NORTH CAROLINA REGISTER

The North Carolina Register is published twice a month and contains information relating to agency, executive, legislative and judicial actions required by or affecting Chapter 150B of the General Statutes. All proposed administrative rules and notices of public hearings filed under G.S. 150B-21.2 must be published in the Register. The Register will typically comprise approximately fifty pages per issue of legal text.

State law requires that a copy of each issue be provided free of charge to each county in the state and to various state officials and institutions.

The North Carolina Register is available by yearly subscription at a cost of one hundred and twenty dollars ($120.00) for 24 issues. Individual issues may be purchased for ten dollars ($10.00).

Requests for subscription to the North Carolina Register should be directed to the Office of Administrative Hearings, PO Drawer 27447, Raleigh, NC 27611-7447.

ADOPTION, AMENDMENT, AND REPEAL OF RULES

The following is a generalized statement of the procedures to be followed for an agency to adopt, amend, or repeal a rule. For the specific statutory authority, please consult Article 2A of Chapter 150B of the General Statutes.

Any agency intending to adopt, amend, or repeal a rule must first publish notice of the proposed action in the North Carolina Register. The notice must include the time and place of the public hearing (or instructions on how a member of the public may request a hearing); a statement of procedure for public comments; the text of the proposed rule or the statement of subject matter; the reason for the proposed action; a reference to the statutory authority for the action and the proposed effective date.

Unless a specific statute provides otherwise, at least 15 days must elapse following publication of the notice in the North Carolina Register before the agency may conduct the public hearing and at least 30 days must elapse before the agency can take action on the proposed rule. An agency may not adopt a rule that differs substantially from the proposed form published as part of the public notice, until the adopted version has been published in the North Carolina Register for an additional 30 day comment period.

When final action is taken, the promulgating agency must file the rule with the Rules Review Commission (RRC). After approval by RRC, the adopted rule is filed with the Office of Administrative Hearings (OAH).

A rule or amended rule generally becomes effective 5 business days after the rule is filed with the Office of Administrative Hearings for publication in the North Carolina Administrative Code (NCAC).

Proposed action on rules may be withdrawn by the promulgating agency at any time before final action is taken by the agency or before filing with OAH for publication in the NCAC.

TEMPORARY RULES

Under certain emergency conditions, agencies may issue temporary rules. Within 24 hours of submission to OAH, the Codifier of Rules must review the agency's written statement of findings of need for the temporary rule pursuant to the provisions in G.S. 150B-21.1. If the Codifier determines that the findings meet the criteria in G.S. 150B-21.1, the rule is entered into the NCAC. If the Codifier determines that the findings do not meet the criteria, the rule is returned to the agency. The agency may supplement its findings and resubmit the temporary rule for an additional review or the agency may respond that it will remain with its initial position. The Codifier, thereafter, will enter the rule into the NCAC. A temporary rule becomes effective either when the Codifier of Rules enters the rule in the Code or on the sixth business day after the agency resubmits the rule without change. The temporary rule is in effect for the period specified in the rule or 180 days, whichever is less. An agency adopting a temporary rule must begin rule-making procedures on the permanent rule at the same time the temporary rule is filed with the Codifier.

NORTH CAROLINA ADMINISTRATIVE CODE

The North Carolina Administrative Code (NCAC) is a compilation and index of the administrative rules of 25 state agencies and 40 occupational licensing boards. Compilation and publication of the NCAC is mandated by G.S. 150B-21.18.

The Code is divided into Titles and Chapters. Each state agency is assigned a separate title which is further broken down by chapters. Title 21 is designated for occupational licensing boards. The NCAC is available in two formats.

1. Single pages may be obtained at a minimum cost of two dollars and 50 cents ($2.50) for 10 pages or less, plus fifteen cents ($0.15) per each additional page. Requests for pages of rules or volumes of the NCAC should be directed to the Office of Administrative Hearings.

2. The full publication and supplement service is printed and distributed by Barclays Law Publishers. It is available in hardcopy, CD-ROM and diskette format. For subscription information, call 1-800-888-3600.

STATE OF NORTH CAROLINA

COUNTY OF WAKE

IN THE MATTER OF:

The Proposed Assessment of additional sales and use tax for the period of November 1, 1989 through December 31, 1992 assessed against Culp, Inc.

BEFORE THE
TAX REVIEW BOARD

administrative
decision number: 299

THIS MATTER was heard before the Tax Review Board on April 11, 1995 in the City of Raleigh, Wake County, North Carolina. It involves an appeal by Culp, Inc., (hereinafter "Petitioner") from the Final Decision of Michael A. Hannah, Assistant Secretary for Legal and Administrative Hearings (hereinafter "Assistant Secretary") entered on August 11, 1994 sustaining a proposed assessment of sales and use tax for the period of November 1, 1989 through December 31, 1992.

Chairman Harlan E. Boyles presided over the hearing with Hugh Wells, Chairman Utilities Commission and duly appointed member, Jeff D. Batts, Attorney at Law participating.

Joseph D. Joyner, Jr. and Martin H. Brinkley, Attorneys at Law, appeared on behalf of the Petitioner; Marilyn R. Mudge, Assistant Attorney General, appeared on behalf of the Department of Revenue.

FINDINGS OF FACT

THE TAX REVIEW BOARD, having reviewed the Petition, supporting brief and record filed in this matter, makes the following Findings of Fact:

1. The Petitioner is a fully integrated manufacturer and marketer of fabrics for the furniture, bedding and institutional furnishings industries.

2. In the manufacturing process, a pattern and color are printed onto highly specialized greige paper.

3. The Petitioner prints upholstery fabrics and mattress tickings by passing the printed (greige) paper and the base cloth through a rotary screen heat transfer printing machine that unites the paper and cloth.

4. The greige paper can be used only once in this process and must be discarded after use.

CONCLUSIONS OF LAW

Based upon the record, the Petition and supporting brief and the foregoing findings of fact, the Tax Review Board concludes as a matter of law:

1. Sales of mill machinery, mill machinery parts and accessories to manufacturing industries and plants for industrial processing are subject to a one percent (1%) use tax in North Carolina under G.S. § 105-164.4(a)(1d)j.

2. An exemption from the sales or use tax is allowed under G.S. § 105-164.13(8) for "sales of tangible personal property to a manufacturer which enters into or becomes an ingredient or component part of tangible personal property which is manufactured."

3. The Assistant Secretary erred in ruling that the greige paper does not meet the exemption provided under G.S. § 105-164.13(8). The greige paper qualifies for the exemption under this statutory provision because the Board
concludes that the paper is deemed to "enter into" the manufactured fabric based upon the following unique facts presented in the record: (1). the greige paper can only be used once in the heat transfer printing process; (2). the greige paper comes into direct, face-to-face contact with the fabric; (3). the greige paper has a one-to-one relationship with the fabric; (4). the greige paper is indispensable in the heat transfer printing process.

4. The Sales and Use Tax Administrative Rule, cited as 17 N.C.A.C. 07B .0705(j), provides that "sales to manufacturers of fabric conditioners and other chemicals which actually enter into manufactured products at some step between the initial and final steps in the manufacturing process are exempt from tax." The Board further concludes that the greige paper falls within the category of products exempt pursuant to this Rule.

DECISION

IT APPEARING TO THE BOARD, that the greige paper purchased by the Petitioner and used in its manufacturing process qualifies for exemption from sales or use tax imposed under G.S. § 105-164.4(a).

IT IS THEREFORE ORDERED, that the Final Decision of the Assistant Secretary is REVERSED.

Entered this the 9th day of June, 1995.

the time of separation. This policy (Rule) provides for uniform application of severance salary continuation for employees who are involuntarily separated due to reduction in force. Payment is based on total state service supplemented by an age factor. The age factor recognizes that older employees, although protected from discrimination on the basis of age, do have a more difficult time finding new employment due to lack of transferable skills, current salary level, geographic location and other factors.

G.S. 143-27.2 provides for severance salary continuation or a discontinued service retirement allowance when the Director of the Budget determines that the closing of a State institution or a reduction-in-force will accomplish economies in the State Budget, provided reemployment is not available. "Economies in the State Budget" means economies resulting from elimination of a job and its responsibilities or from a lack of funds to support the job. The provisions outlined below provide for uniform application of severance salary continuation for eligible employees.

(1) Eligible Employees:

(a) A permanent full-time or part-time (20 hours or over) employee with a permanent appointment who does not obtain another permanent job in state government by the effective date of the reduction-in-force shall be eligible for severance salary continuation when separated. Also eligible are employees with trainee appointments who have completed six months of service, and employees who obtained had a permanent appointment status prior to entering a trainee appointment. This shall not apply to employees whose reduction in force is not considered permanent; that is, employees who are reduced in force on a temporary or seasonal basis with the expectation that they will return to work within twelve months.

(b) An employee who is separated at the end of with time-limited permanent probationary, temporary or intermittent appointment is not eligible for severance salary continuation.

(c) An employee Employees who are separated on early retirement, service retirement, or long term disability retirement or with a discontinued service retirement as provided by G.S. 143-27.2 are not eligible for severance salary continuation. An employee Employees who are eligible for early or service retirement may, if it is to their advantage, elect to delay their the employee’s retirement and receive severance salary continuation for the prescribed period.

(d) Employees who are reemployed after being terminated as a result of reduction in force and who have previously received severance continuation payments are only eligible to receive the difference between previous payments and the current eligibility.

(d) An employee who is receiving workers’ compensation or short-term disability payments is eligible for severance salary continuation.

(e) An employee on leave with pay or leave without pay shall be separated on the effective date of the reduction-in-force, the same as other employees, and shall be eligible to receive severance salary continuation on that date.

(f) Permanent An employees with a permanent appointment scheduled to be separated by reduction-in-force, may accept a temporary state position or a contractual services arrangement and remain eligible to receive severance salary continuation in accordance with this policy. Section.

(g) A—permanent An employee with a permanent appointment scheduled to be separated through reduction-in-force may decline a lower level position and retain eligibility for severance salary continuation.

