INFORMATION ABOUT THE NORTH CAROLINA REGISTER AND ADMINISTRATIVE CODE

NORTH CAROLINA REGISTER

The North Carolina Register is published bi-monthly and contains information relating to agency, executive, legislative and judicial actions required by or affecting Chapter 150B of the General Statutes. All proposed, administrative rules and amendments filed under Chapter 150B must be published in the Register. The Register will typically comprise approximately fifty pages per issue of legal text.

State law requires that a copy of each issue be provided free of charge to each county in the state and to various state officials and institutions. The North Carolina Register is available by yearly subscription at a cost of one hundred and five dollars ($105.00) for 24 issues.

Requests for subscriptions to the North Carolina Register should be directed to the Office of Administrative Hearings, P.O. Drawer 27447, Raleigh, N.C. 27611-7447, Attn: Subscriptions.

ADOPTION, AMENDMENT, AND REPEAL OF RULES

An agency intending to adopt, amend, or repeal a rule must first publish notice of the proposed action in the North Carolina Register. The notice must include the time and place of the public hearing; a statement of how public comments may be submitted to the agency either at the hearing or otherwise; the text of the proposed rule or amendment; a reference to the Statutory Authority for the action and the proposed effective date.

The Director of the Office of Administrative Hearings has authority to publish a summary, rather than the full text, of any amendment which is considered to be too lengthy. In such case, the full text of the rule containing the proposed amendment will be available for public inspection at the Rules Division of the Office of Administrative Hearings and at the office of the promulgating agency.

Unless a specific statute provides otherwise, at least 30 days must elapse following publication of the proposal in the North Carolina Register before the agency may conduct the required public hearing and take action on the proposed adoption, amendment or repeal.

When final action is taken, the promulgating agency must file any adopted or amended rule for approval by the Administrative Rules Review Commission. Upon approval of ARRC, the adopted or amended rule must be filed with the Office of Administrative Hearings. If it differs substantially from the proposed form published as part of the public notice, upon request by the agency, the adopted version will again be published in the North Carolina Register.

A rule, or amended rule cannot become effective earlier than the first day of the second calendar month after the adoption is filed with the Office of Administrative Hearings for publication in the NCAC. Proposed action on rules may be withdrawn by the promulgating agency at any time before final action is taken by the agency.

TEMPORARY RULES

Under certain conditions of an emergency nature, some agencies may issue temporary rules. A temporary rule becomes effective when adopted and remains in effect for the period specified in the rule or 180 days whichever is less. An agency adopting a temporary rule must begin normal rule-making procedures on the permanent rule at the same time the temporary rule is adopted.

NORTH CAROLINA ADMINISTRATIVE CODE

The North Carolina Administrative Code (NCAC) is a compilation and index of the administrative rules of 25 state agencies and 38 occupational licensing board. The NCAC comprises approximately 15,000 letter size single spaced pages of material of which approximately 35% is changed annually. Compilation and publication of the NCAC are mandated by G.S. 150B-63(b).

The Code is divided into Titles and Chapters. Each state agency is assigned a separate title which is further broken down by chapters. Title 21 is designated for occupational licensing boards.

The NCAC is available in two formats.

1) Single pages may be obtained at a minimum cost of two dollars and 50 cents ($2.50) for 75 pages or less, plus fifteen cents ($0.15) per additional page.

2) The full publication consists of 53 volumes totaling in excess of 15,000 pages. It is supplemented monthly with replacement pages. One year subscription to the full publication including supplements can be purchased for seven hundred and fifty dollars ($750.00). Individual volumes may also be purchased with or without supplement service. Renewal subscriptions for supplements to the initial publication are available.

Requests for pages of rules or volumes of the NCAC should be directed to the Office of Administrative Hearings.

NOTE

The foregoing is a generalized statement of the procedures to be followed. For specific statutory language it is suggested that Articles 2 and 5 of Chapter 150B of the General Statutes be examined carefully.

