NORTH CAROLINA REGISTER

The North Carolina Register is published bi-monthly and contains information relating to agency, legislative, and judicial actions required by or affecting Chapter 150B of the General Statutes. All proposed, administrative rules and amendments filed under Chapter 150B must be published in the Register. The Register will typically comprise approximately fifty pages per issue of legal text.

State law requires that a copy of each issue be provided free of charge to each county in the state and to various state officials and institutions. The North Carolina Register is available by yearly subscription at a cost of one hundred and five dollars ($105.00) for 24 issues.

Requests for subscriptions to the North Carolina Register should be directed to the Office of Administrative Hearings, P.O. Drawer 27447, Raleigh, N.C. 27611-7447. Attn: Subscriptions.

ADOPTION, AMENDMENT, AND REPEAL OF RULES

An agency intending to adopt, amend, or repeal a rule must first publish notice of the proposed action in the North Carolina Register. The notice must include the time and place of the public hearing; a statement of how public comments may be submitted to the agency either at the hearing or otherwise; the text of the proposed rule or amendment; a reference to the Statutory Authority for the action and the proposed effective date.

The Director of the Office of Administrative Hearings has authority to publish a summary, rather than the full text, of any amendment which is considered to be too lengthy. In such case, the full text of the rule containing the proposed amendment will be available for public inspection at the Rules Division of the Office of Administrative Hearings and at the office of the promulgating agency.

Unless a specific statute provides otherwise, at least 30 days must elapse following publication of the proposal in the North Carolina Register before the agency may conduct the required public hearing and take action on the proposed adoption, amendment or repeal.

When final action is taken, the promulgating agency must file any adopted or amended rule for approval by the Administrative Rules Review Commission. Upon approval of ARRC, the adopted or amended rule must be filed with the Office of Administrative Hearings. If it differs substantially from the proposed form published as part of the public notice, upon request by the agency, the adopted version will again be published in the North Carolina Register.

A rule, or amended rule cannot become effective earlier than the first day of the second calendar month after the adoption is filed with the Office of Administrative Hearings for publication in the NCAC.

Proposed action on rules may be withdrawn by the promulgating agency at any time before final action is taken by the agency.

TEMPORARY RULES

Under certain conditions of an emergency nature, some agencies may issue temporary rules. A temporary rule becomes effective when adopted and remains in effect for the period specified in the rule or 180 days whichever is less. An agency adopting a temporary rule must begin normal rule-making procedures on the permanent rule at the same time the temporary rule adopted.

NORTH CAROLINA ADMINISTRATIVE CODE

The North Carolina Administrative Code (NCAC) is a compilation and index of the administrative rules of 25 state agencies and 38 occupational licensing boards. The NCAC comprises approximately 15,000 letter-size single spaced pages of material of which approximately 35% is changed annually. Compilation and publication of the NCAC is mandated by G.S. 150B-63(b).

The Code is divided into Titles and Chapters. Each state agency is assigned a separate title which is further broken down by chapters. Title 21 is designated for occupational licensing boards.

The NCAC is available in two formats.

1. Single pages may be obtained at a minimum cost of two dollars and 50 cents ($2.50) for pages or less, plus fifteen cents ($0.15) per additional page.

2. The full publication consists of 53 volumes totaling in excess of 15,000 pages. It is supplemented monthly with replacement pages. A one-year subscription to the full publication, including supplements can be purchased for seven hundred and fifty dollars ($750.00). Individual volumes may also be purchased with a supplement service. Renewal subscriptions are available.

Requests for pages of rules or volumes of the NCAC should be directed to the Office of Administrative Hearings.

NOTE

The foregoing is a generalized statement of the procedures to be followed. For specific statutory language it is suggested that Articles 2 and 5 of Chapter 150B of the General Statutes be examined carefully.

.0303 REQUIRED POLICIES
Every savings bank shall adopt, implement and maintain the following written policies. Not less than annually, the Board of Directors shall review and formally readopt these policies for use by the savings bank. The Administrator may require such additional written policies as the Administrator deems appropriate for the specific circumstances of each savings bank.

(1) Appraisal. A policy which insures that appraisals reflect professional competence and facilitate the reporting of estimates of market value upon which the savings bank relies to make lending decisions.

(2) Classification of assets. A policy which requires the Board of Directors to review the classification of the savings bank's assets at least quarterly and establishes, at a minimum, the following categories:

(a) Special Mention. Assets which require close attention because they have a potential weakness or pose an unwarranted financial risk that, if not corrected, could weaken the asset and increase risk in the future.

(b) Substandard. Assets which are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Assets so classified must have a well-defined weakness or weaknesses. They are characterized by the distinct possibility that the savings bank will sustain some loss if the deficiencies are not corrected.

(c) Doubtful. Assets which have all the weaknesses inherent in those classified Substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

(d) Loss. Assets which are considered uncollectible and of such little value that their continuance as assets is not warranted. This classification does not mean that an asset has absolutely no recovery
or salvage value, but, rather, that it is not practical or desirable to defer writing off a basically worthless asset even though partial recovery may be effected in the future.

(3) General valuation allowances. A policy for determining and maintaining prudent levels of general loss reserves including a formula which specifically addresses the risks associated with the particular lending and investment practices of the savings bank.

(4) Loan underwriting. A policy which, at a minimum, establishes the guidelines to be used by the savings bank in lending its funds for the following activities, as applicable to the savings bank's lending practices: residential mortgage lending, acquisition and development lending, construction lending, other mortgage lending, commercial lending and consumer lending.

(5) Risk management. A policy which establishes the savings bank's asset-liability structure and defines, at a minimum, the parameters for interest rate risk, liquidity risk, credit risk and capital adequacy.

(6) Investment policy. A policy which, at a minimum, defines the types and levels of permissible investments and the officers with investment authority and which distinguishes those assets held for sale; trading or investment purposes including specific descriptions of any hedging techniques which the institution may employ.

(7) Provide that the number of shares which any person together with any associate or group of persons acting in concert may subscribe or purchase in the conversion shall not exceed five percent of the total offering of shares; except that any one or more tax-qualified employee stock benefit plans may purchase in the aggregate not more than ten percent of the total offering of shares. Shares held by one or more tax-qualified or non-tax-qualified employee stock benefit plans and attributed to a person shall not be aggregated with shares purchased directly by or otherwise attributable to that person.

For purpose of this Paragraph, the members of the converting savings bank's board of directors shall not be deemed to be associates of or a group of persons acting in concert solely as a result of their board membership.

