designers or consultants desiring to provide professional services shall file with the State Construction Office a Federal Standard Form 254 by January 1 of each year. Qualifications may be submitted any time during the year but, during January of each year, all submissions older than 12 months may be destroyed.

In response to a specific project announcement, the designer or consultant may submit a new or updated Standard Form 254 or other information requested by the State Construction Office. Designer or consultant qualifications must be on file or submitted to the State Construction Office prior to being considered by the pre-selection committee.

.0302 PRE-SELECTION

A pre-selection committee shall be established for all projects requiring professional service. On minor projects, the pre-selection committee shall consist of at least the Capital Projects Coordinator, a representative of the using agency and one representative from the State Construction Office. On major projects the pre-selection committee shall consist of at least the Capital Projects Coordinator, a representative of the using agency and two representatives from the State Construction Office. At least one member of all pre-selection committees shall be a licensed design professional.

(1) General Procedure for All Projects: The Capital Projects Coordinator shall review with the using agency the requirements of the project. This step should normally take place prior to public advertisement in the Purchase Directory, because designers and consultants have a significant need to know in advance the program intent of a project in order to demonstrate their qualifications for the project in their letter of interest. The Capital Projects Coordinator shall receive all letters of interest and other qualification information either directly or from the designated contact person. After a pre-selection priority list is prepared, the list will remain confidential except to the Secretary of the SBC. If fewer than three letters of interest are received on major projects, the project will be readvertised in the Purchase Directory. If fewer than three letters of interest are received following the re-advertisement, the Capital Projects Coordinator may proceed with the selection process using the data received or may advertise again.

(2) Special Procedures for Minor Projects: The Capital Projects Coordinator shall again review with the using agency the requirements of the project and the qualifications of all firms expressing interest in a specific project. The Capital Projects Coordinator and a representative of the using agency shall meet with the representative from the State Construction Office for the evaluation of each firm and development of a list of three firms in priority order to be presented to the SBC. The Capital Projects Coordinator may institute the interview procedures, under major projects, where special circumstances dictate such need. The Capital Projects Coordinator shall submit to the Secretary of the SBC the list of three firms in priority order, including pre-selection information and written recommendations, to be presented to the SBC. The Capital Projects Coordinator shall state in the submission to the SBC that the established rules for public announcement and pre-selection have been followed or shall state full particulars if exceptions have been taken.

(3) Special Procedures for Major Projects: The pre-selection committee shall review the requirements of a specific project and the qualification of all firms expressing interest in that project and shall select from that list not more than six nor less than three firms to be interviewed and evaluated. The pre-selection committee shall interview each of the selected firms, evaluate each firm interviewed, and rank in order three firms. The Capital Projects Coordinator shall state in his submission that the established rules for public announcement and pre-selection have been followed or shall state full particulars if exceptions have been taken.

(4) Special Procedures for Emergency Projects: On occasion, emergency design or consultant services may be required for restoration
or correction of a facility condition which by its nature poses a significant hazard to persons or property, or when an emergency exists. Should this situation occur, in all likelihood there will not be sufficient time to follow the normal procedures described herein. The Capital Projects Coordinator on these rare occasions is authorized to declare an emergency, notify the State Construction Office and then obtain the services of a competent designer or consultant for consultation or design of the corrective action. In all cases, such uses of these emergency powers will involve a written description of the condition and rationale for employing this special authority signed by the head of the agency and presented to the SBC at its next normal meeting. Timeliness for obligation of funds or other non-hazardous or non-emergency situations do not constitute sufficient grounds for invoking this special authority.

(5) Annual Contract: A Funded Agency or a Using Agency may require the services of designer(s) or consultant(s) for small miscellaneous projects on a routine basis. In such cases, designer(s) or consultant(s) for annual contracts will be selected in accordance with the above procedures for minor projects. In addition, no annual contract fee will exceed fifty thousand dollars ($50,000.00) in total volume and no single fee shall exceed ten thousand dollars ($10,000.00).

