NORTH CAROLINA REGISTER

The North Carolina Register is published bi-monthly and contains information relating to agency, executive, legislative and judicial actions required by or affecting Chapter 150B of the General Statutes. All proposed, administrative rules and amendments filed under Chapter 150B must be published in the Register. The Register will typically comprise approximately fifty pages per issue of legal text.

State law requires that a copy of each issue be provided free of charge to each county in the state and to various state officials and institutions. The North Carolina Register is available by yearly subscription at a cost of one hundred and five dollars ($105.00) for 24 issues.

Requests for subscriptions to the North Carolina Register should be directed to the Office of Administrative Hearings, P. O. Drawer 11666, Raleigh, N. C. 27604, Attn: Subscriptions.

ADOPTION, AMENDMENT, AND REPEAL OF RULES

An agency intending to adopt, amend, or repeal a rule must first publish notice of the proposed action in the North Carolina Register. The notice must include the time and place of the public hearing; a statement of how public comments may be submitted to the agency either at the hearing or otherwise; the text of the proposed rule or amendment; a reference to the Statutory Authority for the action and the proposed effective date.

The Director of the Office of Administrative Hearings has authority to publish a summary, rather than the full text, of any amendment which is considered to be too lengthy. In such case, the full text of the rule containing the proposed amendment will be available for public inspection at the Rules Division of the Office of Administrative Hearings and at the office of the promulgating agency.

Unless a specific statute provides otherwise, at least 30 days must elapse following publication of the proposal in the North Carolina Register before the agency may conduct the required public hearing and take action on the proposed adoption, amendment or repeal.

When final action is taken, the promulgating agency must file any adopted or amended rule for approval by the Administrative Rules Review Commission. Upon approval of ARRC, the adopted or amended rule must be filed with the Office of Administrative Hearings. If it differs substantially from the proposed form published as part of the public notice, upon request by the agency, the adopted version will again be published in the North Carolina Register.

A rule, or amended rule cannot become effective earlier than the first day of the second calendar month after the adoption is filed with the Office of Administrative Hearings for publication in the NCAC.

Proposed action on rules may be withdrawn by the promulgating agency at any time before final action is taken by the agency.

TEMPORARY RULES

Under certain conditions of an emergency nature, some agencies may issue temporary rules. A temporary rule becomes effective when adopted and remains in effect for the period specified in the rule or 180 days whichever is less. An agency adopting a temporary rule must begin normal rule-making procedures on the permanent rule at the same time the temporary rule is adopted.

NORTH CAROLINA ADMINISTRATIVE CODE

The North Carolina Administrative Code (NCAC) is a compilation and index of the administrative rules of 25 state agencies and 38 occupational licensing boards. The NCAC comprises approximately 15,000 letter size single spaced pages of material of which approximately 35% is changed annually. Compilation and publication of the NCAC is mandated by G.S. 150B-63(b).

The Code is divided into Titles and Chapters. Each state agency is assigned a separate title which is further broken down by chapters. Title 21 is designated for occupational licensing boards.

The NCAC is available in two formats:

(1) Single pages may be obtained at a minimum cost of two dollars and 50 cents ($2.50) for 1 pages or less, plus fifteen cents ($0.15) per each additional page.

(2) The full publication consists of 52 volume totaling in excess of 15,000 pages. It is supplemented monthly with replacement pages. Each year subscription to the full publication including supplements can be purchased for seven hundred and fifty dollars ($750.00). Individual volumes may also be purchased with supplement service. Renewal subscriptions for supplements to the initial publication available.

Requests for pages of rules or volumes of the NCA should be directed to the Office of Administrative Hearings.

NOTE

The foregoing is a generalized statement of the procedures to be followed. For specific statutory language it is suggested that Articles 2 and 3 of Chapter 150B of the General Statutes be examined carefully.

* The "Earliest Effective Date" is computed assuming that the public hearing and adoption occur in the calendar month immediately following the "Issue Date", that the agency files the rule with The Administrative Rules Review Commission by the 20th of the same calendar month and that ARRC approves the rule at the next calendar month meeting.
Dear Mr. McCarley:

This refers to the two annexations [Ordinance Nos. 2046 and 2047 (1989)] and the designation of the annexed areas to single-member districts for the City of Greenville in Pitt County, North Carolina, submitted to the Attorney General pursuant to Section 5 of the Voting Rights Act of 1965, as amended, 42 U.S.C. 1973c. We received your submission on September 21, 1989.