(8) Provide that no executive officer or director or any associate of an executive officer or director shall purchase without the prior written approval of the administrator the capital stock of the converted savings bank except from a broker or dealer registered with the Secretary of State of North Carolina and/or the Securities and Exchange Commission for a period of three years following the conversion. (4) That the applicant may require members to return by a reasonable date certain a postage-paid written communication provided by the applicant requesting receipt of a subscription offering circular, or a preliminary or final offering circular in an offering pursuant to Paragraph (10) of this Rule, in order to be entitled to receive an offering circular from the applicant; provided, that the subscription offering or the offering pursuant to Paragraph (10) of this Rule shall not be closed until 30 days after the mailing by the applicant to members of the postage-paid written communication. If the subscription offering or the offering pursuant to Paragraph (10) of this Rule is not commenced within 45 days after the meeting of members, any converting savings bank adopting this optional provision shall transmit not more than 30 days prior to the commencement of the subscription offering or the offering pursuant to Paragraph (10) of this Rule to each member who has been furnished with proxy solicitation materials, written notice of the commencement of the offering which notice shall state that the converting savings bank is not required to furnish an offering circular to a member unless the member returns by a reasonable date certain a postage-paid written communication provided by the converting savings bank requesting receipt of an offering circular.

However, the plan of conversion may provide that any deposit accounts with total deposit balances of less than fifty dollars ($50.00) or any lesser amount shall not constitute a qualifying deposit.

Statutory Authority G.S. 54C-33; 54C-53.

.0314 LIQUIDATION ACCOUNT

(a) Each converted savings bank shall, at the time of conversion, establish a liquidation account in an amount equal to the amount of net worth of the converting savings bank as of the latest practicable date prior to conversion. For the purpose of this Rule, the savings bank shall use the net worth figure set forth in its latest statement of financial condition contained in the final offering circular. The function of the liquidation account is to establish a priority on liquidation and, except as provided in Paragraph (1) of this Rule, the existence of the liquidation account shall not operate to restrict the use or application of any of the net worth of the converted savings bank.

(b) The liquidation account shall be maintained by the converted savings bank for the benefit of eligible account holders and supplemental eligible account holders who maintain their deposit accounts in the savings bank. Each eligible account holder and supplemental eligible account holder shall, with respect to each deposit account held, have a related inchoate interest in a portion of the liquidation account balance (“subaccount”).

(c) In the event of a complete liquidation of the converted savings bank and only in such event, each eligible account holder and supplemental eligible account holder shall be entitled to receive a liquidation distribution from the liquidation account, in the amount of the then current adjusted subaccount balances for deposit accounts then held, before any liquidation distribution may be made with respect to capital stock, except with respect to preferred stock issued in exchange for the surrender at the time of the conversion of mutual capital certificates issued by the savings bank prior to conversion. Preferred stock issued in exchange for mutual capital certificates may receive distributions in liquidation prior to those with respect to the liquidation account to the same extent that the holders of the mutual capital certificates would have been entitled to priority over the residual rights of depositors had the savings bank not been converted as of the date of liquidation. No merger, consolidation, purchase of bulk assets with assumption of deposit accounts and other liabilities, or similar transactions in which the converted savings bank is not the surviving depository institution is considered to be a complete liquidation for this purpose. In such transactions the liquidation account shall be assumed by the surviving depository institution.

(d) The initial subaccount balance for a deposit account held by an eligible account holder and or supplemental eligible account holder shall be determined by multiplying the opening balance in the liquidation account by a fraction of which the numerator is the greater of the amount of qualifying deposits in such deposit account on the eligibility record date and or the supplemental eligibility record date and the denominator is the total amount of qualifying deposits for all eligible account holders and supplemental eligible account holders in the converted savings bank. Such initial subaccount balance shall not be increased and shall be subject to downward adjustment as provided in Paragraph (c) of this Rule.

(e) If the balance in any qualifying deposit account of an eligible account holder or supple-
mental eligible account holder at the close of business on any annual closing date subsequent to the date of conversion is less than the lesser of the deposit balance in the savings account at the close of business on any other annual closing date subsequent to the conversion date or the amount of deposits as of the eligibility record date or the supplemental eligibility record date, the subaccount balance for the savings account shall be adjusted by reducing the subaccount balance in an amount appropriate to the reduction in the deposit balance. In the event of a downward adjustment, the subaccount balance shall not be subsequently increased, notwithstanding any increase in the deposit balance of the related savings account. The converted savings bank shall not be required to recompute the liquidation account and subaccount balances provided the converted savings bank maintains records sufficient to make necessary computations in the event of a complete liquidation or other events as may require a computation of the balance of the liquidation account. The subaccount balance of an account holder shall be maintained for as long as the account holder maintains an account with the same Social Security number.

(1) No converted savings bank shall declare or pay a cash dividend on, or purchase any of, its capital stock if the effect thereof would cause the net worth of the converted savings bank to be reduced below the amount required for the liquidation account.

Statutory Authority G.S. 54C-33; 54C-53.

.0315 MANIPULATIVE AND DECEPTIVE DEVICES
In the offer, sale, or purchase of securities issued incident to its conversion, no savings bank, or any director, officer, attorney, agent or employee thereof shall:

(1) employ any device, scheme, or artifice to defraud; or

(2) obtain money or property by means of any untrue statement of a material fact or any omission to state a material fact necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading; or

(3) engage in any act, transaction, practice, or course of business which operates or would operate as a fraud or deceit upon a purchaser or seller.

Statutory Authority G.S. 54C-33; 54C-53.

.0316 MERGER OF CONVERTED SAVINGS BANKS

(b) The fact that a proxy statement, form of proxy, or other solicitation material has been filed with or examined by the administrator and authorized for use shall not be deemed a finding by the Administrator that such material is accurate or complete or not false or misleading, or that the administrator has passed upon the merits of or approved any proposal contained therein. No representation to the contrary shall be made by any person.

(c) If a solicitation by management violates any provision of this Rule, the administrator may require remedial measures including:
   (1) correction of any such violation by means of a retraction and new solicitation,
   (2) rescheduling of the meeting for a vote on the plan of conversion, and
   (3) any other actions the administrator may deem appropriate under the circumstances in order to ensure a fair vote.

SECTION .0700 - PRICING AND SALE OF SECURITIES

.0712 GENERAL

No sale of securities may be made except by means of a final offering circular which meets the requirements of this Section and which has been declared effective by the administrator. The provisions of this Rule shall not apply to preliminary negotiations or agreements between an applicant and any underwriter or among underwriters who are to be in privity of contract with the applicant.

(b) If the financial statements in a filing are in excess of 135 days prior to the date of the administrator's approval of the plan of conversion, an interim financial statement as of a date within 135 days of such approval shall be furnished. This interim financial statement shall be at least as current as the most recent quarterly financial statement filed with the administrator. This interim financial statement may be unaudited.