**Statutory Authority G.S. 143-135.25; 143-135.26.**

**.0303 SELECTING CRITERIA**

In selecting the three firms to be presented to the SBC, the pre-selection committee should take into consideration such factors as:

1. Specialized or appropriate expertise in the type of project.
2. Past performance on similar projects.
3. Adequate staff and proposed design or consultant team for the project.
5. Proposed design approach for the project including design team and consultants.
6. Recent experience with project costs and schedules.
7. Construction administration capabilities.
8. Proximity to and familiarity with the area where project is located.
9. Record of successfully completed projects without major legal or technical problems.

(10) Other factors that may be appropriate for the project.

**Statutory Authority G.S. 143-135.25; 143-135.26.**

**.0304 DESIGNER OR CONSULTANT SELECTION FOR UNC SYSTEM PROJECTS**

In selecting designers or consultants for its projects, the UNC system shall comply with the preceding policies and pre-selection procedures, except that pre-selection committees need not include a representative of the State Construction Office. The UNC system shall establish its own procedures for final designer or consultant selection. These procedures shall correspond in form to those established below for other than UNC system projects and shall be filed with and approved by the SBC.

**Statutory Authority G.S. 143-135.25; 143-135.26.**

**.0306 CONTRACT NEGOTIATION**

After the three have been notified of the selection action by The University of North Carolina or the SBC, a representative from the State Construction Office, the Capital Projects Coordinator, and a representative from the using agency will discuss with the selected designer or consultant appropriate information about the project, the scope of services to be provided and the state design-review/construction process.

The State Construction Office will request in writing a detailed fee proposal from the selected designer or consultant. The State Construction Office in coordination with the Capital Projects Coordinator and the using agency will attempt to negotiate a fair and equitable fee consistent with the project program and the professional services required for the specific project. In the event a fee cannot be agreed upon, the State Construction Office shall terminate the negotiations and shall repeat the notification and negotiation process with the next ranked firm on the selection list. In the event a fee cannot be agreed upon with the second-ranked designer or consultant, the process will be repeated with the third-ranked designer or consultant. If a fee still cannot be agreed to, the SBC shall review the history of negotiations and make appropriate determinations including program adjustments so as to lead to a negotiated contract with one of the original three firms selected. Such renegotiation with the firms shall be carried out in the original selection order, or call for the Capital Projects Coordinator to submit another list of three firms in priority order to the SBC or to the UNC system. The negotiation process will continue until
a fee has been determined that is agreed to by the State Construction Office, the using agency, and the designer or consultant. Annual contracts are subject to special management procedures described herein. Normally, the initial fee negotiation for this type of work will involve mutual agreement in unit costs for time, materials, and overhead; a final lump sum price for each discrete project will be negotiated in advance as each project is ordered.

Following execution of the contract, the State Construction Office will publish in the North Carolina Purchase Directory the list of three firms selected in priority order, the firm to be contracted with, and the fee negotiated.

SUBCHAPTER 30E - STATE BUILDING COMMISSION DESIGNER OR CONSULTANT EVALUATION PROCEDURES

SECTION .0100 - GENERAL PROVISIONS

.0101 AUTHORITY

The State Building Commission, hereinafter referred to as SBC, is a statutory body, empowered by Public Law to perform a multiplicity of duties with regard to the State’s Capital Facilities development and management program. In the specific area of state capital improvement project designer and consultant evaluation, the SBC is empowered to develop procedures for accomplishment of such evaluation.

It is to this end that individual designer, designer’s or consultant’s performance on state capital improvement projects should be fairly and consistently evaluated and used as a factor in designer or consultant selection for future work.