The Attorney General does not interpose any objections to the changes in question. However, we feel a responsibility to point out that Section 5 of the Voting Rights Act expressly provides that the failure of the Attorney General to object does not bar any subsequent judicial action to enjoin the enforcement of such changes. See the Procedures for the Administration of Section 5 (28 C.F.R. 51.41).

Sincerely,

James P. Turner
Acting Assistant Attorney General
Civil Rights Division

If conditions (1) or (2) of this Paragraph cannot be met, then the channel below receiving watercourse to and including the discharge point shall be designed and constructed to withstand the expected velocity anywhere the velocity exceeds the "prior to development" velocity by ten percent.

(b) (e) Acceptable Management Measures. The Commission recognizes that management of storm water runoff to control downstream erosion constitutes a developing technology and consequently invites the use of innovative techniques shown to produce successful results. Alternatives include:

(c) (d) Exceptions. This Rule shall not apply when storm water discharge velocities will not create an erosion problem in the receiving watercourse.

(d) (e) The following table sets maximum permissible velocity for storm water discharges:

.0010 BORROW AND WASTE AREAS
If the same person conducts the land disturbing activity and any related borrow or waste activity, the related borrow or waste activity shall constitute part of the land disturbing activity unless the borrow or waste activity is regulated under the Mining Act of 1971, or is a landfill regulated by the Division of Health Services of the Department of Human Resources, Solid Waste Management. If the land disturbing activity and any related borrow or waste activity are not conducted by the same person, they shall be considered separate land-disturbing activities.

.0016 EXISTING UNCOVERED AREAS
(b) The Commission or local government shall serve a notice to comply upon the landowner or other person in possession or control of the land by registered or certified mail or other means reasonably calculated to give actual notice. The notice shall state the measures needed and the time allowed for compliance. The authority serving the notice shall consider the economic feasibility, technological expertise and quantity of work required, and shall establish reasonable time limits.

Statutory Authority G.S. 113A-54(b).

.0018 APPROVAL OF PLANS
(a) Persons conducting land-disturbing activity which covers one or more contiguous acres shall file three copies of the erosion and sedimentation control plan with the local government having jurisdiction or with the Commission if no local government has jurisdiction, at least 30 days prior to beginning such activity and shall keep another copy of the plan on file at the job site. If the Commission or local government determines, either upon review of such plan or on inspection of the job site, that a significant risk of accelerated erosion or off-site sedimentation exists, it will require a revised plan. Pending the preparation of the revised plan, work shall cease or shall continue under conditions outlined by the appropriate authority.
(b) Commission Approval

(1) The Commission shall review plans for all land-disturbing activity over which the Commission has exclusive jurisdiction by statute and all other land-disturbing activity if no local government has jurisdiction.

(2) The Commission shall complete its review of any completed plan within 30 days of receipt and shall notify the person submitting the plan in writing that it has been:
(A) approved,
(B) approved with modification,
(C) approved with performance reservations, or
(D) disapproved.

(3) The Commission's disapproval, modification, or performance reservations of any proposed plan, shall entitle the person submitting the plan to an administrative hearing in accordance with the provisions of G.S. 150B-23.

(4) Subparagraph (b)(2) of this Rule shall not apply to the approval or modification of plans reviewed by the Commission pursuant to G.S. 113A-61(c).

(5) Any plan submitted for a land disturbing activity for which an environmental document is required by the North Carolina Environmental Policy Act shall be deemed incomplete until a complete environmental document is available for review. The Commission shall promptly notify the person submitting the plan that the 30 day time limit for review of the plan pursuant to Subparagraph (b)(2) of this Rule shall not begin until a complete environmental document is available for review.

(c) Erosion and sedimentation control plans may also be disapproved unless they include an authorized statement of financial responsibility and ownership. This statement shall be signed by the person financially responsible for the land-disturbing activity or his attorney in fact. The statement shall include the mailing and street address of the principal place of business of the person financially responsible and of the owner of the land or their registered agents.

