The North Carolina Administrative Code (NCAC) has four major classifications of rules. Three of these, titles, chapters, and sections are mandatory. The major classification of the NCAC is the title. Each major department in the North Carolina executive branch of government has been assigned a title number. Titles are further broken down into chapters which shall be numerical in order. Subchapters are optional classifications to be used by agencies when appropriate.

Dear Mr. Crowell:

This refers to the procedures for conducting the November 4, 2003, special referendum election fro Franklin County, North Carolina, submitted to the Attorney General pursuant to Section 5 of the Voting Rights Act, 42 U.S.C. 1973c. We received your submission on September 5, 2003; supplemental information was received on September 17, 2003.

The Attorney General does not interpose any objection to the specified changes. However, we note that Section 5 expressly provides that the failure of the Attorney General to object does not bar subsequent litigation to enjoin the enforcement of the changes. In addition, as authorized by Section 5, we reserve the right to reexamine this submission if additional information that would otherwise require an objection comes to our attention during the reminder of the sixty-day review period. See the Procedures for the Administration of Section 5 (28 C.F.R. 51.41 and 51.43).

Section 5 preclearance is required for any change affecting voting (e.g., increase in the number of commissioners, the districting plan, the method of election, the implantation schedule, the residency requirement, etc.) which are adopted as a result of the special election.

Sincerely,

Joseph D. Rich

Dear Ms. Nichols:

This refers to Sections 5, 6, 13, and 14, of North Carolina Session Law 2003-434 (Extra Session), which provide that: the State Board of Elections ("Board") shall postpone the May 4, 2004, primary elections for all offices if redistricting plans for the State House or Senate are not capable of implementation as of February 9, 2004; the Board has enabling authority to issue temporary orders modifying election statutes or regulations affecting the primary and general elections in 2004 and to set a new primary election schedule in 2004; there are certain limitation on the Board's authority in 2004 (including that the new schedule for absentee balloting shall provide as nearly as practical the same amount of time as existing statutes, that the new schedule shall provide one filing period and one election date for all offices normally scheduled for the primary election date, that the new schedule must include a second primary, and that the new schedule for the candidate filing period must be no shorter than 10 business days); the date on which members of certain local boards of education elected in 2004 will take office is changed to the first board meeting date after the election is certified; the existing statewide election precinct freeze will be extended until December 31, 2004; there are modifications for 2004 in the procedures for filling candidate vacancies due to the death of a candidate before the primary; there is a permanent change in situations where primaries for the State House or Senate are temporarily moved from their regularly scheduled date in which case all primaries shall be held on the same day; and there is a permanent change in situations where a primary or nominating convention is temporarily postponed in which case the chair of a qualified political party may still request funds from the North Carolina Political Parties Financing Fund after the regularly scheduled date even if the primary has not yet occurred, submitted to the Attorney General pursuant to Section 5 of the Voting Rights Act, 42 U.S.C. 1973c. We received your submission on December 10, 2003; supplemental information was received on February 4, 2004.

The Attorney General does not interpose any objection to the specified changes. However, we note that Section 5 expressly provides that the failure of the Attorney General to object does not bar subsequent litigation to enjoin the enforcement of the changes. See Procedures for the Administration of Section 5 of the Voting Rights Act (28 C.F.R. 51.41).

We note that your letter indicates that the submitted sections of Session Law 2003-434 include "enabling legislation, and the State Board recognizes additional preclearance will be required for any changes it adopts pursuant to this authority." Accordingly, any further changes affecting voting that are adopted pursuant to this legislation will be subject to Section 5 review (e.g., setting of election schedules for 2004, changes in election procedures for 2004, etc.) See 28 C.F.R. 51.15.

We also note that our review has been confined to the four sections of Session Law 2003-434 which your letter submitted to us for review, because, as your letter indicates, certain other sections of that act are pending before the United States District Court for the District of Columbia in State of North Carolina v. Ashcroft, Civil Action No. 1:03CV2477 (D.D.C) and have not been submitted for administrative review.

Sincerely,

Joseph D. Rich

Reason for Proposed Action: North Carolina Wildlife Resources Commission staff requested the reclassification of a segment of Richland Creek (Haywood County, French Broad River Basin) from Class B to Class B Tr (Trout). This proposed reclassification consists of the main stem of Richland Creek from the source to a point approximately 11 miles from the source (where Boyd Avenue crosses the creek). This proposal also consists of several tributaries to the above-mentioned main stem portion of Richland Creek that are proposed to receive the supplemental Tr classification. The purpose of this rule change is to protect the existing waters' trout populations. Tr waters are those freshwaters that have conditions which shall sustain as well as allow and protect for natural trout propagation and survival of stocked trout on a year-round basis. A water quality study conducted in July 2001 indicated that the proposed waters are eligible for reclassification to Tr.