CHAPTER 26 - MEDICAL ASSISTANCE

SUBCHAPTER 26H - REIMBURSEMENT PLANS

SECTION .0200 - HOSPITAL INPATIENT REIMBURSEMENT PLAN

.0202 RATE SETTING METHODS
(a) An annual rate is determined for each hospital to be effective for dates of service beginning each July 1. Rates are derived from cost reports for a base-year period or from previous appeal decisions. The initial base-year is the cost-reporting period ending in 1981. Services pro-
vided prior to July 1, 1986 are reimbursed at rates not to exceed the rates effective July 1, 1985.

(b) The prospective rate is the sum of the operating rate component and the capital rate component. The capital rate component is the higher of the base-year capital per diem cost or the most recent capital rate as adjusted upon previous appeal. The base-year capital cost per diem is computed by dividing total capital costs allocated to inpatient services by total inpatient days. The operating rate component is determined by inflating the Medicaid base-year operating cost per diem to the rate year. The base-year operating cost per diem is computed by subtracting the capital cost per diem from the total base-year Medicaid cost per diem. Base-year Medicaid costs include inpatient routine, special care, and ancillary services, malpractice insurance, interns' and residents' services, and other covered inpatient services.

(c) Inflation factors for the operating rate components are based on the National Hospital Market Basket Index and the most recent actual and projected cost data available from the North Carolina Office of State Budget and Management.

(d) This plan intends to encourage the use of lower-cost hospitals for routine illnesses. Hospitals with rates at or below the all-hospital mean will be reimbursed at the full prospective rate without day limits. Hospitals with rates higher than the mean rate of all hospitals will be reimbursed at the full prospective rate up to an annual days limit. Days in excess of the limit will be reimbursed at the mean rate of hospitals below the all-hospital mean.

(e) The prospective rate for a new hospital is set at the lower of:

1. The all-hospital mean rate; or
2. Seventy-five percent of the hospital's projected average gross inpatient revenue per day during the first year of operations.

This provision applies to a hospital if a cost report covering at least twelve months of normal operations has not been filed. This rate is the base-year rate until a desk-reviewed cost report covering at least twelve months of normal operations is available.

(f) Out-of-state hospital services are reimbursed according to the rates established by the Medicaid Agency of the State in which the hospital is located. If a usable rate cannot be obtained, services are reimbursed at 75 percent of billed charges or a negotiated rate not to exceed reasonable cost.

(g) The initial base-year for psychiatric hospitals is the cost reporting period ending in 1989, or 1990 if a full year cost report is available as of April 1, 1991. The total base-year per diem cost for a hospital is limited to the median per diem cost in the base-year of all psychiatric hospitals. The limit does not apply to or reduce any amortization of start-up costs of an individual hospital. The provisions of Rule .0202(d) do not apply to psychiatric hospitals. State-operated hospitals are not included in the calculation of the median per diem cost.

(h) To assure compliance with the separate upper payment limit for State-operated facilities, the hospitals operated by the Department of Human Resources will be reimbursed their reasonable costs in accordance with the provisions of the Medicare Provider Reimbursement Manual.

(i) This plan intends to encourage the use of lower-cost hospitals for routine illnesses. Hospitals with rates at or below the all-hospital mean will be reimbursed at the full prospective rate without day limits. Hospitals with rates higher than the mean rate of all hospitals will be reimbursed at the full prospective rate up to an annual days limit. Days in excess of the limit will be reimbursed at the mean rate of hospitals below the all-hospital mean. This reimbursement limitation will be eliminated for claims paid in April, May and June 1991 and thereafter if and when:

1. the Health Care Financing Administration, U.S. Department of Health and Human Services, approves amendments submitted to HCFA by the Director of the Division of Medical Assistance on or about March 14, 1991 as §MA 91-10 and §MA 91-11, wherein the Director proposes amendment of the State Plan to eliminate the "Annual Days Limit" to the Plan, and
2. the Director of the Division of Medical Assistance determines that sufficient funds are available pursuant to Rule .0206(b)(2) of this Section or otherwise for this purpose.

Authority G.S. 108A-25(b); 108A-54; 108A-55; S.L. 1985, c. 479, s. 86; 42 C.F.R. 447, Subpart C.

