NORTH CAROLINA REGISTER

The North Carolina Register is published twice a month and contains information relating to agency, executive, legislative and judicial actions required by or affecting Chapter 150B of the General Statutes. All proposed administrative rules and notices of public hearings filed under G.S. 150B-21.2 must be published in the Register. The Register will typically comprise approximately fifty pages per issue of legal text.

State law requires that a copy of each issue be provided free of charge to each county in the state and to various state officials and institutions.

The North Carolina Register is available by yearly subscription at a cost of one hundred and ninety five dollars ($195.00) for 24 issues. Individual issues may be purchased for ten dollars ($10.00).

Requests for subscription to the North Carolina Register should be directed to the Office of Administrative Hearings, PO Drawer 27447, Raleigh, NC 27611-7447.

ADOPPTION, AMENDMENT, AND REPEAL OF RULES

The following is a generalized statement of the procedures to be followed for an agency to adopt, amend, or repeal a rule. For the specific statutory authority, please consult Article 2A of Chapter 150B of the General Statutes.

Any agency intending to adopt, amend, or repeal a rule must first publish notice of the proposed action in the North Carolina Register. The notice must include the time and place of the public hearing (or instructions on how a member of the public may request a hearing); a statement of procedure for public comments; the text of the proposed rule or the statement of subject matter; the reason for the proposed action; a reference to the statutory authority for the action and the proposed effective date.

Unless a specific statute provides otherwise, at least 15 days must elapse following publication of the notice in the North Carolina Register before the agency may conduct the public hearing and at least 30 days must elapse before the agency can take action on the proposed rule. An agency may not adopt a rule that differs substantially from the proposed form published as part of the public notice, until the adopted version has been published in the North Carolina Register for an additional 30 day comment period.

When final action is taken, the promulgating agency must file the rule with the Rules Review Commission (RRC). After approval by RRC, the adopted rule is filed with the Office of Administrative Hearings (OAH).

A rule or amended rule generally becomes effective 5 business days after the rule is filed with the Office of Administrative Hearings for publication in the North Carolina Administrative Code (NCAC).

Proposed action on rules may be withdrawn by the promulgating agency at any time before final action is taken by the agency or before filing with OAH for publication in the NCAC.

TEMPORARY RULES

Under certain emergency conditions, agencies may issue temporary rules. Within 24 hours of submission to OAH, the Codifier of Rules must review the agency's written statement of findings of need for the temporary rule pursuant to the provisions in G.S. 150B-21.1. If the Codifier determines that the findings meet the criteria in G.S. 150B-21.1, the rule is entered into the NCAC. If the Codifier determines that the findings do not meet the criteria, the rule is returned to the agency. The agency may supplement its findings and resubmit the temporary rule for an additional review or the agency may respond that it will remain with its initial position. The Codifier, thereafter, will enter the rule into the NCAC. A temporary rule becomes effective either when the Codifier of Rules enters the rule in the Code or on the sixth business day after the agency resubmits the rule without change. The temporary rule is in effect for the period specified in the rule or 180 days, whichever is less. An agency adopting a temporary rule must begin rule-making procedures on the permanent rule at the same time the temporary rule is filed with the Codifier.

NORTH CAROLINA ADMINISTRATIVE CODE

The North Carolina Administrative Code (NCAC) is a compilation and index of the administrative rules of 25 state agencies and 40 occupational licensing boards. Compilation and publication of the NCAC is mandated by G.S. 150B-21.18.

The Code is divided into Titles and Chapters. Each state agency is assigned a separate title which is further broken down by chapters. Title 21 is designated for occupational licensing boards. The NCAC is available in two formats.

1. Single pages may be obtained at a minimum cost of two dollars and 50 cents ($2.50) for 10 pages or less, plus fifteen cents ($0.15) per each additional page.

2. The full publication and supplement service is printed and distributed by Barclay's Law Publishers. It is available in hardcopy, CD-ROM and diskette format. For subscription information, call 1-800-888-3600.

Statutory Authority G.S. 133-33; 143-53; 143-60.

SECTION .0200 - SPECIFICATIONS

.0201 TYPES OF SPECIFICATIONS

There are two general types of purchase specifications. One is a standard specification either developed by the standards section of the Division or as a result of developmental work of others with modification as necessary to meet the state's needs. The other type involves items of equipment, materials or supplies which by their nature do not lend themselves to standard specification or for which a standard specification has not yet been prepared. The requesting agency customarily develops the latter or offers a specification reference to which modifications and revisions as necessary are made by the Division of Purchase Contract, such specifications are generally used for individual purchases and may or may not be suitable for repetitive use. There are two general types of purchase specifications.

A standard specification is originated and developed by the Standards Section. It is comprehensive in nature and intended for repeated use. The other type of specification is customarily originated by the requesting agency and modified as necessary by the Division of Purchase Contract. It is, by the nature of the commodity or pattern of user demand, not intended for repetitive use. Sometimes, such other type specifications may be presented in the form of "brand name or equal" or, with satisfactory justification, in the form of "brand name only."

Statutory Authority G.S. 143-49(2); 143-53.

.0203 DEVELOPMENT OF SPECIFICATIONS

A standard specification is intended for general use, applicable insofar as practicable to the needs of state departments, institutions and agencies and kept currently applicable to revision and modification current by the Standards Section. In formulating such a specification, advisory committees made up of personnel from various state agencies, institutions, public schools and the private
sector are often employed for advice and assistance. This type of specification is customarily offered also for the review and comments of manufacturers and suppliers who may participate in future bidding on the items in question.

Statutory Authority G.S. 143-49(2); 143-53.

.0204 ARTICLES FOR SPECIAL PURPOSES
Where articles are to be used for educational or training purposes, purposes or by handicapped persons, or for test and evaluation or research purposes, special or overriding consideration may be given to the factor of suitability in the preparation of specifications. The evaluation of proposals offers, for waiver of competition, and the award of contracts.

Statutory Authority G.S. 143-49(2); 143-53.

.0206 SUBMISSION FOR ADOPTION
Upon completion of all necessary studies, reviews and drafts, any proposed standard specification is submitted to the State Purchasing Officer SPO for consideration and recommendation to the Secretary of Administration. When a specification is adopted as a standard, it becomes applicable to state purchases generally. A standard specification may be modified by the Division of Purchase and Contract on an interim basis as deemed necessary or advantageous until such time as the Secretary of Administration can consider the proposed revision.

Statutory Authority G.S. 143-49(2); 143-53.

.0207 COPIES OF SPECIFICATIONS
Copies of standard specifications are customarily distributed among interested bidders and in addition are available for public inspection at the Division office, 116 West Jones Street, Raleigh, North Carolina of Purchase and Contract or through available electronic media. Copies of standard specifications may be provided interested parties. A fee service charge for duplicating may be charged.

Statutory Authority G.S. 143-49(2); 143-53.

.0208 QUALIFIED PRODUCTS LIST
A qualified products list (QPL) is a type of specification which may or may not be adopted as a standard. The essential characteristic of this procedure is the examination and prequalification of brands and models of products on the basis of samples and tests. The prequalification limits bidding to products included on the list (QPL) at the time bids are requested. This procedure has a continuing aspect such that manufacturers are invited annually or at various times to submit products for evaluation and inclusion on the list. Customary sources for manufacturers are the Division's active bidder mailing lists and notifications of interest received in advance from other firms. The Division normally imposes a deadline for submission of samples. If a product is added to the list, it is then eligible to be offered against subsequent requests an Invitation for bids Bids.

SECTION .0800 - PRINTING

.0801 GENERAL POLICY

The Division of Purchase and Contract makes provisions for or contracts for the printing requirements of state government all agencies, with the exception of community colleges and local school administrative units, either through the use of applicable state facilities, delegation, waiver, or by seeking competitive proposals competition in the open market.

Requests for quotations or bids Competition in the open market on printing requirements fall generally into several broad categories such as pamphlets and publications, brochures, saddles or perfect bound books, quick copy, forms, labels, engraving, binding and other miscellaneous work.
.0802 PROCEDURE
Except for occasional small jobs, requisitions for printing needs are initiated by state agencies and forwarded to the Division of Purchase and Contract for handling. The Division maintains lists of prospective bidders according to the capabilities and competitiveness of firms to perform certain types of work. Therefore, effort is made to direct requests to those firms able to respond competitively according to the nature of the work being called for. In addition, requests for bids on requirements costing five thousand dollars ($5,000) or more are publicly advertised.
For work where definite quantities are important, bid invitations designate the acceptable level of count to be delivered in terms of acceptable minimums and overages; over runs beyond those designated are not paid for. Where work delivered is below the acceptable quality level or time requirements are not met, the supplier is considered in default and the state seeks appropriate remedies.
Where the nature of the work requires security precautions, the state limits considerations of award to bidders capable of meeting such conditions. Further, the state in its discretion requires performance bonds on certain types of work or from bidders whose capabilities may be in question.

.0803 LEAD TIME
Reasonable lead time is important in securing printing and binding work.
Where an unusual market exists due to such factors as a shortage of paper or the like — or where work involving unusual composition or production is required — longer advance times may be necessary.
The requisition should indicate a delivery date which allows enough time for internal processing, public advertising, normal bidding and production time for the printer.
When requested delivery time is too short for normal processing, the requesting agency either should call and explain the situation before sending in the requisition or attach a note to the original copy of the requisition explaining the situation. Where possible, special handling is given in such cases.

.0804 SUBMISSION OF MATERIAL AFTER PROMISED DATE
In instances where the manuscript is not completed and bids are to be obtained based on a sample of an existing similar publication, the requisition must indicate the date when the new copy will be available to the printer as well as the final delivery date. If an agency submits copy to the printer after the date promised, the printer is not held responsible for a resulting late delivery since his bid was based on a specific production period or on a specific location of the production facility.

.0805 SUBMISSION OF MANUSCRIPTS
Manuscripts should be submitted in an organized, logical fashion to facilitate the printing procedure and aid in insuring prompt delivery of the finished product.
When the copy is all new, it should be typed on one side only of 8 1/2 by 11 inch paper, double-spaced, with the same number of lines per page wherever applicable. The original copy should be submitted for the printer to work from and a carbon copy retained by the using agency. The pages should be consecutively numbered to insure that none gets misplaced when separated for composing.
When the copy is partly new and partly from a previous printing, it should also be prepared on one side only of 8 1/2 by 11 inch paper. The printed pages should be stapled or glued to sheets of paper and interspersed between the pages of typed copy in proper sequence. A duplicate manuscript should be prepared and retained for the agency's record.

.0806 PRINTING SAMPLES
Printed form samples submitted with requisitions for printing which contain no corrections and are not marked to indicate that they are to be revised are presumed to be reprints and are bid accordingly. Since the cost for reprints is somewhat less, it is important that printing samples be so marked unless changes are required.

.0807 AUTHOR'S ALTERATIONS
Author's alterations (abbreviated A.A.s) mean corrections in proofs which are not caused by printer's error. When an agency makes changes which should have been made in the manuscript before submission to the printer, the charge for A.A.s may be quite high; therefore, it is imperative that agencies submit manuscripts in as nearly perfect form as possible.

.0808 APPROVAL SIGNATURE
When proofs are returned to the printer with the approval signature, any errors not marked for correction will appear in the finished product and the printer is not held responsible.
.0810 STATEMENT OF COST OF PUBLIC DOCUMENTS

Every agency, when publishing a public document that is not for the principal purpose of sale to the public, shall cause a statement as to the number of copies printed, total direct reproduction cost, and the cost per copy to be placed by the agency name.

Any contract entered into in the name of the state and paid for by state funds by a state agency, or any state employee, or any member of a board or commission, which is contrary to an applicable rule, regulation or these procedures shall be void and of no effect.

Statutory Authority G.S. 143-49; 143-53; 143-58.

.0402 JUSTIFICATION
Before an agency of the state shall seek to obtain a contractual service, it shall make all of the following determinations: that funds are available to cover the total cost of the service; that the service is needed for the proper operation of the agency; that the desired level of quality of the service is adequate and reasonable for the purpose intended; that all rules, regulations and procedures of the Purchase and Contract Division have been or will be complied with; that obtaining the service is in the best interest of the state.

After all determinations listed above are made, they shall be incorporated into a letter (or memo) of justification. In addition to the previous items, the justification shall include an estimated cost for obtaining the service, as well as a cost comparison between the preferred method (or level) of service and any alternate means (or quality levels) that are available. Such justification will be in writing and will be placed in a permanent file at the agency. Upon request, a copy of the justification shall be sent to the State Purchasing...
.0403 TASK DESCRIPTION
When justification for the service has been completed, the agency shall prepare a complete task description, outlining in detail the services required. The task description shall, as a minimum, include the following: the date(s) of service; detailed specifications or type and level of work required; what the state will furnish; what the contractor will furnish; the method and schedule of payments to the contractor; any other terms, conditions, specifications or procedures bearing on the conduct of the work.

Statutory Authority G.S. 143-49; 143-53.

.0501 GENERAL REQUIREMENTS
After preparation of justification and a task description, the agency shall solicit quotations, or proposals, from as many sources as possible. In order to get a better idea of the market, the agency should develop and maintain an "active bidder's mailing list" for each type of service. Such bidder's list may be compiled from previous knowledge, trade journals, lists prepared by other state agencies including the Division of Purchase and Contract, telephone directories, requests by vendors, etc.

Each contractor contacted shall be given a copy of the task description (or it should be read to him for phone quotes), as well as any other information necessary for him to prepare his quotation or proposal. All contractors shall be given the same information given to all other contractors, in order that no one is given preferential treatment, whether intentional or not.