.0103 DEFINITIONS

For purposes of this Subchapter, the following definitions shall apply:

(1) “Capital Projects Coordinator” means the individual authorized by each funded agency to coordinate all capital improvement projects and related matters with the State Construction Office and to represent that agency on all matters presented to the SBC. The individual so designated for purposes of these rules may have other titles within the individual’s agency but shall carry out the duties assigned herein to the Capital Projects Coordinator. Whenever the Capital Projects Coordinator is referenced herein, it shall be understood to include a designated assistant or representative. Statutory Authority G.S. 143-64.31; 143-135.25; 143-135.26.

SECTION .0200 - PROJECT INFORMATION

.0201 PROJECT DESCRIPTION

It shall be the responsibility of each Capital Projects Coordinator, for each Capital Improvements project as defined in G.S. 143-135.27 requiring professional services, to provide the State Construction Office with a written description of the professional services desired, the scope of work, schedule requirements, amount of authorized funds and other appropriate information. Particular emphasis will be placed on a determination as to whether the designer's or consultant's services are to include items such as programming, modeling, special presentations or other requirements beyond specific facility design. This requirement data shall be incorporated in the designer's or consultant's professional services contract and will serve as key elements against which the designer's or consultant's performance will be evaluated.

It shall be the responsibility of the Office of State Construction to insure that both the Capital Projects Coordinator and the designer or consultant have a clear mutual understanding of design requirements for the project and key elements of these requirements are included in the professional services contract between the agency and the designer or consultant.

SECTION .0300 - EVALUATION OF DESIGNERS OR CONSULTANTS

.0301 DESIGN PHASES

Definitions:
(1) "Pre-Design Phase" is the description of the provision of professional services prior to actual design. If a firm scope of the work is not known, the design agreement may be written in such a manner as to require project programming assistance by the designer or consultant, followed by agency approval of a designer-proposed project scope, prior to commencement of actual design. In evaluating design or consultant services during this phase, the Capital Projects Coordinator may wish to receive input from the Owner's representative.

(2) "Design Phase" involves preparation of the actual design. The Capital Projects Coordinator must maintain active involvement during the design process in order to be able to evaluate the designer's or consultant's response to owner requirements, the consistency of owner requirements, external design requirements driven by insurance or environmental considerations, etc., the technical design itself, designer/owner response to review comments, adherence to design schedule, and quality of cost estimate, as well as adherence of the cost estimate to the project budget. In general, the evaluation of this phase is to encompass the efficiency and effectiveness of the designer in adherence to the project scope statement. Included is an evaluation of subconsultants if utilized. The sub consultant performance will also be considered in evaluation of the principal designer. The Capital Projects Coordinator, in preparing the evaluation of the design phase, may wish to receive input from the Owner's representative as well as the State Construction Office.

(3) "Bidding-Construction Phase" encompasses the process for provision of professional services for bidding, award, and construction of the project. As the job progresses past contract award, the Capital Projects Coordinator must maintain a continuing awareness of designer performance during the period of construction including the shop drawing review process, payment processing, change order management, and field administration including project cost control. The Capital Projects Coordinator or owner's representative should attend the monthly construction progress meetings. The Capital Projects Coordinator must be capable of discerning the degree to which change orders are precipitated by design errors or omissions. The Capital Projects Coordinator must be capable of determining how well the designer provides general administration of the performance of construction contracts, including inspection and continuous liaison of the work to insure compliance with plans and specifications.
during the construction process. At the completion of the project, the Capital Projects Coordinator must ensure that the project designer has completed all required close-out actions. The Capital Projects Coordinator will be responsible for preparation of the Bidding-Construction Phase evaluation. Assistance will be sought from the Owner’s representative and the State Construction Office in preparation of the evaluation for this phase of the project.