.0204 ADMINISTRATIVE RECONSIDERATION REVIEWS

(a) Reconsideration reviews of rate determinations will be processed in accordance with the provisions of 10 NCAC 26K. Requests for reconsideration reviews must be submitted to the Division of Medical Assistance within 60 days after rate notification, unless unexpected conditions causing intense financial hardship arise, in
which case a reconsideration review may be considered at any time.

(b) Operating rate reconsideration reviews are considered only on the basis of the actual additional cost of essential new services or patient mix changes incurred since the base year.

(c) Capital rate reconsideration reviews are considered only for the additional cost of new construction, renovations and equipment, consistent with the Certificate of Need approval if required.

(d) A hospital's adjusted rate for one or more of the factors cited in the Paragraphs (a) - (c) of this Rule cannot exceed a rate limit computed by applying the methods described in Rule 0202 (b) and (c) of this Subchapter to the hospital's allowable Medicaid cost in the most recent annual cost report available.

(e) Hospitals that serve a disproportionate share of low-income patients are eligible to receive rate adjustments. The cost report data and financial information that is required in order to qualify as a disproportionate share hospital effective April 1, 1991 is based on the fiscal year ending in 1989 for each hospital as submitted to the Division of Medical Assistance on or before April 1, 1991. The cost report data and financial information to qualify as a disproportionate share hospital effective July 1, 1991 is based on the fiscal year ending in 1990 for each hospital as submitted to the Division of Medical Assistance on or before September 1, 1991. In subsequent years, qualifications effective July 1, of any particular year are based on each hospital's fiscal year ending in the preceding calendar year. The patient days, costs, revenues, or charges related to nursing facility services, swing-bed services, home health services, outpatient services, or any other service that is not a hospital inpatient service, cannot be used to qualify for disproportionate share status. A hospital is deemed to be a disproportionate share hospital if:

(1) The hospital has at least 2 obstetricians with staff privileges at the hospital who have agreed to provide obstetric services to individuals eligible for Medicaid. In the case of a hospital located in a rural area, the term obstetrician includes any physician with staff privileges at the hospital to perform non-emergency obstetric procedures. This requirement does not apply to a hospital which did not offer non-emergency obstetric services as of December 21, 1987 or to a hospital that predominantly serves individuals under 18 years of age; and

(2) The hospital's Medicaid inpatient utilization rate, defined as the percentage resulting from dividing Medicaid patient days by total patient days, is at least one standard deviation above the mean Medicaid inpatient utilization rate for all hospitals that receive Medicaid payments in the state; or

(3) The hospital's low-income utilization rate exceeds 25 percent. The low-income utilization rate is the sum of:

(A) the ratio of the sum of Medicaid inpatient revenues plus cash subsidies received from the State and local governments, divided by the hospital's total patient revenues; and

(B) the ratio of the hospital's gross inpatient charges for charitable care less the cash subsidies for inpatient care received from the State and local governments, divided by the hospital's total inpatient charges; or

(4) The sum of the hospital's Medicaid revenues, bad debts allowance net of recoveries, and charity care exceeds 20 percent of gross patient revenues; and or

(5) The hospital, in a ranking of hospitals in the State, from most to least in number of Medicaid patient days provided, is among the top group that accounts for 50 percent of the total Medicaid patient days provided by all hospitals in the State.

(f) The rate adjustment for a disproportionate share hospital is equal to the higher of the percentage adjustment received for the fiscal year 1987-88 or 2.5 percent plus one-fourth of one percent for each percentage point that a hospital's Medicaid inpatient utilization rate exceeds one standard deviation of the mean Medicaid inpatient utilization rate in the State. The rate adjustment is applied to a hospital's payment rate exclusive of any previous disproportionate share adjustments.

(g) For hospitals eligible under Paragraph (e) of this Rule, an additional payment adjustment may be made to each hospital for services provided in the months of April, May, and June, 1991 equal to the product of the ratio of each hospital's total Medicaid inpatient days divided by the total Medicaid inpatient days provided by all disproportionate share hospitals in the state during their fiscal years ending in 1989 multiplied by an amount of funds to be determined by the Director of the Division of Medical Assistance, but not to exceed one hundred forty million dollars ($140,000,000). Each hospital's payment adjustment will be paid retrospectively in up to three installments. An additional payment adjustment by this methodology may be made for services provided in the months of July, August, September, October, November and December.
1991 based on the Medicaid and total inpatient days as filed in the hospital cost reports for fiscal years ending in 1990. The amount of funds to be determined by the Director shall not exceed one hundred sixty million dollars ($160,000,000).