After all quotes or proposals are received, the agency shall tabulate the results. Each contractor's offer should be carefully analyzed to ascertain compliance with the task description, terms and conditions. Before the award of the contract, the agency should make a determination through financial statements, references, etc., that the recommended contractor is capable of performing the work in a satisfactory manner.

The agency should prepare the proposed contract, or agreement, incorporating the task description therein. All terms and conditions should be such that the state's best interests are protected.

Statutory Authority G.S. 143-49; 143-53.

.0502 SERVICES COSTING UP TO $500.00
Services costing up to five hundred dollars ($500.00) may be handled by telephone quotes, written requests for quotes or requests for proposals. If all rules, regulations, and procedures have been complied with, the award of the contract is delegated to the requesting agency. Each contract in this range must have written approval of the requesting agency's chief purchasing officer or his/her designated representative. No further approval is necessary.

Statutory Authority G.S. 143-49; 143-53.

.0503 SERVICES COSTING OVER $500.00, BUT UNDER $5,000
Services costing more than five hundred dollars ($500.00) and less than five thousand dollars ($5,000) must be sought by the agency by issuing a written formal request for proposals (RFP). The request for proposals should encompass all requirements as outlined in 1 NCAC 5D.0501. After receipt of proposals and compliance with all rules, regulations, and procedures, the agency should make its recommendation for award. This shall be submitted to the agency's chief executive officer or his/her designated representative. Upon his/her approval, no further review or approval is required. However, a copy of the executed contract must be submitted to the Purchase and Contract Division.

Statutory Authority G.S. 143-49; 143-53.

.0504 SERVICES COSTING OVER $5,000
The procedure for request for proposals (RFP) and recommendation for their award will be the same as the procedures in 1 NCAC 5D.0503 with the following additions after approval by the executive officer or his/her representative: the justification memo, the request for proposals, a copy of all proposals received, the proposed contract, and the requesting agency's recommendation for award shall be submitted to the Purchase and Contract Division for its review. After the contractual service section makes its recommendation, all required supporting data will be submitted to the State Purchasing Officer for final determination of the successful bidder and award of the contract.

Statutory Authority G.S. 143-49; 143-53.

.0505 SINGLE SOURCE SERVICES
All agencies of the state shall make every effort to eliminate "sole source contracts" whenever possible. Competition is the best means available to assure that the state receives the best service at the lowest possible cost. Whenever contracting with a sole source is inevitable, the agency shall obtain approval from the Division of Purchasing and Contract to negotiate the contract with the vendor. Such contract(s) shall include a breakdown by the vendor itemizing the components of the proposed cost.

Statutory Authority G.S. 143-49; 143-53.

.0506 RENTAL AGREEMENTS
Contracts or agreements for rental of equipment, materials or supplies shall be handled under the same rules, regula-
items and procedures applicable to commodity purchases in 1-NCAC 5B. Such needs should be coordinated with the purchaser in the Purchase and Contract Division who handles that commodity.

Statutory Authority G.S. 143-49(1),(2); 143-53(5).

.0507 GROUPING OF SERVICE PURCHASES
Whenever possible, an agency should group its requirements for services, particularly in the area of equipment and building–maintenance. Grouping should be done where possible, whether the service is single-source or open to competition.

Statutory Authority G.S. 143-49; 143-53.

.0508 GENERAL CONTRACTING REQUIREMENTS
(a) All contracts in excess of one hundred dollars ($100.00) shall be in writing.
(b) Contractual service contracts (or agreements), as defined in 1-NCAC 5D .0300 and .0400, of any amount shall not be entered into for more than three years total, including extensions or renewals, without specific prior approval by the Purchase and Contract Division.
(c) All contractual agreements will be governed by the laws of North Carolina unless prior approval has been received from the Attorney General’s Office.
(d) All contracts shall be cancelable upon a specified reasonable written notice at any time by the state for unsatisfactory performance or for the convenience of the state.
(e) All contracts shall provide for an option to require a performance bond. Performance bond will be required when deemed necessary by the state.
(f) No public official is to benefit from any contract with the state or any agency thereof.
(g) All contracts will stipulate that the contract is entered into in compliance with state and federal antitrust laws.
(h) A contractor shall furnish all worker’s compensation, liability insurance and other insurance as may be required to protect himself and the state from claims which may result from the performance of the contract.
(i) Payment schedule will be specified in contract. No payment shall normally be made for any portion of the work unless that portion of the work has been satisfactorily completed.
(j) No contract (or any interest therein) with the state shall be assignable.
(k) No contract will be used for any advertising by the contractor without prior approval of the Purchase and Contract Division.
(l) No price adjustments will be made unless the procedure therefor is set out in the original contract.

Statutory Authority G.S. 143-49; 143-53.

.0509 REQUEST FOR PROPOSALS

The request for proposals (RFP) is to include, but not be limited to, the following:
(1) specifically describe the task and desired results of the service;
(2) identify agency liaison personnel and any agency resources that are available to the contractor;
(3) state when the contractor will begin the work, plus an estimate of the time necessary to accomplish the work or the contract termination date;
(4) specify applicable procedures concerning billing, documentation—requirements, progress reports, etc.;

(b) a list of agencies or businesses, with names of contact persons, for whom similar work has been done;
(e) the cost of the service broken down by components;
(d) the proposed methodology for accomplishing the work (if not furnished in the request for proposals).

Notes: Any questions of substantial impact or having economic impact received from potential contractors should be in writing and all responding answers must also be in writing. All questions and answers must be provided all contractors for preparing their proposal. A bidder’s conference may be provided in lieu of the above.

This requirement may be waived upon a showing that the permittee will suffer undue financial hardship or the safety of the employees will be jeopardized.

(g) Areas for Sales and Consumption. In determining the areas in which alcoholic beverages may be sold and consumed, the Commission will consider the convenience of the permittee and his patrons, allowing the fullest use of the premises consistent with proper control, but will attempt to avoid consumption in areas open to the general public other than patrons.

(h) Temporary Permits for Continuation of Business. In its discretion the Commission may issue temporary permits to an applicant for the continuation of a business operation that holds current ABC permits when a change in ownership or location of a business has occurred. To obtain a temporary permit an applicant shall submit the appropriate ABC permit application form, all required fees, a lease or other proof of legal ownership or possession of the property on which the business is to be operated, and a written statement from the ALE agent in that area stating that there are no pending ABC violations against the business. An applicant for a temporary permit should also submit the permits of the prior permittee for cancellation prior to the issuance of any temporary permit. (j) Separate Locations at Airport. If one permittee has more than one location at the terminal of an airport boarding at least 150,000 passengers annually and that permittee leases space from the airport authority, the Commission recognizes that allocation of space is controlled by the airport authority. Therefore, the permittee in such a situation may:

1. Obtain a single permit for all its locations in the terminal;
2. Use one central facility for storing the alcoholic beverages it sells at its locations; and
3. Pool the gross receipts from all its locations for determining whether it meets the requirements of G.S. 18B-1000(6) and Rule .0519 of this Subchapter.

MALT BEVERAGES AND WINE

.0601 APPROVED PRODUCTS ONLY
Except as provided in Subchapter 2S, Rule .0223, no wholesaler shall sell any product that has not been approved by the Commission for sale in this State. It is a wholesaler's responsibility to determine whether or not a product has been approved by the Commission before it sells or offers for sale any alcoholic beverage.

Statutory Authority G.S. 18B-207; 18B-1005.

.0602 SALES AND PURCHASE RESTRICTIONS:
RECORDS
(a) No wholesaler of malt beverages shall sell malt beverages to any person who does not hold a retail or wholesale Malt Beverage permit, and no wholesaler of wine shall sell any fortified wine or unfortified wine to any person who does not hold the appropriate retail or wholesale Fortified or Unfortified Wine Permit, except, Permit, Culinary Permit or Ship Chandler's Permit, except that a wholesaler may furnish or sell wine or malt beverages to his employees for the sole use of the employees.

.0604 COLLECTION OF AMOUNT OF SALE
(a) Each wholesaler shall collect the full amount of the
sale price in cash or bona fide check at the time of or prior to delivery of alcoholic beverages to a retailer except as provided in this Rule. No wholesaler shall extend credit for any period of time to any retailer who purchases malt beverages or wine from him.

Note: For purposes of this Section, the term "check" shall include the electronic transfer of funds from a retailer to a wholesaler. Prior to an electronic fund transfer, the retailer shall enter into a written agreement with the wholesaler specifying the terms and conditions for the electronic fund transfer as payment for alcoholic beverages. All such agreements shall provide that the wholesaler may initiate the electronic fund transfer at any time after delivery of alcoholic beverages. The electronic fund transfer must be initiated before the end of the business day following delivery. Any agreement authorizing electronic fund transfers shall be voluntary on the part of all parties. The wholesaler may not bear any share of the retailer's costs related to electronic fund transfers, including costs of information generated by third parties related to such transfers. Nothing in this Rule shall operate to suspend any of the requirements concerning sales tickets and record keeping as provided in Rule .0502 of this Subchapter.

(b) Collections for sales and deliveries upon military reservations, however, shall not be required at the time of the transaction.

(c) A route salesman may accept one payment for all deliveries made by him on the same day to the same permittee if deliveries are made to two or more of the permittee's retail premises on the same route. Payment in such cases shall be collected by the salesman for all such deliveries no later than at the last store account on the route. Nothing in this Rule shall be construed to authorize a route salesman to collect payment from a permittee at an office location unless the office is located on the premises where a delivery is made.

Statutory Authority G.S. 18B-207; 18B-1116.

0.6006 PLATFORM SALES

(2) acquire any interest in real or personal property owned, occupied, or used by a retail permittee in the conduct of his business;

(3) furnish, give, rent, lend, or sell to a retail permittee any equipment, fixtures, signs, supplies, money, services, or other things of value except as otherwise provided in these Rules;

(4) pay or credit a retail permittee for any advertising, display, or distribution service;

(5) guarantee any loan or the repayment of any financial obligation of a retail permittee;

(6) extend credit to a retail permittee, except as otherwise provided in these Rules;

(7) require a retail permittee to take and dispose of a certain quota of any alcoholic beverages;

(8) acquire any interest in a mortgage or deed of trust on the retailer's business or property;

(9) pay for the display of advertising on any signs or scorecards manufactured by a third party for a retailer;

(10) furnish free warehousing by delaying delivery of alcoholic beverage product or by providing refrigerated vehicles for a retailer; or

(11) purchase advertising on signs, scoreboards and programs at ballparks, racetracks, and coliseums from the retail concessionaire, unless the retailer is a city or county, and an exemption has been granted pursuant to G.S. 18B-1116(b).

Statutory Authority G.S. 18B-207; 18B-1116(a).

0.7008 COMMERCIAL BRIBERY

(a) No industry member shall make secret or provide, either directly or indirectly, gifts or payoffs to purchasing agents, clerks, bartenders, salesmen or other employees of retail permittees.

(b) No industry member shall give, either directly or indirectly, any bonus, premium or compensation to any retailer or an officer, employee or agent of the retailer. Prohibited acts include:

(1) monetary inducements ("push money") given to retailers or their employees;

(2) total or partial payment of a retailer's employee's salary;

(3) sales or advertising promotion contests in which a retailer's employees are offered or awarded prizes, such as trips abroad, cash, or automobiles that are totally or partially financed by an industry member;

(4) payments or gratuities to groups or associations of retailer's employees;

(5) other gifts such as trips, appliances, or other items given to retail corporate officers; or

(6) participation in a retailer's sales or management meetings, conventions or outings by sponsoring
or underwriting any events in connection with the meeting, convention or outing, unless such participation is limited to the providing of a hospitality suite with light hors d'oeuvres and beverages, and the price paid for the suite is not greater than that paid by any other participant in the meeting, convention or outing.

Statutory Authority G.S. 18B-207; 18B-1116(a).

.0709  CONSIGNMENT SALES: CONDITIONAL SALES: RETURNS

(a) Consignment Sales Prohibited. No industry member shall sell, offer for sale, or contract to sell to any retail permittee, nor shall any retail permittee purchase, offer to purchase, or contract to purchase from any industry member any alcoholic beverages on consignment or under conditional sale, or with the privilege of return, or on any basis other than a bona fide cash sale. For the purposes of this Rule, a consignment sale is any transaction in which title to the merchandise is not transferred at the time of shipment or delivery and which does not involve some form of full cash settlement. No industry member shall contract or agree with a retailer to retain title to alcoholic beverages until those products are sold.

(b) Privilege of Return. No industry member and retailer shall enter into any agreement whereby the retailer has an expressed or implied right to return alcoholic beverages that he cannot sell. Any acceptance of returned merchandise will be considered a strong indication that the "privilege of return" existed at the time of sale, and a repeated practice of accepting returned merchandise from a retailer would establish an implied privilege of return, even though no formal agreement has been made.

(c) Sales Conditioned on the Acquisition of Other Merchandise. No industry member shall make any agreement with any retailer to accept as an agreement incident to present or future sales other alcoholic beverages that the retailer wants to remove from his inventory. The exchange of alcoholic beverages for equal quantities of the same type and brand product in containers of another size and style is not considered an acquisition of "other" alcoholic beverages and, therefore, is not prohibited where the return is otherwise permissible.

