EXECUTIVE ORDER NO. 9

TO ESTABLISH THE EMERGENCY MEDICAL SERVICES AND TRAUMA RULES
EFFECTIVE DATE

WHEREAS, North Carolina is committed to ensuring that citizens receive quality emergency medical services and trauma care; and

WHEREAS, in 2008 the North Carolina Department of Health and Human Services (DHHS) launched an extensive 14-month process to revise the Emergency Medical Services and Trauma rules in order to better meet the needs of citizens requiring emergency medical care, including holding stakeholder meetings and seven public hearings, and receiving and considering written comments; and

WHEREAS, on November 7, 2008, the North Carolina Medical Care Commission took the following actions: (1) adopted Emergency Medical Services and Trauma rules at 10A NCAC 13P .0204, 10A NCAC 13P .0209, 10A NCAC 13P .0301, 10A NCAC 13P .0302, 10A NCAC 13P .0305, and 10A NCAC 13P .0409, which were approved as permanent rules by the Rules Review Commission on December 18, 2008, and (2) adopted Emergency Medical Services and Trauma rule at 10A NCAC 13P .0102, which was approved as a permanent rule by the Rules Review Commission on January 22, 2009; and

WHEREAS, these rules serve to establish the criteria necessary for DHHS to ensure the public health and safety of critically sick and injured patients requiring emergency medical care; and

WHEREAS, without these rules, there would be no authority for DHHS to provide the necessary medical oversight of certain aspects of patient care being rendered to citizens in need of emergency medical care, therefore endangering the health and safety of such citizens; and

WHEREAS, Senate Bill 232 was filed on February 18, 2009 specifically disapproving the permanent rules and, as a result of such filing, the effective date of the permanent rules would be the earlier of either the day an unfavorable final action is taken on the Senate Bill 232
or the day the 2009 session of the General Assembly adjourns without ratifying a bill specifically disapproving these rules; and

WHEREAS, the Administrative Procedures Act authorizes the Governor, by Executive Order, to make effective a permanent rule upon finding that it is necessary to protect public health, safety, or welfare;

NOW, THEREFORE, by the power vested in me as Governor by the Constitution and laws of the State of North Carolina, IT IS ORDERED:

Section 1. Findings.

It is necessary that the permanent rules regarding emergency medical services and trauma services, 10A NCAC 13P .0102, 10A NCAC 13P .0204, 10A NCAC 13P .0209, 10A NCAC 13P .0301, 10A NCAC 13P .0302, 10A NCAC 13P .0305, and 10A NCAC 13P .0409, be made effective immediately in order to protect the public health, safety, and welfare.

Section 2. Effective Date of the Rule.

The permanent rules regarding emergency medical services and trauma services, 10A NCAC 13P .0102, 10A NCAC 13P .0204, 10A NCAC 13P .0209, 10A NCAC 13P .0301, 10A NCAC 13P .0302, 10A NCAC 13P .0305, and 10A NCAC 13P .0409, are hereby made effective March 3, 2009, pursuant to the Executive Order Exception authority contained in the Administrative Procedures Act, N.C.G.S. §150B-21.3(c).

Section 3. Effective Date.

This Executive Order becomes effective March 3, 2009, and shall remain in effect until rescinded.

IN WITNESS WHEREOF, I have hereunto signed my name and affixed the Great Seal of the State of North Carolina at the Capitol in the City of Raleigh, this third day of March in the year of our Lord two thousand and nine, and of the Independence of the United States of America the two hundred and thirty-third.

EXECUTIVE ORDER NO. 10

ETHICAL STANDARDS FOR THE STATE HEALTH COORDINATING COUNCIL

WHEREAS, the State Health Coordinating Council (SHCC) is a public advisory body established by Executive Order No. 139 (March 3, 2008) for the purpose of advising the Governor on the statewide planning of health care facilities, equipment, and services provided under the Certificate of Need Law; and

WHEREAS, the SHCC works with the Department of Health and Human Services (DHHS) to prepare and recommend the State Medical Facilities Plan (SMFP) to the Governor for approval or amendment; and

WHEREAS, the advice and collective judgment of the SHCC has proven invaluable in ensuring that quality health care services are made available broadly to all citizens of this State regardless of whether they live in rural or urban areas, whether they have the means to pay for those services or whether they are insured by public or private payors; and

WHEREAS, to provide the expertise necessary to perform its complex advisory functions, the membership of the SHCC includes persons knowledgeable about healthcare services and delivery including medical educators, researchers, physicians, and representatives of professional associations; and

WHEREAS, because of the diversity of the SHCC membership, conflicts between competing economic interests are inherent in, but also beneficial to, the development of the SMFP; and

WHEREAS, the General Assembly has concluded that the State Government Ethics Act does not cover public entities that only have advisory authority, and the State Ethics Commission has determined that the SHCC only has advisory authority; and

WHEREAS, it is nevertheless important that the SHCC exercise its advisory responsibilities in a transparent manner so that the Governor and citizens will have full knowledge of the professional and economic interests that the members of the SHCC have as the
Governor evaluates their expert advice in adopting or amending the SMFP recommended by the SHCC; and

WHEREAS, the members of the SHCC in the past have voluntarily followed ethical standards; and

WHEREAS, this is a salutary practice, which should be formalized by Executive Order;

NOW, THEREFORE, by the power vested in me as Governor by the Constitution and laws of the State of North Carolina, IT IS ORDERED:

