NORTH CAROLINA REGISTER

The North Carolina Register is published bi-monthly and contains information relating to agency, executive, legislative and judicial actions required by or affecting Chapter 150B of the General Statutes. All proposed, administrative rules and amendments filed under Chapter 150B must be published in the Register. The Register will typically comprise approximately fifty pages per issue of legal text.

State law requires that a copy of each issue be provided free of charge to each county in the state and to various state officials and institutions. The North Carolina Register is available by yearly subscription at a cost of one hundred and five dollars ($105.00) for 24 issues.

Requests for subscriptions to the North Carolina Register should be directed to the Office of Administrative Hearings, P.O. Drawer 27447, Raleigh, N.C. 27611-7447, Attn: Subscriptions.

ADOPTION, AMENDMENT, AND REPEAL OF RULES

An agency intending to adopt, amend, or repeal a rule must first publish notice of the proposed action in the North Carolina Register. The notice must include the time and place of the public hearing; a statement of how public comments may be submitted to the agency either at the hearing or otherwise; the text of the proposed rule or amendment; a reference to the Statutory Authority for the action and the proposed effective date.

The Director of the Office of Administrative Hearings has authority to publish a summary, rather than the full text, of any amendment which is considered to be too lengthy. In such case, the full text of the rule containing the proposed amendment will be available for public inspection at the Rules Division of the Office of Administrative Hearings and at the office of the promulgating agency.

Unless a specific statute provides otherwise, at least 30 days must elapse following publication of the proposal in the North Carolina Register before the agency may conduct the required public hearing and take action on the proposed adoption, amendment or repeal.

When final action is taken, the promulgating agency must file any adopted or amended rule for approval by the Administrative Rules Review Commission. Upon approval of ARRC, the adopted or amended rule must be filed with the Office of Administrative Hearings. If it differs substantially from the proposed form published as part of the public notice, upon request by the agency, the adopted version will again be published in the North Carolina Register.

A rule, or amended rule cannot become effective earlier than the first day of the second calendar month after the adoption is filed with the Office of Administrative Hearings for publication in the NCAC.

Proposed action on rules may be withdrawn by the promulgating agency at any time before final action is taken by the agency.

TEMPORARY RULES

Under certain conditions of an emergency nature, some agencies may issue temporary rules. A temporary rule becomes effective when adopted and remains in effect for the period specified in the rule or 180 days whichever is less. An agency adopting a temporary rule must begin normal rule-making procedures on the permanent rule at the same time the temporary rule adopted.

NORTH CAROLINA ADMINISTRATIVE CODE

The North Carolina Administrative Code (NCAC) is a compilation and index of the administrative rules of 25 state agencies and 38 occupational licensing boards. The NCAC comprises approximately 15,000 letter size single spaced pages of material of which approximately 35% is changed annually. Compilation and publication of the NCAC is mandated by G.S. 150B-63(b).

The Code is divided into Titles and Chapters. Each state agency is assigned a separate title which is further broken down by chapters. Title 21 is designated for occupational licensing boards.

The NCAC is available in two formats.

1. Single pages may be obtained at a minimum cost of two dollars and 50 cents ($2.50) for pages or less, plus fifteen cents ($0.15) per additional page.

2. The full publication consists of 53 volumes totaling in excess of 15,000 pages. It is supplemented monthly with replacement pages one year subscription to the full publication including supplements can be purchased for seven hundred and fifty dollars ($750.00). Individual volumes may also be purchased with a subscription service. Renewal subscriptions to supplements to the initial publication available.

Requests for pages of rules or volumes of the NCAC should be directed to the Office of Administrative Hearings.

NOTE

The foregoing is a generalized statement of the procedures to be followed. For specific statutory language it is suggested that Articles 2 and 5 of Chapter 150B of the General Statutes be examined carefully.

EXECUTIVE ORDER NUMBER 140
APPOINTING SPECIAL COMMISSION
TO INVESTIGATE SHORTAGES IN THE
NORTHAMPTON COUNTY SCHOOLS’
FINANCES

The Northampton County Board of Commissioners has asked that I appoint a special commission to investigate shortages and the causes for the shortages in the Northampton County Schools’ finances. Documents were submitted in support of the request which evidence that shortages totaling $484,185 were suffered during the 1988-89 and 1989-90 school years and that there have been various violations of the North Carolina School Finance Act. The request was made by the Northampton County Board because it felt that the financial condition of the schools had deteriorated to the point that neither the Northampton Board of Education nor the Northampton County Board could cope with it.

North Carolina General Statute §143-158 authorizes the Governor to appoint special commissions to investigate State departments or institutions and submit their findings to him.

Article IX, Sec. 5 of the Constitution vests the State Board of Education with the authority and responsibility for supervising and administering the State’s free public school system and the educational funds provided by the State for its support. Northampton County Schools is a part of the free public school system and it and the funds provided for its support are subject to the supervision and administration of the State Board of Education.

The State Auditor has the authority and resources to do much of the work that will be required for the State Board of Education to make the investigation requested by the Northampton County Board. The State Board of Education has made known to me that it would be helpful to the State Board to have the benefit of the assistance of the State Auditor in carrying out the investigation.

Therefore, as requested by the Northampton County Board of Commissioners and pursuant to Articles III, Sec. 1 and Article IX, Sec. 5 of the Constitution and North Carolina General Statutes §143-158, §143A-25 and §147-64.6(c)(3), it is ORDERED:

Section 1: The State Board of Education is hereby designated a Special Commission to investigate alleged shortages in the Northampton County School’s finances and the causes for such shortages and report to me (i) the results of its findings and (ii) its recommendations for remedying whatever shortcomings found.