(d) Exceptions. This Rule shall not apply to the following transactions:

1. returns of malt beverages or wine for ordinary and usual commercial reasons arising after the alcoholic beverages have been sold, such as mutilated or damaged labels or containers, error in delivery, product deterioration, or a bona fide discontinuance of the retailer's business;

2. exchanges of malt beverage products for equal quantities of the same brand, type, product, in identical size and container style, so long as the manufacturer's code date on the products will expire within 14 calendar days of the date of exchange, and the quantity exchanged does not exceed 20 cases of each brand per 14 day period. For the purposes of this Rule, the term "exchange" means to replace product for product and does not authorize the wholesaler to accept returned malt beverage products for cash or credit;

3. returns of wine or malt beverage products from a seasonal retailer who is open only a portion of the year if the products are likely to spoil during the off-season. For purposes of this Rule, a "seasonal retailer" is defined as one that closes its business completely for a period of at least eight weeks during the summer or winter months. Returns from a seasonal retailer may be for cash or credit.

Note: The return or exchange of wine products is governed by this Rule and the regulations under the Federal Alcohol Administration Act found in Title 27 of the United States Code of Federal Regulations, Part 11 (27 CFR Sec. 11.1 through 11.46), and nothing in these Rules shall be construed to authorize the return or exchange of wine products if the transaction is prohibited by federal law.

Authority G.S. 18B-207; 18B-1116; 27 C.F.R. 11.1 through 11.46.

.0711  PROHIBITED TRADE PRACTICES

(a) General. It shall be a violation of these Rules for any industry member, whether or not licensed in this state, or any officer, director, employee or affiliate, to either directly or indirectly lend, give, furnish or offer to any retail permittee or his employee, or to the owner of the premises on which the business of a retailer is conducted, or for any retail permittee, employee, or owner to demand, require or accept from any industry member, any money, services, furniture, fixture, equipment, sign, glasses, barware, supplies or other thing of value, except as provided in these Rules.

(b) Prohibited Services. By way of illustration, but not limitation, the following services shall not be furnished, given, provided or made available to a retail permittee by an industry member, even if the retailer is charged or billed for the services for their market value:

1. installing, repairing or maintaining equipment, outdoor signs or other fixtures;

2. promoting a retailer in advertising;

3. reconciling inventory for a retailer;

4. breaking down empty boxes, cases or cartons;

5. providing labor or employees to assist a retailer in the retailer's promotional events;

6. loaning or renting aerial displays or outdoor inflatables to a retailer for use, whether on or off the retailer's licensed premises;

7. pricing or repricing a product without the retailer's consent;

8. warehousing, by:
(A) making refrigerated vehicles available to the retailer; or
(B) delaying delivery from a manufacturer, importer, nonresident vendor or warehouse in order to enable the retailer to take advantage of promotional prices or for any other reason;
(9) providing shelving schematics that are customized for an individual retailer or group of retailers, whether based on total beer or wine sales records from one store or a group of stores, but an industry member may use its own sales statistics and records to develop a suggested shelf plan for alcoholic beverage products;
(10) affixing special retailer stamps or stickers to beer or wine packaging, but a wholesaler may affix signs, stickers, stamps, or tags indicating the product's price to a container, shelf or display of its products;
(11) entering delivery data on a retailer's in-store computer;
(12) providing data processing services;
(13) sponsoring sports leagues that are also sponsored by a retailer, or that use the facilities of a retailer for sporting events;
(14) guaranteeing the loan of a retailer;
(15) extending credit to a retailer;
(16) failing to require a deposit equal to that charged by the supplier on kegs and returnable bottles; or
(17) negotiating special prices for or financing of equipment.
(c) Prohibited Things of Value. By way of illustration, but not limited, the following things of value shall not be furnished, given, loaned, rented or sold to a retail permittee by any industry member:
(1) aerial displays or tethered inflatables;
(2) parties given for retailers or groups of retailers' employees, unless otherwise allowed by the rules of the Commission;
(3) prizes at retailer conventions;
(4) advertising in a retailer periodical or advertising in a retailer publication designed for distribution to consumers;
(5) outside signs;
(6) cooperative advertising, including, but not limited to:
(A) providing or assisting retailer promotions, whether on or off the retailer's premises;
(B) participation with a retailer in the advertising of alcoholic beverages, the retailer's business or special events unless specifically approved by the Commission in the case of fundraisers for non-profit charitable organizations;
(C) underwriting the cost of T-markers, scorecards or scoreboards by the purchase of advertising from a third party; or
(D) customizing point-of-sale advertising materials, novelties, glassware, consumer specialties or product displays by printing or having printed the retailer's name, slogan or logo on the item, unless otherwise specifically allowed in the rules of the Commission;
(7) making discounts, rebates or refunds to a retailer on the condition that the retailer use the discount, rebate or refund to pay off a loan;
(8) equipment, fixtures or furnishings; or
(9) clothing, except as provided in Rule .0713 of this Section.

Statutory Authority G.S. 18B-207; 18B-1116(a)(3),(b).

FILLING OF VACANCIES
(a) A listing of available concession stand locations will be made available to all licensees. This listing will provide information about the location, and will also specify any particular work experience, education, or abilities which may be required at that location.
(b) Licensees who wish to be assigned to any of the locations listed may make application through the appropriate regional division office responsible for administering the concession stand program.
(c) Transfers and promotions, will be based on the following procedures:

1. A notice of available facilities will be sent to each licensee on the last working day of the month. The notice will provide a short description of the vacancy and who to contact for more information.

2. All applications must be post-marked by the 10th of the following month and mailed to the Chief of Business Enterprises at the State Office, 309 Ashe Avenue, Raleigh, N.C. 27606.

3. Interviews will be conducted on the second Friday of the month which follows the application deadline.

4. At least 10 working days prior to the interview, the Business Enterprises Counselor who works with the applicant will calculate the applicant's points for sanitation, seniority, Financial Analysis/Operating Standards [Subparagraphs (d), (1), (2), (3) of this Rule] and inform the applicant of his point total. The applicant will have five working days to review the point total and request any adjustments.

5. After adding together the points from the sanitation, seniority, Financial Analysis/Operating Standards, Customer Relations and Oral Exam/Interview Sections [Subparagraphs (d), (1), (2), (3), (4), (5), (6), (7)] of this Rule] for each applicant, the applicant with the highest point total (if above 60 points) will be awarded the vacancy. If the applicant with the highest point total declines to accept the location, it will be offered to the next highest applicant (if above 60 points) and so on. In the case of an exact tie, the applicant with the most time in the Business Enterprises Program will be awarded the location.

6. Applicants will be notified as soon as possible after their interview whether or not they have been awarded a location. (Notified by phone, followed up in writing).

7. Upon being awarded a location, the applicant has 30 days to fill the vacancy, unless the Division and the applicant agree to another time frame. The location may not be filled for 15 working days following the award to allow time for administrative appeals to be filed. If an appeal is filed, the location will not be filled until the appeal is resolved. If there is only one applicant for a location, the 15 day waiting period does not apply.

8. If an applicant is awarded a facility and does not accept the position, the applicant will not be able to apply for another position for one year. An applicant may withdraw his application up to two days prior to his interview and avoid the penalty. Applicants who apply for and are awarded more than one location will not be penalized as long as they accept one award.

9. If an applicant is awarded a facility and has not had an Operator Agreement with the Agency in the last two years, the applicant may be required to repeat the necessary on-the-job-training. The Interview Committee may also recommend refresher course training as necessary to assure qualified management.

10. Licensees/operators not selected have the right to file an administrative appeal as provided for in Subchapter 19C Section .0400. The fifteen-day limit to file an appeal will begin from the date informed by telephone of the results of the award.

11. An applicant must have operated a Business Enterprises location for six months prior to the cut-off date for calculating financial performance according to standards to be considered an operator otherwise, he will be in licensee status.

12. If an operator leaves the Business Enterprises Program and then applies for a location within 12 months of leaving, his financial performance according to standards for the 12 months prior to his leaving will be used to calculate points in the Financial Performance Section.

13. Financial analyses of facilities will be done every two years. The analysis is on the facility not the operator; however, if an operator enters a facility and makes major changes, he may request a new analysis after at least four months in the new facility, or the Rehabilitation Supervisor may order a new analysis. If an applicant's financial analysis is more than two years old but less than two and one half years old and the applicant's performance is neither above 100% nor below 85% on either measure, the financial analysis will be considered current.

14. An applicant who does not hold the appropriate license for the vacancy may be awarded the facility contingent
upon successfully completing the necessary training. Applicants who hold the correct level of license but have not operated a facility at that level for at least two years may be required, at the discretion of the Interview Committee, to complete refresher training.

An operator may not sit on the Interview Committee for a location for which he is applying. If the Vice-Chairman and the Chairman of the Food Service Committee Elected Committee of Vendors and the Chairman of the sub-committee on Transfer and Promotion are all restricted from sitting on the Interview Committee under this Rule, those three must pick another Food Service Committee Elected Committee of Vendors member to sit on the Interview Committee.

The schedule for interviewing and awarding vacancies may be changed at certain times of the year to accommodate holidays, too many applications to be processed in one day, and the end-of-year close-out.

Applicants will be reimbursed for their expenses to come to the interview at the state’s established rates. The Business Enterprises Program will only reimburse for two interviews per year. After that, applicants must bear their own expenses for coming to interviews. Licensees who have active Rehabilitation cases should be reimbursed through the Rehabilitation program.

(d) Criteria To Be Used In Determining Points:

(1) Sanitation:

(A) Ten point maximum.
(B) One point for each sanitation grade point above ninety.
(C) Sanitation grade to be arrived at by averaging all sanitation scores received during last two years.
(D) Five points will be subtracted for any adjusted B grade in the last two years.
(E) The Business Enterprises Counselor will determine an adjusted grade by adding back in any points subtracted for deficiencies over which the operator has no control. Operator must inform Business Enterprises Counselor when an inspection has occurred so he can review the inspection and adjust the grade if needed. It is the operator’s responsibility to make sure the Business Enterprises Counselor has copies of every sanitation inspection form from the relevant period so that they can calculate an accurate grade.

(2) Seniority:

(A) Five point maximum.
(B) Seniority points will be awarded as follows:

<table>
<thead>
<tr>
<th>Years in Business Enterprises Program</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 4.99</td>
<td>0</td>
</tr>
<tr>
<td>5 to 9.99</td>

</tr>
<tr>

<td>2</td>
</tr>
<tr>

<td>3</td>
</tr>
<tr>
<td>20 to 24.99</td>
<td>4</td>
</tr>
<tr>
<td>25 and over</td>
<td>5</td>
</tr>
</tbody>
</table>

(C) Seniority is defined as the amount of time in full month increments an individual has been working in the Business Enterprises Program as a licensee or operator. A licensee/operator must work 51% of the working days in a month to receive credit for that month. The cutoff date for accruing time in the Program will be the end of the month when the vacancy is advertised.

(3) Performance According to Financial Analysis/Operating Standards:

(A) 50 Points Maximum.
(B) Applicants will receive 20 points for meeting their sales standard.
(C) Applicants will receive 20 points for meeting their gross profit percentage standard.
(D) Applicants will receive 5 points for meeting or exceeding 92.5% of their sales optimum.
(E) Applicants will receive 5 points for meeting or exceeding 92.5% of their gross profit percentage optimum.
(F) Points according to Financial Analysis/Operating Standards in this Section will be calculated as follows:

(i) Use sales and gross profit figures for the twelve month period ending with the last day of the same month in which the vacancy is advertised. This is the cut-off date for financial performance calculations.

(ii) Take the facility’s average monthly sales for the past twelve months, and calculate what percentage of the optimum it is. If it is over 85%, the applicant gets 20 points; if it is 92.5% or more, the applicant gets an additional 5 points.

(iii) Take the facility’s gross profit percentage for the last twelve months and calculate what percentage of the optimum it is. If it is over 85%, the applicant gets an additional 5 points. Example - The Level II facility in the XYZ Building has a sales standard of three thousand dollars ($3,000) per month with an optimum of three thousand five hundred and twenty-nine dollars ($3,529) per month. Its gross profit percentage standard is 40% with an optimum of 47%. The actual performance for the past twelve months of the facility is three thousand five hundred dollars ($3,500) per month in sales and a 42.3% gross profit.
percentage. Three thousand five hundred dollars ($3,500) in sales is 99.1% of the optimum sales and a 42.3% gross profit percentage is 90% of the optimum gross profit. The applicant would receive 20 points for meeting his sales standard 5 points for exceeding 92.5% of his sales optimum and 20 points for meeting his gross profit percentage standard. Out of a possible 50 points for financial performance, the applicant would get 45 points.

(4) Customer and Building Management Relations:
(A) Five points will be deducted for each substantiated customer complaint in the past two years, up to a maximum of 10 points.
(B) If the applicant has more than three substantiated customer complaints, he will not be considered for the award. A substantiated complaint is a written complaint which results in a letter to the operator with a copy to the operator's personnel file. The operator has the right to appeal the letter at the time the letter is placed in the operator's personnel file. No building management complaint can be used against an operator prior to June 1, 1993.

(5) Oral Exam/Interview:
(A) 30 points maximum.
(B) Interview will be face to face (no conference calls).
(C) Interviews will be conducted on the second Friday of the month which follows the month applications are due.
(D) All applicants must be interviewed.
(E) Oral Exam/Interview will be conducted by:
(i) the Chief of Business Enterprises, or Deputy Chief or Assistant Director of Programs and Facilities as designated by Chief,
(ii) the Area Rehabilitation Supervisor or B.E. Counselor for the area in which the vacancy occurs, and
(iii) the Vice-Chairman of the Food Service Committee Elected Committee of Vendors or the Chairman in his absence, or in the absence of the Chairman, the Chairman of the Transfer and Promotion subcommittee.
(F) The Oral Exam part will consist of 10 questions drawn either from a pool of standard questions or developed by the interview committee prior to the interview. The oral exam questions will relate to any special needs of the vacant facility as well as to standard responsibilities and knowledge areas of Business Enterprises operators. Each member of the Interview Committee will evaluate the applicant’s response to each question in the oral exam and assign either zero, one, one and a half or two points to the applicant's answer. There will be at least one question involving a calculation and a talking calculator will be provided, although applicants are recommended to bring their own. The oral exam will yield a possible 20 points.