(2) Amount and Method of Payment:

(a) Severance salary continuation shall be based on total state service (except as noted in this Rule) and supplemented by an age adjustment factor as follows:

(i) Amount of Salary Continuation:

<table>
<thead>
<tr>
<th>Years of Service</th>
<th>Payment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than 1 year</td>
<td>2 weeks</td>
</tr>
<tr>
<td>1 but less than 5 years</td>
<td>1 month</td>
</tr>
<tr>
<td>5 but less than 10 years</td>
<td>2 months</td>
</tr>
<tr>
<td>10 but less than 20 years</td>
<td>3 months</td>
</tr>
<tr>
<td>20 or more years</td>
<td>4 months</td>
</tr>
</tbody>
</table>

(ii) Age Adjustment Factor:

An employee Employees qualify for the age adjustment factor at 40 years of age. To compute the amount of the adjustment, 2.5 percent of the annual base salary will be added for each full year over 39 years of age, age not to exceed 62 years (age 61). In the event an employee is not eligible for either social security benefits or retirement benefits under the Teachers’ and State Employees’ Retirement System, the employee may receive credit for age beyond age 61; however, the total age adjustment factor payment is limited by the service payment and cannot exceed the total service payments.

Note: At age 62, a career employee is usually eligible for social security benefits as well as benefits under the Teachers’ and State Employees’ Retirement System both of which have been contributed to by the state.

Example: Age 63, salary—twenty four thousand ($24,000) dollars/year. Service—20 years. However, the age adjustment factor cannot exceed the service factor so the age factor is limited to eight
The amount to be paid to part-time employees will be calculated using total state service multiplied by the prorated monthly pay.

Severance salary continuation will be paid on a pay period basis and is not subject to employee or employer retirement contributions, and as a result, will not be included in computing average final compensation for retirement purposes.

Any period covered by severance salary continuation shall not be credited as a period of state service.

An employee who is reemployed in any permanent position with the state while receiving severance salary continuation will no longer be eligible for such pay effective on the date of reemployment. The reemploying agency shall be responsible for determining if the former employee is receiving severance salary continuation payments.

If an employee dies while receiving severance salary continuation, the balance of such payment will be made to the deceased employee’s death benefit beneficiary as designated with the Teachers’ and State Employees’ Retirement System in a lump sum payment.

An employee receiving severance salary continuation is not entitled to receive unemployment compensation.

Funds for severance salary continuation will be provided as directed by the Office of State Budget and Management.

For each employee who receives severance salary continuation, agencies shall show on the separate form, Form PD-105, the calculation and amount of such payment.

intermittently or on a reduced schedule to care for the
employee's child, spouse, or parent who has a serious health
condition. There is no minimum limitation on the amount of
leave taken intermittently; however, the agency may not require
leave to be taken in increments of more than one hour. If such
leave is foreseeable, based on planned medical treatment, the
agency may require the employee to transfer temporarily to an
available alternative position for which the employee is qualified
and that has equivalent pay and benefits and better accommodates
recurring periods of leave.

(c) Only the time actually taken as leave may be counted
toward the 12 weeks of leave to which the employee is entitled
when leave is taken intermittently or on a reduced leave
schedule. If the employee works a reduced or intermittent work
schedule and does not use paid leave to make up the difference
between the normal work schedule and the new temporary
schedule to bring the number of hours worked up to the regular
schedule, the agency must submit a Form PD-105 showing a
change in the number of hours the employee is scheduled to
work. This will result in an employee earning leave at a
reduced rate.

Statutory Authority G.S. 126-4(5); P.L. 103-3.

.1406 AGENCY RESPONSIBILITY

(a) The employee shall give notice to the supervisor for leave
requested under this Section. The employee must explain the
reasons for the needed leave to so as to follow the agency to
determine that the leave qualifies under this Section. Posting
and Notification Requirements of Family and Medical Leave
Act Provisions - Agencies are required to post and keep posted,
in a conspicuous place, a notice explaining the Family and
Medical Leave Act provisions and providing information
concerning the procedures for filing complaints of violations of

the Act with the U.S. Department of Labor, Wage and Hour Division. The agency must include the provisions of this Section in all written publications, such as handbooks, etc. In addition, each time an employee provides notice of the need for family and medical leave, the agency shall provide the employee with written notice detailing the specific expectations and obligations of the employee and explaining any consequences of a failure to meet these obligations.

(1) Birth or adoption—The employee shall give the agency no less than 30 days' notice, in writing, of the intention to take leave, subject to the actual date of the birth or adoption. If the date of the birth or adoption requires leave to begin in less than 30 days, the employee shall provide such notice as is practicable.

(2) Planned Medical Treatment—When the necessity for leave is to care for the employee's child, spouse or parent or because the employee has a serious health condition, the employee must give 30 day's notice if practicable of the intention to take leave.

(b) If the employee will not return to work, the agency shall be notified in writing. Failure to report at the expiration of the leave, unless an extension has been requested, may be considered as a resignation. Notice of Eligibility - It is the agency's responsibility to determine that an employee is eligible for family and medical leave. If an employee notifies the employer of the need for family and medical leave before the employee meets the eligibility criteria, the agency is required to:

(1) confirm the employee's eligibility effective on the date leave is to start; or

(2) advise the employee when the requirement will be met.

This decision cannot be reversed. No additional notice for family and medical leave from the employee is required. If the agency does not advise the employee whether the employee is eligible prior to the date the leave is to start, the employee will be deemed eligible. The agency shall not deny the leave.

If the employee does not give notice of the need for leave more than two workdays before beginning leave, the employee will be deemed to be eligible unless notified of ineligibility within two workdays of the date the notice is received.

(c) Designation of Leave as Family and Medical Leave. It is the responsibility of the agency to:

(1) determine that leave requested is for a family and medical leave qualifying reason, and

(2) designate leave, whether paid or unpaid, as family and medical leave even when an employee would rather not use any of his or her family and medical leave entitlement.

The key in designating family and medical leave is the qualifying reason(s), not the employee's election or reluctance to use family and medical leave or to use all, some or none of the accrued leave. The agency's designation must be based on information obtained from the employee or an employee's representative (e.g., spouse, parent, physician, etc.).

(d) Designation of Paid Leave as Family and Medical Leave.

When an employee gives notice of the need for family and medical leave and the employee is using paid leave, whether required or optional, the agency shall designate whether it qualifies for family and medical leave before the leave starts. If information is not sufficient to make the determination, the agency shall require the employee to provide the information. All leave taken can be designated as family and medical leave; however, if sufficient information was available and the designation or notice was not given, the leave cannot be designated as family and medical leave retroactively.

When an employee is on paid leave but has not given notice of the need for family and medical leave, the agency shall, after a period of 10 workdays, request that the employee provide sufficient information to establish whether the leave is for a family and medical leave qualifying reason. This does not preclude the agency from requesting the information sooner, or at any time an extension is requested.

If an absence which begins as other than family and medical leave later develops into a family and medical leave qualifying absence, the entire portion of the leave period that qualifies under the Family and Medical Leave Act may be counted as family and medical leave.

Once the agency has knowledge that the leave is being taken for a family and medical leave required reason, the agency must, within two business days absent extenuating circumstances, notify the employee that the leave is designated and will be counted as family and medical leave. The notice may be oral or in writing, but must be confirmed in writing no later than the following payday.

(e) Designation of Family and Medical Leave After Return to Work - The agency shall not designate leave that has already been taken as family and medical leave until the employee returns to work, except:

(1) if an employee is out for a reason that qualifies for family and medical leave and the agency does not leave of the reason for the leave until the employee returns to work, the agency may designate the leave as family and medical leave within two business days of the employee's return; or

(2) if the agency has provisionally designated the leave under family and medical leave and is awaiting receipt from the employee of documentation.

Similarly, the employee is not entitled to the protection of the Family and Medical Leave Act if the employee gives notice of the reason for the leave later than two days after returning to work.

Statutory Authority G.S. 126-4(5); P.L. 103-3.

.1407 EMPLOYEE RESPONSIBILITY

(a) The agency may require that a claim for leave because of adoption be supported by acceptable proof of adoption. The employee shall give notice to the supervisor for leave requested under this Section. The employee must explain the reasons for the needed leave in order to follow the agency to determine that the leave qualifies under this Section.

(1) Birth or adoption - The employee shall give the
agency no less than 30 days notice, in writing, of the intention to take leave, subject to the actual date of the birth or adoption. If the date of the birth or adoption requires leave to begin in less than 30 days, the employee shall provide such notice as is practicable, which means within one or two business days of when the need for leave becomes known to the employee.

(2) Planned Medical Treatment - When the necessity for leave is to care for the employee's child, spouse or parent or because the employee has a serious health condition, the employee must give 30 days notice if practicable of the intention to take leave. For planned medical treatment, employee consultation with the supervisor prior to the request for family and medical leave is mandatory.

(3) Medical Emergency - In the case of a medical emergency requiring leave because of an employee's own serious health condition, an agency cannot require written advance notice.

(b) The agency may require that a claim for leave because of a serious illness of the employee or of the employee's child, spouse, or parent be supported by a doctor's certification which includes the following: If the employee will not return to work, the agency shall be notified in writing. Failure to report at the expiration of the leave, unless an extension has been requested, may be considered as a resignation.

(1) The date on which the serious health condition began;
(2) The probable duration of the condition;
(3) The appropriate medical facts regarding the condition;
(4) A statement that the leave is needed to care for the child, spouse, or parent, and an estimate of the amount of time that is needed; or that the employee is unable to perform the functions of the position, whichever applies; and
(5) Where certification is necessary for intermittent leave for planned medical treatment, the dates on which the treatment is expected to be given and the duration of the treatment;

(c) Where the agency has reason to doubt the validity of the certification, the agency may require the employee to get the opinion of a second doctor-designated or approved by the agency. Where the second opinion differs from the opinion in the original certification provided, the agency may require the employee to get the opinion of a third doctor-designated or approved jointly by the employer and the employee. The third opinion is final and is binding on the agency and the employee. The agency may require that the employee get subsequent recertifications on a reasonable basis. The second and third certification and the recertifications must be at the agency's expense. Certification - The employee shall provide certification in accordance with the provisions set out in Rule 25 NCAC 1E .1408 of this Section. If the employee does not provide medical certification, any leave taken is not family and medical leave.