(h) Except as otherwise specified in this Rule, rate adjustments are considered based on the most recent annual cost report, audited financial statements when necessary and other required information as submitted by a hospital provider. An adjustment cannot be made if the necessary information is not submitted or if the information is incomplete or incorrect. A rate adjustment can be applied retroactively to the most recent July 1 effective date, but cannot be applied to previous fiscal years.

(i) For hospitals eligible under Paragraph (e), a payment adjustment is available for services involving exceptionally high costs or exceptionally long lengths of stay for patients under six years of age. A payment adjustment is available for all the other hospitals for such services provided to patients under one year of age. A five percent increase above the normal payment amount (as described in Paragraph (i) of this Rule) will be provided for the inpatient claims with billed charges in excess of fifty-five thousand dollars ($55,000) or with stays in excess of 65 days. The fifty-five thousand dollar ($55,000) threshold will be increased annually by the inflation factor described under Paragraph (e) of this Rule of the Rate Setting Methods section of this plan. This provision is effective for dates of service beginning July 1, 1991.

Authority G.S. 108A-25(b); 108A-54; 108A-55; 150B-11; S.L. 1985, c. 479, s. 86; 42 C.F.R. 447, Subpart C.

.0206 PAYMENT ASSURANCE

(a) The state will pay each hospital the amount determined for inpatient services provided by the hospital according to the standards and methods set forth in this Section. (Reference the North Carolina Title XIX Hospital Inpatient Prospective Reimbursement Plan in the State Plan for Medical Assistance.) In all circumstances involving third party payment, Medicaid will be the payor of last resort.

(b) If contributions are made pursuant to General Statute 143-23.2 during calendar year 1991, the Department has determined that it will use them as follows:

(1) the Department will present the contributed funds to the federal government to be matched pursuant to federal financial participation rules. The total of the contributed and matched funds hereinafter will be referred to as the "Funds" to be disbursed in the order set forth in this Rule.

(2) the contributed funds will provide the total non-federal share of Medicaid expenditures made with the Funds.

(3) up to forty million dollars ($40,000,000) of the Funds will be used to fund elimination of the target day provision as described in 10 NCAC 26H .0202(h) for fiscal years 1990-91 and 1991-92, and to further other State Medicaid purposes for those fiscal years.

(4) any remaining Funds, not to exceed one hundred forty million dollars ($140,000,000), will be used to make an additional payment adjustment to disproportionate share hospitals for services provided in April, May and June, 1991, as provided in Rule .0204(g) of this Section.

(5) any remaining Funds, not to exceed twenty-two million five hundred thousand dollars ($22,500,000), will be used to fund elimination of the target day provision referenced in Paragraph (b)(3) of this Rule for fiscal years '92-'93 and to further other State Medicaid purposes.

(6) any remaining Funds, not to exceed one hundred sixty million dollars ($160,000,000), will be used to make an additional payment adjustment to disproportionate share hospitals for services provided in July, August, September, October, November and December, 1991, as provided in Rule .0204(s).

(c) If contributions are made pursuant to General Statute 143-23.2 at any time subsequent to calendar year 1991, the Department shall determine how it wishes to use such funds at that time.

(d) Contributed funds shall be earmarked and maintained in a segregated account in accordance with General Statute 143-23.2(b).

SUBCHAPTER 4611 - POLICIES FOR PROVISION OF CHILD DAY CARE SERVICES
SECTION .0200 - ELIGIBILITY FOR SERVICES

.0201 BASIC ELIGIBILITY CRITERIA
(a) In addition to the requirements of 10 NCAC 46H .0100, in order for an individual to be determined eligible to receive child day care services funded under the Social Services Block Grant (SSBG) or the State Day Care Fund, it must be established that he is eligible:
(1) on the basis of income maintenance status;
(2) on the basis of income eligible status; or
(3) for day care to support protective services as described in 10 NCAC 46H .0106, on the basis of need without regard to income.
(b) When child day care services are provided as support to employment or training for the parent, eligibility must be determined on the basis of the status of the parent except that when the child is in foster care, eligibility is determined on the basis of the child's circumstances.