Procedure by which a person can object to the agency on a proposed rule: You may attend the public hearing and make relevant verbal comments, and/or submit written comments, data or other relevant information by May 15, 2004. The Hearing Officer may limit the length of time that you may speak at the public hearing, if necessary, so that all those who wish to speak may have an opportunity to do so. The EMC is very interested in all comments pertaining to the proposed reclassification. All persons interested and potentially affected by the proposal are strongly encouraged to read this entire notice and make comments on the proposed reclassification. The EMC may not adopt a rule that differs substantially from the text of the proposed rule in this notice unless the EMC publishes the text of the proposed different rule and accepts comments on the new text (see G.S. 150B-21.2(g)). Written comments may be submitted to Elizabeth Kountis of the Division of Water Quality Planning Branch at 1617 Mail Service Center, Raleigh, NC 27699-1617, Elizabeth.kountis@ncmail.net, phone (919) 733-5083, ext. 369, or fax (919) 715-5637.

SECTION .0100 - CONSERVATION RESERVE ENHANCEMENT PROGRAM (CREP) -- STATE PORTION OF THE PROGRAM

15A NCAC 06G .0101 OBJECTIVES
(a) The North Carolina Conservation Reserve Enhancement Program (CREP) is a state/federal/local partnership that combines existing federal Conservation Reserve Program (CRP) funding and state funding from various sources, including the Agriculture Cost Share Program (ACSP), to take environmentally sensitive land out of crop production. For purposes of this Rule the generic term "CREP" references either the federal portion or the combined federal and state portions of the program. The combined federal and state portion of CREP is referred to as NC-CREP. Under CREP, landowners may voluntarily enroll eligible land in 10-year, 15-year, 30-year or permanent agreements or contracts. The Commission operates the state portion of NC CREP program as the lead agency for the State of North Carolina (State), and may from time to time delegate activities to the Division.
(b) The program objectives for the Commission, which are the same as those of the multi-agency CREP team, are the following: to reduce agricultural non-point source pollution; to enroll eligible land in 10-year, 15-year, 30-year or permanent contracts, contracts or easements; to encourage voluntary sign-ups for the program; and to enhance ecological aspects and wildlife habitat of areas near watercourses.
(c) There will initially be an enrollment period beginning March 1, 1999, which will last five years, unless otherwise extended during which time requests to enroll acreage will be received. The Division, or its agent, will seek eligible applicants for enrollment into the program. Landowner payments will be made in accordance with state and federal requirements, and are subject to the availability of funds.
(d) The applicable standards, rules, regulations, and practices of the Natural Resource Conservation Service (NRCS) NRCS Field Office Technical Guide, the Farm Service Agency (FSA) 2-CRP Manual, the Division of Forest Resources, 15A NCAC 09C .0400 and the Wetlands Restoration Program, G.S. 143-214.8 are incorporated herein by reference, and such incorporation includes subsequent amendments and editions of the referenced material. Likewise, the provisions of the United States Department of Agriculture's 2-CRP Manual are incorporated herein by reference, and such incorporation includes subsequent amendments and editions of the referenced material. Authority G.S. 113A-235; 139-4; 143-215.74(a); 143B-294; S.L. 1998-165.

15A NCAC 06G .0102 ELIGIBILITY
(a) Persons may offer to enroll acreage to CREP at any time within the 5-year enrollment period or any extension thereof. Acreage enrolled into the CREP is referred to as "CREP Enrollments." Acreage enrolled into NC-CREP is referred to as NC-CREP Enrollments. In order to be enrolled into the CREP, all of the following must be met:
(1) Applicant meets the producer eligibility requirements within the 2-CRP Manual;
(2) Acreage offered meets the cropland and marginal pasture land requirements within the 2-CRP Manual;
(3) Acreage offered is eligible under the 2-CRP Manual, and applicable NRCS standards, and is suitable for the intended practice; and
(4) Producer accepts the maximum payment rate based on one of the following: the payment formula described in Rule .0105 of this Section.
(A) the county average rental for enrollments of less than 10 acres; or
(B) the 3 predominant soil types for enrollments of 10 acres or greater; or
(C) marginal pastureland rental rate
(b) In addition to meeting the requirements in Paragraph (a) of this Section, the land must meet all other applicable land eligibility criteria and enrollment expectations as set forth in the 2-CRP Manual. The Commission may refuse enrollment where water quality benefits do not justify the payments, or where the acquisition is impractical or nuisance conditions exist on the land.
(c) The following acreage is ineligible to be enrolled in CREP:
(1) federally-owned land unless the applicant has a prior written lease for the time frame in which the land is under the Conservation Reserve Program (CRP);
(2) land on which a federal agency restricts the use in a mortgage or an easement;
(3) acreage permanently under water, including acreage currently enrolled in CRP;
(4) land currently enrolled in other federal programs and still under lifespan requirements;
(5) land already enrolled in CRP; or
(6) acreage withdrawn, terminated or otherwise released from the CRP after enrollment and before the contract expiration date.
(d) For the NC-CREP landowners may enroll in one of the following options:
(1) 30-year contract or easement;
(2) Permanent easement with timber harvest allowed outside the 100 foot no-cut zone; or
(3) Permanent easement with no timber harvest allowed.
(e) Existing forested buffers may be enrolled under NC-CREP if the following conditions are met:
(1) land must be enrolled in a permanent easement;
(2) land must be adjacent to and contiguous to enrolled cropland/marginal pasture land (land between enrolled cropland/ marginal pasture land and waterbody, adjacent to cropland/marginal pasture land, across the qualifying waterbody of the enrolled cropland/marginal pasture land if owned by same landowner, or up gradient from enrolled cropland /marginal pasture land if it meets condition 3 below;
existing buffer must be either within 300-foot of qualifying waterbody or in the 100-year floodplain, whichever is greater;