Section 2: The State Auditor is hereby requested to assist the State Board of Education in its investigation by conducting a Special Investigation and Compliance Audit of the Northampton County Schools for such periods as are found to be indicated for the State Board of Education to discharge its responsibilities hereunder and to do all such other things as appear to the State Auditor to be appropriate to that end and to report the results of the same to the State Board of Education.

Section 3: The Attorney General, the Department of Justice, the State Treasurer, the Local Government Commission and all other agencies of the State called upon to do by the State Board of Education and/or the State Auditor, shall furnish assistance to the State Board and/or the State Auditor in conducting this investigation.

Section 4: This Executive Order shall be effective immediately and shall remain in effect until terminated by me or my successor.

Done in Raleigh, North Carolina, this 22nd day of April, 1991.

CHAPTER 26 - MEDICAL ASSISTANCE

SUBCHAPTER 26H - REIMBURSEMENT PLANS

SECTION .0100 - REIMBURSEMENT FOR NURSING FACILITY SERVICES

.0101 REIMBURSEMENT PRINCIPLES

Effective October 1, 1984 and each October 1 thereafter all All certified Skilled Nursing and Intermediate Care nursing facilities participating in the North Carolina Medicaid Program are reimbursed on a prospective basis as set forth hereunder. Combination facilities containing both a SNF and ICF portion are treated as two separate facilities for rate setting purposes. This plan is developed in accordance with the requirements of 42 CFR 447 Subpart C - Payment for Inpatient Hospital and Long-Term Care Facility Services. Providers must comply with all federal regulations and with the provisions of this plan.

Authority G.S. 108A-25(b); 108A-54; 108A-55; S.L. 1985, c. 479, s. 86; 42 C.F.R. 447, Subpart C.

.0102 RATE SETTING METHODS

(a) A rate for each facility is skilled nursing care and a rate for intermediate nursing care are determined annually for each facility to be effective for dates of service for a twelve month period beginning each October 1. Each patient will be classified in one of the two categories depending on the services needed. Rates are derived from either desk or field audited cost reports for a base year period to be selected by the state. Cost reports are filed and audited under provisions set forth in Rule .0104 of this Section. The criteria for determining the classification of each patient are presented in Appendix I of Attachment 31-A of the state plan. The minimum requirements of the 1987 OBRA are met by these provisions.

(b) The Each prospective rate consists of two components: a direct patient care rate and an indirect rate computed and applied as follows:

1. The direct rate is based on the Medicaid cost per day incurred in the following cost centers:
   (A) Nursing,
   (B) Dietary or Food Service,
   (C) Laundry and Linen,
   (D) Housekeeping,
   (E) Patient Activities,
   (F) Social Services,
   (G) Ancillary Services (includes several cost centers).

2. To compute each facility's direct rate for skilled care and intermediate care, the direct base year cost per day is increased by adjustment factors for price changes as set forth in Rule .0102(c). A facility's direct rate cannot exceed the maximum rates set for a SNF or ICF. However, the Division of Medical Assistance may negotiate direct rates that exceed the maximum rate for ventilator dependent patients. Payment of such special direct rates shall be made only after specific prior approval of the Division of Medical Assistance.

(A) A facility's direct rates cannot exceed the maximum rates set for skilled nursing or intermediate nursing care. However, the Division of Medical Assistance may negotiate direct rates that exceed the maximum rate for ventilator dependent patients. Payment of such special direct rates shall be made only after specific prior approval of the Division of Medical Assistance.

(B) A standard per diem amount will be added to each facility's direct rate including facilities that are limited to the maximum rates, for the projected statewide average per diem costs of the salaries paid to replacement nurse aides for those aides in training and testing status and other costs deemed by HCFA to be facility costs related to nurse aide training and testing. The standard amount is based on
The product of multiplying the average hourly wage, benefits, and payroll taxes of replacement nurse aides by the number of statewide hours required for training and testing of all aides divided by the projected total patient days.

(3) If a facility did not report any costs for either skilled or intermediate nursing care in the base year, the state average direct rate will be assigned as determined in Rule 0102(c) of this Section for the new type of care.

(4) The direct maximum rates are developed by ranking base-year per diem costs from the lowest to the highest in two separate arrays, one for skilled care and one for intermediate care. The per diem cost at the 80th percentile in each array is selected as the base for the maximum rate. The base cost in each array is adjusted for price changes as set forth in Rule 0102(c) of this Section to determine the maximum statewide direct rates for skilled care and intermediate care.

(5) Upon completion of any cost reporting year any funds received by a facility from the direct patient care rate which have not been spent on direct patient care costs as defined herein are repaid to the state.

(6) Effective October 1, 1990, the direct rates will be adjusted as follows. The indirect rate is intended to cover the following costs of an efficiently and economically operated facility:

(A) Administrative and General:

(i) A standard per diem amount will be added to each facility's skilled and intermediate rate to account for the combined expected average additional costs for the continuing education of nurses, aides; the residents, assessments, plans of care, and charting of nursing hours for each patient; personal laundry and hygiene items; and other non-nursing staffing requirements. The standard amount is equal to the sum of:

(a) the state average annual salary, benefits, and payroll taxes for one registered nurse position multiplied by the number of facilities in the state and divided by the state total of patient days;

(b) the total costs of personal laundry and hygiene items divided by the total patient days as determined from the FY 1989 cost reports of a sample of nursing facilities multiplied by the annual adjustment factors described in Rule 0102(c)(4)(B) of this Section; and

(ii) the state average additional pharmacy consultant costs divided by 365 days and then divided by the average number of beds per facility.