Statutory Authority G.S. 143B-153.

.0203 INCOME ELIGIBLE STATUS
(a) Individuals other than those eligible on the basis of income maintenance status may be determined eligible on the basis of the family's monthly gross income.
(b) In order to be eligible on the basis of income eligible status, an individual's family monthly gross income may not exceed the state's established income for that size family and the maximum income level for child day care services.
(c) For purposes of determining income eligibility, an individual's family size and income must be determined.
(d) For purposes of determining family size, family means the basic family unit consisting of one or more adults and children if any, related by blood, marriage, or adoption and residing in the same household. Where related adults, other than spouses, or unrelated adults reside together, such is considered a separate family. Children living with nonlegally responsible relatives, emancipated minors, and children living under the care of unrelated persons are also considered to be one-person families.
(e) Components of income that are considered in computing family monthly gross income are set forth in the Family Services Manual as described in 10 NCAC 35A .0003.

(a) For the purpose of the rules in this Subchapter, the term "income unit" shall apply to persons who reside in the same household and who, according to North Carolina law, are responsible for the financial support of the individual whose eligibility for child day care services is being determined. Also for the purpose of determining eligibility for day care services, the terms "income unit" and "family" are used interchangeably in the rules in this Subchapter.
(b) When the amount of income available to an individual is a condition of eligibility for child day care services, it is necessary to determine the number of persons in the individual's income unit and the amount of the gross income available to the income unit.
(1) The number of individuals in the income unit is referred to as the "income unit size" or "family size". These terms are used interchangeably in the rules in this Subchapter.
(2) The total amount of the income used to determine day care eligibility is referred to as the "gross income of the income unit" or "family income". These terms are used interchangeably in the rules in this Subchapter.
(c) Child day care services may be provided to individuals other than those described in 10 NCAC 46D .0103(c) and in Rules .0202 and .0206 of this Subchapter provided the gross monthly income of the individual's income unit does not exceed the state's established income (as defined in Rule .0204 of this Subchapter) for the number of persons in that income unit.
(d) The following are defined as separate income units for the purposes of determining eligibility and client fees for child day care services:
(1) Biological and adoptive parents and their minor children.
(2) A minor parent and his or her children.
(3) Each adult whether related or unrelated, other than spouses.
(4) Children living with anyone other than their biological or adoptive parents.

SUBCHAPTER ID - COMPENSATION

SECTION .0200 - NEW APPOINTMENTS

.0211 SALARY RATE
(b) It is intended that agencies make as few appointments above the hiring rate (or applicable special entry rate) as possible. Rates above this may be requested when:

(2) the applicant possesses exceptional qualifications above the hiring requirements of the class specification, and operational needs exist which justify filling the position at the salary above the minimum of the range. The additional experience and training must be in the same or closely related area to that stated as acceptable in the class specification. Generally, up to five four percent above the minimum rate may be considered for each qualifying year of directly related experience and or education above the minimum requirements not to exceed the midpoint of the range without prior approval of the State Personnel Director.

Statutory Authority G.S. 126-4(2).

SECTION .0300 - PROMOTION

.0308 SALARY INCREASES

The purpose of a promotional pay increase is to reward the employee for the assumption of duties more responsible and more difficult than those in the current position. Subject to the availability of funds, salary increases, not to exceed the maximum of the range, may be given in accordance with the following:

(1) Permanent Promotion:

(c) If the employee being promoted has had directly related training and experience which exceeds the minimum qualifications for the position, the salary may be increased by more than five percent.
commensurate with the related training and experience, the total not to exceed five percent for each salary grade provided by the promotion. The nature and magnitude of the change in jobs, the need to maintain equity of salaries within the work unit, and other management needs must be given consideration when making such requests. However, if an employee has been reduced to a lower salary grade through demotion, reassignment, reallocation or salary range revision, but without a corresponding reduction in salary, and the employee is later promoted to a position with a higher grade, the number of grades in the original reduction shall be considered to have been compensated and shall not be considered in the salary setting procedure in this Rule.