landowner may enroll existing forest buffers up to an equal number of cropland acres (1:1) that are adjacent and contiguous to existing buffer;

landowner may enroll acreage in excess of the 1:1 ratio if the additional acreage plus the original enrollment is ≥ 80% of the parent tract and the entire tract is enrolled, eliminating the need for a survey.

The portion of a unmanageable field remnants that does not qualify for enrollment under FSA rules may be enrolled under NC-CREP and will qualify for the current state bonus payment being applied to the total NC-CREP enrollment, if the landowner uses one of the permanent easement options for the total enrollment.

Landowners may switch from a 30-year contract/easement to one of the permanent easement options under the payment schedule existing at the time of the change in enrollment.

Landowners may enroll additional forested buffers into one of the permanent easement options under the payment schedule existing at the time of additional enrollment.

Landowners may enroll field remnants into one of the permanent easement options under the payment schedule existing at the time of change in the enrollment.

Eligibility for the CREP shall be determined by the local District, Farm Service Agency (FSA), NRCS and the Division. An eligible applicant may enter into the federal agreements (10-years to 15-years), as well as the State agreements (30-year or permanent). Persons and land qualifying for the federal portion of CREP may also be qualified for enrollment under NC-CREP. Any landowner enrolling 10 acres or greater per tract, regardless of the length of enrollment, must enter into a 30-year or permanent State agreement. 30-year or permanent State agreements also require granting of a conservation easement to the State.

Authority G.S. 113A-235; 139-4; 143-215.74(a); 143B-294; S.L. 1998-165.

15A NCAC 06G .0103  CONSERVATION PLAN

(a) A conservation plan is required for all CREP Enrollments. The conservation plan is a record of the applicant’s decisions and supporting information for the treatment of a unit of land or water as a result of the planning process that meets the NRCS Field Office Technical Guide quality criteria for each natural resource and that addresses economic and social considerations. The plan shall describe the schedule of operations and activities required to solve identified natural resource concerns. Conservation plans shall be prepared according to all applicable federal, state and local environmental laws, executive orders, and rules. The conservation plan shall be consistent with any conservation easement protecting the enrollment area. This applies regardless of eligibility for cost-share funds. Participants shall also agree to establish and maintain approved practices according to the conservation plan of operations and forest management plans, for the duration of the agreement. Practices included in the conservation plan must cost-effectively achieve a reduction in soil erosion and nutrient transport. All forestry management practices must be completed according to a forestry management plan approved by a registered forester. The Division and the Commission may review conservation plans at any time while CREP agreements are effective.

(b) All CREP Enrollments must provide interception of water from the crop or pasture land into the enrollment area. All CREP Enrollments must maintain a contiguous buffer with the water course. Enrollments of wetland restoration areas shall only be accepted if lands are hydrologically restored to the greatest extent practicable and, if enrollments shall be in trees, in those areas where trees would be the natural cover. The riparian forested buffer or wetland practice may include an outer buffer layer of native grasses between cropped areas and the trees, as specified in the practice criteria. Hydrologic restoration to the greatest extent practicable shall occur on all NC-CREP Enrollments. Hydrologic restoration to the greatest extent practicable means to improve/increase hydrology and/or retain water to the maximum extent as long as there are no adverse impacts to non-enrolled lands. This will be accomplished through the following means: creating sheet flow; reducing concentrated flow areas; blocking or filling artificial drainage; or using water control structures in conjunction with buffers. All shall meet or exceed appropriate NRCS standards. Water infiltration and retention should be maximized on non-tyric soils by creating sheet flow and by reducing concentrated flow areas. Plans should provide for improved wildlife habitat. The establishment of CREP practices shall be:

1. consistent with conservation compliance provisions;
2. at the participant’s own expense;
3. included in the approved conservation plan;
4. approved by the local District; and
5. subject to FSA and Division approval where applicable.