(G) The interview part will consist of a variety of questions in a give and take format. Each member of the Interview Committee will evaluate the applicant’s response to the interview questions and will award up to ten points at his/her discretion. The interview part must include the following elements: a review of the applicant’s net profit percentage and statement of revenues and expenses for the past 12 months; a comparison of the applicant’s performance to various statewide averages such as average gross and net profit percentages, salary costs, sales per hours open, sales per building population, etc.; two "philosophy of business" type questions designed to promote a general discussion and allow the Interview Committee the opportunity to evaluate the applicant’s experience, maturity, expertise, and ability; a discussion of work experience outside of the Business Enterprises Program. Since points are awarded for seniority, time in the Business Enterprises Program will not be considered as a reason to award points; however, relevant work experience in the Business Enterprises Program may be discussed and taken into consideration. Applicants are encouraged to bring letters of recommendation, certificates, and other documents that would aid the Interview Committee in awarding its discretionary points.

(H) Each interviewer will award discretionary points individually and the total score of Oral Exam and Interview points from each interviewer will be averaged and added to the applicant’s points from the other Sections.

(6) Licensees and trainees:
(A) A licensee who has no previous experience in the North Carolina Business Enterprises Program will be assigned 35 points in the Financial Analysis/Operating Standards category. While a trainee is in training, he will be graded on sanitation at the Rehabilitation Center and at each on-the-job training site to compile a training sanitation grade for use in assigning points in the sanitation category.
(B) A licensee with previous Business Enterprises experience will be assigned 35 points in the Financial Analysis/Operating Standards category. Previous sanitation records will be considered, if available. If no previous sanitation records are available, the applicant has the option of taking the Food Service Sanitation Test offered by the Rehabilitation Center or through the Business Enterprises Program. If the licensee scores a 90% or above on the test, he will be given three points in the Sanitation Section.
(C) Applicants must have satisfactorily completed Level I training or have a Level I license to be interviewed.

.0702 SET-ASIDE

(a) "Set-aside" and "Net Proceeds" is used as defined in 34 CFR 395.1.

(b) The division will set aside no more than a total of twenty percent of the funds from the net proceeds of each stand operation to be used for the following purposes:

(1) maintenance and replacement of equipment;
(2) purchase of new equipment;
(3) management services;
(4) assuring a minimum return to operators;

(5) the operators may use part of the set-aside for the establishment and maintenance of retirement or pension funds, health insurance contributions, and provisions for paid sick leave and vacation time, if it is so determined by a majority vote of blind operators licensed by the division, after the division provides to each operator information on all matters relevant to the proposed purposes.

(c) The percentage to be determined in advance will vary from facility to facility depending upon the nature and scope of the accounting services rendered by the Division of Services for the Blind to the individual facility.

(d) The set-aside shall not exceed an amount determined to be reasonable by the Commissioner of the Rehabilitation Services Administration.

(e) Any set-aside collected in excess of the amount needed to cover the purposes in this Rule and in excess of any reasonable reserve necessary to assure that such purposes can be achieved on a consistent basis, will be refunded on a pro rata basis at the end of the fiscal year.

(a) The monthly income of the operator shall be the net profits of the concession stand for that month, less the funds which must be set aside.

If at the end of the year there is a net operating balance above what has already been paid to the operator, the operator will receive that balance. If, on the other hand, net proceeds received by the operator during the year exceed the net operating balance as reflected on the closing financial statements for the year, this overpayment will be deducted from the net proceeds earned during the next fiscal year before any net proceeds for that year are paid.

(c) In the event that more than one licensed operator is under contract to operate the same stand, net proceeds will be distributed as follows: The manager of a concession stand location, as designated by the division, will receive a percentage of the net proceeds earned by that stand as determined by the director of the division after consultation with the committee on the stand program. The remaining
percentage will be divided equally among all licensed operators, including the manager, under contract at that location.

(c) (d) An operator whose license has been suspended will not receive net proceeds generated during that period of time the license was suspended.

policy that are guaranteed and determined at
issue.

lying the disciplined current scale, for all illustrated points in time on or after the fifteenth policy anniversary for second-or-later-to-die policies (or upon policy expiration if sooner), the accumulated value of all policy cash flows equals or exceeds the total policy owner value available. For this purpose, policy owner value will include cash surrender values and any other illustrated benefit amounts available at the policy owner's election.

(17) "Supplemental illustration" means an illustration furnished in addition to a basic illustration that meets the applicable requirements of this Section, and that may be presented in a format differing from the basic illustration, but may only depict a scale of non-guaranteed elements that is permitted in a basic illustration.

(a) As used in this Rule, "minimum assumed expenses" means the minimum expenses current scale for a policy. An insurer may choose to designate each year the method of determining assumed expenses for all policies from the following:

(1) Fully allocated expenses.
(2) Marginal expense.
(3) A generally recognized expense table based on fully allocated expenses representing a significant portion of insurance companies and approved by the National Association of Insurance Commissioners or by the Commissioner.

Marginal expenses may be used only if greater than a generally recognized expense table. If no generally recognized expense table is approved, fully allocated expenses must be used.

(b) Further guidance in determining the disciplined current scale as contained in standards established by the Actuarial Standards Board may be relied upon if the standards:

(1) Are consistent with all provisions of this Section.
(2) Limit a disciplined current scale to reflect only actions that have been taken on events that have already occurred.

.0503 ILLUSTRATED POLICIES

(a) Each insurer marketing policies to which this Section applies shall notify the Commissioner whether a policy is to be marketed with or without an illustration. For all policies being actively marketed on the effective date of this Section, the insurer shall identify in writing those policies and whether or not an illustration will be used with them. For policies filed after the effective date of this Section, the identification shall be made at the time of filing. Any previous identification may be changed by notice to the Commissioner.

(b) If the insurer identifies a policy as one to be marketed without an illustration, any use of an illustration before the first policy anniversary for any policy using that policy is prohibited.

(c) If a policy is identified by an insurer as one to be marketed with an illustration, a basic illustration prepared and delivered in accordance with this Section is required, except that a basic illustration need not be provided to individual members of a group or to individuals insured under multiple lives coverage issued to a single applicant unless the coverage is marketed to those individuals. The illustration furnished to an applicant for a group policy issued to a single applicant on multiple lives may be either an individual or composite illustration representative of the coverage on the lives of members of the group or the multiple lives covered.

(d) As used in this Paragraph, "non-term group life" means a group policy or individual policies of traditional permanent or universal life insurance issued to members of an employer group where:

Potential enrollees for policies and certificates of non-term group life subject to this Section shall be furnished a quotation with the enrollment materials. The quotation shall show potential policy values for sample ages and policy years on a guaranteed and non-guaranteed basis appropriate to the group and the coverage. This quotation shall not be considered an illustration for purposes of this Section, but all information provided shall be consistent with the illustrated scale. A basic illustration shall be provided at delivery of the policy or certificate to enrollees for non-term group life who enroll for more than the minimum premium necessary to provide pure death benefit protection. In addition, the insurer shall make a basic illustration available to any non-term group life enrollee who requests it.

9. Except for policies that can never develop nonforfeiture values, use an illustration that is "lapse-supported";
10. Use an illustration that is not "self-supporting."

(c) If an interest rate used to determine the illustrated non-guaranteed elements is shown, it shall not be greater than the earned interest rate underlying the disciplined current scale.

.0505 STANDARDS FOR BASIC ILLUSTRATIONS

(a) Format. A basic illustration shall conform with the following requirements:

1. The illustration shall be labeled with the date on which it was prepared.
2. Each page, including any explanatory notes or pages, shall be numbered and show its relationship to the total number of pages in the illustration (e.g., the fourth page of a seven-page illustration shall be labeled "page 4 of 7 pages").
3. The assumed dates of payment receipt and benefit pay-out within a policy year shall be clearly identified.
4. If the age of the proposed insured is shown as a component of the tabular detail, it shall be issue age plus the numbers of years the policy is assumed to have been in force.
5. The assumed payments on which the illustrated benefits and values are based shall be identified as premium outlay or contract premium, as applicable. For policies that do not require a specific contract premium, the illustrated payments shall be identified as premium outlay.
6. Guaranteed death benefits and values available upon surrender, if any, for the illustrated premium outlay or contract premium shall be shown and clearly labeled guaranteed.
7. If the illustration shows any non-guaranteed elements, they cannot be based on a scale more favorable to the policy owner than the insurer's illustrated scale at any duration. These elements shall be clearly labeled non-guaranteed.
8. The guaranteed elements, if any, shall be shown before corresponding non-guaranteed elements and shall be specifically referred to on any page of an illustration that shows or describes only the non-guaranteed elements (e.g., "see page one for guaranteed elements").
9. The account or accumulation value of a policy, if shown, shall be identified by the name this value is given in the policy being illustrated and shown in close proximity to the corresponding value available upon surrender.
10. The value available upon surrender shall be identified by the name this value is given in the policy being illustrated and shall be the amount available to the policy owner in a lump sum after deduction of surrender charges, policy loans and policy loan interest, as applicable.
Illustrations may show policy benefits and values in graphic or chart form in addition to the tabular form.

Any illustration of non-guaranteed elements shall be accompanied by a statement indicating that:

(A) The benefits and values are not guaranteed;
(B) The assumptions on which they are based are subject to change by the insurer; and
(C) Actual results may be more or less favorable.

If the illustration shows that the premium payer may have the option to allow policy charges to be paid using non-guaranteed values, the illustration must clearly disclose that a charge continues to be required and that, depending on actual results, the premium payer may need to continue or resume premium outlays. Similar disclosure shall be made for premium outlay of lesser amounts or shorter durations than the contract premium. If a contract premium is due, the premium outlay shall not be left blank or show zero unless accompanied by an asterisk or similar mark to draw attention to the fact that the policy is paid.

If the applicant plans to use dividends or policy values, guaranteed or non-guaranteed, to pay all or a portion of the contract premium or policy charges, or for any other purpose, the illustration may reflect those plans and the effect on future policy benefits and values.

(b) Narrative Summary. A basic illustration shall include the following:

(1) A brief description of the policy being illustrated, including a statement that it is a life insurance policy.
(2) A brief description of the premium outlay or contract premium, as applicable, for the policy. For a policy that does not require payment of a specific contract premium, the illustration shall show the premium outlay that must be paid to guarantee coverage for the term of the policy, that must be paid to guarantee coverage for the term of the policy, subject to maximum premiums allowable to qualify as a life insurance policy under the applicable provisions of the Internal Revenue Code.
(3) A brief description of any policy features, riders or options, guaranteed or non-guaranteed, shown in the basic illustration and the effect they may have on the benefits and values of the policy.
(4) Identification and a brief definition of column headings and key terms used in the illustration.

(c) Numeric Summary. Following the narrative summary, a basic illustration shall include a numeric summary of the death benefits and values and the premium outlay and contract premium, as applicable. For a policy that provides for a contract premium, the guaranteed death benefits and values shall be based on the contract premium. This summary shall be shown for at least policy years 5, 10 and 20 and at age 70, if applicable, on the three bases shown below. For multiple life policies the summary shall show policy years 5, 10, 20 and 30.

(A) Policy guarantees;
(B) Insurer's illustrated scale;
(C) Insurer's illustrated scale used but with the non-guaranteed elements reduced as follows:

(iii) All non-guaranteed charges, including but not limited to, term insurance charges, mortality and expense charges, at rates that are the average of the guaranteed rates and the rates contained in the illustrated scale used.

(2) In addition, if coverage would cease before policy maturity or age 100, the year in which coverage ceases shall be identified for each of the three bases.

(d) Statements. Statements substantially similar to the following shall be included on the same page as the numeric summary and signed by the applicant, or the policy owner in the case of an illustration provided at time of delivery, as required in this Section.

(1) A statement to be signed and dated by the applicant or policy owner reading as follows: "I have received a copy of this illustration and understand that any non-guaranteed elements illustrated are subject to change and could be either higher or lower. The agent has told me they are not guaranteed."
(2) A statement to be signed and dated by the insurance producer or other authorized representative of the insurer reading as follows: "I certify that this illustration has been presented to the applicant and that I have explained that any non-guaranteed elements illustrated are subject to change. (1) A basic illustration shall include the following for at least each policy year from one to 10 and for every fifth policy year thereafter ending at age 100, policy maturity or final expiration, and except for term insurance beyond the 20th year, for any year in which the premium outlay and contract premium, if applicable is to change:

(b) Modified net premiums are a uniform percentage of the respective guaranteed gross premiums, where the uniform percentage is such that, at issue, the present value of the net premiums equals the present value of all death benefits and pure endowments, plus the excess of item (i) over item (ii), as follows:

(i) A net level annual premium equal to the present value, at the date of issue, of the benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one per year payable on the first and each subsequent anniversary of the policy on which a premium falls due. However, the net level annual premium shall not exceed the net level annual premium on the 19-year premium whole life plan of insurance of the same renewal year equivalent level amount at an age one year higher than the age at issue of the policy.

(ii) A net one year term premium for the benefits provided for in the first policy year.