Statutory Authority G.S. 54C-33; 54C-53.

.0713 DISTRIBUTION OF OFFERING MATERIALS
Any preliminary offering circular which has been filed with the administrator may be distributed in connection with the offering at the same time as or after the proxy statement is mailed to members pursuant to Rule .0607 of this Subchapter. No final offering circular shall be distributed until it has been declared effective by the administrator. The maximum of such price range should normally be not more than fifty dollars ($50.00) per share or 15 percent above the average of the minimum and maximum of such price range and the minimum should normally be no less than five dollars ($5.00) per share or no more than 15 percent below such average.

Statutory Authority G.S. 54C-33; 54C-53.

.0715 PROHIBITED REPRESENTATIONS
The administrator will review the price information required under this Section in determining whether to give approval to the plan of conversion when the offering is to commence prior to the meeting of the members, and the administrator will review the information in determining whether to declare a final offering circular effective. No representations may be made in any manner that the price information has been approved by the administrator or that the shares of capital stock sold pursuant to the plan of conversion have been approved or disapproved by the administrator or that the administrator has passed upon the accuracy or adequacy of any offering circular covering such shares.

.0717 PRICING MATERIALS

1. The materials shall be prepared by persons independent of the applicant who are experienced and expert in the area of corporate appraisal.

2. The materials shall contain a brief summary of data that is sufficient to support the conclusions reached therein.

3. To the extent that the appraisal is based on the capitalization of the pro forma income of the converted savings bank, the
PROPOSED RULES

materials must indicate the basis for determination of the income to be derived from the proceeds of the sale of stock and demonstrate the appropriateness of the earnings multiple used, including assumptions made as to future earnings growth.

To the extent that the appraisal is based on a comparison of the capital stock of the applicant with the outstanding capital stock of existing stock savings banks, the existing stock savings banks must be reasonably comparable to the applicant in terms of such factors as size, market area, competitive conditions, profit history, and expected future earnings.

(b) In addition to the information required in Paragraph (a) of this Rule, the applicant shall submit information demonstrating to the satisfaction of the administrator the independence and expertise of any person preparing materials under this Rule and the person must be acceptable in these respects to the administrator. A person will not be considered as lacking independence for the reason that such person will participate in effecting a sale of capital stock under the plan of conversion or will receive a fee from the applicant for services rendered in connection with such appraisal.

(c) In addition to the information required in Paragraphs (a) and (b) of this Rule, the applicant shall file with the administrator such additional information with respect to the pricing of the capital stock of the applicant as the administrator may request, including, without limitation, a full appraisal.

Statutory Authority G.S. 54C-33; 54C-53.

.0718 ORDER FORMS FOR PURCHASE OF CAPITAL STOCK

(a) Promptly after the administrator has declared effective the offering circular for the subscription offering, the applicant shall distribute order forms for the purchase of shares of capital stock in the offering to all eligible account holders, supplemental eligible account holders (if applicable), voting members and other persons who may subscribe for such shares of capital stock under the plan of conversion. If the applicant has adopted its plan of conversion the optional provisions set forth in Paragraphs (4), (5) or (10) of Rule 0.412 of this Subchapter, the applicant shall deliver order forms to the eligible account holders, supplemental eligible account holders and voting members who requested receipt of the offering circular.

(b) Each order form shall be accompanied or preceded by the final offering circular for the subscription offering or the public offering, as the case may be, and a set of detailed instructions explaining how to properly complete the order forms. The offering circular and order form instructions may be included in the same document.

(c) The maximum subscription price stated on each order form shall be the amount to be paid when the order form is returned. The maximum subscription price and the actual subscription price shall be within the subscription price range stated in the administrator’s approval and the offering circular. If either the maximum subscription price or the actual subscription price is not within such subscription price range, the applicant must obtain the written consent of the administrator. If appropriate, the administrator will condition the amended approval by requiring a resolicitation of proxies and/or order forms. If the actual public offering price is less than the maximum subscription price stated on the order form, the actual subscription price shall be correspondingly reduced and the difference shall be refunded to those who have paid the maximum subscription price, unless the subscribers affirmatively elect to have the difference applied to the purchase of additional shares of capital stock.

(d) Each order form shall be prepared so as to indicate to the person receiving it, in as simple, clear, and intelligible a manner as possible, the actions which are required or available to him with respect to the form and the capital stock offered for purchase thereby. Specifically, each order form shall:

(1) indicate the maximum number of shares which may be purchased pursuant to the subscription offering;

(2) indicate the period of time within which the subscription rights must be exercised, which period of time shall not be less than 20 days and no more than 45 days following the date of the mailing of the subscription offering order form;

(3) state the maximum subscription price per share of capital stock;

(4) indicate any requirements as to the minimum number of shares of capital stock which must be purchased;

(5) provide a specifically designated blank space or spaces for indicating the number of shares of capital stock which the eligible account holder or other person wishes to purchase;

(6) indicate the manner of required payment and, if such payment may be made by withdrawal from a certificate of deposit, indicate that such withdrawal may be made without penalty. If payment is to be made by a withdrawal from a deposit
account or certificate of deposit, a box to check should be provided:

(7) provide specifically designated blank spaces for dating and signing the order form;

(8) contain an acknowledgement by the account holder or other person signing the order form that the person has received the final offering circular for the subscription offering prior to signing the order form; and

(9) indicate the consequences of failing to properly complete and return the order form, including a statement that the subscription rights are nontransferable and will become void at the end of the subscription period. The order form may, and the set of instructions shall, indicate the place or places to which the order forms are to be returned and when the order forms shall be deemed to be received.

c) The order form may provide that it may not be modified without the applicant's consent after the order form has been returned to the applicant. If payment is to be made by withdrawal from a deposit account or certificate of deposit, the applicant may, but need not, cause such withdrawal to be made upon receipt of the order form. If such withdrawal is made at any time prior to the closing date of the public offering, the applicant shall pay interest to the account holder on the amount withdrawn as if such amount had remained in the account from which it was withdrawn until the closing date.

Statutory Authority G.S. 54C-33; 54C-53.

.0719 WITHDRAWAL FROM CERTIFICATE ACCOUNTS

Notwithstanding any regulatory provision regarding penalties for early withdrawal from certificate accounts, the applicant may allow payment for capital stock pursuant to the exercise of subscription rights by withdrawal from a certificate account without the assessment of such penalties. In the case of early withdrawal of only a portion of such account, the certificate evidencing such account shall be cancelled if the applicable minimum balance requirement ceases to be met. The remaining balance will earn interest at the passbook rate.