Statutory Authority G.S. 126-4.

SECTION .0500 - SEPARATION

.0509 SEVERANCE SALARY CONTINUATION
Severance salary continuation shall be paid to a state employee who is terminated as a result of reduction-in-force and for whom there is no foreseeable opportunity for reemployment at the time of separation. This policy provides for uniform application of severance salary continuation for employees who are involuntarily separated due to reduction-in-force. Payment is based on total state service supplemented by an age factor. The age factor recognizes that older employees, although protected from discrimination on the basis of age, do have a more difficult time finding new employment due to lack of transferable skills, current salary level, geographic location and other factors.
1. Eligible Employees:
(a) A permanent full-time or part-time (20 hours or over) employee who does not obtain another permanent job in state government by the effective date of the reduction-in-force shall be eligible for severance salary continuation when separated. Also eligible are employees with trainee appointments who have completed six months of service, and employees who attained permanent status prior to entering a trainee appointment. This shall not apply to employees whose reduction-in-force is not considered permanent; that is, employees who are reduced-in-force on a temporary or seasonal basis with the expectation that they will return to work within 12 months.

(2) Amount and Method of Payment:
(a) Severance salary continuation shall be based on total state service (except as noted in this Rule) and supplemented by an age adjustment factor as follows:
   (i) Amount of Salary Continuation:
   Years of Service	Payment
   Less than 1 year	2 weeks
   1 but less than 5 years	1 month
   5 but less than 10 years	2 months
   10 but less than 20 years	3 months
   15 but less than 20 years	3.5 months
   20 or more years	4 months
   (h) Funds for severance salary continuation will be provided as directed by the Office of State Budget and Management. G.S. 143-27.2 provides that severance wages are authorized by the Director of the Budget upon written request of a state agency and with recommendation by the State Personnel Director. All severance payments are contingent upon the availability of funds. If funds are not sufficient for full payment to all employees, distribution of available funds shall be on a pro-rata basis such that all employees will receive a pro-rated payment in accordance with their age and service. In cases where the agency is not paying the full amount, the agency shall submit documentation signed by the agency head to the State Personnel Director and the State Budget Director.

Statutory Authority G.S. 126-4(10); 143-27.2.

SECTION .0600 - REALLOCATION

.0611 REALLOCATION/SALARY RATE
(a) When an employee’s position is assigned to a higher grade as a result of reallocation, subject to the availability of funds and satisfactory employee performance, salary increases, not to exceed the maximum of the range, may be given in accordance with the following:
(3) Salaries within the range may remain the same; or if funds are available and where appropriate, individual salary increases may be considered, based on the employee’s directly related training and experience which exceeds the minimum qualifications for the position, but not to exceed five percent for each salary grade provided by the reallocation. Salary equity within the work unit and other management needs must be given consideration when making such requests.
PROPOSED RULES

Statutory Authority G.S. 126-4.

SECTION .0700 - SALARY RANGE REVISION

.0706 ASSIGNMENT TO A HIGHER GRADE
(a) When a classification is assigned to a higher grade as a result of changes in the labor market, employees whose job performance is not satisfactory or who are in formal disciplinary procedure for either performance or personal conduct are not eligible for any increase in salary. All increases are subject to the availability of funds and cannot exceed the maximum of the range. Increases are also subject to the following conditions:
(3) Salaries within the range do not have to be increased, but if funds are available and where appropriate, individual salary increases of any amount may be considered, but the total cannot exceed a five percent increase for each salary grade the dollar amount provided by the salary range revision difference in the minimum salaries of the old range and the new range. Salary equity within the work unit must be maintained and other management needs must be given consideration when making such requests. However, if an employee has been reduced to a lower salary grade through demotion, reassignment, reallocation or salary range revision, but without a corresponding reduction in salary, and the employee's position is later assigned to a higher grade as a result of salary range revision, the number of grades in the original reduction shall be considered to have been compensated and shall not be considered in the salary setting procedure in Subparagraph (3) of this Rule. If the reduction in grade occurred as much as 24 months previously, the agency may give consideration to granting a salary increase within the provisions of this policy. The need to maintain equity of salaries within the work unit must be a major consideration.