Statutory Authority G.S. 126-4(5); P.L. 103-3.

.1408 CERTIFICATION EMPLOYMENT AND BENEFITS PROTECTION

(a) Reinstatement - The employee shall be reinstated to the same position held when the leave began or one of like pay grade, pay, benefits, and other conditions of employment. The agency may require the employee to report at reasonable intervals to the employer on the employee's status and intention to return to work. The agency also may require that the employee receive certification that the employee is able to return to work. Adoption - The agency may require that a claim for leave because of adoption be supported by reasonable proof of adoption.

(b) Benefits - The employee shall be reinstated without loss of benefits accrued when the leave began. All benefits accrued during any period of paid leave; however, no benefits will be accrued during any period of leave without pay. Medical Certification - The agency may require that a claim for leave because of a serious illness of the employee or of the employee's child, spouse, or parent be supported by a certification from the health care provider; however, if the employee is using paid leave, the agency cannot require a more stringent certification than normally required. If the employee is using unpaid family and medical leave, the certification requirements can be no greater than the following:

(1) When the leave is foreseeable and at least 30 days notice has been provided, the employee should provide the medical certification before the leave begins.

(2) When it is not possible to provide the medical certification before the leave begins, the employee must provide the requested certification to the agency with the time frame requested by the agency (which must allow at least 15 calendar days after the agency's request), unless it is not practicable under the circumstances.

(3) At the time the agency requests certification, the agency must also advise the employee of the anticipated consequences of an employee's failure to provide adequate certification. The agency shall so provide the employee a reasonable opportunity to correct any incomplete information.

(c) Health Benefits - The State shall maintain coverage for the employee under the State's group health plan for the duration of leave at the level and under the conditions coverage would have been provided if the employee had continued employment. Any share of health plan premiums which an employee had paid prior to leave must continue to be paid by the employee during the leave period. The obligation to maintain health insurance coverage stops if an employee's premium payment is more than 30 days late. If the employee's failure to make the premium payment leads to a lapse in coverage, the employer must still restore the employee, upon return to work, to the health coverage equivalent to that the employee would have had if leave had not been taken and the premium payments had not been missed without any waiting
(B) circumstances described by the previous certification have changed significantly, or

(C) the agency receives information that casts doubt upon the employee’s stated reason for the absence.

(2) If the minimum duration specified on a certification is more than 30 days, the agency may not request recertification until that minimum duration has passed unless one of the conditions in Paragraph (e)(1)(A), (B) or (C) of this Rule is met.

(3) The employee must provide the requested recertification to the agency within the time frame requested by the agency which must allow at least 15 calendar days after the agency’s request, unless it is not practicable under the particular circumstances.

(4) Any recertification requested by the agency shall be at the employee’s expense unless the agency provides otherwise. No second or third opinion on recertification may be required.

Statutory Authority G.S.126-4(5); P.L. 103-3.

.1409 EMPLOYMENT AND BENEFITS PROTECTION

(a) Actions Prohibited. It is unlawful to interfere with, restrain, or deny any right provided by this Section or to discharge or in any other manner discriminate against an employee for opposing any practice made unlawful by this Section. Reinstatement - The employee shall be reinstated to the same position held when the leave began or one of like pay grade, pay, benefits, and other conditions of employment. The agency may require the employee to report at reasonable intervals to the agency on the employee’s status and intention to return to work. The agency also may require that the employee provide certification that the employee is able to return to work.

(b) Protected Activity. It is unlawful to discharge or in any other manner discriminate against any employee because the employee does any of the following: Benefits - The employee shall be reinstated without loss of benefits accruing when the leave began. (c) A violation of or denial of leave requested pursuant to the Family and Medical Leave Act of 1993 is not a contested case and creates no right of grievance or appeal pursuant to the State Personnel Act (G.S. 126). Violations can result in any of the following or a combination of any of the following and are enforced by the U.S. Secretary of Labor: Health Benefits - The
State shall maintain coverage for the employee under the State's group health plan for the duration of leave at the level and under the conditions coverage would have been provided if the employee had continued employment. Any share of health plan premiums which an employee had paid prior to leave must continue to be paid by the employee during the leave period. The agency must give advance written notice to employees of the terms for payment of premiums during family and medical leave. The obligation to maintain health insurance coverage stops if an employee's premium payment is more than 30 days late. The agency must provide 15 days notice that coverage will cease. If the employee's failure to make the premium payments leads to a lapse in coverage, the agency must still restore the employee, upon return to work, to the health coverage equivalent to that the employee would have had if leave had not been taken and the premium payments had not been missed without any waiting period or preexisting conditions. The agency may recover the premiums if the employee fails to return after the period of leave to which the employee is entitled has expired for a reason other than the continuation, recurrence, or onset of a serious health condition or other circumstances beyond the employee's control.

SUBCHAPTER 1J - EMPLOYEE RELATIONS

SECTION .0600 - DISCIPLINARY ACTION: SUSPENSION AND DISMISSAL

.0604 JUST CAUSE FOR DISCIPLINARY ACTION
(a) Any employee, regardless of occupation, position or profession may be warned, demoted, suspended or dismissed by the appointing authority. Such actions may be taken against career employees as defined at G.S. 126-1(1) and 126-39, only for just cause. The degree and type of action taken shall be based upon the sound and considered judgment of the appointing authority in accordance with the provisions of this Rule. When just cause exists the only disciplinary actions provided for under this Section are:
1. Written warning;
2. Disciplinary suspension without pay;
3. Demotion; and
4. Dismissal.
(b) There are two bases for the discipline or dismissal of employees under the statutory standard for “just cause” as set out in G.S. 126-35. These two bases are:
1. Discipline or dismissal imposed on the basis of unacceptable unsatisfactory job performance, including grossly inefficient job performance.
2. Discipline or dismissal imposed on the basis of unacceptable personal conduct.
(c) The term “unacceptable job performance” means the failure to satisfactorily perform job requirements as specified in the job description, work plan, or as directed by management of the work unit or agency. Satisfactory performance is that performance which is reasonable under all the circumstances. Determination of satisfactory performance shall be made by the supervisor. There is a presumption that the determination is proper and factually supported.
(d) The term “unacceptable personal conduct” is defined as:
1. Conduct for which no reasonable person should expect to receive prior warnings;
2. Job-related conduct which constitutes a violation of state or federal laws;
3. Conviction of a felony or an offense involving moral turpitude;
4. Or the willful violation of known or written work rules;
5. Conduct unbecoming a state employee that is detrimental to state service.
(e) Either unacceptable unsatisfactory or grossly inefficient job performance or unacceptable personal conduct as defined in 25 NCAC 1J. 0614 of this Section constitutes just cause for discipline or dismissal. The categories are not mutually exclusive, as certain actions by employees may fall into both categories, depending upon the facts of each case. No disciplinary action shall be invalid solely because the disciplinary action is labeled incorrectly.
(d) The imposition of any disciplinary action shall comply with the procedural requirements of this Section.

Statutory Authority G.S. 126-1.1; 126-35.

.0605 DISMISSAL FOR UNSATISFACTORY PERFORMANCE OF DUTIES
(a) In administering this policy Section, supervisors should be aware that, in part, the intent of this policy Section is to assist and promote improved employee performance, rather than to punish. This category covers all types of performance-related inadequacies. This policy Section does not require that progressive warnings successive disciplinary actions all concern the same type of unsatisfactory performance. Warnings and disciplinary actions related to personal conduct may be included in the
progressive successive system for performance-related dismissal provided that the employee receives at least the number of warnings disciplinary actions, regardless of the basis of the warnings disciplinary actions, required for dismissal on the basis of inadequate performance. Warnings Disciplinary actions administered under this policy Section are intended to bring about a permanent improvement in job performance; should the required improvement later deteriorate, or other inadequacies occur, the supervisor may deal with this new unsatisfactory performance at the next level of discipline with further disciplinary action.

(b) In order to be dismissed for a current incident of unsatisfactory job performance an employee must first Employees who are dismissed for unsatisfactory job performance shall receive at least three warnings two prior disciplinary actions: First, one or more oral written warnings: Second, a written warning to the employee documenting all relevant points covered in the disciplinary discussion; third, a final written warning followed by a warning or other disciplinary action which notifies the employee that failure to make the required performance improvements may result in dismissal.

(c) Prior to the decision to dismiss an employee, a management representative must conduct a pre-dismissal conference with the employee in accordance with the procedural requirement of this Section. In administering this policy, supervisors should be aware that, in part, the intent of this policy is to assist and promote improved employee performance, rather than to punish:

(1) Oral Warning:
   (A) The supervisor is responsible for ensuring the satisfactory performance work assigned to his unit. When, in the judgment of the supervisor, unsatisfactory performance occurs, then use of the disciplinary process may be appropriate.
   (B) In a private discussion with the employee, the supervisor shall do the following:
     (i) Inform the employee that this is a warning and not some other non-disciplinary process such as counseling;
     (ii) Inform the employee of the specific performance deficiencies that are the basis for the warning;
     (iii) Tell the employee what specific improvements must be made to correct the unsatisfactory performance;
     (iv) Let the employee know what time is being allowed to make the required improvements;
     (v) Tell the employee of the consequences of failing to make the required improvements.
   Note: It is a recommended personnel practice to allow the employee to respond to the specific reasons for the warning. In some cases this may affect the supervisor’s decision on whether to discipline an employee. Supervisors should also record the date and specifics of the warning for possible future use.