(B) Operation of Plant and Maintenance.

(i) A standard amount will be added to the intermediate rate of facilities that were certified only for intermediate care prior to October 1, 1990. This amount will be added to account for the additional cost of providing eight hours of RN coverage and 24 hours of licensed nursing coverage. The standard amount is equal to the state average hourly wage, benefits and payroll taxes for a licensed nurse multiplied by the 16 additional hours of required licensed nursing staff divided by the state average number of beds per nursing facility. A lower amount will be added to a facility only if it can be determined that the facility's intermediate rate prior to October 1, 1990 already includes licensed nursing coverage above eight hours per day. The add-on amount in such cases would be equal to the exact additional amount required to meet the licensed nursing requirements.

(C) Property Ownership and Use:

The standard amounts in Subparagraphs (2)(B), (5)(A), and (5)(H) of this Rule, will be retained in the rates of subsequent years until the year that the rates are derived from the actual cost incurred in the cost reporting year ending in 1991 which will reflect each facility's actual cost of complying with all OBRA '87 requirements.

(D) Mortgage Interest.

(i) For dates of service beginning October 1, 1984 and ending September 30, 1985 the indirect rates are fourteen dollars and sixty cents ($14.60) for each SNF day of care and thirteen dollars and fifty cents ($13.50) for each ICf day of care. These rates represent the first step in a two-step transition process from the different SNF and ICf indirect rates paid in 1983-84 and the nearly equal indirect rates that will be paid in subsequent years under this plan as provided in this Rule.

(ii) Upon completion of any cost reporting year any funds received by a facility from the direct patient care rates which have not been spent on direct patient care costs as defined herein are repaid to the State. This will be applied by comparing a facil-
ity's total Medicaid direct costs with the combined direct rate payments received for skilled and intermediate care. However, any skilled and intermediate care Medicaid costs in excess of an amount equal to the skilled or intermediate maximum rates established in Rule .0102(b)(4) of this Section multiplied by the facility's skilled or intermediate Medicaid days are not reimbursable and must be excluded from the calculation of a repayment amount.

(7) Effective for dates of service beginning October 1, 1985 and annually thereafter per diem indirect rates will be computed as follows: The indirect rate is intended to cover the following costs of an efficiently and economically operated facility:

(A) Administrative and General,

(A) The average indirect payment to all facilities in the fiscal year ending September 30, 1983 which is thirteen dollars and two cents ($13.02) will be the base rate.

(B) The base rate will be adjusted for estimated price level changes from fiscal year 1983 through the year in which the rates will apply in accordance with the procedure set forth in Rule .0102(c) of this Section to establish the ICF per diem indirect rate.

(C) The ICF per diem indirect rate shall be multiplied by a factor of 1.02 to establish the SNF per diem indirect rate. This adjustment is made to recognize the additional administrative expense incurred in the provision of SNF patient care.

(10) Effective for dates of service beginning October 1, 1989, a standard per diem amount will be added to provide for the additional administrative costs of preparing for and complying with all nursing home reform requirements. The standard amount is based on the average annual salary, benefits and payroll taxes of a clerical position multiplied by the number of facilities in the state divided by the state total of patient days.

(11) Effective for dates of service beginning October 1, 1990, the indirect rate will be standard for skilled and intermediate care for all facilities and will be determined by applying the 1990-91 indirect cost adjustment factors in Rule .0102(c) of this Section to the indirect rate paid for SNF during the year beginning October 1, 1989. Thereafter the indirect rate will be adjusted annually by the indirect cost adjustment factors.

(c) Adjustment factors for changes in the price level. The rate bases established in Rule .0102(b), are adjusted annually to reflect increases or decreases in prices that are expected to occur from the base year to the year in which the rate applies. The price level adjustment factors are computed using aggregate base year costs in the following manner:

(1) Indirect cost and direct costs will be separated into two categories. Costs will be separated into direct and indirect cost categories.

(2) Costs in each category will be accumulated into the following groups:

(A) labor,

(B) other,

(C) fixed.

(3) The percent of costs within each category (ICF or SNF) in each group will be ascertained to the second decimal point. This percent shall become the "weight" for each group of costs within each category. The relative weight of each cost
PROPOSED RULES

group is calculated to the second decimal point by dividing the total costs of each
group (labor, other, and fixed) by the total
costs for each category (direct and indi-
drect).

(4) Price adjustment factors for each cost
group will be established using official es-
timates of price level changes supplied by
the North Carolina Office of Budget and
Management no earlier than 120 days
prior to the date on which the new re-
bursement rates shall go into effect.
These factors shall include:
(A) Labor. The expected annual percent-
age change in North Carolina service
wages, as modified for any special factors
related to nursing homes that can be
explicitly identified, direct labor costs as
determined from a survey of nursing fa-
cilities to determine the average hourly
wages for RNs, LPNs, and aides paid in
the current year and projected for the rate
year. The percentage change for indirect
labor costs is based on the projected av-

erage hourly wage of N.C. service work-
ers.
(B) Other. The expected annual change in
the implicit price deflator for the Gross Na-
tional Product as provided by the
North Carolina Office of State Budget and
Management.
(C) Fixed. No adjustment will be made for
this category, thus making the factor zero.
(D) The weights computed in (c)(3) of this
Rule shall be multiplied times the factors
computed in (c)(4) of this Rule. These
products shall be added separately in each
category.
(E) The sum computed for each category
in (c)(4)(D) of this Rule shall be the price
level adjustment factor for that category
of rates (direct or indirect) for the coming
fiscal year.