Statutory Authority G.S. 54C-33; 54C-53.

.0720 PERIOD FOR COMPLETION OF SALE

The sale of all shares of capital stock of the applicant to be made under the plan of conversion, including any sale in a public offering or direct community marketing, shall be completed as promptly as possible and within 45 calendar days after the last day of the subscription period, unless extended in writing by the administrator.

Statutory Authority G.S. 54C-33; 54C-53.

.0721 INTEREST: SUBSCRIPTION/COMMUNITY PURCHASE ORDERS

The applicant shall pay interest at not less than the passbook rate on all amounts paid in cash or by check or money order to the savings bank to purchase shares of capital stock in the subscription offering or direct community offering from the date payment is received by the applicant until the conversion is completed or terminated.

Statutory Authority G.S. 54C-33; 54C-53.

.0722 EXTENSIONS OF TIME TO COMPLETE OFFERINGS

(a) The administrator may grant one or more extensions of time required to complete the sale of all shares of capital stock under Rule .0721 of this Section, provided that no single extension of time shall exceed 90 days.

(b) Immediately upon the granting of an extension of time pursuant to Paragraph (a) of this Rule, the applicant shall distribute to each subscriber in the offering, and, if applicable, each person who has ordered stock in the direct community offering, a post-effective amendment to the offering circular filed under an amendment to the application for conversion and declared effective by the administrator pursuant to Paragraph (d) of this Rule which shall notify each subscriber and each ordering person of the granting of the extension of time, and of the right of such subscriber and each ordering person to increase, decrease, or rescind his subscription either at any time prior to 20 days before the end of the extension period or at any time prior to the date of the commencement of the public offering or the direct community offering, provided that if the public offering or the direct community offering is not completed within 20 days after its commencement, all instructions from subscribers and ordering persons to increase, decrease or rescind their subscriptions or orders received during the 20-day offering period shall be honored by the applicant.

(c) For the purpose of this Rule, the public offering shall be deemed to commence upon the filing with the administrator of the preliminary offering circular for the public offering. The direct community offering shall be deemed to commence upon the declaration of effectiveness by the administrator of the final offering circular.
(d) After the expiration of the subscription rights, the converting savings bank shall file with and have declared effective by the administrator a post-effective amendment to the offering circular upon the occurrence of any event, circumstance, or change of circumstance which would be material to the investment decision of a subscriber or, if applicable, a person who has ordered capital stock in the direct community offering.

(e) Any post-effective amendment to an offering circular shall be distributed by the converting savings bank immediately after the declaration of effectiveness. It shall be distributed to each subscriber, and, if applicable, each person who has ordered stock in the direct community offering. The converting savings bank shall grant to each subscriber and ordering person the right to increase, decrease, or rescind his subscription or order for a period which shall be the greater of 10 days from the date of the mailing of the post-effective amendment or the period remaining in an extension of time granted by the administrator pursuant to the provisions of Paragraph (b) of this Rule.

Statutory Authority G.S. 54C-33; 54C-53.

CHAPTER 26 - MEDICAL ASSISTANCE

SUBCHAPTER 26H - REIMBURSEMENT PLANS

SECTION .0100 - REIMBURSEMENT FOR NURSING FACILITY SERVICES

0102 RATE SETTING METHODS

(a) A rate for skilled nursing care and a rate for intermediate nursing care is determined annually for each facility to be effective for dates of service for a twelve month period beginning each October 1. Each patient will be classified in one of
the two categories depending on the services needed. Rates are derived from either desk or field audited cost reports for a base year period to be selected by the state. Cost reports are filed and audited under provisions set forth in Rule .0104 of this Section. The criteria for determining the classification of each patient are presented in Appendix 1 of Attachment 3.1-A of the state plan. The minimum requirements of the 1987 OBRA are met by these provisions.

(b) Each prospective rate consists of two components: a direct patient care rate and an indirect rate - computed and applied as follows:

(1) The direct rate is based on the Medicaid cost per day incurred in the following cost centers:

(A) Nursing,
(B) Dietary or Food Service,
(C) Laundry and Linen,
(D) Housekeeping,
(E) Patient Activities,
(F) Social Services,
(G) Ancillary Services (includes several cost centers).

(2) To compute each facility's direct rate for skilled care and intermediate care, the direct base year cost per day is increased by adjustment factors for price changes as set forth in Rule .0102(c).

(A) A facility's direct rates cannot exceed the maximum rates set for skilled nursing or intermediate nursing care. However, the Division of Medical Assistance may negotiate direct rates that exceed the maximum rate for ventilator dependent patients. Payment of such special direct rates shall be made only after specific prior approval of the Division of Medical Assistance.

(B) A standard per diem amount will be added to each facility's direct rate, including facilities that are limited to the maximum rates, for the projected statewide average per diem costs of the salaries paid to replacement nurse aides for those aides in training and testing status and other costs deemed by HCFA to be facility costs related to nurse aide training and testing. The standard amount is based on the product of multiplying the average hourly wage, benefits, and payroll taxes of replacement nurse aides by the number of statewide hours required for training and testing of all aides divided by the projected total patient days.

(3) If a facility did not report any costs for either skilled or intermediate nursing care in the base year, the state average direct rate will be assigned as determined in Rule .0102(d) of this Section for the new type of care.

(4) The direct maximum rates are developed by ranking base-year per diem costs from the lowest to the highest in two separate arrays, one for skilled care and one for intermediate care. The per diem cost at the 80th percentile in each array is selected as the base for the maximum rate. The base cost in each array is adjusted for price changes as set forth in Rule .0102(e) of this Section to determine the maximum statewide direct rates for skilled care and intermediate care.

(5) Effective October 1, 1990, the direct rates will be adjusted as follows:

(A) A standard per diem amount will be added to each facility's skilled and intermediate rate to account for the combined expected average additional costs for the continuing education of nurses' aides; the residents' assessments, plans of care, and charting of nursing hours for each patient; personal laundry and hygiene items; and other non-nursing staffing requirements. The standard amount is equal to the sum of:

(i) the state average annual salary, benefits, and payroll taxes for one registered nurse position multiplied by the number of facilities in the state and divided by the state total of patient days;

(ii) the total costs of personal laundry and hygiene items divided by the total patient days as determined from the FY 1989 cost reports of a sample of nursing facilities multiplied by the annual adjustment factor described in Rule .0102(c)(4)(B) of this Section; and

(iii) the state average additional pharmacy consultant costs divided by 365 days and then divided by the average number of beds per facility.