(c) 30-year contracts/easements and permanent easements for which the participant chooses the timber harvest option will require a 100-foot no-cut zone adjacent to the qualifying waterbody. Timber management and harvesting will be allowed in the remaining portion of the CREP enrollment as outlined in the contract/easement.

(d) A modification to an approved conservation plan must be in the best interest of CREP, and consistent with any conservation easement protecting the enrollment area. Such plans should be revised on an as-needed basis. Acceptable modifications include but are not limited to:

1. adding or improving a CREP practice;
2. changing CREP practices;
3. scheduling reaplication of a CREP practice;
4. reflecting change in ownership; or
5. implementing other non-cost shared conservation measures, if producer agrees to install according to the approved conservation plan on CREP land already seeded to an acceptable cover.

Authority G.S. 113A-235; 139-4; 143-215.74(a); 143B-294; S.L. 1998-165.

15A NCAC 06G .0104  APPROVING STATE AGREEMENTS
(a) Final approval for all NC-CREP agreements shall be the responsibility of the Division. The 30-year and 30-year agreements including more than 9.9 acres and all permanent agreements require recording of a conservation easement in the appropriate county registry. The intent is to provide that the NC-CREP Enrollment Area will be protected for the life of the signed agreement. The Division will provide a mechanism to acquire and record easements for NC-CREP. The Division shall provide a survey for all permanent easements, where needed to develop an acceptable legal description of the easement area. Conservation easements entered into will be consistent with the requirements of the Department of Administration and with 1 NCAC 06B .0210.

(b) For approval under NC-CREP, the Division must receive:
   (1) the State CREP form signed by the local District and the applicant;
   (2) a copy of landowner's deed(s) to the land to be enrolled;
   (3) a completed conservation easement(s);
   (4) latitude and longitude coordinates locating the easement site; and
   (5) descriptions (maps, surveys, directions to site, etc.) identifying the easement site.

(c) Under a CREP 30-year or permanent conservation easement, the title of the land still resides with the landowner. The landowner may use the land under the conservation easement in a manner that does not violate the conditions and terms of the easement. The conservation easement does not restrict the owner from selling or devising the land, however the easement will run with the land and remain an encumbrance thereon. The State must be allowed access to monitor the NC-CREP conservation easement area.

Authority G.S. 113A-235; 139-4; 143-215.74(a); 143B-294; S.L. 1998-165.

15A NCAC 06G .0105 PAYMENT
(a) The NC-CREP combines federal and state funding to achieve the goals of the program. For that reason, the eligible person may receive two separate payments (i.e. federal and state) to meet expectations set by the applicable contracts.

(b) The State payment shall be dependent on the length of the contract signed. The State payment will consist of a one-time bonus payment for executed contracts for 30-year contracts and 30-year and permanent easement enrollments which require a conservation easement. The State shall also pay a portion of cost-shareable practices implemented within the guidelines of the ACSP subject to availability of funds to the District. Any agricultural cost share payments will be consistent with all Commission requirements, including but not limited to those in 15A NCAC 10A .1101 and amend the rules cited as 15A NCAC 10B .0121; 10D .0104.

(c) For enrollments involving the ACSP, all cost-share practices are subject to terms and policies as set forth in the ACSP rules and best management practices manual. State cost-share percentages, listed below, shall be dependent on the length of enrollment. All payments involving ACSP funds require approval of the local District Board of Supervisors, and are subject to the availability of funds to the District.

(d) The maximum one-time bonus payment under NC-CREP that an eligible person can receive will be limited by the maximum payment allowed under the federal payment. The payment for enrollment of land in 30-year contracts, 30-year or permanent conservation easements will be made once the contract is executed or when the conservation easement has been recorded by the State and it has been determined that the participant is actively engaged in the applicable practices.

(e) The formula for payment of the one-time State bonus will be as follows on a per acre basis:

1. (1) permanent agreement bonus payment = (15 x federal payment) x 0.30;
2. (2) 30-year agreement bonus payment = (15 x federal payment) x 0.125;
3. (3) the Commission may modify or replace the formula with an alternate formula, if required by a source grant restriction.

(f) An additional payment of one hundred dollars ($100.00) per contract will be made to a participant for applying tree-planting practices on land enrolled in a 15-year, 30-year or permanent agreement, if consistent with the provisions of the 2-CRP Manual.

SECTION .1100 – WAIVER

15A NCAC 10A .1101 WAIVER
(a) The Wildlife Resources Commission authorizes the executive director or his designee to waive rules adopted by the Commission provided that the executive director or his designee finds:

(1) that the rule provisions create an unnecessary hardship to the regulated community relative to the purpose for which they were enacted; or

(2) the purpose for which the rules were enacted no longer exists.

In the event a substitute requirement is necessary to safeguard the original purpose of the rule being waived, an applicant for a waiver under this Paragraph shall comply with the substituted requirement.