(2) Written Warning: In a private meeting with the employee the supervisor shall:
   (A) Conduct a disciplinary conference with the employee; this disciplinary conference should follow the same steps as set forth for an oral warning:
   (B) Tell the employee he will receive a written warning covering all significant points of this conference;
   (C) Prepare and send to the employee a written warning covering all significant points of the disciplinary conference; care should be taken to include the specific reasons for the warning.
   Note: Reference may be made in this warning to document an earlier oral warning.

(3) Final Written Warning:
   (A) Before issuing the final written warning, the supervisor and appropriate agency management should review the contents of the warning. The following steps shall be taken in issuing a final written warning:
     (i) Prepare a final written warning to the employee; care should be taken to include the specific reasons for the warning;
     (ii) In private, conduct a disciplinary conference with the employee; at this conference, the specific reason for the action, the necessary improvements and the time allowed to make improvements should be discussed;
     (iii) Present the warning to the employee at the end of the conference; the employee should be informed, either orally or in writing, that failure to correct the unsatisfactory performance may result in dismissal.

(B) During the period after a final written warning has been given, management, in its discretion, may choose to counsel with the employee concerning his employment status before a decision to dismiss is made. Such counseling should involve a discussion of the necessity for the employee’s commitment to improve performance. As a part of this counseling, management may request the employee to take up to a day’s leave with pay to consider whether or not the employee wishes to continue his employment with the agency. This time away from the job site shall not be charged to the employee’s vacation or sick leave; it shall be considered as the employee’s assignment for that time not at the normal job site. It should be stressed to the employee that a decision to continue employment with the agency will require a commitment to improve performance, and that a lack of improvement will lead to dismissal. Clearly, such a procedure is not suitable in all situations; management is expected to use its discretion to determine where such a procedure would benefit the employee and the agency.

(d) Notice. An employee who is dismissed must receive written notice of the specific reasons for the dismissal, as well as notice of any applicable appeal rights.
(e) Dismissals for unsatisfactory job performance require written notification to the employee. Such notification must include specific reasons for the dismissal and notice of the employee's right of appeal.

(f) Failure to give specific written reasons for the dismissal, failure to give written notice of applicable appeal rights, or failure to conduct a predismissal conference constitute procedural violations with remedies as provided for in 25 NCAC 1B .0432. Time limits for filing a grievance do not start until the employee receives written notice of any applicable appeal rights.

Statutory Authority G.S. 126-4: 126-35.

.0606 DISMISSAL FOR GROSSLY INEFFECTIVE JOB PERFORMANCE

Before an employee may be dismissed, the following shall occur:

(1) The supervisor recommending dismissal shall discuss the recommendation with appropriate agency management and receive management's authorization to hold a predismissal conference with the employee. The purpose of the predismissal conference is to review the recommendation with the affected employee and by listening to and considering information put forth by the employee, to assure that such a significant personnel action is not based on mistaken or erroneous information and conclusions.

(2) The supervisor or designated management representative shall schedule and conduct a predismissal conference with the employee. Advance notice of the predismissal conference must be given to the employee. A second management representative or security personnel may be present at management's discretion. No attorneys representing either side may attend the conference. In the conference, the supervisor shall give the employee oral or written notice of the recommendation for dismissal, including specific reasons for the proposed dismissal and a summary of the information supporting that recommendation. The employee shall have an opportunity to respond to the proposed dismissal, to refute information supporting the recommended dismissal action and to offer information or arguments to support his position. Every effort shall be made by the supervisor or the designated management representative to assure that the employee has had a full opportunity to set forth any information in his possession in opposition to his dismissal prior to the end of the conference.

(3) Following the conference, management shall review and consider the response of the employee and reach a decision on the proposed recommendation. If management's decision is to dismiss the employee, a written letter of dismissal shall be prepared containing the specific reasons for dismissal, the effective date of the dismissal and the employee's appeal rights. To minimize the risk of dismissal upon erroneous information, and to allow time following the conference for management to review all necessary information, the decision to dismiss should normally not be communicated to the employee prior to the beginning of the next business day following the conclusion of the predismissal conference. The employee shall be informed of the decision and furnished, either in person or by mail, a copy of the letter of dismissal, receipt of which shall constitute dismissal.

A management decision not to dismiss the employee may be communicated to the employee at any time following the conclusion of the conference.

The effective date of a dismissal for unsatisfactory job performance shall be determined by management.

A permanent employee who is dismissed for unsatisfactory job performance may, at management's discretion be given up to two weeks' working notice of his dismissal. Instead of providing up to two weeks' working notice and at the discretion of management, an employee may be given up to two weeks' pay in lieu of the working notice. Such working notice or pay in lieu of notice is applicable only to dismissals for unsatisfactory job performance.

The effective date of the dismissal shall not be earlier than the letter of dismissal nor more than 14 calendar days after the notice of dismissal.

(a) Dismissal on the basis of grossly inefficient job performance is administered in the same manner as for unacceptable personal conduct. Employees may be dismissed on the basis of a current incident of grossly inefficient job performance without any prior disciplinary action.

(b) Prior to dismissal of a career employee on the basis of grossly inefficient job performance, there shall be a predismissal conference between the employee and the person recommending dismissal. This conference shall be held in accordance with the provisions of 25 NCAC 1J.0613.

(c) Dismissals for grossly inefficient job performance require written notification to the employee. Such notification must include specific reasons for the dismissal and notice of the employee's right of appeal.

(d) Failure to give specific written reasons for the dismissal, failure to give written notice of applicable appeal rights, or failure to conduct a predismissal conference constitute procedural violations with remedies as provided for in 25 NCAC 1B .0432. Time limits for filing a grievance do not start until the employee receives written notice of any applicable appeal rights.

Statutory Authority G.S. 126-4(7a).

.0608 DISMISSAL: FOR PERSONAL CONDUCT

(a) Employees may be dismissed for a current incident of unacceptable personal conduct, dismissed, demoted, suspended or warned on the basis of unacceptable personal conduct. Discipline may be imposed, as a result of unacceptable conduct, up to and including dismissal without any prior disciplinary action warning to the employee. Oral or written warnings given for unacceptable personal conduct according to this Rule cannot be used to shorten the progressive warning process
required to dismiss an employee on the basis of unsatisfactory job performance.

(b) Disciplinary demotions, suspensions or dismissals for personal conduct require written notification to the employee. Such notification must include specific reasons for the discipline and notice of the employee's right of appeal. Prior to dismissal of a career employee on the basis of unacceptable personal conduct, there shall be a pre-dismissal conference between the employee and the person recommending dismissal. This conference shall be held in accordance with the provisions of 25 NCAC 11.0613.

(c) Prior to dismissal of a career employee on the basis of personal conduct, there shall be a pre-dismissal conference between the employee and the person recommending dismissal. This conference shall be held in accordance with the provisions of 25 NCAC 11.0606(2). (3) Dismissals for unacceptable personal conduct require written notification to the employee. Such notification must include specific reasons for the dismissal and notice of the employee's right of appeal.

(d) Note: Failure to give specific reasons for the dismissal, failure to give written notice of applicable appeal rights, or failure to conduct a predisciplinary conference constitute procedural violations with remedies as provided for in 25 NCAC 11.0432 shall cause the dismissal to be legally ineffective, and may require backpay and attorney's fees to be paid to the employee. Time limits for filing a grievance do not start until the employee receives written notice of his/her any applicable appeal rights.

Statutory Authority G.S. 126-1A; 126-4; 126-35.

.0610 WRITTEN WARNING

Investigatory disciplinary suspension may be used by management in appropriate circumstances. However, the following provisions shall control its use:

(1) An employee who has been suspended for either investigatory or disciplinary reasons must be placed on compulsory leave of absence without pay.

(2) Investigatory suspension without pay may be used to provide time to investigate, establish facts, and reach a decision concerning an employee's status in those cases where it is determined the employee should not continue to work pending a decision. Investigatory suspension without pay may be appropriately used to provide time to schedule and hold a pre-dismissal conference. Also, management may elect to use investigatory suspension in order to avoid undue disruption of work or to protect the safety of persons or property. An investigatory suspension without pay shall not exceed 45 calendar days. However, a department or university may, in the exercise of its discretion, extend the period of investigatory suspension without pay beyond the 45 day limit. The employee must be informed in writing of the extension, the length of the extension, the specific reasons for the extension and his right of appeal. If no action has been taken by management by the end of 45 calendar days, and no extension has been made, one of the following must occur: Reinstatement of the employee with full backpay, appropriate disciplinary action based on the results of the investigation; reinstatement of the employee with up to three days pay deducted from the backpay.

(3) Investigatory suspension of an employee shall not be used for the purpose of delaying an administrative decision on an employee's work status pending the resolution of a civil or criminal court matter involving the employee.

(4) An employee who has been suspended for investigatory reasons may be reinstated with up to three days pay deducted from his salary. Such determination is to be based upon management's determination of the degree to which the employee was responsible for or contributed to the reasons for the suspension. This period constitutes a disciplinary suspension without pay and must be effected in accordance with Paragraphs (5) and (6) of this Rule.

(5) An employee may be suspended without pay for disciplinary purposes for causes relating to any form of personal conduct or in conjunction with a final written warning for performance of duties. However, a disciplinary suspension without pay must be for at least one full working day, but not more than three working days. Prior to placing any employee on disciplinary suspension without pay, a management representative shall conduct a pre-suspension conference with the employee. This conference shall be carried out in the same fashion as a pre-dismissal conference.

(6) An employee who has been suspended without pay must be furnished a statement in writing setting forth the specific acts or omissions that are the reasons for the suspension and the employee's appeal rights. A pre-suspension conference is required only when the employee is suspended without pay for disciplinary reasons; a pre-suspension conference is not required where an employee is suspended without pay for the purpose of investigation.

(a) The supervisor is responsible for assuring the satisfactory performance of work assignments and that employees do not engage in unacceptable personal conduct. All types of performance-related job inadequacies can constitute unsatisfactory job performance under this Section. Unacceptable personal conduct can be work-related and non-work-related conduct and may be intentional or unintentional. When the supervisor determines that disciplinary action is appropriate for unsatisfactory job performance, a written warning is the first type of disciplinary action that an employee must receive. The supervisor may elect to issue a written warning for grossly inefficient job performance or unacceptable personal conduct. The following procedure must be followed to issue a written warning.