(c) The interest rates used in the present value calculations for any policy may not exceed the maximum valuation interest rate, determined with a guarantee duration equal to the length from issue to the mandatory expiration of the policy.

(11) "Universal life insurance policy" means any individual life insurance policy under the provisions of which separately identified interest credits (other than in connection with dividend accumulations, premium deposit funds, or other supplementary accounts) and mortality or expense charges are made to the policy.

.0403 BASIC AND PREMIUM DEFICIENCY RESERVES

(a) At the election of the company for any one or more specified plans of life insurance, the minimum mortality standard for basic reserves may be calculated using the 1980 CSO valuation tables with select mortality factors (or any other valuation mortality table adopted by the NAIC after the effective date of this Section and adopted as a rule by the Commissioner for this purpose). If select mortality factors are elected, they may be:

(1) The 10-year select mortality factors incorporated into the 1980 amendments to the NAIC Standard Valuation Law.

(2) 150 percent of the base select mortality factors of the NAIC Model Regulation entitled "Valuation of Life Insurance Policies Model Regulation"; or

(3) 150 percent of the base select mortality factors of the NAIC Model Regulation entitled "Valuation of Life Insurance Policies Model Regulation" for the first 10 policy years; then linearly graded from the resulting tenth year factor to 100 percent at policy year 16; or

(4) Any other table of select mortality factors adopted by the NAIC after the effective date of this Section and adopted as a rule by the Commissioner for the purpose of calculating basic reserves.

(b) Deficiency reserves, if any, are calculated for each policy as the excess, if greater than zero, of the quantity A over the basic reserve. The quantity A is obtained by recalculating the basic reserve for the policy using guaranteed gross premiums instead of net premiums when the guaranteed gross premiums are less than the corresponding net premiums. At the election of the company for any one or more specified plans of insurance, the quantity A and the corresponding net premiums used in the determination of quantity A may be based upon the 1980 CSO valuation tables with select mortality factors (or any other valuation mortality table adopted by the NAIC after the effective date of this Section and adopted as a rule by the Commissioner). If select mortality factors are elected, they may be:

(1) The 10-year select mortality factors incorporated into the 1980 amendments to the NAIC Standard Valuation Law.

(2) 120 percent of the base select mortality factors of the NAIC Model Regulation entitled "Valuation of Life Insurance Policies Model Regulation";

(3) 120 percent of the base select mortality factors of the NAIC Model Regulation entitled "Valuation of Life Insurance Policies Model Regulation" for the first 10 policy years; then linearly graded from the resulting tenth year factor to 100 percent at policy year 16;

(4) Any other table of select mortality factors adopted by the NAIC after the effective date of this Section and adopted as a rule by the Commissioner for the purpose of calculating deficiency reserves.

(c) Notwithstanding Paragraphs (a) and (b) of this Rule, if the length of the first segment as determined by the contract segmentation method for the basic reserves is not greater than five years (safe harbor), then for the length of time measured from issue, for either the unitary method or the contract segmentation method, gross premiums need not

1758 NORTH CAROLINA REGISTER November 15, 1995 10:16A
be substituted for net premiums even if the gross premiums are less than the net premiums. For subsequent periods, gross premiums must be substituted for net premiums if the gross premiums are less than the corresponding net premiums.

(d) For any policies for which the company chooses to use the "safe harbor", the company shall demonstrate annually to the Commissioner, by submitting a statement of actuarial opinion signed by the appointed actuary, that the reserves held for all such policies are adequate.

(e) In applying percentages to the base select mortality factors:
   (1) Do not round any result; and
   (2) Set equal to 100 any result that exceeds 100.

(f) This subsection applies to both basic reserves and deficiency reserves. Any set of base select mortality factors may be used only for the first segment. However, if the first segment is less than 10 years, the appropriate 10-year select mortality factors may be used thereafter through the tenth policy year from the date of issue.

(g) In determining basic reserves or deficiency reserves, gross premiums without policy fees may be used where the calculation involves the gross premium, but only if the policy fee is a level dollar amount for the entire premium-paying period of the policy. In determining deficiency reserves, policy fees may be included in gross premiums even if they are not included in the actual calculation of basic reserves.

.0404 CALCULATION OF 11 NCAC 11 .0401(B)

(a) Basic reserves shall be calculated as the greater of the segmented reserves and the unitary reserves. Both the segmented reserves and the unitary reserves for any policy must use the same valuation mortality table and selection factors. At the option of the insurer, in calculating segmented reserves and net premiums, either of the following adjustments may be made:

(1) Treat the unitary reserve, if greater than zero, applicable at the end of each segment as a pure endowment; and subtract the unitary reserve, if greater than zero, applicable at the beginning of each segment from the present value of guaranteed life insurance and endowment benefits for each segment.

(2) Treat the guaranteed cash surrender value, if greater than zero, applicable at the end of each segment as a pure endowment; and subtract the guaranteed cash surrender value, if greater than zero, applicable at the beginning of each segment from the present value of guaranteed life insurance and endowment benefits for each segment.

(b) Deficiency Reserves.

(1) The deficiency reserve at any duration shall be calculated:

(A) On a unitary basis if the corresponding basic reserve determined by 11 NCAC 11F .0404(a) is unitary;

(B) On a segmented basis if the corresponding basic reserve determined by 11 NCAC 11F .0404(a) is segmented; or

(C) On the segmented basis if the corresponding basic reserve determined by 11 NCAC 11F .0404(a) is equal to both the segmented reserve and the unitary reserve.

(2) This subsection shall apply to any policy for which the guaranteed gross premium at any duration is less than the corresponding modified net premium calculated by the method used in determining the basic reserves, but using the minimum valuation standards of mortality specified in 11 NCAC 11F .0403(b) and rate of interest.

(3) Deficiency reserves, if any, shall be calculated for each policy as the excess if greater than zero, for the current and all remaining periods, of the quantity A over the basic reserve, where A is obtained as indicated in 11 NCAC 11F .0403(b).

(4) For deficiency reserves determined on a segmented basis, the quantity A is determined using segment lengths equal to those determined for segmented basic reserves.

(c) Minimum Value Basic reserves may not be less than the tabular cost of insurance for the balance of the policy year, if mean reserves are used. Basic reserves may not be less than the tabular cost of insurance for the balance of the current modal period or to the paid-to-date, if later, but not beyond the next policy anniversary, if mid-terminal reserves are used. The tabular cost of insurance must use the same valuation mortality table, select mortality factor and interest rates as that used for the calculation of both the segmented and the unitary reserves. In no case may total reserves (including basic reserves, deficiency reserves and any reserves held for supplemental benefits that would expire upon contract termination) be less than the amount that the policyowner would receive (including the cash surrender value of the supplemental benefits, if any, referred to above), exclusive of any deduction for policy loans, upon termination of the policy.

(d) Unusual Pattern of Guaranteed Cash Surrender Values.

(1) For any policy with an unusual pattern of guaranteed cash surrender values, the reserves actually held prior to the first unusual guarantee cash surrender value shall not be less than the reserves calculated by treating the first unusual guaranteed cash surrender value as a pure endowment and treating the policy as an n-year policy providing term insurance plus a pure endowment equal to the unusual cash surrender value, where n is the number of years from the
PROPOSED RULES

The reserves actually held subsequent to any unusual guaranteed cash surrender value shall not be less than the reserves calculated by treating the policy as an $n$ year policy providing term insurance plus a pure endowment equal to the next unusual guaranteed cash surrender value, and treating any unusual guaranteed cash surrender value at the end of the prior segment as a net single premium, where:

(A) $n$ is the number of years from the date of the last unusual guaranteed cash surrender value prior to the valuation date to the earlier of:
   (i) The date of the next unusual guaranteed cash surrender value, if any, that is scheduled after the valuation date; or
   (ii) The mandatory expiration date of the policy; and

(B) The net premium for a given year during the $n$ year period is equal to the product of the net to gross ratio and the respective gross premium; and

(C) The net to gross ratio is equal to Subpart (d)(2)(C)(i) divided by (ii) as follows:
   (i) The present value, at the beginning of the $n$ year period, of death benefits payable during the $n$ year period plus the present value, at the beginning of the $n$ year period, of the next unusual guaranteed cash surrender value, if any, minus the amount of the last unusual guaranteed cash surrender value, if any, scheduled at the beginning of the $n$ year period.
   (ii) The present value, at the beginning of the $n$ year period, of the scheduled gross premiums payable during the $n$ year period.

For the purposes of 11 NCAC 11F .0404(d) a policy is considered to have an unusual pattern of guaranteed cash surrender values if any future guaranteed cash surrender value exceeds the prior year's guaranteed cash surrender value by more than the sum of:

(A) 110 percent of the scheduled gross premium for that year;
(B) 110 percent of one year's accrued interest on the sum of the prior year's guaranteed cash surrender value and the scheduled gross premium using the nonforfeiture interest rate used for calculating policy guaranteed cash surrender values; and
(C) Five percent of the first policy year surrender charge, if any.

(e) Optional Exemption for Yearly Renewable Term Reinsurance. At the option of the company, the following approach for reserves on YRT reinsurance may be used:

1. Calculate the valuation net premium for each future policy year as the tabular cost of insurance for that future year.
2. Basic reserves shall never be less than the tabular cost of insurance for the appropriate period, as defined in 11 NCAC 11F .0404(c).
3. Deficiency reserves.
   (A) For each policy year, calculate the excess, if greater than zero, of the valuation net premium over the respective maximum guaranteed gross premium.
   (B) Deficiency reserves shall never be less than the sum of the present values, at the date of valuation, of the excesses determined in accordance with Part (a)(3)(A) of this Rule.
4. For purposes of this subsection, the calculations use the maximum valuation interest rate and the 1980 CSO mortality tables with or without ten-year select mortality factors, or any other table adopted after the effective date of this Section by the NAIC and adopted as a rule by the Commissioner for this purpose.

5. A reinsurance agreement shall be considered YRT reinsurance for purposes of this subsection if:
   (A) The reinsurance premium rates (on both the initial current premium scale and the guaranteed maximum premium scale), for any given year are independent of both the premium rates and the plan of the original policy; and
   (B) Only the mortality risk is reinsured.

(f) Optional Exemption for Attained-Age-Based Yearly Renewable Term Life Insurance Policies. At the option of the company, the following approach for reserves for attained-age-based YRT life insurance policies may be used:

1. Calculate the valuation net premium for each future policy year as the tabular cost of insurance for that future year.
2. Basic reserves shall never be less than the tabular cost of insurance for the appropriate period, as defined in 11 NCAC 11F .0404(c).
3. Deficiency reserves.
   (A) For each policy year, calculate the excess, if greater than zero, of the valuation net premium over the respective maximum guaranteed gross premium.
   (B) Deficiency reserves shall never be less than the sum of the present values, at the date of valuation, of the excesses determined in accordance with Part (a)(3)(A) of this Rule.
4. For purposes of this subsection, the calculations use the maximum valuation interest rate and the 1980 CSO valuation tables with or without 10-year select mortality factors, or any other table adopted after the effective date of this Section by the NAIC and adopted as a rule by the Commissioner for this purpose.
(5) A policy shall be considered an attained-age-based YRT life insurance policy for purposes of this subsection if:

(A) The premium rates (on both the initial current premium scale and the guaranteed maximum premium scale) are based upon the attained age of the insured such that the rate for any given policy at a given attained age of the insured is independent of the year the policy was issued;

(B) The premium rates (on both the initial current premium scale and the guaranteed maximum premium scale) are the same as the premium rates for policies covering all insureds of the same sex, risk class, plan of insurance and attained age.

(6) For policies that become attained-age-based YRT policies after an initial period of coverage, the approach of this subsection may be used after the initial period if:

(A) The initial period is constant for all insureds of the same sex, risk class and plan of insurance; or

(B) The initial period runs to a common attained age for all insureds of the same sex, risk class and plan of insurance; and

(C) After the initial period of coverage, the policy meets the conditions of Subparagraph (f)(5) of this Rule.

(7) If this election is made, this approach must be applied in determining reserves for all attained-age-based YRT life insurance policies issued on or after the effective date of this Rule.

(g) Exemption from Unitary Reserves for Certain n-Year Renewable Term Life Insurance Policies Unitary basic reserves and unitary deficiency reserves need not be calculated for a policy if the following conditions are met:

(1) The policy consists of a series of n-year periods, including the first period and all renewal periods, where n is the same for each period, and for each n-year period, the premium rates on both the initial current premium scale and the guaranteed maximum premium scale are level;

(2) The guaranteed gross premiums in all n-year periods are not less than the corresponding net premiums based upon the 1980 CSO Table with or without the 10-year select mortality factors; and

(3) There are no cash surrender value in any policy year.

(h) Exemption from Unitary Reserves for Certain Juvenile Policies Unitary basic reserves and unitary deficiency reserves need not be calculated for a policy if the following conditions are met, based upon the initial current premium scale at issue:

(1) At issue, the insured is age 24 or younger;

(2) Until the insured reaches the end of the juvenile period, which must occur at or before age 25, the gross premiums and death benefits are level, and there are no cash surrender values; and

(3) After the end of the juvenile period, gross premiums are level for the remainder of the premium paying period, and death benefits are level for the remainder of the life of the policy.

.0405 CALCULATION OF 11 NCAC 11 .0401(C)

(a) General.

(1) Policies with a secondary guarantee include:

(A) A policy with a guarantee that the policy will remain in force at the original schedule of benefits over a period exceeding five years, subject only to the payment of specified premiums;

(B) A policy in which the minimum premium at any future duration beyond the end of the fifth policy year is less than the corresponding one year valuation premium, calculated using the maximum valuation interest rate and the 1980 CSO valuation tables with or without ten-year select mortality factors, or any other table adopted after the effective date of this Rule by the NAIC and promulgated by regulation by the Commissioner for this purpose; or

(C) A policy with any combination of Parts (a)(1)(A) and (B) of this Rule.