(1) The applicant's history of past compliance or noncompliance with the laws of North Carolina and with rules promulgated by the Wildlife Resources Commission;

(2) The Commission's ability to safeguard the interests of the resource while granting the waiver; and

(3) The applicant's ability to meet the conditions of the waiver.

(c) The Commission authorizes the executive director or his designee to waive the rule banning intrastate transfer of cervids and to issue a transportation permit to an applicant for such a waiver provided that:

(1) The executive director or his designee determines that the applicant is eligible for a waiver according to standards listed in Paragraph (b) of this Rule;

Transportation of cervids between facilities that are licensed to the same individual shall be permitted upon the condition that the licensed applicant log the information required by Subparagraph (c)(2) of this Rule rather than submit a separate application for each transportation.

(d) The Commission authorizes the executive director or his designee to waive the rule against cervid facility expansion and to amend a license to permit expansion to an applicant for such a waiver provided that:

(1) The executive director or his designee confirms the applicant's eligibility for a waiver according to standards listed in Paragraph (b) of this Rule;

Public Hearing:
Date: April 28, 2004

Reason for Proposed Action: To allow spas to exceed the current maximum slope of 11 degrees from plumb which is required for all public swimming pools but not to exceed 15 degrees plumb. The maximum slope of 11 degrees presents a manufacturing problem with fabrication of some spas. The maximum slope is primarily a driving safety requirement for deeper swimming pools and is not needed for shallow spas.

CHAPTER 18 - ENVIRONMENTAL HEALTH

SUBCHAPTER 18A – SANITATION

SECTION .2500 - PUBLIC SWIMMING POOLS

15A NCAC 18A .2532 SPAS AND HOT TUBS

Spas and hot tubs shall meet all design specifications for swimming pools and wading pools included in Rules .2512-.2530 of this Section with the following exceptions:

1. The circulation system equipment shall provide a turnover rate for the entire water capacity at least once every 30 minutes.
2. The arrangement of water inlets and outlets shall produce a uniform circulation of water so as to maintain a uniform disinfectant residual throughout the spa.
3. A minimum of two inlets shall be provided with inlets added as necessary to maintain required flowrate.
4. Water outlets shall be designed so that each pumping system in the spa (filter systems or booster systems if so equipped) provides the following:
   (a) Two drains connected by "T" piping. Connecting piping shall be of the same diameter as the main drain outlet. Filter system drains shall be capable of emptying the spa completely. In spas constructed after April 1, 2000 drains shall be installed at least three feet apart or located on two different planes of the pool structure.
   (b) Filtration systems shall provide at least one surface skimmer per 100 square feet, or fraction thereof of surface area.
5. The water velocity in spa or hot tub discharge piping shall not exceed 10 feet per second (3.05 m/second); except for copper pipe where water velocity shall not exceed eight feet per second (2.44 m/second). Suction water velocity in any piping shall not exceed six feet per second (1.83 m/second).
6. Spa recirculation systems shall be separate from companion swimming pools.
   (a) Where a two-pump system is used, one pump shall provide the required turnover rate, filtration and disinfection for the spa water. The other pump shall provide water or air for hydrotherapy turbulence without interfering with the operation of the recirculation system. The timer switch shall activate only the hydrotherapy pump.
   (b) Where a single two-speed pump is used, the pump shall be designed and installed to provide the required turnover rate for filtration and disinfection of the spa water at all times without exceeding the maximum filtration rates specified in Rule .2519 of this Section. The timer switch shall activate only the hydrotherapy portion of the pump.
   (c) Where a single one-speed pump is used, a timer switch shall not be provided.
7. A timer switch shall be provided for the hydrotherapy turbulence system with a maximum of 15 minutes on the timer. The switch shall be placed such that bathers must leave the spa to reach the switch.
8. The maximum operational water depth shall be four feet (1.22 m) measured from the water line.
9. The maximum depth of any seat or sitting bench shall be two feet (61 cm) measured from the waterline.
10. A minimum height between the top of the spa/hot tub rim and the ceiling shall be 7 ½ feet. Depth markers are not required at spas.
11. Steps, step-seats, ladders or recessed treads shall be provided where spa and hot tub depths are greater than 24 inches (61 cm).
(13) Contrasting color bands or lines shall be used to indicate the leading edge of step treads, seats, and benches.

(14) A spa or hot tub shall be equipped with at least one handrail (or ladder equivalent) for each 50 feet (15.2 m) of perimeter, or portion thereof, to designate points of entry and exit.