(b) In a private discussion with the employee, the supervisor shall do the following:
PROPOSED RULES

(1) Inform the employee that this is a written warning, and not some other non-disciplinary process such as counseling;

(2) Inform the employee of the specific issues that are the basis for the warning;

(3) Tell the employee what specific improvements if applicable must be made to address these specific issues;

(4) Tell the employee the time frame allowed for making the required improvements/corrections. Absent a specified time frame, 60 days is the time frame allowed for unsatisfactory job performance and immediate correction is required for grossly inefficient job performance or unacceptable personal conduct;

(5) Tell the employee the consequences of failing to make the required improvements/corrections;

(6) Issue the employee a written warning in accordance with the procedural requirements of this Section, including any applicable appeal rights.

Statutory Authority G.S. 126-4.

.0611 DISCIPLINARY SUSPENSION WITHOUT PAY

(a) Any employee may be demoted as a disciplinary measure. Demotion may be made on the basis of either unsatisfactory job performance or unacceptable personal conduct.

(1) Job Performance-An employee may be demoted for unsatisfactory job performance after the employee has received at least two prior warnings on his performance. At least one of the warnings prior to demotion must be in writing.

(2) Personal Conduct-An employee may be demoted for unacceptable conduct without any prior warning. Cause for demotion on the basis of personal conduct does not have to be as serious as cause for dismissal.

(3) Notice. An employee who is demoted must receive written notice of the specific reasons for the demotion, as well as notice of his appeal rights.

(b) Disciplinary demotions may be accomplished in several ways. The employee may be demoted to a lower classification with or without a loss in pay. Or, the employee may be reduced to a lower step in the same pay grade with a corresponding loss of pay. In no event shall an employee's pay be lowered below step one of his current pay grade, unless the employee is demoted to a lower classification. Prior to the decision to demote an employee for disciplinary reasons, an employee must conduct a pre-demotion conference with the employee. This pre-demotion conference shall be accomplished in the same fashion as the pre-dismissal conference.

An employee may be suspended without pay for disciplinary purposes for unsatisfactory job performance after the receipt of at least one prior disciplinary action or for causes relating to any form of unacceptable personal conduct or grossly inefficient job performance. A disciplinary suspension without pay for an employee who is subject to the overtime compensation provisions of the Fair Labor Standards Act (FLSA) must be for at least one full work day, but not more than two work weeks. The length of a disciplinary suspension without pay for an employee who is exempt from the overtime compensation provisions of the FLSA must be for at least one full work week, but not more than two full work weeks. Prior to placing any employee on disciplinary suspension without pay, a management representative shall conduct a pre-suspension conference with the employee in accordance with the procedural requirements of this Section. An employee who has been suspended without pay must be furnished a statement in writing setting forth the specific acts or omissions that are the reasons for the suspension and the employee's appeal rights.

An agency of university has the option of imposing the same periods of disciplinary suspension without pay upon all employees as long as the period is the same as for employees exempt from the overtime provisions of the FLSA.

Statutory Authority G.S. 126-4(6); 126-35.

.0612 DEMOTION

(a) By statute, some duties assigned to positions in the state service may be performed only by persons who are duly licensed, registered or certified as required by the relevant law. All such requirements and restrictions are specified in the statement of essential qualifications or recruitment standards for classifications established by the State Personnel Commission. Any employee may be demoted as a disciplinary measure. Demotion may be made on the basis of either unsatisfactory or grossly inefficient job performance or unacceptable personal conduct.

(1) Unsatisfactory Job Performance. An employee may be demoted for unsatisfactory job performance after the employee has received at least one prior disciplinary action.

(2) Grossly Inefficient Job Performance. An employee may be demoted for grossly inefficient job performance without any prior disciplinary action.

(3) Personal Conduct. An employee may be demoted for unacceptable personal conduct without any prior disciplinary action.

(4) Notice. An employee who is demoted must receive written notice of the specific reasons for the demotion, as well as notice of any applicable appeal rights.

(b) Employees in such classifications are responsible for maintaining current, valid credentials as required by law. Failure to maintain the required credentials is a basis for immediate dismissal without prior warning. An employee who is dismissed shall be given a written statement of the reason for the action and his appeal rights. Disciplinary demotions may be accomplished in three ways:

(1) The employee may be demoted to a lower pay grade with a reduction in salary rate as long as the new salary rate does not exceed the maximum of the salary schedule for the new lower pay grade;

10:7 NORTH CAROLINA REGISTER July 3, 1995 601
(2) The employee may be demoted to a lower pay grade without a reduction in salary rate as long as the salary rate does not exceed the maximum of the salary schedule for the new lower pay grade; or

(3) The employee may be demoted while retaining the same pay grade with a reduction in salary rate. In no event shall an employee’s salary rate be reduced to less than the minimum salary rate for the applicable pay grade or the special entry rate, if in effect.

(c) Prior to the decision to demote an employee for disciplinary reasons, a management representative must conduct a pre-demotion conference with the employee in accordance with the procedural requirements of this Section.

Statutory Authority G.S. 126-4(3).

.0613 PROCEDURAL REQUIREMENTS

The following procedural requirements must be followed to issue disciplinary action under this Section:

(1) WRITTEN WARNING - to issue a written warning to an employee, a supervisor must comply with the following procedural requirements:

(a) Conduct a disciplinary conference with the employee during which the employee is told:

(i) That this is a written warning;

(ii) The specific issues that are the basis for the warning;

(iii) What specific improvements must be made;

(iv) The time frame allowed for making the required improvements/corrections. Absent a specified time frame in the warning, 60 days is the time frame allowed for unsatisfactory job performance and immediate correction is required for grossly inefficient job performance or unacceptable personal conduct; and

(v) The consequences of failing to make the required improvements/corrections.

(b) Issue the employee a written warning, detailing the matters referenced in Sub-item (a)(i) - (v) of this Rule and including any applicable appeal rights.

(2) DISCIPLINARY SUSPENSION WITHOUT PAY - to place an employee on disciplinary suspension without pay, a supervisor must comply with the following procedural requirements:

(a) In matters of unsatisfactory job performance, insure that the employee has received at least one prior disciplinary action. In matters of grossly inefficient job performance or unacceptable personal conduct there are no pre-conditions so an employee may be suspended without pay for a current incident of grossly inefficient performance or unacceptable misconduct;

(b) Schedule and conduct a pre-suspension conference. Advance oral or written notice of the appropriate pre-disciplinary conference must be given to the employee of the time, location, and the issue for which discipline has been recommended. The amount of advance notice should be as much as is practical under the circumstances;

(c) Furnish the employee a statement in writing setting forth the specific acts or omissions that are the reasons for the suspension;

(d) Advise the employee of any applicable appeal rights in the document effecting the suspension.

(3) DEMOTION - to demote an employee, a supervisor must comply with the following procedural requirements:

(a) In matters of unsatisfactory job performance, insure that the employee has received at least one prior disciplinary action.

(b) In matters of grossly inefficient job performance or unacceptable personal conduct, there is no requirement for previous disciplinary action, so an employee may be demoted for a current incident of grossly inefficient job performance or unacceptable personal conduct without any prior disciplinary action;

(c) Advance oral or written notice of the appropriate pre-disciplinary conference must be given to the employee of the time, location, and the issue for which discipline has been recommended. The amount of advance notice should be as much as is practical under the circumstances.

(d) An employee who is demoted must receive written notice of the specific acts or omissions that are the reasons for the demotion;

(e) An employee must be advised of how and to what extent the demotion will affect the employee’s salary rate or pay grade; and

(f) The employee must also be advised of any applicable appeal rights in the document effecting the demotion.

(4) DISMISSAL - to dismiss an employee, a supervisor must comply with the following procedural requirements:

Before an employee may be dismissed, the following shall occur:

(a) The Supervisor recommending dismissal shall discuss the recommendation with appropriate agency management and receive management’s authorization to hold a pre-dismissal conference with the employee. The person conducting the pre-dismissal conference must have the authority to recommend or to decide what, if any disciplinary action should be imposed on the employee.

(b) The Supervisor or designated management representative shall schedule a pre-dismissal conference with the employee.

(c) Advance written notice of the pre-dismissal conference must be given to the employee of the time, location, and the issue for which dismissal has been recommended. The amount of advance notice should be as much as is practical under the circum-
The Supervisor or designated management representative shall conduct a pre-dismissal conference with the employee, limiting attendance to the employee and the person conducting the conference. The purpose of the pre-dismissal conference is to review the recommendation for dismissal with the affected employee and to listen to and to consider any information put forth by the employee, in order to ensure that a dismissal decision is sound and not based on misinformation or mistake. Security personnel may be present when, in the discretion of the person conducting the conference, a need for security exists. No attorneys representing either side may attend the conference.

In the conference, the Supervisor shall give the employee oral or written notice of the recommendation for dismissal, including specific reasons for the proposed dismissal and a summary of the information supporting that recommendation. The employee shall have an opportunity to respond to the proposed dismissal, to refute information supporting the recommended dismissal action and to offer information or arguments in support of the employee’s position. Every effort shall be made by the Supervisor or the designated management representative to assure that the employee has had a full opportunity to set forth any available information in opposition to the recommendation to dismiss prior to the end of the conference. This opportunity does not include the right to present witnesses. Following the conference, management shall review and consider the response of the employee and reach a decision on the proposed recommendation. If management’s decision is to dismiss the employee, a written letter of dismissal containing the specific reasons for dismissal, the effective date of the dismissal and the employee’s appeal rights shall be issued to the employee in person or by certified mail, return receipt requested, to the last known address of the employee. To minimize the risk of dismissal upon erroneous information, and to allow time following the conference for management to review all necessary information, the decision to dismiss should not be communicated to the employee prior to the beginning of the next business day following the conclusion of the pre-dismissal conference or after the end of the second business day following the completion of the pre-dismissal conference.