.0302 OVERALL JOB PERFORMANCE
The Capital Projects Coordinator shall determine the designer's or consultant's overall performance for the completed project. The overall rating is intended to reflect the effectiveness of the design in achieving the predetermined project scope in a timely, cost-effective manner. The evaluation shall encompass the designer's or consultant's management approach to the project including cooperation of the designer's staff, communication with the Capital Projects Coordinator and Owner's representative, timeliness of action, and performance of consultants. The Capital Projects Coordinator shall invite input from the Owner’s representative and the State Construction Office. All prime contractors shall be offered the opportunity to provide an assessment of the designer at job completion. The Capital Projects Coordinator shall be responsible for the final overall rating. This summary evaluation shall not necessarily reflect a precise numerical averaging of scores for the Pre-design, Design, and Bidding-Construction phases but will be generally representative of those scores. To be timely and useful, designer evaluation data will be accumulated within 30 days of submission of the final report. Prior to completion of the final designer evaluation, the Capital Projects Coordinator shall submit the proposed evaluation to the designer for comment. Comments received from designers or consultants shall be considered by the Capital Projects Coordinator. At this stage, the Capital Projects Coordinator shall prepare the final designer or consultant evaluation and provide a copy to the designer or consultant. The form approved by the SBC shall be used for this purpose.

.0304 INTERIM DESIGNER OR CONSULTANT EVALUATION
The designer or consultant may request preparation of an interim evaluation form by the Capital Projects Coordinator or the Coordinator may elect to prepare an interim evaluation if so desired. This interim evaluation is intended to reflect performance to date and should be used as a guidance device for correction of performance prior to the final evaluation.

.0305 SUBMISSION OF FINAL REPORT
The Capital Projects Coordinator shall submit the completed final evaluation to the Office of State Construction with a copy to the designer or consultant. The designer or consultant shall have the opportunity to comment on the evaluation to the Office of State Construction with a copy to the Capital Projects Coordinator. Such comments on the final evaluation shall become a part of the final evaluation record. It is imperative that the final designer or consultant evaluation be completed and presented to the State Construction Office for all capital projects within 60 days of the final report. If the evaluation is not completed within the prescribed time frame, the State Building Commission may elect to process no further design awards for an agency until the evaluation is complete.

.0306 REPORT COMPILATION
The Office of State Construction will be responsible for maintaining designer or consultant evaluation data. The data maintained shall be on an individual job basis and also cumulative by the designer or consultant. Data will be made available on request to individual designer or consultant preselection committees. The data maintained by the State Construction Office will reflect performance history for a period of five years. All evaluation data on completed projects in excess of five years of age will be removed from State Construction Office files and will not be used as a factor in the cumulative evaluation.

SECTION 0400 - POST-EVALUATION PROCEDURES

.0402 APPEALS OF ASSIGNED EVALUATIONS
If a design or consultant firm considers that the assigned evaluation is improper and the opportunity to provide rebuttal comments for the record is insufficient to resolve the assigned rating, the designer or consultant may appeal the rating to the Office of State Construction. The State Construction Office will appoint and convene a rating panel of three professional State employees
of which at least one member is a licensed professional architect or engineer to hear the appeal and render a decision. The hearing shall involve at a minimum the Capital Projects Coordinator and the Owner’s representative as well as representatives of the designer or consultant who shall appear before the panel and which is open to the public. The State Construction Office hearing panel shall issue a report to the State Building Commission of the hearing and the decision reached. If the Capital Projects Coordinator or designer desires further recourse, the State Construction Office panel decision may be formally appealed to the Office of Administrative Hearings pursuant to N.C.G.S. 150B.

Statutory Authority G.S. 58-151.1.

Statutory Authority G.S. 58-424.

.0604 REQUIREMENTS FOR CONTINUED ELIGIBILITY

(a) Once a company is deemed to be eligible for surplus lines business and is placed on the Department's list, it may remain on the list each month so long as it remains in good repute and continues to satisfy the eligibility requirements of G.S. 58-424(a).

(b) Any eligible company with total capital and surplus of five million five hundred thousand dollars ($5,500,000) or less must file quarterly financial statements within 45 days after the end of each quarter.