(15) Where water temperature exceeds 90° Fahrenheit (32° C), a caution sign shall be mounted adjacent to the entrance to the spa or hot tub. It shall contain the following warnings in letters at least 2 inch in height:
   (a) CAUTION:
   (b) -Pregnant women; elderly persons, and persons suffering from heart disease, diabetes, or high or low blood pressure should not enter the spa/hot tub without prior medical consultation and permission from their doctor;
   (c) -Do not use the spa/hot tub while under the influence of alcohol, tranquilizers, or other drugs that cause drowsiness or that raise or lower blood pressure;
   (d) -Do not use alone;
   (e) -Unsupervised use by children is prohibited;
   (f) -Enter and exit slowly;
   (g) -Observe reasonable time limits (that is, 10-15 minutes), then leave the water and cool down before returning for another brief stay;
   (h) -Long exposure may result in nausea, dizziness, or fainting;
   (i) -Keep all breakable objects out of the area.

(16) Spas shall meet the emergency telephone and signage requirements for swimming pools in Rule .2530(f).

(17) A sign shall also be posted requiring a shower for each user prior to entering the spa or hot tub and prohibiting oils, body lotion, and minerals in the water.

(18) Spas shall not be required to provide the lifesaving equipment described in Rule .2530(a) of this Section.

(19) In spas less than four feet deep the slope of the pool wall may exceed 11 degrees from plumb, but shall not exceed 15 degrees from plumb.

Authority G.S. 130A-282.

SECTION .0300 - PHYSICAL PLANT

10A NCAC 13F .0301 APPLICATION OF PHYSICAL PLANT REQUIREMENTS
The physical plant requirements for each facility shall be applied as follows:
(1) New construction shall comply with the requirements of Rules .0301 - .0311 of this Section;
(2) Except where otherwise specified, existing licensed facilities or portions of existing licensed facilities shall meet licensure and code requirements in effect at the time of construction, change in service or bed count, addition, renovation, or alteration, however in no case shall the requirements for any licensed facility where no addition or renovation has been made, be less than those requirements found in the 1971 "Minimum and Desired Standards and Regulations" for "Homes for the Aged and Infirm", copies of which are available at the Division of Facility Services, 701 Barbour Drive, Raleigh, North Carolina, 27603 at no cost;

(3) New additions, alterations, modifications and repairs shall meet the technical requirements of Rules .0301 - .0311 of this Section; however, where strict conformance with current requirements would be impractical, the Division may approve alternative measures where the facility can demonstrate to the Division's satisfaction that the alternative measures do not reduce the safety or operating effectiveness of the facility;

(4) Effective July 1, 1987, resident bedrooms and resident services shall not be permitted on the second floor of any facility licensed prior to April 1, 1984 and classified as two-story wood frame construction by the North Carolina State Building Code;

(5) Rules .0301 – .0311 of this Section are minimum requirements and are not intended to prohibit buildings, systems or operational conditions that exceed minimum requirements;

(6) The bed capacity and services provided in a facility shall be in compliance with G.S. 131E, Article 9 regarding Certificate of Need. A facility shall be in compliance with G.S. 131D-2; 143B-153; 143B-165; S.L. 2002-160; 2003-0284.

(7) Equivalency: Alternate methods, procedures, design criteria and functional variations from the physical plant requirements, because of extraordinary circumstances, new programs or unusual conditions, may be approved by the Division when the facility can effectively demonstrate to the Division's satisfaction, that the intent of the physical plant requirements are met and that the variation does not reduce the safety or operational effectiveness of the facility; and

(8) Where rules, codes or standards have any conflict, the most stringent requirement shall apply.

Authority G.S. 131D-2; 143B-153; 143B-165; S.L. 2002-160; 2003-0284.

LOG OF FILINGS

Vice Chairman Funderburk presided over the review of the log and all rules were approved unanimously with the following exceptions:

Commissioner Gray did not participate or vote on the Alarm Systems Licensing Board rules.

21 NCAC 29 .0602: Locksmith Licensing Board - The Commission objected to the rule due to ambiguity. It is not clear what is meant in (c)(5). The fact that somebody thought of something when the rule was adopted does not help an aggrieved person know what the answer is. In (c)(7), it is not clear what else constitutes “good cause”. G.S. 150B-4 requires the agency to make that decision in its rules.

21 NCAC 29 .0603: Locksmith Licensing Board - The Commission objected to the rule due to lack of necessity. This rule adds nothing to what is already in G.S. 150B-38 and is thus unnecessary.

21 NCAC 29 .0607: Locksmith Licensing Board - The Commission objected to the rule due to lack of necessity. This rule adds nothing to what is already in G.S. 150B-40 and is thus unnecessary.

21 NCAC 29 .0612: Locksmith Licensing Board - The Commission objected to the rule due to lack of necessity. This rule adds nothing to what is already in G.S. 150B-40(a) and is thus unnecessary.

21 NCAC 29 .0613: Locksmith Licensing Board – The Commission objected to the rule due to ambiguity. In (g), it is not clear how much time a party will have to respond to an objection to a subpoena, or conversely, what standards the Board will use in setting the time.