The effective date of a dismissal for unsatisfactory job performance shall be determined by management. A career employee who is dismissed for unsatisfactory job performance may, at management’s discretion, be given up to two weeks’ working notice of his dismissal. Instead of providing up to two weeks’ working notice and at the discretion of management, an employee may be given up to two weeks’ pay in lieu of the working notice. Such working notice or pay in lieu of notice is applicable only to dismissals for unsatisfactory job performance. The effective date of the dismissal shall not be earlier than the letter of dismissal nor more than 14 calendar days after the notice of dismissal.

Statutory Authority G.S. 126-4; 126-35.

.0615 SPECIAL PROVISIONS
(a) GRANDFATHER PROVISIONS - The following Grandfather provisions establish the force and effect of disciplinary actions in existence upon the effective date of this Section.

(1) Oral warnings - any oral warning existing upon the effective date of this Section is deemed void and has no further force or effect upon the disciplinary status of any state employee.

(2) All other disciplinary actions existing at the time this Section is adopted shall remain in full force and effect as if the warnings or other disciplinary actions had been imposed under this Section. No written warning or other disciplinary action imposed prior to the effective date of this Section shall be deemed inactive by operation of the provisions of this Section until more than 18 months after the effective date of this Section, or until the disciplinary action is deemed inactive in accordance with 25 NCAC 1J .0614(g), whichever occurs first.

Extension of Disciplinary Actions - any written warning or disciplinary action imposed prior to the adoption of this Section may be extended in accordance with the provisions of this Section as if the warning or disciplinary action had been imposed after the effective date of the Section. No unresolved written warning or disciplinary action issued under the prior Section shall become inactive if, within 18 months of the effective date of this Section, another disciplinary action or warning is imposed on the employee. Notice of the extension of the active status of a disciplinary action can be given at any time within 18 months of the effective date of the disciplinary action.

(4) Resolution of disciplinary actions under prior agency/university procedure - any warnings or disciplinary actions existing at the time that this Section is adopted shall be deemed inactive if it would have been resolved under the an agency/university procedure existing at the time of the adoption of this Section.

(b) PLACEMENT ON INVESTIGATION - Investigation status is used to temporarily remove an employee from work status. Placement on investigation with pay does not constitute a disciplinary action as defined in this Section or in G.S. 126-35. Management must notify an employee in writing of the reasons for investigatory placement not later than the second scheduled work day after the beginning of the placement. An investigatory placement with pay may last no longer than 30 calendar days without written approval of extension by the agency/university head and the State Personnel Director. When an extension beyond the thirty-day period is required, the agency/university must advise the employee in writing of the extension, the length the extension, and the specific reasons for the extension. If no action has been taken by an agency/university by the end of the 30-day period and no further extension has been granted, the agency/university must either take appropriate disciplinary action on the basis of the findings upon investigation or return the employee to active work status. Under no circumstance is it permissible to use placement on investigation status for the purpose of delaying an administrative decision on an employee’s work status pending the resolution of a civil or criminal court matter involving the employee.

It is permissible to place an employee in investigation status with pay only under the following circumstances:

(1) To investigate allegations of performance or conduct deficiencies that would constitute just cause for disciplinary action;

(2) To provide time within which to schedule and conduct a pre-disciplinary conference; or

(3) To avoid disruption of the work place and/or to protect the safety of persons or property.
(c) CREDENTIALS - By statute, regulation, and administrative rule, some duties assigned to positions in the state service may be performed only by persons who are duly licensed, registered or certified as required by the relevant law, rule, or provision. All such requirements and restrictions are specified in the statement of essential qualifications or recruitment standards for classifications established by the State Personnel Commission.

(1) Employees in such classifications are responsible for obtaining and maintaining current, valid credentials as required by law, rule or regulation. Failure to obtain or maintain the legally required credentials constitutes a basis for immediate dismissal without prior warning, consistent with dismissal for unacceptable personal conduct or grossly inefficient job performance. An employee who is dismissed for failure to obtain or maintain credentials shall be dismissed under the procedural requirements applicable to dismissals for unacceptable personal conduct or grossly inefficient job performance.

(2) Falsification of employment credentials or other documentation in connection with securing employment constitutes just cause for disciplinary action. When credential or work history falsification is discovered after employment with a state agency/university, disciplinary action shall be administered as follows:

(A) If an employee was determined to be qualified and was selected for a position based upon falsified work experience, education, registration, licensure or certification information that was a requirement for the position, the employee must be dismissed in accordance with 25 NCAC 1J .0608.

(B) In all other cases of post-hiring discovery of false or misleading information, disciplinary action will be taken, but the severity of the disciplinary action shall be at the discretion of the agency head.

(C) When credential or work history falsification is discovered before employment with a state agency/university, the applicant shall be disqualified from consideration for the position in question.

(d) OTHER SPECIAL PROVISIONS -

(1) Every disciplinary action shall include notification to the employee in writing of any applicable appeal rights.

(2) Warnings, extensions of disciplinary actions and periods of placement on investigation, and placement on investigation with pay are not grievable unless an agency/university specifically provides for such a grievance in its agency/university grievance procedure. Absent an allegation of a violation of G.S. 126-16, 126-25, or 126-36, warnings are not appealable to the State Personnel Commission.

(3) An agency/university shall furnish to an employee as an attachment to the written documentation of any grievable disciplinary action, a copy of the agency/university grievance procedure.

(4) Each agency and university shall adopt and submit for State Personnel Commission approval an internal grievance procedure that shall:

(A) Set forth the manner and mechanism with which employees are notified of changes in agency/university policy and State Personnel Commission regulations;

(B) Set out the policy on the use of disciplinary suspension and the procedure for the issuance of warnings;

(C) Set out the policy on the retention of warnings and other disciplinary actions in employee personnel files; and

(D) Set out the policy on how an employee may access the employee’s personnel file.

(5) Each agency and university shall maintain records and provide the OSP information and statistics on the discipline and dismissal process commencing in January 1996 and every year thereafter in a form prescribed by the OSP.

(6) Each agency and university shall insure that designated personnel are trained in the administration of this Section.

STATUTES AND RULES IN ISSUE

STIPULATION AGREEMENTS

The previously noted issues of "Change Orders" and "Retainage" are not issues for purposes of this hearing.

FINDINGS OF FACT

1. In 1992, as part of the Governor's Correction Program, the Division of Youth Services of the North Carolina Department of Human Resources was mandated to construct six secure/non-secure youth homes across the state.

2. An architect was retained to design and oversee the construction of the group homes. The architect was Steven Schuster, who operates his own company, Clearscapes, out of Raleigh, North Carolina.

3. The group homes were to be six identical buildings to be used for the purpose of offering a residential setting to troubled youths, both in a secure and non-secure setting.
4. It was determined that it would be in the interest of the success of the projects to have local contractors working on each of the homes so that the community might develop an "ownership" interest in each of the homes.

5. The Division of Youth Services (Owner) and the architect, Mr. Schuster, consulted concerning the terms which were to be included as part of the contracts. One of the terms was a timeframe within which each of the homes could be built.

6. Mr. Schuster determined that each of the homes could be built in a total of 135 days.

7. Another term of the contract was liquidated damages. Liquidated damages are assessed against a contractor for each day beyond the contract completion time. In the instant case, the Petitioner could be assessed a two hundred dollar ($200.00) per day "liquidated damages" penalty.

8. Petitioner was the successful bidder for the home to be built in Macon County.

9. On the Macon County Home, the Petitioner was a single prime contractor, i.e. the one contractor in charge of the project. On the other homes there were multi-prime contractors, i.e. a number of contractors each responsible directly to the architect and owner for their own part of the project.

10. At the end of the Macon County Project, the Petitioner had gone 85 days beyond the 135-day completion time.

11. Petitioner was assessed a total of $15,200.

12. Petitioner made no money on the Macon County Home.

13. Mr. Schuster testified that liquidated damages are not a penalty but they are the amount of "out-of-pocket costs" caused to the owner by not having the project completed in a timely manner.

14. After the six homes were built, the Petitioner reviewed the time expended in the construction of each of the six homes. The results were as follows:

Macon County Home: 220 days
Hertford County Home: 225 days
Wayne County Home: 227 days
Robeson County Home: 241 days
Craven County Home: 246 days
Chowan County Home: 265 days

15. The average time in building these homes is 237 days.

16. Petitioner was told all through his project that he was the slowest contractor of the six houses which were built. When he was able to gather information and put together a record, he learned that he had completed the project in the shortest amount of time.

17. During construction projects, contractors often request of the architect what are known as "rain days." These are days during which the weather has prevented construction. The contractor requests that these days not be added on to the time taken to complete the project.

18. Petitioner requested a number of "rain days," almost all of which the architect allowed. However, Petitioner in fact requested rain days only for those days which Mr. Schuster told him in advance would be allowed.

19. After the project began, Petitioner made a schedule and realized that 135 days was not going to be enough time. He called Clearscapes, Mr. Schuster's company, and was told that they believed the 135 days to be attainable.
20. The Petitioner testified that early into the project he became more concerned that the weather was preventing construction and that he would be assessed liquidated damages. He spoke with Mr. Schuster and articulated his concern. Mr. Schuster said, "Don't worry about liquidated damages. I will take care of them. Just keep the quality of the work high."

21. Petitioner testified that Mr. Schuster said this to him on several occasions.

22. Mr. Schuster conceded that he had said this to Petitioner on at least one occasion and probably more. He testified that he does remember saying, "The important thing is to get the job done and keep the quality high. Don't worry about liquidated damages. The State is not in the business of punishing people." He testified, however, that at a meeting subsequent to that he made it clear to Mr. Holland and his subcontractors that they didn't have "all the time in the world."

23. Mr. Schuster testified that he did not mean to indicate that he would eliminate the possibility of liquidated damages but only that he wanted the construction to continue with a high quality and that Petitioner should not be concerned with rain days which would more than likely be credited to him.