(4) The adjustment factor computed in
(c)(4)(C) of this Rule shall be multiplied
times the product of all preceding annual
price level adjustment factors computed
since the base year. This becomes the
composite factor by which the base rates
are adjusted to produce the direct and in-
direct rates that will apply in the next fis-
tal year.

(d) For new facilities enrolled on or after Oc-
tober 1, 1984, the direct patient care rate is es-

blished at the average of industry base year costs
for the appropriate level of care and is adjusted
for price changes as set forth in Rule .0102(c).
A new facility receives the indirect rate in effect
at the time the facility is enrolled in the Medicaid
Program. In the event of a change of ownership,
the new owner receives the same rate of payment
assigned to the previous owner.

(d) The skilled and intermediate direct patient
care rates for new facilities are established at the
lower of the projected costs in the provider's
Certificate of Need application inflated to the
current rate period or the average of industry base
year costs and adjusted for price changes as set
forth in Rule .0102(c) of this Section. A new
facility receives the indirect rate in effect at the
time the facility is enrolled in the Medicaid
Program. In the event of a change of ownership,
the new owner receives the same rate of payment
assigned to the previous owner.

(c) Each out-of-state provider is reimbursed at
the lower of the appropriate North Carolina
maximum rate or the provider’s payment rate as
established by the State in which the provider is
located. For patients with special needs who
must be placed in specialized out-of-state facili-
ties, a payment rate that exceeds the North
Carolina maximum rate may be negotiated.

(f) Rates:

1. A single all-inclusive prospective per diem
rate combining both the direct and indi-
direct cost components can be negotiated for
nursing facilities that specialize in pro-

viding intensive services for head-injured
or ventilator-dependent patients. The rate
may exceed the maximum rate applicable
to other Nursing Facility services. For
head-injury services, a facility must spe-
cialize to the extent of staffing at least 50
percent of its Nursing Facility licensed
beds for head-injury services. The facility
must also be accredited by the Commiss-
ion for the Accreditation of Rehabilitation
Facilities (CARF). For ventilator
services, the only facilities that are eli-
sible for a combined single rate are small
freestanding facilities with less than 21
Nursing Facility beds and that serve only
patients requiring ventilator services.
Ventilator services provided in larger fac-

cilities are reimbursed at higher direct rates
as described in Rule .0102(b)(2)(A) of this
Section.

2. A facility’s initial rate is negotiated based
on budget projections of revenues, allow-
able costs, patient days, staffing and
wages. A complete description of the fa-
cility’s medical program must also be
provided. Rates in subsequent years are
determined by applying the average an-
nual skilled nursing care adjustment fac-
tors to the rate in the previous year, unless
either the provider or the State requests a renegotiation of the rate.

(3) Cost reports for these services must be filed in accordance with the rules in .0104 of this Section, but there will be no cost settlements for any differences between costs and payments. Since it is appropriate to include all financial considerations in the negotiation of a rate, a provider will not be eligible to receive separate payments for return on equity as defined in Rule .0105 of this Section.

Authority G.S. 108A-25(b); 108A-54; 108A-55; S.L. 1985, c. 479, s. 86; 42 C.F.R. 447, Subpart C.

.0103 REASONABLE AND NON-ALLOWABLE COSTS

(a) Providers have an affirmative responsibility to operate economically and efficiently so that their costs are reasonable. Providers are required to provide services at the lowest possible costs in compliance with Federal and State laws, regulations for licensing and certification, and standards for quality of care and patients' safety. Providers are also responsible for the financial actions of their agents (e.g., management companies) in this regard.

(b) The state may publish guidelines to define reasonable costs in certain areas after careful study of industry-wide cost conditions.

(c) The following costs are considered non-allowable facility costs because they are not related to patient care or are specifically disallowed under the North Carolina State Plan:

(1) bad debts;
(2) advertising—except personnel want ads, and one line yellow page (indicating facility address);
(3) life insurance (except for employee group plans);
(4) interest paid to a related party;
(5) contributions, including political or church-related, charity and courtesy allowances;
(6) prescription drugs and insulin (available to recipients under State Medicaid Drug Program);
(7) vending machine expenses;
(8) barber and beauty shop expenses—personal grooming other than haircuts, shampooing and nail trimming performed by facility staff;
(9) state or federal corporate income taxes, plus any penalties and interest;
(10) telephone, or television, or radio for personal use of patient;

(11) penalties or interest on income taxes;
(12) dental expenses—except for consultant fees as required by law;
(13) personal income taxes, plus any penalties and interest;
(14) farm equipment and other expenses;
(15) retainers, unless itemized services of equal value have been rendered;
(16) physicians fees for other than utilization review or medical directors or medical consultants as required by law;
(17) country club dues;
(18) sitter services or private duty nurses;
(19) fines or penalties for violations; capital expenditures subject to either section 1122 or certificate of need reviews not receiving prior approval by the appropriate state agency;

(20) conversions; leases; and management agreements not reviewed by the appropriate state agency;

(21) (20) guest meals;
(22) (21) morgue boxes;
(23) (22) leave days—except therapeutic leave;
(24) (23) personal items and clothing: laundering of personal clothing; and

(25) any other items which, under the given circumstances, are considered to be non-allowable.