21 NCAC 46 .1505: Board of Pharmacy – The Commission objected to the rule based on ambiguity in violation of G.S. 150B-21.9(a)(2). It is unclear at the end of (c) whether there is any time limit for successfully completing the retake of the three examination sections, and if there is what that time limit is. Initially in (c), lines 31 – 32, the rule specifies that a candidate “who fails to pass all three examinations in the two calendar year period” (starting with the passage of the first examination) must then “retake and pass all three examinations.” Presumably the board would probably require a time limit on the retakes, as it does on the original attempts. However, the rule does not specify, and thus is unclear, whether there is any new time limit on successfully passing the retake of all three examinations. If there is a time limit, it is not set out.

21 NCAC 46 .1604: Board of Pharmacy – The Commission objected to the rule based on ambiguity. In (b) it is unclear what constitutes a permit being “involved” in a “pending disciplinary proceeding.” G.S. 90-85.38(b) specifies that a pharmacy’s permit may be subject to disciplinary sanctions “for the same conduct as stated in subsection (a).” That conduct would be various violations of the pharmacy law or rules by a “licensee.” The most common license would be a pharmacist.) That seems to imply the possibility that
every time a licensee is involved in a disciplinary action over 90-85.38(a)(1) – (9), that it leaves open the possibility that the permit holder may then be subject to disciplinary action. It is unclear whether this possibility would be considered “involved in a pending disciplinary proceeding” subject to the prohibition on transfer of a permit in (b) of this rule.

21 NCAC 46 .1804: Board of Pharmacy – The Commission objected to the rule based on ambiguity. It is unclear whether the requirements in both paragraphs (a) and (c) are identical concerning filling prescription orders for “devices.” They appear to be quite similar with much the same substantive provisions. It is difficult to distinguish between the two. If they are not identical requirements, then which paragraph and requirements must be complied with in filling prescription device orders is unclear. Both paragraphs (a) and (c) refer to promoting “the safe and secure distribution of… devices” (lines 5 and 15 – 16) and filling of prescriptions. However only (c) specifically refers to filling “prescription orders for devices.” If, in reality, the requirements, although worded somewhat differently, are ultimately the same, then either the redundancies should be removed or the rule rewritten to make clear that the requirements are all the same. If the requirements are substantively different, then the differences need to be written more clearly to focus the practitioner’s and the enforcer’s attention on the differences.

21 NCAC 46 .1806: Board of Pharmacy – The Commission objected to the rule based on ambiguity. In (f), page 2 lines 16 and 17, it is unclear what constitutes “reasonably satisfied” as well as “a viable physician-patient relationship.” Each of these is a separate standard that a licensee must determine. The licensee must determine whether the relationship exists and that this determination (existence or non-existence of the relationship) must be “reasonably satisfied” to the licensee. There are no standards for either of these and the terms are not self-evident or clearly understood.

21 NCAC 46 .2502: Board of Pharmacy – The Commission objected to the rule based on failure to comply with the Administrative Procedure Act in violation of G.S. 150B-21.9(a)(4). In paragraph (p), page 3, language was added to the rule after the original notice of text and after the public hearing, that the “system of accountability” required under the rule would have to be a system “identifying each pharmacist and technician.” This appears to be a substantial change, as set out in G.S. 150B-21.2(g)(1) and (3), that was not subsequently published. It does this in one of two ways. It either “affects the interests of persons who, based on either the notice of rule-making proceedings or the proposed text of the rule … could not reasonably have determined that the rule would affect their interests. More strongly, it “produces an effect that could not reasonably have been expected based on the proposed text of the rule.” Failing to publish this substantial change is a violation of the APA and a basis for objection.

21 NCAC 46 .2504: Board of Pharmacy – The Commission objected to the rule based on lack of statutory authority in violation of G.S. 150B-21.9(a)(1). There is no authority cited to require “registrants under G.S. 90-85.21,” i.e., pharmacies, to comply with the patient counseling aspects of this rule that are applicable to pharmacists. This requirement is found at least in (a), lines 8 and 9; (b), line 29; (d), page 2 line 34; and (e)(1), page 3 line 11. There is also no authority to impose any requirements on any entity they may lawfully regulate “that are more restrictive than federal statutes or regulations governing the delivery of prescription medications by mail or common carrier” as set out in G.S. 90-85.21A(e). At least ten letters requesting Legislative review were received by the Rules Review Commission prior to the meeting.

21 NCAC 46 .2508: Board of Pharmacy – This rule was sent to the Office of State Budget and Management to determine if the rule has a substantial economic impact and a fiscal note is required. Also, at least ten letters requesting Legislative review were received by the Rules Review Commission prior to the meeting.

21 NCAC 46 .2510: Board of Pharmacy – The Commission objected to the rule based on ambiguity and lack of necessity in violation of G.S. 150B-21.9(a)(2) and (3). It is unclear what “unique projects” this rule is aimed at, what projects are now covered by the rule-making proceedings or the proposed text of the rule … could not reasonably have determined that the rule would affect their interests. More strongly, it “produces an effect that could not reasonably have been expected based on the proposed text of the rule.”