(B) A standard amount will be added to the intermediate rate of facilities that were certified only for intermediate care prior to October 1, 1990. This amount will be added to account for the additional cost of providing eight hours of RN coverage and 24 hours of licensed nursing coverage. The standard amount is equal to the state average hourly wage, benefits and payroll taxes for a registered nurse multiplied by the 16 additional hours of required licensed nursing staff divided by the state average number of beds per nursing facility. A lower amount will be added to a facility only if it can be determined that the facility's intermediate rate prior to
October 1, 1990 already includes licensed nursing coverage above eight hours per day. The add-on amount in such cases would be equal to the exact additional amount required to meet the licensed nursing requirements.

(C) The standard amounts in Subparagraphs (2)(B), (5)(A), and (5)(B) of this Rule, will be retained in the rates of subsequent years until the year that the rates are derived from the actual cost incurred in the cost reporting year ending in 1991 which will reflect each facility’s actual cost of complying with all OBRA ‘87 requirements.

(6) Upon completion of any cost reporting year any funds received by a facility from the direct patient care rates which have not been spent on direct patient care costs as defined herein are repaid to the State. This will be applied by comparing a facility’s total Medicaid direct costs with the combined direct rate payments received for skilled and intermediate care. Costs in excess of a facility’s total prospective rate payments are not reimbursable.

(7) The indirect rate is intended to cover the following costs of an efficiently and economically operated facility:

(A) Administrative and General,

(B) Operation of Plant and Maintenance,

(C) Property Ownership and Use,

(D) Mortgage Interest.

(8) Effective for dates of service beginning October 1, 1984 and ending September 30, 1985 the indirect rates are fourteen dollars and sixty cents ($14.60) for each SNF day of care and thirteen dollars and fifty cents ($13.50) for each ICF day of care. These rates represent the first step in a two step transition process from the different SNF and ICF indirect rates paid in 1983-84 and the nearly equal indirect rates that will be paid in subsequent years under this plan as provided in this Rule.

(9) Effective for dates of service beginning October 1, 1985 and annually thereafter per diem indirect rates will be computed as follows:

(A) The average indirect payment to all facilities in the fiscal year ending September 30, 1983 [which is thirteen dollars and two cents ($13.02)] will be the base rate.

(B) The base rate will be adjusted for estimated price level changes from fiscal year 1983 through the year in which the rates will apply in accordance with the procedure set forth in Rule .0102(c) of this Section to establish the ICF per diem indirect rate.

(C) The ICF per diem indirect rate shall be multiplied by a factor of 1.02 to establish the SNF per diem indirect rate. This adjustment is made to recognize the additional administrative expense incurred in the provision of SNF patient care.

(10) Effective for dates of service beginning October 1, 1989, a standard per diem amount will be added to provide for the additional administrative costs of preparing for and complying with all nursing home reform requirements. The standard amount is based on the average annual salary, benefits and payroll taxes of one clerical position multiplied by the number of facilities in the state divided by the state total of patient days.

(11) Effective for dates of service beginning October 1, 1990, the indirect rate will be standard for skilled and intermediate care for all facilities and will be determined by applying the 1990-91 indirect cost adjustment factors in Rule .0102(c) of this Section to the indirect rate paid for SNF during the year beginning October 1, 1989. Thereafter the indirect rate will be adjusted annually by the indirect cost adjustment factors.

(c) Adjustment factors for changes in the price level. The rate bases established in Rule .0102(b), are adjusted annually to reflect increases or decreases in prices that are expected to occur from the base year to the year in which the rate applies. The price level adjustment factors are computed using aggregate base year costs in the following manner:

(1) Costs will be separated into direct and indirect cost categories.

(2) Costs in each category will be accumulated into the following groups:

(A) labor,

(B) other,

(C) fixed.

(3) The relative weight of each cost group is calculated to the second decimal point by dividing the total costs of each group (labor, other, and fixed) by the total costs for each category (direct and indirect).

(4) Price adjustment factors for each cost group will be established as follows:

(A) labor. The expected annual percentage change in direct labor costs as determined from a survey of nursing facilities to determine the average hourly wages for RNs, LPNs, and aides paid in the current year and projected for the rate year. The percentage change for indirect labor costs
is based on the projected average hourly wage of N.C. service workers.
(B) Other. The expected annual change in the implicit price deflator for the Gross National Product as provided by the North Carolina Office of State Budget and Management.
(C) Fixed. No adjustment will be made for this category, thus making the factor zero.
(D) The weights computed in (c)(3) of this Rule shall be multiplied times the percentage change computed in (c)(4)(A), (B) and (C) of this Rule. These products shall be added separately for the direct and indirect categories.
(E) The sum computed for each category in (c)(4)(D) of this Rule shall be the price level adjustment factor for that category of rates (direct or indirect) for the coming fiscal year.
(F) However, for the rate period beginning October 1, 1991 through September 30, 1992 the forecast of the Net Service Wages percent applied to the 1991-92 Inpatient Hospital and Intermediate Care Facility for the Mentally Retarded rates is applied to the Labor component weight computed in (c)(4)(A) of this Rule.
(G) For the rate period beginning October 1, 1991 through September 30, 1992 the direct adjustment factor determined under (c)(4) of this Rule will be applied to the direct rate adjustments determined under (b)(2), (b)(5)(A) and (b)(5)(B) of this Rule.
(d) The skilled and intermediate direct patient care rates for new facilities are established at the lower of the projected costs in the provider’s Certificate of Need application inflated to the current rate period or the average of industry base year costs and adjusted for price changes as set forth in Rule .0102(c) of this Section. A new facility receives the indirect rate in effect at the time the facility is enrolled in the Medicaid program. In the event of a change of ownership, the new owner receives the same rate of payment assigned to the previous owner.
(e) Each out-of-state provider is reimbursed at the lower of the appropriate North Carolina maximum rate or the provider’s payment rate as established by the State in which the provider is located. For patients with special needs who must be placed in specialized out-of-state facilities, a payment rate that exceeds the North Carolina maximum rate may be negotiated.
(f) Rates:
(1) A single all-inclusive prospective per diem rate combining both the direct and indirect cost components can be negotiated for nursing facilities that specialize in providing intensive services for head-injured or ventilator-dependent patients. The rate may exceed the maximum rate applicable to other Nursing Facility services. For head-injury services, a facility must specialize to the extent of staffing at least 50 percent of its Nursing Facility licensed beds for head-injury services. The facility must also be accredited by the Commission for the Accreditation of Rehabilitation Facilities (CARF). For ventilator services, the only facilities that are eligible for a combined single rate are small freestanding facilities with less than 21 Nursing Facility beds and that serve only patients requiring ventilator services. Ventilator services provided in larger facilities are reimbursed at higher direct rates as described in Rule .0102(b)(2)(A) of this Section.
(2) A facility’s initial rate is negotiated based on budget projections of revenues, allowable costs, patient days, staffing and wages. A complete description of the facility’s medical program must also be provided. Rates in subsequent years are determined by applying the average annual skilled nursing care adjustment factors to the rate in the previous year, unless either the provider or the State requests a renegotiation of the rate.
(3) Cost reports for these services must be filed in accordance with the rules in .0104 of this Section, but there will be no cost settlements for any differences between costs and payments. Since it is appropriate to include all financial considerations in the negotiation of a rate, a provider will not be eligible to receive separate payments for return on equity as defined in Rule .0105 of this Section.