(2) A secondary guarantee period is the longest period for which the policy is guaranteed to remain in force subject only to a secondary guarantee. Secondary guarantees that are unitarily extended by the insurer after issue shall be considered to have been made at issue. Reserves described in Paragraphs (b) and (c) of this Rule shall be recalculated, from issue to reflect the extensions.

(3) Specified premiums mean the premiums specified in the policy, the payment of which guarantees that the policy will remain in force at the original schedule of benefits, but which otherwise would be insufficient to keep the policy in force in the absence of the guarantee if maximum mortality and expense charges and minimum interest credits were made and any applicable surrender charges were assessed.

(4) For purposes of this Rule, the minimum premium for any policy year is the premium that, when paid into a policy with a zero account value at the beginning of the policy year, produces a zero account value at the end of the policy year. The minimum premium calculation must use the policy cost factors (including mortality charges, loads and expense charges) and the interest crediting rate, which are all
guaranteed at issue.

(5) The one-year valuation premium means the net one-year premium based upon the original schedule of benefits for a given policy year. The one-year valuation premiums for all policy years are calculated at issue. The select mortality factors defined in 11 NCAC 11F .0403(a)(2), .0403(a)(3), .0403(a)(4), .0403(b)(2), .0403(b)(3), and .0403(b)(4) may not be used to calculate the one-year valuation premiums.

(b) Basic reserves for the secondary guarantees shall be the segmented reserves for the secondary guarantee period. In calculating the segments and the segmented reserves, the gross premiums shall be set equal to the specified premiums, if any, or otherwise to the minimum premiums, that keep the policy in force and the segments will be determined according to the contract segmentation method as defined in 11 NCAC 11F .0402(2).

(c) Deficiency reserves, if any, for the secondary guarantees shall be calculated for the secondary guarantee period in the same manner as described in 11 NCAC 11F .0404(b) with gross premiums set equal to the specified premiums, if any, or otherwise to the minimum premiums that keep the policy in force.

(d) The minimum reserves during the secondary guarantee period are the greater of:

(1) The basic reserves for the secondary guarantee plus the deficiency reserve, if any, for the secondary guarantees; or

(2) The minimum reserves required by other rules or regulations governing universal life plans.

Notice is hereby given in accordance with G.S. 150B-21.2 that the NC Department of Insurance intends to amend rule cited as 11 NCAC 12 .0514.

Proposed Effective Date: February 1, 1996.

A Public Hearing will be conducted at 10:00 a.m. on December 6, 1995 at the Dobbs Building, 3rd Floor Hearing Room, 430 N. Salisbury Street, Raleigh, NC 27611.

Reason for Proposed Action: Necessary to make technical changes and clarifications in the rule.

Comment Procedures: Written comments and questions should be directed to Rodney Finger, 430 N. Salisbury Street, Raleigh, NC 27611, (919) 733-5060. Oral presentations may be made at the public hearing.

Fiscal Note: This Rule does not affect the expenditures or revenues of state or local government funds.
(c) "Primary Plan" or "Secondary Plan". The order of benefit determination rules state whether this plan is a Primary Plan or Secondary Plan as to another plan covering the person. When this plan is a Primary Plan, its benefits are determined before those of the other plan and without considering the other plan's benefits. When there are more than two plans covering the person, this plan may be a Primary Plan as to one or more other plans, and may be a Secondary Plan as to a different plan or plans.

(d) "Allowable Expense" means a necessary, reasonable, and customary item of expense for health care, when the item of expense is covered at least in part by one or more plans covering the person for whom the claim is made. When a plan provides benefits in the form of services, the reasonable cash value of each service rendered will be considered both an allowable expense and a benefit paid. Total benefits paid must be equal to 100 percent of necessary medical expenses covered by both plans.

(e) "Claim Determination Period" means a calendar year. However, it does not include any part of a year during which a person has no coverage under this plan, or any part of a year before the date this COB provision or a similar provision takes effect.

(3) Order of Benefit Determination Rules:

(a) General. When there is a basis for a claim under this plan and another plan, this plan is a Secondary Plan which has its benefits determined after those of the other plan, unless:

(i) the other plan has rules coordinating its benefits with those of this plan; and

(ii) both those rules and this plan's rules, in Sub-item (3)(b)(iii)(B) of this Rule, require that this plan's benefits be determined before those of the other Plan.

(b) Rules. This plan determines its order of benefits using the first of the following rules which applies:

(i) Non-dependent/Dependent. The benefits of the plan which covers the person as an employee, member or subscriber (that is, other than as a dependent) are determined before those of the plan which covers the person as a dependent—dependent; except that: if the person is also a Medicare beneficiary, and as a result of the rule established by Title XVIII of the Social Security Act and implementing regulations, Medicare is:

(A) Secondary to the plan covering the person as a dependent; and

(B) Primary to the plan covering the person as other than a dependent (e.g., a retired employee), then the benefits of the plan covering the person as a dependent are determined before those of the plan covering that person as other than a dependent.

(ii) Dependent Child/Parents Not Separated or Divorced. Except as stated in Sub-item (3)(b)(iii)(B) of this Rule, when this plan and another plan cover the same child as a dependent of different persons, called "parents":

(A) the benefits of the plan of the parent whose birthday falls earlier in a year are determined before those of the plan of the parent whose birthday falls later in that year; but

(B) if both parents have the same birthday, the benefits of the plan that has covered a parent for a longer period of time are determined before those of the plan that covered the other parent for a shorter period of time.

As used in this Sub-item, "birthdays" refers only to month and day in a calendar year not the year in which the person is born.

However, if the other plan does not have the rule described in Paragraph (3)(a) Sub-item 3(b)(ii) in this Rule, but instead has a rule based upon the gender of the parent, and if, as a result, the plans do not agree on the order of benefits, the rule in the other plan will determine the order of benefits.

(iii) Dependent Child/Separated or Divorced Parents. If two or more plans cover a person as a dependent child of divorced or separated parents, benefits for the child are determined in this order:

(A) first, the plan of the parent with custody of the child;

(B) then, the plan of the spouse of the parent with custody of the child; and

(C) finally, the plan of the parent not having custody of the child.

However, if the specific terms of a court decree state that one of the parents is responsible for the health pay or provide the benefits of the plan of that parent has actual knowledge of those terms, the benefits of that plan are determined first. In this Rule, Sub-item (3)(b)(iii)(C) does not apply with respect to any claim determination period or plan year during which any benefits are actually paid or provided before the entity has that actual knowledge.

(iv) Active/Inactive Employee. The benefits of a plan which covers a person as an employee who is neither laid off or retired (or as that employee's dependent) are determined before those of a plan which covers that person as a laid off or retired employee (or as that employee's dependent). If the other plan does not have (3)(b)(iv), and if, as a result, the plans do
not agree on the order of benefits, (3)(b)(iv) is ignored. Active/Inactive Employee. The benefits of a plan which covers a person as an employee who is neither laid off nor retired are determined before those of a plan which covers that person as laid off or retired employee. The same would hold true if a person is a dependent of a person covered as a retiree and an employee. If the other plan does not have this rule, and if, as a result, the plans do not agree on the order of benefits, this rule is ignored.

(v) Joint Custody. If the specific terms of a court decree state that the parents shall share joint custody, without stating that one of the parents is responsible for the health care expenses of the child, the plans covering the child shall follow the order of benefit determination rules outlined in Sub-item (3)(b)(ii) of this Rule.

(vi) Continuation coverage. If a person whose coverage is provided under a right of continuation pursuant to federal or state law also is covered under another plan, the following shall be the order of benefit determination:

(A) First, the benefits of a plan covering the person as an employee, member or subscriber (or as that person’s dependent);

(B) Second, the benefits under the continuation coverage. If the other plan does not have the rules described above, and if, as a result, the plans do not agree on the order of benefits, this Rule is ignored.

(vii) Longer/Shorter Length of Coverage. If more of Paragraph (3) of this Rule if none of the above rules determine the order of benefits, the benefits of the plan which covered an employee, member or subscriber longer are determined before those of the plan which covered that person for the shorter time.

.0436 INSURANCE POLICY REQUIREMENTS
The commissioner Commissioner shall not approve any variable life insurance form filed pursuant to this Regulation Rule unless it conforms to the requirements of this Section:
(1) Filing of Variable Life Insurance Policies. All variable life insurance policies, and all riders, endorsements, applications and other documents which are to be attached to and made a part of the policy and which relate to the variable nature of the policy, shall be filed with the commissioner and approved by him in writing prior to delivery or issuance for delivery in this state:
   (a) The procedures and requirements for such filing and approval shall be, to the extent appropriate and not inconsistent with this Regulation, the same as those otherwise applicable to other life insurance policies.
   (b) The commissioner may approve variable life insurance policies and related forms with provi-
sions the commissioner deems to be not less favorable to the policyholder and the beneficiary than those required by this Regulation.

(c) The requirements of (3)(e) of this Rule shall not apply to variable life insurance policies and related forms issued in connection with pension, profit-sharing and retirement plans if separate accounts for such policies are exempt pursuant to Section 3(c)(11) of the Investment Company Act of 1940.

(2) Mandatory Policy Benefit and Design Requirements. Variable life insurance policies delivered or issued for delivery in this state shall comply with the following minimum requirements:

(a) The mortality and expense risk shall be borne by the insurer.

(b) Gross premiums for death benefits shall be a level amount for the duration of the premium payment period, but this Subsection shall not be construed to prohibit temporary or permanent additional premiums for incidental insurance benefits or substandard risks. This Subsection shall not be deemed to prohibit the use of fixed benefit preliminary term insurance for a period not to exceed 120 days from the date of the application for a variable life insurance policy. The premium rate for such preliminary term insurance shall be stated separately in the application or receipt.

(c) A minimum death benefit shall be provided in an amount at least equal to the initial face amount of the policy so long as premiums are duly paid [subject to the provisions of (4)(b) of this Rule].

(d) The policy shall provide that the variable death benefit shall reflect the investment experience of the variable life insurance separate account established and maintained by the insurer and that the excess, positive or negative, of the net investment return over the assumed investment rate, as applied to the benefit base of each variable life insurance policy, shall be used to provide:

(i) fully paid-up variable life insurance providing coverage for the same period as the basic insurance under the policy or fully paid-up term insurance amounts for a term of annual periods of not less than one year nor more than five years, positive or negative, as the case may be, or a combination thereof; or

(ii) variable life insurance amounts, positive or negative, as the case may be, so that the reserve maintains the same percentage relationship to the variable death benefit as it would have on a corresponding fixed benefit policy; or

(iii) any other form of insurance benefits as the commissioner may approve.

(e) Each variable life insurance policy shall be credited with the full amount of the net investment return applied to the benefit base.

(f) Changes in variable death benefits of each variable life insurance policy shall be determined at least annually.

(g) The cash value of each variable life insurance policy shall be determined at least monthly. The method of computation of cash values and other non-forfeiture benefits, as described either in the policy or in a statement filed with the commissioner of the state in which the policy is delivered, or issued for delivery, shall be in accordance with actuarial procedures that recognize the variable nature of the policy. The method of computation must be such that, if the net investment return credited to the policy at all times from the date of issue should be equal to the assumed investment rate with premiums and benefits determined accordingly under the terms of the policy, then the resulting cash values and other non-forfeiture benefits must be at least equal to the minimum values required by G.S. 58-201.2 of the insurance laws of this state (Standard Non-forfeiture Law) for a fixed benefit policy with such premiums and benefits. The assumed investment rate shall not exceed the maximum interest rate permitted under the Standard Non-forfeiture Law of this state. The method of computation may disregard incidental minimum guarantees as to the dollar amounts payable. Incidental minimum guarantees include, for example, but are not to be limited to, a guarantee that the amount payable at death or maturity shall be at least equal to the amount that otherwise would have been payable if the net investment return credited to the policy at all times from the date of issue had been equal to the assumed investment rate.

(h) The computation of values required for each variable life insurance policy may be based upon such reasonable and necessary approximations as are acceptable to the commissioner.

(i) In determining the net investment return to be applied to the benefit base the insurer may deduct only the charges described in .0438(7)(a)(i), (ii), (iv), and (v) of this Section.

(3) Mandatory Policy Provisions. Every variable life insurance policy filed for approval in this state shall contain at least the following:

(a) The cover page or pages corresponding to the cover page of each such policy shall contain:

THE DEATH BENEFIT IN THIS POLICY MAY BE LESS THAN OR MAY EXCEED THE PROJECTED BENEFITS REPRESENTED BY THE SOLICITING AGENT."