(24) any costs in excess of the maximum rates established in Rule .0103(b)(4) of this Section and costs in excess of a facility's total prospective rate payments;

(25) costs that are billable to Medicare.

(d) For those non-allowable expenses which generate income, such as prescription drugs, vending machines, barber and beauty shop, etc., expense should be identified as a non-reimbursable cost center, where determinable. If the provider cannot determine the proper amount of expense which is to be identified, then the income which was generated must be offset in full to the appropriate cost center.

.0104 COST REPORTING: AUDITING AND SETTLEMENTS

(a) Each facility that receives payments from the North Carolina Medicaid Program must prepare and submit a report of its costs and other financial information requested by the State such as the working trial balance related to reimbursement annually. The report must include costs from the fiscal period beginning on October 1 and ending on September 30 and must be sub-
mitted to the state on or before the December 31 that immediately follows the September 30 year end. A new provider must submit a report for the period beginning with the date of certification and ending on September 30. Facilities that fail to file their cost reports by the due date are subject to payment suspension until the reports are filed. The Division of Medical Assistance may extend the deadline 30 days for filing the report if, in its view, good cause exists for the delay.

(b) Cost report format. The cost report must be submitted on forms and in a format and medium approved by the Division of Medical Assistance. The account structure for the report is based on the chart of accounts published by the American Healthcare Association in 1979 but amended or modified to the extent necessary to meet the special reimbursement requirements of this plan. The Division of Medical Assistance will make one copy of the cost report format available to each facility (combination facilities receive only one) on or before July 1 of the reporting year for which the report is to be filed.

(c) Cost finding and allocation. Costs must be reported in the cost report in accordance with the following rules and in the order of priority stated.

(1) Costs must be reported in accordance with the specific provisions of this plan as set forth in this Rule.

(2) Costs must be reported in conformance to Title XVIII principles of reimbursement with the Medicare Provider Reimbursement Manual, HCFA 15.

(3) Costs must be reported in conformance with Generally Accepted Accounting Principles.

(d) The specific cost reporting guidelines related to this plan are set forth in the following Paragraphs. The state will publish guidelines, consistent with the provisions of this plan, concerning the proper accounting treatment for items described in this Rule as related operating expenses. These guidelines will be issued prior to April 1, 1985. The guidelines may be subsequently modified prior to the beginning of each cost reporting period. In no case, however, shall any modifications be applied retroactively. A provider should request clarification in writing from the state if there is uncertainty about the proper cost center classification of any particular expense item.

(1) Nursing Cost Center includes the cost of nursing staff, medical supplies, and related operating expenses needed to provide nursing care to patients, including medical records (including forms), utilization review, the Medical Director and the Pharmacy Consultant. Also, the cost (rental or purchase) of special equipment that is medically required to sustain life may be charged to this cost center. Such equipment shall include oxygen concentrators, respirators and ventilators. The amount of nursing time provided to each patient must be recorded in order to allocate nursing cost between skilled and intermediate nursing care.

(2) Dietary Cost Center includes the cost of staff, raw food, and supplies needed to prepare and deliver food to patients.

(3) Laundry and Linen Cost Center includes the cost of staff, bed linens (replacement mattresses and related operating expenses needed to launder facility-provided items).

(4) Housekeeping Cost Center includes the cost of staff and supplies needed to keep the facility clean.

(5) Patient Activities Cost Center includes the cost of staff, supplies, and related operating expenses needed to provide appropriate diversionary activities for patients.

(6) Social Services includes the cost of social workers and related operating expenses needed to provide necessary social services to patients.

(7) Ancillary Cost Center includes the cost of all therapy services covered by the Medicaid program and billable medical supplies. Providers must bill Medicare Part B for those ancillary services covered under the Medicare B program. Ancillary cost centers include: Radiology, Laboratory, Physical Therapy, Occupational Therapy, Speech Therapy, Oxygen Therapy, Intravenous Fluids, Billable Medical Supplies, Parenteral/Enteral Therapy and life sustaining equipment, such as oxygen concentrators, respirators, and ventilators and other specifically approved equipment.

(8) Administrative and General Cost Center includes all costs needed to administer the facility including the staff costs for the administrator, assistants, billing and secretarial personnel, personnel director and pastoral expenses. It includes the costs of copy machines, dues and subscriptions, transportation, income taxes, legal and accounting fees, start-up, and a variety of other administrative costs as set forth in the Chart of Accounts. Interest expense other than that stemming from mortgages or loans to acquire physical plant items should be reported here.
(9) Property Ownership and Use:
(A) This cost center includes all allowable costs related to the acquisition and/or use of the physical assets including building, fixed equipment and movable equipment, that are required to deliver patient care, except the special equipment, as specified in .0104(d)(1) of this Rule that may be charged to the life-sustaining equipment cost center. Specifically it includes the following items:
(i) all equipment expense regardless of equipment nature,
(ii) lease expense for all physical assets,
(iii) depreciation of assets utilizing the straight line method,
(iv) interest expense of asset related liabilities, (e.g., mortgage expense),
(v) property taxes.
(B) For the purposes of computing allowable lease expense and for balance sheet presentation for Return on Equity computations (see Rule .0105), leases shall not be capitalized.
(C) In establishing the allowable cost for depreciation and for interest on capital indebtedness, with respect to an asset which has undergone a change of ownership, the valuation of the asset shall be the lesser of allowable acquisition cost less accumulated depreciation to the first owner of record on or after July 18, 1984 or the acquisition cost to the new owner. Depreciation recapture will not be performed at sale. The method for establishing the allowable related capital indebtedness shall be as follows:
(i) The allowable asset value shall be divided by the actual acquisition cost.
(ii) The product computed in step 1 shall be multiplied times the value of any related capital indebtedness.
(iii) The result shall be the liability amount upon which interest may be recorded at the rate set forth in the debt instrument or such lower rate as the state may prove is reasonable. The allowable asset and liability values established through the process in this Rule shall be those used in balance sheet presentations for return on equity computation (see Rule .0105). These procedures are established to implement the provisions of PL 98-369 Section 2314.