CHAPTER 41 - CHILDREN'S SERVICES

SUBCHAPTER 4(M) - PAYMENT OF GRANTS-IN-AID TO PRIVATE CHILD-CARING INSTITUTIONS

.0001 PURPOSE
The purpose of this Subchapter is: to establish standards for the payment of grants-in-aid funds to private child-caring institutions and to establish a grant-in-aid formula to regulate the payment and distribution of such funds.

(1) to establish standards and procedures for the payment of State funds by the Division of Social Services to private child placing agencies and to private residential child care facilities for care and services provided to children who are in the custody or placement responsibility of a county department of social services;

(2) to assure the equitable distribution of the available funds to the eligible agencies;

(3) to assure the purchase of the minimum sufficient level of care for foster children;

(4) to assure adequate accountability by the eligible agencies for the use of State funds.

Statutory Authority G.S. 143B-153(2)(d).

.0002 DEFINITIONS
As used in this Subchapter, unless the context requires otherwise, the following terms shall have the meaning specified:

(1) Grants-in-aid funds means social services funds appropriated to the Department of Human Resources by the North Carolina General Assembly for payment to private child care institutions.

(2) Private child care institutions means those non-state agencies identified by the General Assembly as recipients of grants-in-aid funds to private child care institutions.

(3) Grant-in-aid formula means the rule pursuant to which any appropriated grants-in-aid funds are apportioned and disbursed among private child care institutions.

(4) Eligible population means children for whom a county department of social services has placement responsibility who would otherwise live in an arrangement supervised by a county department of social services except for the fact that they have been placed by a county department of social services in a living arrangement supervised by a private child care institution. Such children who are more than 17 years of age continue to be in the eligible population if they are less than 21 years of age and are full-time students or are accepted for enrollment as full-time students for the next school term pursuing a high school diploma or its equivalent, a course of study at the college level, or a course of vocational or technical training designed to fit them for gainful employment.

(5) The average cost of operating a private child care institution means the total cost of care in all private child care institutions divided by the number of private child care institutions. The average cost of operating a private child care institution does not include the cost of education and capital improvements.
PROPOSED RULES

The average eligible population means an annual average based on an actual quarterly census.

1. "State funds" means money appropriated by the General Assembly, including federal matching funds, to be paid to eligible private not-for-profit child placing agencies or private not-for-profit residential child care facilities.

2. "Child placing agency" means a private not-for-profit agency licensed by the Department of Human Resources to receive children for purposes of placement in residential child care facilities or family foster homes.

3. "Residential child care facility" means a private not-for-profit agency licensed or approved by the Department of Human Resources to operate a staffed premise with paid or volunteer staff where children receive continuing full-time foster care. Residential child care facility includes child-caring institutions, group homes, and children's camps which provide foster care.

4. "Eligible agency" means an agency which during the last State fiscal year before the payment system described in this Subchapter is inaugurated, received a State grant-in-aid to a private child-caring institution, or any agency which has become eligible to receive State funds under Rule 0003(4) and 0003(5) of this Subchapter.

5. "Eligible population" means children placed by a county department of social services with a private not-for-profit child placing agency or in a private not-for-profit residential child care facility. Children who are 17, 18, 19 or 20 years old continue to be eligible if they are full-time students or are accepted for enrollment as full-time students for the next school term pursuing a high school diploma or its equivalent, a course of study at the college level, or a course of vocational or technical training designed to fit them for gainful employment.

6. "Allowable cost" for each type of care (institutional group care, group home care, family foster care, emergency shelter care, wilderness camping) for each State fiscal year means the expenditures of the eligible agency during the agency's last complete fiscal year to provide the essentials of daily living for eligible children in that type of care. Less the standard foster care board payment, and limited to the cap described in Rule 0007(b) of this Subchapter. The essentials of daily living include shelter, meals, clothing, personal incidentals, school supplies, recreation, and individual supervision.

The per diem allowable cost for each agency for each type of care means that agency's annual allowable cost divided by the number of child care days provided by the agency in that type of care. When an eligible agency begins offering a type of care which it has not offered during the last fiscal year, the per diem allowable cost for that type of care for that agency during the current fiscal year will be equal to the average of the per diem allowable costs for all of the eligible agencies currently offering that type of care.

2. "Rate of reimbursement" means the percentage of each agency's per diem allowable cost for each type of care which is eligible for State and federal participation.

Statutory Authority G.S. 143B-153(2)(d).

0003 ADMINISTRATION OF STATE FUNDS

1. the average cost of operating private child-caring institutions;

2. the receipt of foster care assistance payments by private child-caring institutions from county departments of social services on behalf of the eligible population;

3. the average eligible population in care of private child-caring institutions; and

4. the difference between the average cost of operating private child-caring institutions and the receipt of foster care assistance payments from county departments of social services.

(d) On the basis of the grant-in-aid formula, the Division of Social Services shall disburse grants-in-aid funds to private child-caring institutions on a quarterly basis except that any institution which does not meet standards for payment specified in Rule 0004 of this Subchapter shall not receive its allocation for the quarter or quarters after the quarter such failure to meet standards is documented by the Division of Social Services.

cause of the failure to meet standards specified in Rule .0004 of this Subchapter shall be reallocated during the fourth quarter.

(b) The State funds administered under this Subchapter will be paid by the Division of Social Services directly to the eligible agencies.

(c) The Division of Social Services will collaborate with the North Carolina Child Care Association to develop the budget proposal for these funds to be recommended to the Secretary of Human Resources for inclusion in the Department's budget requests.

(2) the allowable cost for each type of care offered by each eligible agency;
(3) any proposed change in the reimbursement for each type of care;
(4) any inclusion of additional eligible agencies;

(1) certification that the agency has signed Civil Rights Compliance;

(a) The Division of Social Services will annually compute each agency's allowable cost for each type of residential care: institutional group care; group home care; family foster care; emergency shelter care; wilderness camping. For each type of care, the annual allowable cost will be divided by the number of child care days to determine the per diem allowable cost.