(d) Local Government Approval

(1) Local Governments administering erosion and sedimentation control programs shall develop and publish procedures for approval of plans. Such procedures shall respect applicable laws, ordinances, and rules shall contain procedures for appeal consistent with the local government's organization and operations.
(2) The secretary shall appoint such employee(s) of the department as he deems necessary to consider appeals from the local government’s final disapproval or modification of a plan. Within 30 days following receipt of notification of the appeal, such departmental employee shall complete the review and shall notify the local government and the person appealing the local government’s decision that the plan should be approved, approved with modifications, approved with performance reservations, or disapproved.

(3) If either the local government or the person submitting the plan disagrees with the decision reached by an employee of the Department then he may appeal the decision to the Commission by filing notice within 15 days with the Director of the Division of Land Resources. The director shall make the proposed erosion control plan and the records relating to the local government’s and departmental employees review, available to an appeals review committee consisting of three members of the Commission appointed by the chairman. Within 10 days following receipt of the notification of appeal, the appeals review committee shall notify the local government and the person submitting the plan of a place and time for consideration of the appeal, and shall afford both parties an opportunity to present written or oral arguments. The appeals review committee shall notify both parties of its decision concerning the approval, disapproval, or modification of the proposed plan within 30 days following such hearing.

(a) The Commission, Department of Environment, Health, and Natural Resources or local government shall also have the power to require written statements, or the filing or reports under oath, concerning land disturbing activity.

(b) Inspection of sites shall be carried out by the staff of Department of Environment, Health, and Natural Resources or other qualified persons authorized by the Commission or Department of Environment, Health, and Natural Resources as necessary to carry out its duties under the Act.

(c) No person shall refuse entry or access to any authorized representative of the Commission who requests entry for purposes of inspection, and who presents appropriate credentials, nor shall any person obstruct, hamper or interfere with any such representative while in the process of carrying out his official duties.

.0024 DESIGN STANDARDS IN SENSITIVE WATERSHEDS

(a) Uncovered areas in HQW zones shall be limited at any time to a maximum total area within the boundaries of the tract of 20 acres. Only the portion of the land-disturbing activity within a HQW zone shall be governed by this Rule. Larger areas may be uncovered within the boundaries of the tract with the written approval of the Director.

(b) Erosion and sedimentation control measures, structures, and devices within HQW zones shall be so planned, designed and constructed to provide protection from the runoff of the 25 year storm which produces the maximum peak rate of runoff as calculated according to procedures in the United States Department of Agriculture Soil Conservation Service’s “National Engineering Field Manual for Conservation Practices” or according to procedures adopted by any other agency of this state or the United States or any generally recognized organization or association.

(c) Sediment basins within HQW zones shall be designed and constructed such that the basin will have a settling efficiency of at least 70 percent for the 40 micron (0.04mm) size soil particle transported into the basin by the runoff of that two-year storm which produces the maximum peak rate of runoff as calculated according to procedures in the United States Department of Agriculture Soil Conservation Services “National Engineering Field Manual for Conservation Practices” or according to procedures adopted by any other agency of this state or the United States or any generally recognized organization or association.

(d) Newly constructed open channels in HQW zones shall be designed and constructed with side slopes no steeper than two horizontal to one vertical if a vegetative cover is used for stabilization unless soil conditions permit a steeper slope or where the slopes are stabilized by using mechanical devices, structural devices or other acceptable ditch liners. In any event, the angle for side slopes shall be sufficient to restrain accelerated erosion.

(e) Pursuant to G.S. 113A-57(3) provisions for a ground cover sufficient to restrain erosion must be provided for any portion of a land-disturbing
activity in a IWQ zone within 15 working days or 60 calendar days following completion of construction or development, whichever period is shorter.

(b) Where a temporary and minimal disturbance is permitted as an exception by G.S. 113A-57(1), land-disturbing activities in the buffer zone adjacent to designated trout waters shall be limited to a maximum of ten percent of the total length of the buffer zone within the tract to be disturbed such that there is not more than 100 linear feet of disturbance in each 1000 linear feet of buffer zone. Larger areas may be disturbed with the written approval of the Director.

(c) No land-disturbing activity shall be undertaken within a buffer zone adjacent to designated trout waters that will cause adverse temperature fluctuations, as set forth in 15A NCAC 2B .0211 “Fresh Surface Water Classification and Standards”, in these waters.

Statutory Authority G.S. 113A-54(b); 113A-54(c)(1); 113A-57(1).

(b) If, after the allotted time period has expired, the violator has not completed corrective action, a civil penalty may be assessed from the date of receipt of the notice of violation. Notice of the assessment shall be by registered or certified mail or other means reasonably calculated to give actual notice.