(10) Operation of Plant and Maintenance Cost Center includes all costs necessary to operate or maintain the functionality and appearance of the plant. These include: maintenance staff, utilities, repairs and maintenance to all equipment.

(11) Equipment Expense. Equipment is defined as an item with a useful life of more than two years and a value greater than two five hundred dollars ($200.00), ($500.00). Equipment ownership and use costs shall be reported in the Property Ownership and Use Cost Center. Equipment maintenance and repair costs shall be reported in the Operation of Plant and Maintenance Cost Center. Equipment should not be reported elsewhere.

(12) Training Expense. Training expense shall be allocated to must be identified in the appropriate benefiting cost center. Adequate records to support the allocation shall be maintained and presented upon request to establish allowability. The costs of training nurse aides must be identified separately and may include the cost of purchasing programs and equipment that have been approved by the State for training or testing.

(13) Home Office Costs. Home office costs are generally charged to the Administrative and General Cost Centers. In some cases, however, certain personnel costs which are direct patient care oriented may be allocated to "direct" patient care cost centers if time records are maintained to document the performance of direct patient care services. No Home office overhead may be so allocated. The basis of this allocation among facilities participating in the North Carolina Medicaid program may be:
(A) specific time records of work performed at each facility, or
(B) patient days in each facility to which the costs apply relative to the total patient days in all the facilities to which the costs apply.

(14) Management Fees. Management fees are charged to the Administrative and General Cost Center. In some cases, however, a portion of a management fee may be allocated to a direct patient care cost center if time records are maintained to document the performance of direct patient care services. The amount so allocated may be equal only to the salary and fringe benefits of persons who are performing direct patient care services while employed by the management company. Adequate records to support these costs must be made available to staff of the Division of
Medical Assistance to support these costs. The basis of this allocation among facilities participating in the North Carolina Medicaid program may be:

A(1) specific time records of work performed at each facility, or
B(1) patient days in each facility to which the costs apply relative to the total patient days in all the facilities to which the costs apply.

(15) Related Organization Costs. Allowable costs of related organizations are to be identified in accordance with the direct and indirect cost center categories. The intent is to treat the costs incurred by the related organization as if they were incurred by the provider itself. Related organization's costs applicable to direct cost centers (Nursing, Dietary, Laundry and Linen, Housekeeping, Social Services, Patient Activities, and Ancillary Services) must be identified in the applicable direct cost center. Related organization's costs applicable to indirect cost centers (Property, Ownership and Use, Operation and Maintenance of Plant, and Administrative and General) must be identified in the applicable indirect cost center. Adequate records to support these costs must be made available to staff of the Division of Medical Assistance and its designated contract auditors.

(c) Auditing and Settlement. All filed cost reports must be desk audited and interim reimbursement settlements made in accordance with the provisions of this plan. This settlement is issued within 180 days of the date the cost report was filed or within 180 days of December 31 of the fiscal year to which the report applies, whichever is later. The state may elect to perform field audits on any filed cost reports within three years of the date of filing and issue a final settlement on a time schedule that conforms to Federal law and regulation. If the state decides not to field audit a facility a final reimbursement notice may be issued based on the desk audited settlement. The state may reopen and field audit any cost report after the final settlement notice to comply with Federal law and regulation or to enforce laws and regulations prohibiting abuse of the Medicaid Program and particularly the provisions of this reimbursement plan.

Authoritative G.S. 108A-25(b); 108A-54; 108A-55; S.L. 1985, c. 479, s. 86; 42 C.F.R. 447, Subpart C.

0.0106 APPEALS

(a) Providers may request a reconsideration review of their rate agency reimbursement determinations. These reconsideration reviews will be processed according to procedures set forth in 10 N.C.A.C. 26K. A provider may request a reconsideration review within 30 calendar days from receipt of final notification of payment, payment denial, disallowances, payment adjustments, notice of program reimbursement and adjustments and within 60 calendar days from receipt of notice of an institutional reimbursement rate. Following the review, the agency will render a decision in writing which will be sent by certified mail. If the provider disagrees with the reconsideration review decision, the provider may request a contested case hearing with the N.C. Office of Administrative Hearings.

(b) Indirect rates shall not be adjusted on reconsideration review appeal.

(c) A direct rate may be adjusted on reconsideration review appeal if a provider can establish to the satisfaction of the state agency that such an adjustment is necessary to protect the health and safety of its patients and to sustain its financial viability. A facility is considered to be financially viable, and therefore not eligible for a rate adjustment, if its total Medicaid rate payments and return on equity exceeded its total Medicaid cost as reported in the most recent cost report available. Providers are expected to utilize all available funds to provide the services that their patients need. Once a provider has reported a loss for a certain year, a direct rate of adjustment can then be negotiated for the following year at a level no greater than what is absolutely necessary for patient care and for the financial viability of the facility. The adjusted rate cannot exceed the applicable maximum direct rate as established by Rule .0102(b)(3).