(b) The total annual State appropriation will be divided into 12 equal monthly appropriations. Each monthly appropriation will be distributed
to the eligible agencies so that each month the rate of reimbursement will be the same for each type of care and for each eligible agency.

(c) The Division of Social Services will compute each eligible agency’s monthly payment for each type of care based on the per diem rate of reimbursement times the number of days of care provided to children in the eligible population during the preceding month.

Statutory Authority G.S. 143B-153(2)(d).

.0005 STANDARDS FOR PAYMENT

During the first 12 months after the payment system described in this Subchapter is inaugurated, each eligible agency will receive a monthly payment per eligible child at least equal to the monthly State grant-in-aid payment per child it received during the prior 12 months to the extent funds are available for this purpose by the General Assembly.

Statutory Authority G.S. 143B-153(2)(d).

.0007 COST CONTAINMENT
(a) The Department will base the distribution of funds on payment of allowable foster care maintenance costs to the extent state and federal funds are available. The Department’s financial obligation will be limited to the annual State appropriation as determined through the normal State budget process plus any federal receipts approved in the Department of Human Resources’ budget for this purpose.
(b) For each annual budget recommendation, the Division of Social Services will consult with the North Carolina Child Care Association in establishing the cap to be placed on the per diem allowable cost for each type of care, taking into account the following factors:

(2) the intensity of care required for children in the type of care;
(3) the availability of alternative public funding for the type of care;
(4) utilization rate of licensed capacity; and
(5) the comparison of available space in the type of care to the need for placements by department of social services. The cap on the per diem allowable cost for each type of care will be expressed as a percentile of the eligible agencies offering that type of care, and the allowable cost for each agency will be limited to the maximum cost at the designated percentile.

Statutory Authority G.S. 143B-153(2)(d).

SECTION .0200 - INDIVIDUAL ACCIDENT AND HEALTH INSURANCE

.0201 MINIMUM LOSS RATIO STANDARDS

For individual accident and health insurance policies and riders delivered in this State, the standard minimum guideline loss ratio for conditionally renewable, guaranteed renewable, and noncancelable medical expense and loss of income type coverages shall be as promulgated by the National Association of Insurance Commissioners for such coverages.

.0202 RENEWABILITY DEFINITIONS

(a) Conditionally Renewable - Renewal may be declined for stated reasons, except for the deterioration of health of an individual insured, provided that the declination applies to all insureds in this State insured under the same policy or rider.

(b) Guaranteed Renewable - Renewal may not be declined by an insurance company for any reason; but the insurance company may revise rates on a class basis.

(c) Noncancelable - Renewal may not be declined nor may rates be revised by an insurance company.

.0203 CONDITIONALLY RENEWABLE STATED REASON PROHIBITED

For policies or riders permitting the adjustment of premiums for which the insurer retains the right to nonrenew, the following reason or any synonymous reasons given for nonrenewal are no longer appropriate and are therefore disallowed:
PROPOSED RULES

0204 OPTIONALLY RENEWABLE PROHIBITED

CHAPTER I - OFFICE OF STATE PERSONNEL

SUBCHAPTER ID - COMPENSATION

1082 6:15 NORTH CAROLINA REGISTER November 1, 1991
SECTION .0300 - PROMOTION

.0303 EFFECTIVE DATE

(a) Permanent promotions shall be made effective on the first day of the pay period. Such requests cannot be made effective earlier than the first day of the following month when received after the tenth of the month.

(b) The required promotional increase shall be given on the effective date of the promotion, unless a specific salary limitation is published in advance.

(c) If the desired amount of increase is not given on the effective date of the promotion, because of unavailable funds or equity considerations, an additional increase(s) up to the full allowable amount may be given at a later date(s) on a current basis. Additional increases are limited to two occurrences after the initial promotional increase and must be awarded within 24 months of the original effective date of the action. If a subsequent promotion, reallocation up or down, demotion or reassignment occurs, this cancels the authorization to grant additional increases as a result of the previous promotion. If increases are to be given at later dates, a notation must be entered on the form stating the reason the increase is being delayed and showing the dollar amount of the allowable increase, the amount given, and the balance that may be given later. The personnel actions submitted later must state "Promotional Increase" in the description of action block, which will denote that this is a delayed increase.

(d) If no additional increase is to be given at a later date, no notation is necessary.

(e) Temporary promotions may be made effective on the date that an employee is officially placed in an "acting" capacity.

Statutory Authority G.S. 126-4.

.0308 SALARY INCREASES

The purpose of a promotional pay increase is to reward the employee for the assumption of duties more responsible and more difficult than those in the current position. Subject to the availability of funds, salary increases, not to exceed the maximum of the range, may be given in accordance with the following:

1. Permanent Promotion:
   (a) Salaries at the hiring rate shall be increased to the new hiring rate.
   (b) Salaries at the minimum rate or within the range shall be increased to the new minimum rate of the grade to which promoted or by five percent, whichever is larger. Exceptions:

   (i) A promotional increase is not required if a specific salary rate or limitation is published in advance of a promotional offer because of internal salary equity or budget considerations in the receiving work unit or agency. If this occurs, a salary increase above the salary rate posted may not be paid, and no salary increase may be requested at a later date. If conditions change that eliminate the equity problem or if additional funds become available that can be used for this purpose, agency management may consider an additional increase in accordance with the provisions outlined under Rule .0303 of this Section.

   (ii) If the employee’s salary is above the maximum as a result of a reallocation down, no increase can be given, but the salary may remain above the maximum.

2. If the employee is promoted to a position within the same class series or occupational group that is two pay grades or more above the current position, the salary may be increased by up to ten percent. An increase of more than ten percent, the total not to exceed five percent for each grade provided by the promotion, may be considered if the employee has directly related training and/or experience above the minimum requirements to qualify for the salary requested.

(d) (e) If the employee is promoted to a position in a different occupational area, the salary may be increased by more than five percent, the total not to exceed five percent for each grade provided by the promotion, if the employee has had directly related training and/or experience above the minimum requirements to qualify for the salary requested, which, exceeds the minimum qualifications for the position, the salary may be increased by more than five percent commensurate with the related training and experience; the total not to exceed five percent for each salary grade provided by the promotion. The nature and magnitude of the change in jobs, the need to maintain equity of salaries within the work unit, and other management needs must be given consideration when making salary decisions. Agency management is responsible for ensuring that inequities are not created.

