The North Carolina Administrative Code (NCAC) has four major classifications of rules. Three of these, titles, chapters, and sections are mandatory. The major classification of the NCAC is the title. Each major department in the North Carolina executive branch of government has been assigned a title number. Titles are further broken down into chapters which shall be numerical in order. Subchapters are optional classifications to be used by agencies when appropriate.

Public Hearing:
Date: May 24, 2006
Time: 2:00 p.m.
Location: Parker-Lincoln Building, 2728 Capital Blvd., Raleigh, NC (Room 1A224)

Reason for Proposed Action: North Carolina's Rules Governing Public Water Systems (15A NCAC 18C) require a public water system to sample for certain contaminants that may occur in the drinking water distribution system. Distribution samples may be taken from taps located on private property which is not owned or controlled by the supplier of water. The Rules specify the number of water samples required, sample location criteria and sampling frequency. For many contaminants, multiple water samples must be collected from within the distribution system during a specified timeframe, and system compliance with water quality standards is based on the analytical results of these multiple samples. Therefore, a public water system may comply with standards even if an individual water sample exceeds an established action level, maximum contaminant level [MCL] or maximum residual disinfectant level [MRDL]. 15A NCAC 18C .1523 requires a public water system to provide public notice to its consumers if the system exceeds an established action level, MCL or MRDL, but a system is not required to notify a consumer if an individual water sample from the consumer's private property exceeds an action level, MCL or MRDL.

10A NCAC 43G .0506 ALLOCATION OF FUNDS
(a) A set amount of resources shall be allocated by the program to support a core team staff for each DEC serving a specified catchment area.

(b) Additional funds and positions will be allocated to DECs based on population, poverty, and the geographic area which must be traversed in order to assure outreach and service access to children and management criteria. Specific criteria utilized to distribute the funds remaining after base allocations to centers include:

(4) Cumulative miles of the distances from the area in which the DEC is located to the county seat of each county in the designated catchment area are utilized to allocate 12.5 percent of the resources.

(5) Square miles are computed for each DEC catchment area and 12.5 percent of the resources are allocated on this basis.

(c) If a contractor is expending funds at a rate which will, if continued, result in an underexpenditure of funds at the end of the contract period, the DEC Program may, after consulting with the contractor, reduce the amount of funds budgeted by an amount consistent with the projected level of underexpenditure. Funds projected to be unexpended may be reallocated to other centers in accordance with community needs and management prerogatives.    (4) Designation of the party responsible for maintaining public records created by the agent.
   (5) A requirement that the contracting agent be available for consultation to the public being served during usual business hours.

Rule-making Agency: North Carolina Board of Pharmacy

Rule Citation: 21 NCAC 46 .3301

Effective Date: March 28, 2006

Date Approved by the Rules Review Commission: March 16, 2006

Reason for Action: During its 2005 Session, the North Carolina General Assembly enacted House Bill 1349, entitled An Act Authorizing The North Carolina Board Of Pharmacy To Raise Its Licensure And Registration Fees And Establish Certain New Fees And Making Certain Changes To The Conditions Of Licensure Renewal Under The Pharmacy Practice Act And Authorizing The North Carolina Medical Board To Increase Certain Fees. These provisions of House Bill 1349 became effective on October 1, 2005.