(b) A provision for a grace period of not less than 31 days from the premium due date which shall provide that where the premium is paid within the grace period, policy values will be the same, except for the deduction of any overdue premium, as if the premium were paid on or before the due date;

(f) A provision that at any time during the first 48 24 months of the variable life insurance policy, so long as premiums are duly paid, the owner may exchange the policy for policy, or any requested increase in face amount, for a life insurance policy providing benefits that do not vary with the investment experience of a variable account. The owner shall be given the option to exchange the variable life insurance policy for: a policy of permanent fixed benefit fixed premium life insurance, or insurance on the life of the insured for the same initial amount of insurance as the variable life insurance policy, and on a plan of insurance specified in the policy, provided that the new policy: a policy of flexible benefit flexible premium life insurance. (i) for up to six months from the date of request, if such payments are based on policy values which do not depend on the investment performance of the separate account; or

(ii) otherwise, for any period during which the New York Stock Exchange is closed for trading (except for normal holiday closing) or when the Securities and Exchange Commission has determined that a state of emergency exists which may make such payment impractical;

(p) A description of the basis for computing the cash surrender value under the policy shall be included; Such surrender value may be expressed as either:

The policy may provide that a partial surrender provision shall not require the insurer to reduce the amount of the minimum death benefit to less than the lowest amount of minimum death benefit which would have been issued to the insured under the insurance plans of the insurer at the time the policy was issued. The policy must clearly provide that the policyholder has the option of electing to exercise the cash value privileges of the policy loan or partial withdrawal provision rather than the partial surrender provision;

(xi) All policy loan, partial withdrawal, or partial surrender provisions shall be constructed so that variable life insurance policyholders who have not exercised such provision are not disadvantaged by the exercise thereof;

SECTION .0800 - MEDICARE SUPPLEMENT INSURANCE

.0822 LOSS RATIO STANDARDS AND REFUND OR CREDIT OF PREMIUM

(a) Loss Ratio Standards:
(1) A Medicare supplement policy form or certificate form shall not be delivered or issued for delivery unless the policy form or certificate form can be expected, as estimated for the entire period for which rates are computed to provide coverage, to return to policyholders and certificate holders in the form of aggregate benefits (not including anticipated refunds or credits) provided under the policy form or certificate form:
   (A) At least 75 percent of the aggregate amount of premiums earned in the case of group policies, or
   (B) At least 65 percent of the aggregate amount of premiums earned in the case of individual policies, calculated on the basis of incurred claims experience, or incurred health care expenses where coverage is provided by a health maintenance organization on a service rather than reimbursement basis, and earned premiums for such period and in accordance with accepted actuarial principles and practices.

(2) All filings of rates and rating schedules shall demonstrate that expected claims in relation to premiums comply with the requirements of this Section when combined with actual experience to date. Filings of rate revisions shall also demonstrate that the anticipated loss ratio over the entire future period for which the revised rates are computed to provide coverage can be expected to meet the appropriate loss ratio standards.

(3) For the purposes of Subparagraph (a)(1) of this Rule, group policies sold or solicited on individual bases by mail or mass media advertising shall be deemed to be group policies.

(4) For policies issued before October 16, 1991, expected claims in relation to premium shall meet:
   (A) The originally filed anticipated loss ratio when combined with the actual experience since inception;
   (B) The appropriate loss ratio requirements from Parts (a)(1)(A) and (B) of this Rule when combined with actual experience beginning with December 1, 1995 to date; and
   (C) The appropriate loss ratio requirement from Parts (a)(1)(A) and (B) of this Rule over the entire future period for which the rates are computed to provide coverage.

(b) Refund or Credit Calculation:
(1) An issuer shall collect and file with the Commissioner by May 31 of each year the data contained in the reporting form for each type in a standard Medicare supplement benefit plan. This information shall be filed with the Life and Health Division. The reporting form shall be in the format prescribed by the NAIC in Appendix A of the Model Regulation to Implement the NAIC Medicare Supplement Insurance Minimum
Standards Model Act, as adopted July 30, 1991, including any subsequent amendments and editions. A copy of this format is on file at the North Carolina Department of Insurance. Copies may be obtained from the Department at a cost of two dollars and fifty cents ($2.50) each.

(2) If on the basis of the experience as reported the benchmark ratio since inception (ratio 1) exceeds the adjusted experience ratio since inception (ratio 3), then a refund or credit calculation is required. The refund calculation shall be done on a statewide basis for each type in a standard Medicare supplement benefit plan. For purposes of the refund or credit calculation, experience on policies issued within the reporting year shall be excluded.

(3) A refund or credit shall be made only when the benchmark loss ratio exceeds the adjusted experience loss ratio and the amount to be refunded or credited exceeds a de minimis level. Such refund shall include interest from the end of the calendar year to the date of the refund or credit at a rate specified by the Secretary of Health and Human Services, but in no event shall it be less than the average rate of interest for 13-week Treasury notes. A refund or credit against premiums due shall be made by September 30 following the experience year upon which the refund or credit is based.

(4) For policies or certificates issued before October 16, 1991, the issuer shall make the refund or credit calculation separately for all individual policies combined and all other group policies combined for experience after December 1, 1995. The first report is due by May 31, 1997.

c) Annual Filing of Premium Rates. An issuer of Medicare supplement policies and certificates issued in this state shall file annually its rates, rating schedule and supporting documentation, including ratios of incurred losses to earned premiums by policy duration, for approval by the Commissioner in accordance with the filing requirements and procedures prescribed by statute or rule. The supporting documentation shall also demonstrate in accordance with actuarial standards of practice using reasonable assumptions that the appropriate loss ratio standards can be expected to be met over the entire period for which rates are computed. Such demonstration shall exclude active life reserves. An expected third-year loss ratio that is greater than or equal to the applicable percentage shall be demonstrated for policies or certificates in force less than three years. As soon as practicable, but prior to the effective date of enhancements in Medicare benefits, every issuer of Medicare supplement policies or certificates in this state shall file with the Commissioner, in accordance with the applicable filing procedures of this state:

1) Appropriate premium adjustments necessary to produce loss ratios as anticipated for the current premium for the applicable policies or certificates. Such supporting documents as necessary to justify the adjustment shall accompany the filing.

(A) An issuer shall make such premium adjustments as are necessary to produce an expected loss ratio under such policy or certificate that will conform with minimum loss ratio standards for Medicare supplement policies, and which are expected to result in a loss ratio at least as great as that originally anticipated in the rates used to produce current premiums by the issuer for such Medicare supplement policies or certificates. No premium adjustment which would modify the loss ratio experience under the policy other than the adjustments described herein should be made with respect to a policy at any time other than upon its renewal date or anniversary date.

(B) If an issuer fails to make premium adjustments acceptable to the Commissioner, the Commissioner may order premium adjustments, refunds, or premium credits deemed necessary to achieve the loss ratio required by this Rule.

(2) Any appropriate riders, endorsements or policy forms needed to accomplish the Medicare supplement policy or certificate modifications necessary to eliminate benefit duplications with Medicare. Such riders, endorsements or policy forms shall provide a clear description of the Medicare supplement benefits provided by the policy or certificate.

(d) Public Hearings. The Commissioner may conduct a public hearing to gather information concerning a request by an issuer for an increase in a rate for a policy form or certificate form, if the experience of the form for the previous reporting period is not in compliance with the applicable loss ratio standard. The determination of compliance is made without consideration of any refund or credit for such reporting period. Public notice of such hearing shall be furnished in the manner prescribed by statute.

.0824 REQUIRED DISCLOSURE PROVISIONS

(a) General Rules.

(1) Medicare supplement policies and certificates shall include a renewal or continuation provision. The language or specifications of such provisions must be consistent with the type of contract issued. Increases based on the policyholder’s age.

(2) Except for riders or endorsements by which the issuer effectuates a request made in writing by the insured, exercises a specifically reserved right under a Medicare supplement policy, or is required to reduce or eliminate benefits to avoid duplication of Medicare benefits, all riders or endorsements added to a Medicare supplement policy after date of issue or at reinstatement or renewal which reduce or eliminate benefits or coverage in the policy shall require a signed acceptance by the insured. After the date of policy or certificate issue, any rider or endorsement which increases benefits or coverage with a concomitant increase in premium during the policy term shall be agreed to in writing signed by the insured, unless the benefits are required by the minimum standards for Medicare supplement policies, or if the increased coverage is required by law. Where a separate additional premium is charged for benefits provided in connection with riders or endorsements, such premium charge shall be set forth in the policy.

Medicare supplement policies or certificates shall not provide for the payment of benefits based on standards described as "usual and customary," "reasonable and customary" or words of similar import.

(4) If a Medicare supplement policy or certificate contains any limitations with respect to preexisting conditions, such limitations shall appear as a separate paragraph of the policy and be labeled as "Preexisting Condition Limitations".

Medicare supplement policies and certificates shall have a notice prominently printed on the first page of the policy or certificate or attached thereto stating in substance that the policyholder or certificateholder shall have the right to return the policy or certificate within 30 days of its delivery and to have the premium refunded if, after examination of the policy or certificate, the insured person is not satisfied for any reason.

(6) Issuers of accident and health policies or certificates which provide hospital or medical expense coverage on an expense incurred or indemnity basis, other than incidentally, to persons eligible for Medicare by reason of age shall provide to such applicants a copy of the Medicare Supplement Buyer’s Guide to Health Insurance for People with Medicare, in the form developed jointly by the National Association of Insurance Commissioners and the Health Care Financing Administration in a type size no smaller than 12-point type. Delivery of the Buyer’s Guide shall be made whether or not such policies or certificates are advertised, solicited or issued as Medicare supplement policies or certificates as defined in this Rule. Except in the case of direct response issuers, delivery of the Buyer’s Guide shall be made to the applicant at the time of application and acknowledgement of receipt of the Buyer’s Guide shall be obtained by the issuer. Direct response issuers shall deliver the Buyer’s Guide to the applicant upon request but not later than at the time the policy is delivered.

(b) Notice Requirements.

(1) As soon as practicable, but no later than 30 days prior to the annual effective date of any Medicare benefit changes, an issuer shall notify its policyholders and certificate holders of modifications it has made to Medicare supplement policies or certificates in a format acceptable to the Commissioner. Such notice shall:

A. Include a description of revisions to the Medicare program and a description of each modification made to the coverage provided under the Medicare supplement policy or certificate, and

"NOTICE: Read this outline of coverage carefully. It is not identical to the outline of coverage provided upon application and the coverage originally applied for has not been issued."
(3) The outline of coverage provided to applicants pursuant to this Rule consists of four parts: a cover page, premium information, disclosure pages, and charts displaying the features of each benefit plan offered by the issuer. The outline of coverage shall be in the language and format prescribed in Subparagraph (c)(4) of this Rule in no less than 12-point type. All plans A-J shall be shown on the cover page, and the plan or plans offered by the issuer shall be prominently identified. Premium information for the plan or plans offered shall be shown on the cover page or immediately following the cover page and shall be prominently displayed. The premium and mode shall be stated for each plan that is offered to the prospective applicant. All possible premiums for the prospective applicant shall be illustrated.

(4) The outline of coverage shall be in the language and format as prescribed by the NAIC in Section 16C(4) of the Model Regulation to Implement the NAIC Medicare Supplement Insurance Minimum Standards Model Act, as adopted July 30, 1991, including any subsequent amendments and editions. The notice shall be in no less than 12 point type and shall contain the following language:

"THIS [POLICY OR CERTIFICATE] IS NOT A MEDICARE SUPPLEMENT [POLICY OR CERTIFICATE]. If you are eligible for Medicare, review the Guide to Health Insurance for People with Medicare, which is available from the company."

(2) Applications provided to persons eligible for Medicare to purchasing the policies or certificates described in Subparagraph (d)(1) of this Rule shall disclose, using the applicable disclosure statement in the format prescribed by the NAIC in Appendix C of the Model Regulation, the extent to which the policy duplicates Medicare. The disclosure statement shall be provided as a part of, or together with, the application for the policy or certificate. A copy of this format is on file at the Department. Copies may be obtained from the Department at a cost of two dollars and fifty cents ($2.50) each.

(c) (d) Upon determining that a sale will involve replacement of Medicare supplement coverage, any issuer, other than a direct response issuer or its agent, shall furnish the applicant, prior to issuance or delivery of the Medicare supplement policy or certificate, a notice regarding replacement of Medicare supplement coverage. One copy of such notice signed by the applicant and the agent, except where the coverage is sold without an agent, shall be provided to the applicant and an additional signed copy shall be retained by the issuer. A direct response issuer shall deliver to the applicant at the time of the issuance of the policy the notice regarding replacement of Medicare supplement coverage.

(d) (e) The notice required by Paragraph (d) of this Rule for an issuer shall be provided in substantially the following form in no less than 12-point type:

NOTICE TO APPLICANT REGARDING REPLACEMENT
OF MEDICARE SUPPLEMENT INSURANCE

(Insurance company’s name and address)

SAVE THIS NOTICE! IT MAY BE IMPORTANT TO YOU IN THE FUTURE

According to [your application] [information you have furnished], you intend to terminate existing Medicare supplement insurance and replace it with a policy to be issued by [company name] Insurance Company. Your new policy will provide 30 days within which you may decide without cost whether you desire to keep the policy.

You should review this new coverage carefully. Compare it with all accident and sickness coverage you now have. Terminate your present policy only if after due consideration, you find that purchase of this Medicare supplement coverage is a wise decision. If, after due consideration, you find that purchase of this Medicare supplement coverage is a wise decision, you should terminate your present Medicare supplement coverage. You should evaluate the need for other accident and sickness coverage you have that may duplicate this policy.

STATEMENT TO APPLICANT BY ISSUER OR AGENT [BROKER OR OTHER REPRESENTATIVE]:

I have reviewed your current medical or health insurance coverage. The replacement of insurance involved in this transaction does not duplicate coverage, to the best of my knowledge. The replacement policy is being purchased for the following reason(s) (check one):

_________ Additional benefits.
_________ No change in benefits, but lower premiums.
_________ Fewer benefits and lower premiums.
_________ Other. (Please specify)

(1) Health conditions which you may now have (preexisting conditions) may not be immediately or fully covered under the new policy if you have had your present policy for less than six months.