24. Petitioner understood Mr. Schuster's assurance to be an indication that liquidated damages would not be strictly enforced as long as the Petitioner kept the quality high and continued to work at his best speed.

25. At construction meetings with Petitioner's crew. Mr. Schuster said on a number of occasions that the job had to be done and that there was always the specter of liquidated damages.

26. Petitioner, however, understood those comments to be public comments for the purposes of encouraging the crews and the subcontractors to continue to work expeditiously.

27. Petitioner testified that he did not tell his subcontractors about his private conversations with Mr. Schuster because he felt they should be urged to continue to work as quickly as possible.

28. Petitioner believes he "upheld his end of the bargain" and the Respondent did not.

29. Mr. Schuster testified that he agrees that 135 days was an "aggressive" estimate. He said, "There's no question about that." He testified, however, that it was his opinion that the 135 days was "attainable."

30. Robert L. Deaver, the owner of Ross-Markham, Inc., Construction Company was the successful bidder for three of the youth homes. Mr. Deaver testified that during the construction period he enjoyed working with Mr. Schuster but when the construction was finished he was assessed a very high amount of liquidated damages which hurt his company financially.

31. Mr. Deaver testified that 135 days was not enough time to complete the projects.

32. Earlier, Mr. Schuster had told Mr. Deaver that he agreed that 135 days was not enough time but that he had not had any input into the 135 days. Mr. Schuster told Mr. Deaver that the 135 days were set by David Flaherty, the then Secretary of the Department of Human Resources.

33. Mr. Deaver was very concerned about liquidated damages when he realized that the projects were not going to be completed in the time allotted.

34. Mr. Schuster told Mr. Deaver that he would not be charged liquidated damages according to the contract, but that he would be charged a lesser amount.

35. At approximately the time the projects were complete, Mr. Schuster told Mr. Deaver that he would be charged about $5,000 per building in liquidated damages. Mr. Deaver responded that since the State owed him $20,000 for change orders which had never been paid, they could "call it even." Mr. Schuster responded negatively and said that Mr. Deaver would have to absorb the $20,000 for change order work and also pay the $15,000 in liquidated damages.

36. Mr. Deaver returned to his office and considered this, after which he called Mr. Schuster and said it was financially impossible. Mr. Schuster said he would see what he could do.

37. Mr. Schuster subsequently responded to Mr. Deaver that the State had said "No" and that Mr. Deaver would have
to absorb approximately "fifty to sixty thousand dollars."

38. Mr. Deaver has done approximately 150 projects in his career and was assessed liquidated damages in four or five of them.

39. Mr. Deaver testified that the "designer" of the project usually sets the correct amount of time for the completion of a project. He testified that contractors rely on the time set by the designer as being a reasonable estimate for the length of the project.

40. Mr. Deaver did not make any money on the homes he built.

41. Patrick Joyce is the Executive Vice President of L.A. Downey and Son General Contractors. Mr. Downey testified that his company built two of the youth homes in Chowan and Hertford Counties.

42. Mr. Joyce testified that Mr. Schuster told him the 135 days was not Mr. Schuster's idea -- that Mr. Schuster wanted a longer time. Mr. Joyce also testified that Mr. Schuster said it was a very, very aggressive schedule.

43. Mr. Joyce also testified that at the time the contracts were let for bids he believed that 135 days to completion was almost impossible. However, at that time, the weather was good. Mr. Joyce needed the work and believed that there was a possibility that he might just be able to do it.

44. Mr. Joyce testified that the vaulted ceilings and the security screens which were placed into the house were very expensive and that he never recovered that money from the State.

45. At the end of his project Mr. Joyce also received an assessment of liquidated damages. He attempted to negotiate those liquidated damages but testified that he was "disappointed" with those negotiations.

46. Mr. Joyce also testified that his two projects were "multi-prime" projects and that one of the prime contractors had signed a settlement concerning liquidated damages.

47. Mr. Joyce testified that in all the projects he did, he was assessed liquidated damages one time. That time was $5,000 from the federal government and the amount was negotiated out.

48. Petitioner testified that, from a general contractor's point of view, the quicker the job the more money the contractor makes. He also testified that he spent a lot of his own money to keep the project moving.

49. Petitioner was told by the State to bill the State on the 23rd of the month and the State would pay him on the 10th of the following month. Petitioner testified that the State was late on a total of 64 days in paying his submitted bills.

50. Petitioner's subcontractors included people he had worked with on projects before. Alvin Johnson was the masonry subcontractor. Jackie West did the plumbing, Clyde McCall was the electrician, and Carroll Moore did HVAC.

51. Mr. Johnson testified that the "specs" called for six-inch masonry block and four-inch cast iron plumbing pipe. He demonstrated, and it is found as fact, that four-inch cast iron plumbing pipe does not fit into the openings on six-inch masonry block. In order to make those items work together Mr. Johnson had to cut through each masonry block which would be required at a pipe site and place the block around the pipe.

52. Mr. Johnson testified that it is customary for an eight-inch or ten-inch block to be used where four-inch piping is being used.

53. Mr. Johnson had to cut 13 to 27 blocks at each of five locations. Every three days he had to replace the diamond blade on his cutting tool, which blade was valued at $273.00.

54. Mr. Schuster testified that his specs called for six-inch cinder block intentionally as an effort to save money and that he did not feel that the masons would have to do a great deal of work to accommodate the pipes.

55. Mr. Johnson testified that the biggest problem at the Macon County home was the weather. It was winter and the Petitioner expected Mr. Johnson to work nine hour days. Mr. Johnson testified that he believes he did all he could to get his
work done on time.

56. Mr. Johnson further testified that Petitioner called him "every night and told me to get up there" and that he "almost got aggravated" and didn’t want to work on Petitioner’s jobs any more.

57. Mr. Johnson testified that Ronnie Norton was the masonry subcontractor before Mr. Johnson took over. Mr. Norton laid two corners and one wall, three to four courses high. At that point Mr. Norton quit. Mr. Johnson testified that Mr. Norton probably "figured out the first day what it took me four to five days to figure out."

58. Mr. Johnson made no money on the Macon County Home Project.

59. Jackie West testified that he did the fastest job he could. He testified that "we were walking over workers while we were there" and Petitioner was pushing everyone. Mr. West additionally testified that Petitioner was "calling all the time at night. I almost wanted to take the phone off the hook. I used the 'shower excuse' so much I was ashamed.”

60. Mr. West also testified that there were some mistakes in the specs which he had to correct, including sinks which were placed back to back and a soil pipe which was designed to come out on the south side of the building while the sewer connections were on the north side of the building.

61. Mr. McCall testified that he worked as quickly as was possible, that there were always other people on the site, and that once the roof was on "there was a lot of inside traffic."

62. On one occasion, Mr. McCall saw 22 pickup trucks at the site and he had to park quite a way down the road. He arranged to have all of his people ride in one vehicle because the parking was so difficult at the construction site.

63. Mr. Moore testified that he worked as quickly as he could and had an adequate crew for the job.

64. Mr. Moore redesigned the HVAC for the whole building. The plans called for a "12-ton coolant" which was not enough for the building. Mr. Moore testified that the structure which had been designated as "residential" had been incorrectly designated and should have been designated commercial or industrial. If it had been designated as commercial, there would have been more time allotted for its construction.

65. Mr. Moore spent time trying to figure out ways to save the State money on the building. He did plans for the changes and he and the Petitioner faxed them to Raleigh. He spent a day or two doing the plans. Mr. Schooley did not ask for any money for this work and he provided the service for free so that job would be "done right."

66. Lyman L. Bryant is an architect who was hired by Mr. Schuster to oversee the construction of the Holland Group Project. He testified that he was the "eyes and ears" of Mr. Schuster and that he was at the project site on numerous occasions. He testified that in the Petitioner’s project the State "... got a very good building."

67. Ed Buckner of the State Construction Office was assigned the task of overseeing the project to see that construction laws were being met. He testified that the house was of "very good quality work."

68. He further testified that he went to the site on two occasions when the "slab" was ready for pouring and it hadn’t been poured. It was his opinion, he testified, that it was not too cold to pour.

69. Petitioner testified that the North Carolina Construction Manual which was given to him prohibited pouring concrete when the weather was below a certain temperature.

70. Mr. Buckner testified that on one or two occasions he went by the site and there was nobody working.

71. Petitioner testified that there were times when work on a project has to stop while something "sets." the crew has to wait for an interim inspection, or when one crew has to wait for another crew to come on the site to finish a phase of the project.

72. Mr. Buckner testified that in his opinion the problem with the Petitioner’s site was that the Petitioner did not get an aggressive enough start at the beginning of the project.
73. Mr. Buckner also testified that he would not have planned a project which used the eight-inch pipe and the six-inch masonry block combination.

74. When the project was nearing completion, Mr. Schuster wrote to the owner, telling them that the project had gone over the dates predicted and that since his architectural firm had had to incur additional administrative expenses to keep watch on the job, he would be charging the owner for that additional time. That letter also notified the owner that Mr. Schuster would be seeking liquidated damages from the contractor.

75. Mr. Schuster testified that he was aware that the owner did not have any additional money and that it was probable that the only way they would be able to pay his bill for extra time was to collect the liquidated damages.

76. He billed the State $32,976 for additional administrative services. He testified that he "negotiated" this amount with the State. He was in fact paid "in the high 20s or low 30s."

77. Petitioner testified that he had learned that the liquidated damages were going to be paid to Mr. Schuster for his expenses. He determined that if Mr. Schuster could be paid for the work he did beyond 135 days then he, too, should be paid for that time since Mr. Schuster was the designer and as the designer he knew it was impossible to complete in 135 days, which information Mr. Schuster did not share with Petitioner.

78. Mr. Schuster testified that it is his job to be "a fair and impartial mediator between the owner and the contractor when it comes to liquidated damages."

79. Mr. Schuster testified that it was and is his opinion that the schedule was attainable without overtime or double shifts. He testified that a contractor must do whatever he has to do to complete the project on time.