TITLE 5 - DEPARTMENT OF CORRECTION

CHAPTER 2 - DIVISION OF PRISONS

SUBCHAPTER 2F - CUSTODY AND SECURITY

SECTION .2400 - KEY CONTROL

.2401 PURPOSE
The purpose of this policy is to promote public safety through the safe and secure operation of facilities in the Division of Prisons by ensuring that all facilities adopt regulations for the control of keys and locks. These regulations will enable correctional staff to maintain effective security through control of all doors, gates, grills and other locking devices that comprise physical plant security both inside and outside of the perimeter. This policy will ensure that correctional staff will have total command of all keys and locking devices supplies, equipment and storage areas that support the key control program. In addition, this policy will promote safety by ensuring that in case of fire or other emergency, exit keys will be readily accessible to designated correctional staff.

.2402 RESPONSIBILITY
(a) The Superintendent/Institution Head is responsible for developing key and lock control procedures for the correctional facility. Institutional procedures regarding key control must be clearly written and available for staff to reference but inmates must not have access to these procedures or to record keeping systems that support them.

(b) The Assistant Superintendent is responsible for ensuring that key control procedures are consistently enforced and audited to assure safe operation of the correctional facility.

(c) The Superintendent shall designate a key and lock control officer who is responsible for the coordination of Locksmiths, inventory, record keeping, making of keys, ordering of keys, issuance of keys, storage of keys, numbering of keys, and any other tasks that are related to key and lock control.

(d) All correctional employees are responsible for safe, secure, and effective key and lock control management practices. Good key control is a system that every staff member must learn and practice. Its fundamentals must be incorporated into every facility’s operations and every staff member’s work habits.

.2403 PROCEDURES
Facility key control procedures is a confidential document and is subject to an annual review to ensure that procedures remain consistent with day to day operation requirements. Inmates should not be permitted to establish any base of information about the facility’s key control system or locking devices. Facility key control procedures must contain the following elements:

1) Descriptions and Categories of Keys - Procedures must clearly define various categories of keys used in the facility so that staff are aware of different accountability requirements for each category. Key categories generally include the following:
   (a) Master Keys: Cut so that one key may actuate more than one locking device in a series of locks from a single manufacturer.
   (b) Security Keys: In the possession of unauthorized persons, these could facilitate an escape or jeopardize the security of the institution, or the safety of employees, visitors, or inmates. Immediate remedial action is necessary if a security key is lost, compromised, or missing.
(i) Emergency Keys: Keys maintained on key rings and kept separate from all regular-issue keys. They provide prompt access to all parts of the institution during fires, disturbances, evacuation, or other urgent situations.

(ii) Restricted Keys: Allow access to sensitive areas of the institution. Special authorization must be obtained before they are issued to anyone other than the employee designated to draw them on a regular basis.

(c) Non-security Keys: Do not require immediate security response if lost or stolen.

(d) Vehicle Keys: Typically operate state owned vehicles including tractors and other specialized machines located inside or outside the perimeter of the facility.

(e) Inactive Keys: Keys no longer used but which are retained as spares and backups for active locks or spare locks. These are also keys maintained separately for other purposes, including storage for other institutions within the system.

(f) Pattern Keys: Keys from which all other keys for a particular lock or series of locks are cut. They are maintained separately from all other spare or blank keys.

(2) Key Issue System - Facility key control procedures must include a description of the key issue system. The key issue system should describe centralized points from which keys are issued with the centralized location being secure and not accessible to inmates. The system must require employee accountability as keys are issued from a central location or exchanged between employees as post assignments are changed. The key issue system should accommodate at least the following:

(a) Key Boards as required;
(b) Separate handling of state vehicle keys;
(c) Provisions for the permanent issue to an individual or to a post of selected keys;
(d) Actions required by employees who lose or break keys;
(e) Compatibility of key issue procedures with respective post orders; and
(f) A Key Issue Log.

Keys to the areas in Subparagraphs (4)(a) through (4)(g)(ii) should be issued only to authorized staff and only after supervisory approval. A specific record shall be required to document the issue of restricted keys.

Any and all changes effecting the inventory in any manner must be authorized by theSuperintendent. Keys, key blanks, and locks will be inventoried as to number, date issued out, ring location, etc. Keys or locks lost or destroyed will be logged in a similar manner.