Failing to publish this substantial change is a violation of the APA and a basis for objection.

21 NCAC 46 .2504: Board of Pharmacy – The Commission objected to the rule based on lack of statutory authority in violation of G.S. 150B-21.9(a)(1). There is no authority cited to require “registrants under G.S. 90-85.21,” i.e., pharmacies, to comply with the patient counseling aspects of this rule that are applicable to pharmacists. 21 NCAC 46 .2508: Board of Pharmacy – This rule was sent to the Office of State Budget and Management to determine if the rule has a substantial economic impact and a fiscal note is required. Also, at least ten letters requesting Legislative review were received by the Rules Review Commission prior to the meeting.

21 NCAC 46 .2510: Board of Pharmacy – The Commission objected to the rule based on ambiguity and lack of necessity in violation of G.S. 150B-21.9(a)(2) and (3). It is unclear what “unique projects” this rule is aimed at, what projects are now covered by the rules that this rule would be aimed at and intended to allow, and what the standards for the approval of those unique projects would be. To the extent that the “unique” projects this rule is intended to cover do not currently or actually fall within the Board’s rulemaking authority, it is not clear whether the Board intends to attempt to pull such projects within its rulemaking purview. To the extent that the “unique” projects are not otherwise subject to rulemaking, then this rule is unnecessary.

21 NCAC 46 .2605: Board of Pharmacy – The Commission objected to the rule based on lack of statutory authority. There is no authority cited for the provision in (b) setting specific job or occupational licensing qualifications for a “person in charge” of a place other than a pharmacy where devices are dispensed or medical equipment is delivered. The Pharmacy Board, in effect, has established a new occupational license, administered by the Pharmacy Board, for a “person in charge” of a device dispensary or medical equipment delivery place that is not also a pharmacy and managed by a pharmacist manager. There is no authority cited to establish this position, establish the qualifications for that position, or require a license or permit to fill that position. This goes beyond merely registering as the one who acts as the registration or permit holder for such a place. It also goes beyond complying with any requirements that the Board may legitimately establish for operating such a place and dispensing the equipment or devices. Commissioner Bell did not participate or vote on the Real Estate Commission rules.

21 NCAC 61 .0205: Respiratory Care Board – The Commission objected to the rule due to ambiguity. Paragraph (a) of this Rule requires an applicant to provide a criminal history record check made from information the applicant can access from national files. It is not clear exactly what the applicant is to provide.

21 NCAC 61 .0301: Respiratory Care Board – The Commission objected to the rule due to lack of statutory authority and ambiguity. In (a), it is not clear when a term of licensure will be different from the normal one year because of what is on the face of the license nor how that term is determined. This amounts to a modification provision without specific guidelines prohibited by G.S. 150B-19(6).

21 NCAC 61 .0309: Respiratory Care Board – The Commission objected to the rule due to lack of statutory authority and ambiguity. There does not appear to be any statutory requirement that a licensee maintain certification in Basic Life Support, only that an applicant has completed the requirements at the time of licensure. There is therefore no authority to penalize someone who does not as (a)(3) of this Rules does. In (c)(8), it is not clear what constitutes “unprofessional conduct”. In (d)(3), is not clear what constitutes an “improper” commission or bonus. In (d)(4), it is not clear what would constitute “undue influence.”
21 NCAC 61 .0401: Respiratory Care Board – The Commission objected to the rule due to lack of statutory authority and ambiguity. In (c), it is not clear who is on the list of providers or what the standards are for being listed. In (h), it is not clear what standards the Board will use in granting requests for extensions of continuing education requirements. This amounts to a waiver without the specific guidelines required by G.S. 150B-19(6). It is also not clear what would be an “extenuating circumstance.

LOG OF FILINGS TEMPORARY RULES

Vice Chairman Funderburk presided over the review of the log of temporary rules.

10A NCAC 13F .0509; .1211; .1501: Medical Care Commission – The Commission declined to approve the rules. The Commission found that S.L. 2002-160 Section 6(c) which is the basis for adopting rules as temporary rules requires the agency to publish the proposed temporary rules in the NC Register. There has been no documentation submitted that the agency has done so.

10A NCAC 13G .0509; .1211; .1301: Medical Care Commission – The Commission declined to approve the rules. The Commission found that S.L. 2002-160 Section 6(c) which is the basis for adopting rules as temporary rules requires the agency to publish the proposed temporary rules in the NC Register. There has been no documentation submitted that the agency has done so.

15A NCAC 3S .0103: Marine Fisheries Commission – This rule was withdrawn by the agency.

The next meeting of the Commission is Thursday, March 18, 2004 at 10:00 a.m.

Respectfully submitted,
Lisa Johnson