If such requests are made, however, if an employee has been reduced to a lower salary grade through demotion, reassignment, reallocation or salary range revision, but without a corresponding reduction in salary,
and the employee is later promoted to a position with a higher grade, the number of grades in the original reduction shall be considered to have been compensated and shall not be considered in the salary setting procedure in this Rule. If the reduction in grade occurred as much as 24 months previously, the agency may give consideration to granting a salary increase within the provisions of this policy. Factors to be considered are the nature of the change in jobs and the need to maintain equity of salaries within the work unit.

(e) Only with the prior approval of the State Personnel Director and only in well-documented cases which involve circumstances such as severe labor market conditions, unusual change in the scope of work, extraordinary qualifications, or resolution of serious equity problems will salary increases be considered which equate to more than five percent for each grade provided by the promotion. Personnel forms must include the justification.

(f) If the employee is to receive a performance salary increase on the same date as the promotion, the increase may be given before the promotional increase.

(g) If an employee is promoted from a class for which there is no special entry rate into a class which has a special entry rate, the employee’s salary may be increased by the amount of the promotional increase plus the percent difference between the minimum and the special entry rate authorized.

(2) Temporary Promotion:

(a) Temporary promotions may be made when an employee is placed in an “acting” capacity for a period of time. When an employee is placed in an “acting” capacity, at the discretion of management, one of the following may occur:

(i) The employee may be placed in the higher level position (if vacant) with an understanding that he will return to the former position and salary when the position is filled.

(ii) A salary adjustment may be given in the present position with the understanding that the salary will be decreased when the “acting” capacity terminates. Indicate in Section 21 of the PD-105 the position number and classification for which the employee is serving in an “acting” capacity. Also include expected duration of “acting” capacity.

(b) The provisions for salary increases for permanent promotions apply in either case, except that the provision for a mandatory increase may not be applicable.

(c) The length of time that an employee is in an acting capacity should be limited, and the amount of promotional salary increase determined by the degree of assumption of the higher level duties.

Statutory Authority G.S. 126-4.

SECTION .1000 - REINSTATMENT

.1001 DEFINITION

Reinstatement is:

(1) the reemployment in permanent status of a former permanent full-time or permanent part-time employee with a break in service and within a specified time period based on length of continuous service; if the continuous period of service was less than three years, the employee shall be eligible for consideration for reinstatement within the three years following the date of separation; if the continuous period of service was three years or longer, the time for eligibility for reinstatement is unlimited. For reinstatement under competitive service, the individual must have been in good standing at the time of separation; five years following the date of separation. Although the employee is eligible for reinstatement to permanent status, the agency head may choose to offer reemployment with a probationary appointment. The employee will meet all requirements of the probationary period the same as for original appointments;

(2) the return to a non-exempt non-policy-making position of an employee who transferred to or occupied a position designated as policy-making exempt. An employee with five or more continuous years of service in a non-exempt position shall, upon leaving the exempt position, have priority in any non-exempt position available for which he is qualified.

Statutory Authority G.S. 126-4.

.1003 BREAK IN SERVICE

A break in service occurs when an employee is in non-pay status for more than 24 calendar days, one-half the workdays in the month. (An employee is in pay status when working, when on paid leave or when on workers’ compensation leave. An employee is not in pay status after the last day of work when separated because of res-
ignition, dismissal, death, retirement or reduction in force.) Periods of leave without pay do not constitute a break in service.

Statutory Authority G.S. 126-4.

1004 SALARY RATE UPON REINSTATEMENT

There are alternatives for determining the salary rate that an appointing authority may request for an employee being reinstated. These alternatives are:

1. The same salary rate the employee was receiving at the time of separation, if it is within the salary range for the class to which he is being reinstated or any lower salary rate in that range;

2. A salary relative to what it would have been had the employee not separated from service; if it is within the salary range for the class to which he is being reinstated; the relative salary is computed from his salary rate at time of separation plus legislative increases and any increases resulting from salary range revisions since his separation;

3. A salary in accordance with the policy on new appointments;

4. A salary in accordance with promotional policy if the reinstatement is to a class at a higher level than the one from which the employee separated;

5. Upon reinstatement from military leave, an employee's salary shall be based on the last salary plus any general salary increases due while on leave. The addition of annual salary increases may be considered by the agency head. If the employee was in a trainee status at the time of military leave, the addition of trainee adjustments may be considered if it can be determined that the military experience directly related to the development in the area of work to be performed.

Under this provision, credit is received for such service upon furnishing an acceptable copy of a military discharge to the Teachers' and State Employees' Retirement System.

Statutory Authority G.S. 126-4.

1007 PERFORMANCE INCREASE ANNIVERSARY DATE

Anniversary dates do not apply to employees whose salaries are at step three or higher. For employees whose salaries are at step one or two, the following shall apply:

1. When reinstated from resignation, dismissal, or retirement, the increase anniversary date will be the first day of the month in which the employee completes at least half the workdays in a month.

2. When reinstated from leave without pay or reduction in force, the anniversary date will be established on the first day of the month when the employee completes 42 months in pay status since the last increase that established an anniversary date; this includes time before and after the leave or break in service. If the employee is on leave without pay for less than one-half the scheduled workdays in any month, service credit toward the next anniversary date will be granted for the whole month.

3. When an employee is on military leave, educational leave, or worker's compensation leave, the anniversary date does not change.

Statutory Authority G.S. 126-4.

1006 BENEFITS REINSTATED

(a) Sick leave shall be reinstated when an employee returns from authorized leave without pay or when reinstated within three five years from any type of separation.

(b) Employees who enter the armed services or who engage in active military service and who return to state employment within a period of two years after being separated or released, or becoming entitled to be separated or released, from active military service under other than dishonorable conditions shall be entitled to full retirement membership service credit for the period of such active service in the armed services.
(a)(1) and (2) of this Rule or as a new appointment and justified accordingly when required.
(c) Upon reinstatement from military leave, an employee's salary shall be based on the last salary plus any general increases due while on leave. The addition of performance salary increases may be considered by the agency head if appropriate.
If the employee was in trainee status at the time of military leave, the addition of trainee adjustments may be considered if it can be determined that the military experience directly related to the development in the area of work to be performed.

Statutory Authority G.S. 126-4.

This Section of the Register lists the recent decisions issued by the North Carolina Supreme Court, Court of Appeals, Superior Court (when available), and the Office of Administrative Hearings which invalidate a rule in the North Carolina Administrative Code.

15A NCAC 21D .0802(b)(2) - AVAILABILITY
The North Carolina Administrative Code (NCAC) has four major subdivisions of rules. Two of these, titles and chapters, are mandatory. The major subdivision of the NCAC is the title. Each major department in the North Carolina executive branch of government has been assigned a title number. Titles are further broken down into chapters which shall be numerical in order. The other two, subchapters and sections are optional subdivisions to be used by agencies when appropriate.