(2) If you still wish to terminate your present policy and replace it with new coverage, be certain to truthfully and completely answer all questions on the application concerning your medical and health history. Failure to include all material medical information on an application may provide a basis for the company to deny any future claims and to refund your premium as though your policy had never been in force. After the application has been completed and before you sign it, review it carefully to be certain that all information has been properly recorded. [If the policy or certificate is guaranteed issue, this Paragraph need not appear.]

Do not cancel your present policy until you have received your new policy and are sure that you want to keep it.

(e) (f) Paragraph 1 of the replacement notice (applicable to pre-existing conditions) may be deleted by an issuer if the replacement does not involve application of a new pre-existing condition limitation.

.0835 MINIMUM BENEFIT STANDARDS ON OR AFTER JANUARY 1, 1992

The following standards are applicable to all Medicare supplement policies or certificates delivered or issued for delivery in this State on or after January 1, 1992. No policy or certificate may be advertised, solicited, delivered, or issued for delivery in this State as a Medicare supplement policy or certificate unless it complies with these benefit standards.

(1) General Standards. The following standards apply to Medicare supplement policies and certificates and are in addition to all other requirements of this Section.

(a) A Medicare supplement policy or certificate shall not exclude or limit benefits for loss incurred more than six months from the effective date of coverage because it involved a pre-existing condition. The policy or certificate may not define a pre-existing condition more restrictively than a condition for which medical advice was given or treatment was recommended by or received from a physician within six months before the effective date of coverage.

(b) A Medicare supplement policy or certificate shall not indemnify against losses resulting from sickness on a different basis than losses resulting from accidents.

(c) A Medicare supplement policy or certificate shall provide that benefits designed to cover cost sharing amounts under Medicare will be changed automatically to coincide with any changes in the applicable Medicare deductible amount and copayment percentage factors. Premiums may be modified to correspond with such changes, but new premiums must be filed and approved by the Commissioner before use.

(d) No Medicare supplement policy or certificate shall provide for termination of coverage of a spouse solely because of the occurrence of an event specified for termination of coverage of the insured, other than nonpayment of premium.

(e) Each Medicare supplement policy shall be guaranteed renewable and:

(i) The issuer shall not cancel or fail to renew the policy solely on the ground of health status of the individual.

(ii) The issuer shall not cancel or fail to renew the policy for any reason other than nonpayment of premium or material misrepresentation.

(iii) If the Medicare supplement policy is terminated by the group policyholder and is not replaced as provided under Subparagraph (l)(e)(v) of this Rule, the issuer shall offer each certificateholder an individual Medicare supplement policy that, at the option of the certificateholder:

(A) Provides for continuation of the benefits contained in the group policy, or

(B) Provides for such benefits as otherwise meet the requirements of this Rule.

(iv) If an individual is a certificateholder in a group Medicare supplement policy and the individual terminates membership in the group, the issuer shall either:

(A) Offer the certificateholder the conversion opportunity described in Subparagraph (l)(e)(iii) of this Rule; or

(B) At the option of the group policyholder, offer the certificateholder continuation of coverage under the group policy.

(v) If a group Medicare supplement policy is replaced by another group Medicare supplement policy purchased by the same policyholder, the succeeding issuer shall offer coverage to all persons who were covered under the old group policy on its date of termination. Coverage under the new policy shall not result in any exclusion for pre-existing conditions that would have been covered under the group policy being replaced.

(f) Termination of a Medicare supplement policy or certificate shall be without prejudice to any continuous loss that commenced while the policy was in force, but the extension of benefits
proposed rules

beyond the period during which the policy was in force may be conditioned upon the continuous total disability of the insured, limited to the duration of the policy benefit period, if any, or payment of the maximum benefits.

(g) Suspension During Medicaid Eligibility.

(i) A Medicare supplement policy or certificate shall provide that benefits and premiums under the policy or certificate shall be suspended at the request of the policyholder or certificateholder for the period, not to exceed 24 months, in which the policyholder or certificateholder has applied for and is determined to be entitled to medical assistance under Title XIX of the Social Security Act, but only if the policyholder or certificateholder notifies the issuer of such policy or certificate within 90 days after the date the individual becomes entitled to such assistance. Upon receipt of timely notice, the issuer shall return to the policyholder or certificateholder that portion of the premium attributable to the period of Medicaid eligibility, subject to adjustment for paid claims.

(ii) If such suspension occurs and if the policyholder or certificateholder loses entitlement to such medical assistance, such policy or certificate shall be automatically reinstated (effective as of the date of termination of such entitlement) as of the termination of such entitlement if the policyholder or certificateholder provides notice of loss of such entitlement within 90 days after the date of such loss and pays the premium attributable to the period, effective as of the date of termination of such entitlement.

(iii) Reinstitution of such coverages:

(A) Shall not provide for any waiting period with respect to treatment of pre-existing conditions;

(B) Shall provide for coverage that is substantially equivalent to coverage in effect before the date of such suspension; and

(C) Shall provide for classification of premiums on terms at least as favorable to the policyholder or certificateholder as the premium classification terms that would have applied to the policyholder or certificateholder had the coverage not been suspended.

(2) Standards for Basic ("Core") Benefits Common to All Benefit Plans: Every issuer shall make available a policy or certificate including only the following basic "core" package of benefits to each prospective insured. An issuer may make available to prospective insureds any of the other Medicare Supplement Benefit Plans in addition to the basic "core" package, but not in lieu thereof.

**CHAPTER 7 - OSHA**

**SUBCHAPTER 7F - STANDARDS**

**SECTION .0100 - GENERAL INDUSTRY STANDARDS**

.0101 GENERAL INDUSTRY

(a) The provisions for the Occupational Safety and Health Standards for General Industry, Title 29 of the Code of Federal Regulations Part 1910, are incorporated by reference except as follows:

1. Subpart H - Hazardous Materials, 29 CFR 1910.120, Hazardous waste operations and emergency response, §1910.120(q)(6) is amended by adding a new level of training:

   "(vi) First responder operations plus level. First responders at operations plus level are individuals who respond to hydrocarbon fuel tank leaks where the leaking tanks contain a hydrocarbon fuel which is used to propel the vehicle on which the tank is located. Only those vehicles designed for highway use or those used for industrial, agricultural or construction purposes are covered. First responders at the operations plus level shall have received at least training equal to first responder operations level and, in addition, shall receive training or have had sufficient experience to objectively demonstrate competency in the following areas and the employer shall so certify:

   (A) Know how to select and use proper specialized personal protective equipment provided to the first responder at operations plus level;

   (B) Understand basic hazardous materials terms as they pertain to hydrocarbon fuels;

   (C) Understand hazard and risk assessment techniques that pertain to gasoline, diesel fuel, propane and other hydrocarbon fuels;

   (D) Be able to perform control, containment, or confinement operations for gasoline, diesel fuel, propane and other hydrocarbon fuels within the capabilities of the available resources and personal protective equipment; and

   (E) Understand and know how to implement decontamination procedures for hydrocarbon fuels."

2. Subpart I -- Personal Protective Equipment -- 29 CFR 1910.132, General requirements, is amended at 29 CFR 1910.132(b) to read:

   "(b) Equipment. (1) Employer-provided equipment. It is the responsibility of the employer to provide, at no cost to the employee, all personal protective equipment which the employee does not wear off the jobsite for use off the job.

   (2) Employee-owned equipment. Where employees provide their own protective equipment, the employer shall be responsible to assure its adequacy, including proper maintenance, and sanitation of such equipment."

"(v) Fall arrest equipment, work positioning equipment, or travel restricting equipment shall be used by employees working at elevated locations more than 4 feet (1.2 m) above the ground on poles, towers or similar structures if other fall protection has not been provided. A fall protection system as defined in 29 CFR 1926, Subpart M - Fall Protection, is required to be used by all employees when ascending, descending or changing locations on poles, towers or similar structures. However, the use of non-locking snap hooks with any fall protection system is prohibited as of July 1, 1995. Qualified employees may free climb wood poles if the employer can ensure (1) that the employee is able to comfortably and safely grip the pole with both hands while climbing, (2) that the pole is free from attachments or any configurations of attachments that will materially impair the ability of a qualified employee to safely free climb the pole, (3) that the pole is otherwise free from impediments, contaminants or conditions of any type, including but not limited to ice, high winds or chemical treatments which materially impair the ability of a qualified employee to safely free climb the pole, and (4) that the employee is able to climb such structures without material physical impairments including over-exertion, lack of sleep or other physical stresses."

29 CFR 1910.269 as amended above is effective January 1, 1995, except that employers have until July 1, 1995, to implement the use of locking snap hooks, and employers have until January 1, 1996, to design and implement a system of fall protection for use by employees while ascending, descending or changing locations on towers. Also, 29 CFR 1910.269(a)(2) Training is effective January 31, 1995, and 29 CFR 1910.269(v)(11)(xii) is effective February 1, 1996.

(4) Subpart Z -- Toxic and Hazardous Substances:
   (A) 29 CFR 1910.1000 Air Contaminants:

   Revision of 1910.1000 (a) and (f), removal of Table Z-2 and Table Z-3 and re-adoption of revised permissible exposure limits as Table Z-1 as originally published in 54 FR (January 19, 1989) pages 2496-2533 and pages 2668-2695 2923 - 2958 as follows:

   "§1910.1000 Air contaminants.

   An employee’s exposure to any substance listed in Table Z-1 of this Rule shall be limited in accordance with the requirements of the following paragraphs and sections.

   (a) Table Z-1, (1) Substances with limits designated by "C": Ceiling Limits. An employee’s exposure to any substance in Table Z-1, the exposure limit of which is followed by a "C", shall at no time exceed the exposure limit given for that substance in Table Z-1.

   (2) Current permissible exposure limits. An employee’s exposure to any substance listed in Table Z-1 shall not exceed the Time Weighted Average (TWA), Short Term Exposure Limit (STEL) and Ceiling Limit specified for that substance in Table Z-1 under the Current PEL column.

   (3) Skin Designation. To prevent or reduce skin absorption, an employee’s skin exposure to substances listed in Table Z-1 with an “X” in the Skin Designation column following the substance name shall be prevented or reduced to the extent necessary in the circumstances through the use of gloves, coveralls, goggles, or other appropriate personal protective equipment, engineering controls or work practices.

   (4) Definitions. The following definitions are applicable to the Current PEL column of Table Z-1:

   (i) Time weighted average (TWA) is the employee’s average airborne exposure in any 8-hour work shift of a 40-hour work week which shall not be exceeded.

   (ii) Short term exposure limit (STEL) is the employee’s 15-minute time weighted average exposure which shall not be exceeded at any time during a work day unless another time limit is specified in a parenthetical notation below the limit. If another time period is specified, the time weighted average exposure over that time period shall not be exceed at any time during the working day.

   (iii) Ceiling is the employee’s exposure which shall not be exceeded during any part of the work day. If instantaneous monitoring is not feasible, then the ceiling shall be assessed as a 15-minute time weighted average exposure which shall not be exceeded at any time over a working day.

(b) and (c) are reserved.

(d) and (e) are not amended.

(f) Effective dates. (1) The effective date for the permissible exposure limits specified in the following Current PEL column of Table Z-1 is April 1, 1996.

LIMITS FOR AIR CONTAMINANTS

NOTE: Because of the length of the table, explanatory Footnotes applicable to all substances are given below.
Footnote (1) The PELs are 8-hour TWA's unless otherwise noted; a (C) designation denotes a ceiling limit. They are to be determined from breathing-zone air samples.

Footnote (2) Parts of vapor or gas per million parts of contaminated air by volume at 25 degrees C and 760 torr.

Footnote (3) Milligrams of substance per cubic meter of air. When entry is in this column only, the value is exact; when listed with a ppm entry, it is approximate.

Footnote (4) The CAS number is for information only. Enforcement is based on the substance name.

Footnote (5) Regarding Styrene Only: OSHNC recognizes that the permissible exposure limits for styrene may not be achievable solely through engineering and work practice controls for boat-building and operations comparable to boat building. Comparable operations are those that (1) employ the manual layup and sprayup process, (2) the manufactured items that utilize the same equipment and technology as that found in boat building, and (3) the same considerations of large part size, configuration interfering with air-flow control techniques, and resin usage apply. Examples of operations comparable to boat building would include the manufacture of large above-ground or below-ground storage tanks, large parts for recreational vehicles, and large duct work. Because it is impossible to define in advance every manual layup and sprayup process for which compliance may not be feasible solely through engineering and work practice controls, some guidelines concerning part size and configuration issues are necessary. The primary question for manual layup and sprayup operations is whether the part's size and configuration interfere with normal air-flow techniques. For operations making parts (such as tubs and vanities) that do not meet the guidelines described, beginning April 1, 1996, the hierarchy of controls specified in 29 CFR 1910.1000(c) will apply to styrene exposures to the new 50 ppm TWA and 100 ppm STEL. In consequence, the burden of proof will be on the employer to show that engineering and work practice controls are not feasible for specific operations. However, with respect to boat-building operations the burden of proof would be on OSHNC to prove that the level could be attained solely through engineering and work practice controls.

Footnote (6) Regarding Carbon Dioxide only: no change was made to the PELs.

Footnote (7) Regarding Sublimates only: this substance is not included in Table Z-1 below.

Note: The table lists various compounds and their corresponding maximum exposure limits (STEL and TWA) in parts per million (ppm) or milligrams per cubic meter (mg/m³). The limits are specified for different exposure durations (STEL for short-term exposure limits and TWA for time-weighted average exposure limits). The table also includes entries for compounds with specific industrial uses, such as in solvents or as intermediates in chemical processes.