CHAPTER 6 - ELEMENTARY AND SECONDARY EDUCATION

SUBCHAPTER 6G - EDUCATION AGENCY RELATIONS

SECTION .0300 - SCHOOL IMPROVEMENT AND ACCOUNTABILITY

.0301 LOCAL SCHOOL IMPROVEMENT PLANS

(a) Student performance goals must be stated in three to five year goals, including annual milestones to measure progress toward those goals. The purpose of these goals is to increase student performance.

(b) Satisfactory progress toward meeting student performance goals is defined as achievement of 75 percent of the annual milestones listed in the approved local school improvement plan.

(c) LEAs that currently meet all or most of the performance standards of the state accreditation plan must set additional locally determined student performance goals. In setting these goals, the LEA must:

(1) establish local student performance goals for any remaining state accreditation performance standards that it does not currently meet;

(2) establish some local student performance goals that are higher than the performance standards in state accreditation; and

(3) establish, for school years after the LEA's first year of participation, student performance goals in additional curricula areas and or in additional grade levels not addressed in state accreditation.

(d) LEAs that currently meet all or most of the performance standards of the state accreditation plan may also:

(1) develop student performance goals in additional curricula areas not currently addressed in state accreditation; and
(2) add additional indicators such as California Achievement Test scores at grades 4, 5 and 7.
(e) The indicators that are included in the state accreditation performance standards, along with Scholastic Aptitude Test scores, are required for measuring and assessing student performance. Additional end of course and end of grade tests will be added to these indicators as they are developed.
(f) LEAs may, but are not required to include as indicators for measuring and assessing student performance and satisfactory performance factors such as:
(1) post-secondary plans;
(2) enrollment in Algebra 1; and
(3) college enrollees who require remediation.
(1) LEAs that develop an evaluation instrument or approach other than the teacher performance appraisal instrument must describe that instrument or approach in the local school improvement plan.

Statutory Authority G.S. 115C-238.1.

.0302 DIFFERENTIATED PAY
(a) No LEA may adopt a differentiated pay plan that includes an across-the-board salary supplement for all certified employees.
(b) The LEA may adopt a differentiated pay plan that includes some, but not all, schools within the LEA, only if the plan is approved by a majority of all certified instructional and instructional support staff and of all certified administrators.
(c) After an LEA that uses the school-based performance model for differentiated pay attains local school goals, the local board of education, upon recommendation of the principal and superintendent, shall determine which certified staff members contributed to the attainment of those goals. The LEA will then distribute differentiated pay bonuses to those employees. A school-based committee that participates in the review of bonus distribution serves only in an advisory role to the principal, who bears the final responsibility for evaluating the performance of certified staff and deciding whom to recommend to the superintendent for bonus distribution.
(d) A school-based differentiated pay plan must include, at a minimum, all full-time certified staff in the participating schools.

Statutory Authority G.S. 115C-238.1.

.0303 FLEXIBLE FUNDING
(a) LEAs that request a waiver of the purpose for which state funds may be used must submit a justification that shows how the waiver is necessary for the LEA to reach its local accountability goals.
(b) Fund transfers that create position from nonposition categories must include matching benefit costs.
(c) Converting or transferring positions or portions of positions from varying lengths of employment must be on a prorata basis and at the beginning salary level of the original classification.
(d) The LEA must request specific permission to use funds for purposes that are not currently authorized.
(e) LEAs may request to transfer positions or portions of positions to dollars for the purpose of one-time expenditures such as capital outlay, administrative equipment or software.
(f) Fund transfers cannot obligate the state to a greater cost than the original allotment.
(g) Waivers will not be considered or granted for:
(1) teacher assistants;
(2) matching state funds for federal vocational education;
(3) transportation;
(4) employee benefits, including annual leave and longevity;
(5) group homes;
(6) Willie M.;
(7) developmental day care; and
(8) all federal funds.

Statutory Authority G.S. 115C-238.1.