80. Speros Fleggas, Director of the Office of State Construction, DOA, testified that it is within his power to grant Extended Field Overheads if he found a legitimate reason to do so.

81. Mr. Fleggas also testified that these projects were bid twice. The first time they were let for bids the design was too expensive and all the bids came in too high.

82. It is found as fact that the architect set the completion time at 135 days.

83. It is found as fact that Mr. Schuster knew that 135 days was an almost impossible completion time.

84. It is found as fact that Mr. Schuster intentionally misled the Petitioner to believe that liquidated damages would not be assessed if the quality was high.

Based upon the above Findings of Fact, the undersigned makes the following Conclusions of Law:

**CONCLUSIONS OF LAW**

**ISSUE 1:** Did Respondent err in assessing Petitioner liquidated damages in the amount of $15,200?

1. In *Graham and Son, Inc., v. Board of Education*, 25 NC App. 163, 212 S.E. 2d 542 (1975) the North Carolina Court of Appeals discussed the concept of liquidated damages where a contractor had failed to complete a project on time. The Court found that where the delay was caused by the architect, the contractor could not be charged liquidated damages. In that case the architect failed to pay the contractor, failed to provide necessary facilities at the job site, and was otherwise uncooperative with the contractor.

In the case of *Barrett, Robert & Woods, Inc., v. ARMI*, 59 NC App. 134, 296 S.E. 2d 10 (1982) the Court of Appeals found that there was severe unpredictable weather delays and also numerous instances of interference in the performance of the contract by the architect. The Court determined that the contractor should not be assessed liquidated damages.

In the case at hand, the architect did not do any of the overt acts described in *Graham* or *Barrett*. However, in the instant case, the architect did contribute to the lateness of the project by putting a completion time in the contract which he knew was at the very least "very aggressive."
Additionally, Mr. Schuster reassured the Petitioner by stating to him on more than one occasion that he should not be concerned with liquidated damages. This assurance appears to have been made to encourage the Petitioner not to cut corners and to keep the quality of the building high. In fact, that was accomplished. The quality of the building was uncontestedly high. However, when the project was over, the architect's assurance to the contractor appears to have been false.

Mr. Schuster testified that although he did tell the contractor not to worry about liquidated damages, he did not mean for the contractor to assume that liquidated damages would not be assessed. This testimony is disingenuous.

It is not known at this time how many days would have been the appropriate number of days for the projects at issue. However, based upon the analysis of the six homes which were built, the average time of completion was 237 days. The Petitioner's completion was attained in 220 days. Thus, using the only information available at this time, it is concluded that 237 days was, for purposes of this analysis, a reasonable time within which to complete the project.

2. It is concluded that the 135 day time limit was knowingly and improperly included as a term of the contract and that Petitioner may not be held liable for the time he went beyond the 135 days.

3. It is concluded that the Petitioner, therefore, did not go beyond a reasonable time to complete the project.

4. It is further concluded that the Respondent erred in assessing liquidated damages against the Petitioner.

ISSUE 2: Does the Respondent owe the Petitioner $20,816 in Extended Field Overhead?

5. The Petitioner has requested payment for the time he was required to stay on the job beyond the 135 days. His assertion is that the architect inappropriately and knowingly estimated 135 days, causing the Petitioner to be unable to complete the project according to that time. The Petitioner asserts that since the architect billed the owner for his time on the project beyond the 135 days, the Petitioner so too should be able to bill for that time.

The architect knew that the owner did not have money to pay his bill and that the only way his bill would be paid would be by the owner allowing the architect to pursue liquidated damages. While the evidence indicates that liquidated damages are a common contract clause, they are most often not assessed. The architect obligated the owner to agree to seek liquidated damages in order to pay his own bills.

Petitioner requests $20,816 for the 85 days he went beyond the 135 day time limit, which amount calculates out to approximately $245.00 per day.

In Barrett, supra, the Court also determined that where the contractor had charged the cost of doing business beyond the time limit of the original contract, those costs should be allowed to the contractor.

In the Barrett case, the Court based that finding on invoices, canceled checks and time records submitted by the contractor as well as testimony on behalf of the contractor. In the instant case, the undersigned had not reviewed records in a depth similar to those reviewed in the Barrett case.

6. It is concluded that, in the limited circumstances of this case where an architect has knowingly misrepresented the time of completion of the project, has knowingly misled the contractor on the issue of the assessment of liquidated damages, and was in a singular position to gain from the assessment of liquidated damages, the Petitioner should recover Extended Field Overhead.

7. It is further concluded that the Respondent should be provided with detailed records of expenses incurred and should have the opportunity to review an itemized bill.

Based upon the above Conclusions of Law, the undersigned makes the following recommendations:

RECOMMENDATIONS

1. That the Respondent reverse its decision to assess $15,200 in liquidated damages against the Petitioner.

2. That the Respondent allow the Petitioner the Extended Field Overhead in a true and accurate amount to be
determined after review of the Petitioner's records.

ORDER

It is hereby ordered that the agency serve a copy of the final decision on the Office of Administrative Hearings, P.O. Drawer 27447, Raleigh, N.C. 27611-7447, in accordance with North Carolina General Statute 150B-36(b).

   (1) Taking migratory waterfowl with possession of toxic lead shot (94 CR 06614);
   (2) Taking migratory waterfowl with shotgun capable of holding more than 3 shells (94 CR 06614);
   (3) Taking migratory waterfowl during closed season (94 CR 06617); and
   (4) Taking migratory waterfowl without purchasing a state migratory waterfowl stamp (94 CR 06617).

8. On April 29, 1994, Petitioner pled guilty to and was found guilty of taking migratory waterfowl during closed season and taking migratory waterfowl without purchasing a state migratory waterfowl stamp (94 CR 06617) and was ordered to pay the costs of court upon a prayer for judgment continued. The other two charges (94 CR 06614) were dismissed.

9. Petitioner promptly notified his supervisors of the dispositions of the above-mentioned cases, and subsequently thereafter notified Respondent by letter.

10. Respondent defines "Class B misdemeanor" as:

    (A) An act committed or omitted in violation of any common law, criminal statute, or criminal traffic code of this state, or any other jurisdiction, either civil or military, for which the maximum punishment allowable for the designated offense under the laws, statutes, or ordinances of the jurisdiction in which the offense occurred includes imprisonment for a term of more than six months but not more than two years.

11. The wildlife offense of taking migratory waterfowl during the closed season is a criminal offense in violation of N.C.G.S. 113-294(m). It carries a possible maximum punishment of two (2) years imprisonment, and thus meets the definition of "Class B misdemeanor."

**ADJUDICATED FACTS**

1. Petitioner received the two citations set out above prior to his attending the Basic Probation/Parole Officer Course at the North Carolina Justice Academy. He was not aware that the offenses could jeopardize his certification.

2. Petitioner has not received any other citations since becoming a Probation/Parole Officer.

3. Petitioner's supervisor and coworkers consider him to be a promising, competent and humane Probation/Parole Officer.

4. An active suspension of Petitioner's certification would result in Petitioner losing his employment with the North Carolina Department of Correction, Division of Adult Probation and Parole. According to his Chief Probation/Parole Officer, this would cause a hardship on their unit.

5. Petitioner is remorseful for his actions of January 8, 1994, and understands that any such actions reflect poorly on the criminal justice community.

6. Petitioner's reputation and standing in the community for honesty and trustworthiness are high.

Based on the foregoing Stipulated and Adjudicated Facts, the Administrative Law Judge makes the following:

**CONCLUSIONS OF LAW**

1. Both parties are properly before this Administrative Law Judge, in that jurisdiction is proper, that both parties received
notice of hearing, and that Petitioner received notice of Deferral of his Probation/Parole Officer Certification by Respondent.

2. The Standards Committee based its recommendations upon 12 NCAC 9A .0204(b)(3)(A) which states that the Commission may suspend or revoke certification when an officer has committed or been convicted of a Class B misdemeanor. Petitioner’s guilty pleas on April 29, 1994, constituted a violation of this rule.

3. The North Carolina Criminal Justice Education and Training Standards Commission has the authority pursuant to rule 12 NCAC 9A .0205(b)(1) to reduce or suspend the period of sanction, or substitute a period of probation in lieu of suspension of certification following an administrative hearing, if the cause of the sanction is the commission or conviction of a Class B Misdemeanor. This rule applies to Petitioner’s conviction.

4. 12 NCAC 9A .0203 provides that Respondent may sanction individuals who knowingly and wilfully violate its rules. Since Petitioner’s violation occurred prior to his attending the Basic Probation/Parole Officer Course at the Justice Academy, he is less culpable, as there was no evidence of wilfulness on his part.

**PROPOSAL FOR DECISION**

Based upon the foregoing, it is hereby proposed that Petitioner’s certification not be suspended, as Petitioner has been appropriately warned and reprimanded by virtue of this proceeding.

**ORDER**

It is hereby ordered that the agency serve a copy of the final decision on the Office of Administrative Hearings, P.O. Drawer 27447, Raleigh, North Carolina 27611-7447, in accordance with North Carolina General Statute 150B-36(b).

**NOTICE**

The agency making the final decision in this contested case is required to give each party an opportunity to file exceptions and proposed findings of fact and to present oral and written arguments to the agency. G.S. 150B-40(e).

A copy of the final agency decision or order shall be served upon each party personally or by certified mail addressed to the party at the latest address given by the party to the agency and a copy shall be furnished to his attorney of record. G.S. 150B-42(a). It is requested that the agency furnish a copy to the Office of Administrative Hearings.

The agency that will make the final decision in this contested case is the North Carolina Criminal Justice Education and Training Standards Commission.

This the 13th day of June, 1995.

The North Carolina Administrative Code (NCAC) has four major subdivisions of rules. Two of these, titles and chapters, are mandatory. The major subdivision of the NCAC is the title. Each major department in the North Carolina executive branch of government has been assigned a title number. Titles are further broken down into chapters which shall be numerical in order. The other two, subchapters and sections are optional subdivisions to be used by agencies when appropriate.