(d) Direct rates may also be adjusted without regard to the provisions of Rule .0106(c) of this Section for the following reasons:

1) to correct erroneous data in the rate base;
2) to accommodate any changes in the levels of minimum standards or minimum levels of resources required in the provision of patient care that are mandated by state or federal laws or regulation;
3) to maintain services at levels commensurate with any rate adjustments that are allowed between the base year and the year in which the rates derived from that base year are first effective.

(e) Adjustments to reimbursement settlements shall be made on the basis of the reimbursement principles set forth in this plan or incorporated here by reference (See Rule .0104(e)).
.0107 PAYMENT ASSURANCE

(a) The state will pay each provider of nursing care services, who furnishes the services in accordance with the requirements of the State Plan and the participation agreement, the amount determined under the plan. In addition, Skilled Nursing Facilities must be enrolled in the Title XVIII Program.

(b) In no case shall the payment rate for services provided under the plan exceed the facility's customary charges to the general public for such services.

(c) The payment methods and standards set forth herein are designed to enlist the participation of any provider who operates a facility both economically and efficiently. Participation in the program shall be limited to providers of service who accept, as payment in full, the amounts paid in accordance with the State Plan. This reimbursement plan is effective consistent with and on approval of the State Plan for Medical Assistance.

(d) In all circumstances involving third party payment, Medicaid is the payor of last resort. No payment will be made for a Medicaid recipient who is also eligible for Medicare, Part A, for the first 20 days of care rendered to skilled nursing patients. Medicaid payments for co-insurance for such patients will be made for the subsequent 21st through the 100th day of care. In the case of ancillary services providers are obligated to:

(1) maintain detailed records or charges for all patients;
(2) bill the appropriate Medicare Part B carrier for all services provided to Medicaid patients that may be covered under that program;
(3) allocate an appropriate amount of ancillary costs, based on these charge records adjusted to reflect Medicare denials of coverage, to Medicare Part B in the annual cost report; and
(4) failure to properly bill Medicare or other third-party payors will result in the disallowance of any related cost claimed as Medicaid cost.

(e) The state may withhold payments to providers under the following circumstances:

(1) If the state has a reasonable expectation that the provider will not expend its direct rate for reasonable and allowable direct patient care costs, the state may, at its discretion, withhold a portion of each payment so as to avoid a large amount due back to the state upon reimbursement settlement pursuant to the provision of Paragraph .0104(c) of this Section.

(2) Upon provider termination the state may withhold a sum of money from provider payments that it reasonably expects will be due when final reimbursement settlements for all previous periods, including the period in which the termination occurred, are completed.

(3) Upon determination of any sum due the Medicaid Program or upon instruction from a legally authorized agent of the State or Federal Government the state may withhold sums to meet the obligations identified.

(4) The state may arrange repayment schedules within the limits set forth in federal regulations in lieu of withholding funds.

(5) The state may charge reasonable interest or overpayments from the date that the overpayment occurred.

(6) The State may withhold 20 percent per month of a provider's payment for failure to file a timely cost report. These funds will be released to the provider after a cost report is acceptably filed. The provider will experience delayed payment while the check is routed to the State and split for the 20 percent withholding.

(a) A licensed practicing psychologist, permanently recognized as an appropriate supervisor for any psychological associate or practicing psychologist, temporarily employed, may be recognized as an appropriate supervisor for any psychological associate or practicing psychologist temporarily employed, provided that such supervision is not impeded by any other supervision or duties that conflict with the appropriate clinical responsibilities of the supervisee.

(b) The Board may disapprove an otherwise qualified supervisor for any psychological associate or practicing psychologist, temporarily employed, if the potential supervisor, in the opinion of the Board, is not acceptable. Reasons for which a proposed supervisory relationship may be disapproved shall include, but not be limited to:

(1) evidence that the potential supervisor is not competent or qualified to supervise the supervisee;

(2) evidence that the supervisor has failed to adhere to ethical standards;

(3) evidence that there is a lack of congruence between the potential supervisor’s training, experience, and area of practice and the supervisee’s proposed area(s) of practice;

(4) the supervisor has an encumbered license.

(c) (a) It is the supervisor’s responsibility to provide the best possible professional guidance which is mutually beneficial to both the supervisee and to the public which he/she ultimately serves. It is the supervisor who serves as a primary professional guardian of the supervisee, the profession, and the public. Supervisors are to carefully assess their own ability to meet the particular needs of potential supervisees. It is expected that the professional expertise and experience of the supervisor will parallel the expected practice of the supervisee. Should there be some areas in which the supervisor does not feel so qualified, adjunct supervisors shall be sought, although this additional supervision is, in no way, to replace the overall responsibility of the primary supervisor. Clear professional goals shall be set by the supervisor and supervisee for, and during, the period of supervision and these goals must be evaluated on a regular basis.

(d) In order to maintain the professional nature of the supervision, a familial or strongly personal relationship shall not exist between the supervisor and supervisee, except in extraordinary circumstances, such as the unavailability of any other qualified supervisor. In such cases, the Board may require documentation that no other supervision is available and reference letters from colleagues commenting on the appropriateness of the proposed supervisory relationship.

Specific supervision is not mandated for each person evaluated or treated, or for every treatment, evaluative technique, or professional activity undertaken. Supervisors are not required to sign or co-sign reports, treatment plans, letters, or other clinical documents for which the supervisee may be fully or in part responsible; neither is it necessary that such clinical documents reflect the
supervisory process. Agencies are not, of course, precluded from requiring supervisor signatures or co-signatures.