Statutory Authority G.S. 126-4.

SUBCHAPTER LJ - EMPLOYEE RELATIONS

SECTION .0600 - DISCIPLINARY ACTION: SUSPENSION AND DISMISSAL

.0606 DISMISSAL
Before an employee may be dismissed on the basis of job performance, the following shall occur:

(1) The supervisor recommending dismissal should discuss the recommendation with and receive the approval of appropriate agency management. The Supervisor recommending dismissal shall discuss the recommendation with appropriate agency management and receive management's authorization to hold a pre-dismissal conference with the employee. The purpose of the pre-dismissal conference is to review the recommendation with the affected employee, and by listening to and considering information put forth by the employee, to insure that such a significant personnel action is not based on mistaken or erroneous information and conclusions.

(2) A pre-dismissal conference shall be held between the supervisor or other appropriate manager and the employee. Witnesses, a second management representative or security personnel may be present at management's request. The management representative shall give the employee verbal or written notice including the specific reasons for the proposed dismissal and a brief summary of the information which management believes supports the proposed dismissal. The employee shall have the right to respond to that notice of proposed dismissal in the conference. The Supervisor or designated management representative shall schedule and conduct a pre-dismissal conference with the employee. Advance notice of the pre-dismissal conference must be given to the employee. A second management representative or security personnel may be present at management's discretion. No attorneys representing either side may attend the conference. In the conference, the Supervisor shall give the employee oral or written notice of the recommendation for dismissal, including specific reasons for the proposed dismissal and a summary of the information supporting that recommendation. The employee shall have an opportunity to respond to the proposed dismissal, to refute information supporting the recommended dismissal action and to offer information or arguments to support his position. Every effort shall be made by the Supervisor or the designated management representative to assure that the employee has had a full opportunity to set forth any information in his possession in opposition to his dismissal prior to the end of the conference.

(3) If, at the end of the pre-dismissal conference, the management representative determines
that dismissal is still justified, he may present the employee with a letter of dismissal. However, the management representative may elect to defer the dismissal based on information presented by the employee, and reconsider the proposed dismissal. If, following such reconsideration, the decision is to dismiss, then no further pre-dismissal conference is required. Following the conference, management shall review and consider the response of the employee and reach a decision on the proposed recommendation. If management's decision is to dismiss the employee, a written letter of dismissal shall be prepared containing the specific reasons for dismissal and the employee's appeal rights. To minimize the risk of dismissal upon erroneous information, and to allow time following the conference for management to review all necessary information, the decision to dismiss should normally not be communicated to the employee prior to the beginning of the next business day following the conclusion of the pre-dismissal conference. The employee shall be informed of the decision and furnished, either in person or by mail, a copy of the letter of dismissal, receipt of which shall constitute dismissal. A management decision not to dismiss the employee may be communicated to the employee at any time following the conclusion of the conference.

(4) The employee must be given written notice of the dismissal. This written notice must include specific reasons for the dismissal and the employee's right of appeal.

(5) Upon dismissal on the basis of unsatisfactory job performance only an employee may be given up to two weeks' pay in lieu of two weeks' notice. Pay in lieu of notice shall not apply to dismissals based on personal conduct.

(4) A permanent employee who is to be dismissed for unsatisfactory job performance should be given up to two weeks' working notice of his dismissal. In management's discretion, an employee may be given up to two weeks' pay in lieu of the working notice. Such working notice or pay in lieu of notice is applicable only to dismissals for unsatisfactory job performance.

Statutory Authority G.S. 126-4.

The North Carolina Administrative Code (NCAC) has four major subdivisions of rules. Two of these, titles and chapters, are mandatory. The major subdivision of the NCAC is the title. Each major department in the North Carolina executive branch of government has been assigned a title number. Titles are further broken down into chapters which shall be numerical in order. The other two, subchapters and sections are optional subdivisions to be used by agencies when appropriate.