Statutory Authority G.S. 90-270.2(f); 90-270.5(d); 90-270.9.

.2004 TIME REQUIREMENTS

Part-time practice is credited based on the number of hours per week of actual practice. A maximum of 31 hours may be credited for a week of actual practice. If the required supervised experience is not accumulated within two full calendar years, a written request must be made for extension of the temporary license. An explanation must be provided to the Board regarding the necessity for extension, and a statement provided indicating the date that the supervision will be completed.

Statutory Authority G.S. 90-270.2(f); 90-270.4(a2); 90-270.5(d); 90-270.9.

(a) Activities involving overall personality appraisal or classification are subject to review by a supervisor. Included are all statements relative to personality attributes, features, traits, structure, dynamics, and pathology or assets, whether or not these lead to a diagnosis or diagnostic impression. Techniques include but are not limited to the following: observation; open-ended and structured interviewing; word association tests; diagnostic play therapy; autobiographical techniques; mental status examinations; and, the use of "projective" and "objective" techniques. "Projective" techniques include such instruments as the Rorschach, Thematic Apperception Test, Tasks of Emotional Development, the Children's Apperception Test, the House-Tree-Person Technique, the Draw-A-Person (when used to assess personality), Kinetic Family Drawings, sentence completion tests, and all similar tests. "Objective" personality tests include the Minnesota Multiphasic Personality Inventory, the Millon tests, the California Personality Inventory, the 16PF, the California Test of Personality, and all other self-report inventories and questionnaires, as well as scales and check lists completed by others. The tests identified in this Rule as requiring supervision do not constitute an exhaustive list, only the most commonly utilized measures.

Also included are any other techniques which are physically intrusive, are restrictive of basic human
rights, or are experimental in nature in which the efficacy and degree of risk are unknown. Biofeedback techniques, however, do not require supervision;

(2) target behaviors or symptoms: These include behaviors, attitudes, affects, habits, or other personality attributes or features, which, when addressed either directly with the person or in consultation, include activity which is actually or is potentially maladaptive or harmful to the person, others, or the physical environment. These include but are not limited to: adjustment difficulties; attention deficit; hyperactivity; impulsivity; sexual difficulties; aggression; somatization; anxiety; self-injurious behavior; substance use; antisocial behavior; conduct disturbances; elimination and eating disturbances; depression or other deviant mood; psychotic activity; interpersonal difficulty; and, any other seriously self-defeating or self-compromising behavior. Supervision is required regardless of whether the behavior or symptoms meet the criteria for formal diagnosis; and

(3) clinical populations: All interventions with clinical populations require supervision. These are comprised of persons with discernible mental, behavioral, emotional, psychological, and psychiatric disorders as evidenced by an established Axis I or Axis II diagnosis or V Code condition in the then current DSM, and all persons meeting the criteria for such diagnoses. Not included, however, would be persons with mental retardation diagnoses or specific developmental disorders (learning disabilities) when the psychological associate's interventions are in the domain of cognition rather than personality, and when there is no accompanying behavior or personality disorder. Not requiring supervision are techniques designed to stop or reduce cigarette smoking in otherwise non-clinical populations. Any person who carries a diagnosis from an alternative nosology (e.g., GAP or ICD), or is a Willie M. Class member, or qualifies for an educational placement based on an emotional or behavioral condition, or meets the diagnostic criteria from DSM or any of the above, whether established or not, is considered to be a member of a clinical population. Most persons in outpatient psychiatric or psychological treatment and many children with juvenile court involvement would thus be included. Supervision is required for a psychological associate who provides clinical supervision to other service providers who are engaged in activities which would require supervision if directly provided by the psychological associate.

(f) Psychological associates may use non-therapy, non-punitive, non-intrusive, non-experimental techniques without supervision to teach or facilitate new behaviors in the absence of maladaptive behavior or psychopathological conditions.

Statutory Authority G.S. 90-270.2(f); 90-270.9.

SECTION .2100 - RENEWAL

.2101 LICENSE RENEWAL FORM

(a) The license renewal application form is mailed to each licensee in the fall of each year. It is the licensee’s responsibility to renew his/her license in a timely manner, and to notify the Board if a renewal application form is not received.

(b) In addition to the request for current addresses, the form requires the licensee to supply the following information including, but not limited to, the following: current addresses; area of specialty; principal setting of practice; whether or not the licensee received any formal continuing education during the past year; report on all supervision contract forms on file with the Board if licensed at the psychological associate or practicing psychologist, temporary, level.

(c) Failure of a postal service to deliver the renewal application properly, or failure of a licensee to submit all required information on the appropriate form by any established statutory deadline, does not excuse the late fee or prevent license suspension.

Statutory Authority G.S. 90-270.9; 90-270.14; 150B-11(1).

.2103 REINSTATEMENT

(a) The information required for each applicant requesting reinstatement after a license has been suspended due to non-renewal or after a practicing psychologist temporary license has expired consists of:

(2) completed and acceptable information forms from all present and past supervisors: since the license was suspended or expired.
(3) three completed and acceptable current professional reference letters, forms from professionals who are familiar with the applicant’s current work, one of which is from a doctoral level psychologist;

(4) acceptable information forms sent directly from other states and provinces in which the applicant has applied for a license or has been licensed, if applicable; and

(5) official graduate college transcripts, not on file in the Board’s office, sent directly to the Board by the training institution(s).

Statutory Authority G.S. 90-270.9; 90-270.15.