1. The members of the SHCC shall always act in the best interests of the public and shall bring their particular knowledge and experience to the SHCC to serve the public interest as identified in the Certificate of Need Law, Chapter 131E, Article 9 of the General Statutes;

2. The following process shall be observed for all meetings of the SHCC and SHCC subcommittees at which the SHCC or SHCC subcommittee takes any action:

a. At the beginning of each meeting, the Chair shall remind all members of their duty to act always in the best interest of the public without regard for their own professional, institutional or financial interests and that they should recuse themselves from voting on any matter on which they cannot meet this standard.

b. Prior to conducting any business, each member shall disclose any professional or institutional interest he or she may have in any matter coming before the SHCC or SHCC subcommittee for action at that meeting. The Chair will determine if the member needs to recuse himself or herself from voting on the matter in order to ensure the integrity of the actions of the SHCC or SHCC subcommittee.

c. Prior to conducting any business, each member shall also disclose any financial benefit he or she may derive from any matter coming before the SHCC or SHCC subcommittee for action at that meeting. A member derives a financial benefit from a matter under consideration if the person or his/her spouse (i) has an ownership interest in an entity that is a party to the matter under consideration; (ii) will derive any income or commission as a direct result of action on the matter under consideration; or (iii) will acquire property as a direct result of action on the matter under consideration. When any member indicates that he or she will derive a financial benefit from a matter coming before the SHCC or any subcommittee, the member shall recuse himself or herself from voting on the matter.

d. A member who has recused himself or herself from voting is not prohibited from deliberating on the matter unless the Chair determines, after review, that participation by the member in deliberations would impair the integrity of the actions of the SHCC or SHCC subcommittee.
e. The minutes of the SCHCC and its subcommittees will reflect all disclosures and recusals made pursuant to this section, and such minutes will be provided to the Governor for review with the SMFP.

f. A challenge to a member’s participation in a vote on issues under this Executive Order may be raised only by a member of the SCHCC or an employee of the Division of Health Services Regulation of DHHS. In such case where a challenge is made, the Chair, in consultation with the DHHS legal counsel, shall determine whether the challenge is valid and the action that should be taken.

g. For the purposes of this Executive Order, the term “Chair” means the Chair of the SCHCC or the Chair of any SCHCC subcommittee. In the absence of the Chair or if the professional, institutional, or financial interests of the Chair must be reviewed pursuant to this section, then the Vice-Chair of the SCHCC or SCHCC subcommittee shall make the determinations required by this section.

3. Members of the SCHCC are expected to and should confer with DHHS on any matters that come before them in development of the SMFP. No member of the SCHCC, however, shall improperly influence or attempt to influence DHHS in performing its role in developing the SMFP as to any provision in which the member has a direct, conflicting professional, institutional or financial interest.

4. This Executive Order is for the Governor’s purposes in reviewing and approving or amending the proposed SMFP submitted by the SCHCC and DHHS. This Order does not and shall not be construed to create any rights, nor create claims, under the Certificate of Need Law, State Government Ethics Act, or otherwise.

This Executive Order is effective immediately and shall remain in effect until rescinded in writing.

IN WITNESS WHEREOF, I have hereunto signed my name and affixed the Great Seal of the State of North Carolina at the Capitol in the City of Raleigh, this third day of March in the year of our Lord two thousand and nine, and of the Independence of the United States of America the two hundred and thirty-third.

- **Location:** Archdale Building, Ground Floor Hearing Room, 512 N. Salisbury Street, Raleigh, NC

**Reason for Proposed Action:** Groundwater Quality Standards for the protection of groundwaters of the state are established by 15A NCAC 02L.0202. They are the maximum allowable concentrations resulting from any discharge of contaminants to the land or waters of the state, which may be tolerated without creating a threat to human health or which would otherwise render the groundwater unsuitable for its intended best usage as an existing or potential source of drinking water supply for humans. This rulemaking is deemed necessary as a result of research in recent years on arsenic toxicology that has resulted in the federal MCL being revised from 0.050 mg/L to 0.01 mg/L. The current arsenic groundwater standard is 0.050 mg/L. The DWQ staff, with the concurrence of the DPH staff, recommends using the information that is currently available in the IRIS database to calculate a revised groundwater standard of 0.00002 mg/L for arsenic. The proposed standard significantly reduces the risk of adverse health effects from exposure to arsenic in groundwater used as a drinking water source for humans. In addition, the DWQ has identified necessary revisions to 39 groundwater standards in addition to arsenic as a result of the 2006-2008 triennial review and a standard for formaldehyde was added. The State is required by 15A NCAC 02L.0202(j) to review its groundwater water quality standards and interim maximum allowable concentrations every three years to determine if changes are needed and, if necessary, to make those changes. Revision of these standards is needed to ensure that they contain the most recent health and toxicological information. Other minor changes such as significant figures, units of measure and chemical names have been incorporated as well.

**Procedure by which a person can object to the agency on a proposed rule:** Comments may be presented at the public hearings or submitted in writing to the Planning Section of the NCDENR Division of Water Quality beginning April 1, 2009 and ending on June 1, 2009. The Hearing Officer may limit the length of time that you may speak at the public hearing so that all those who wish to speak may have an opportunity to do so. The EMC is very interested in all comments pertaining to the proposed Groundwater Quality Standards. If you wish to

CHAPTER 02 - ENVIRONMENTAL MANAGEMENT

SUBCHAPTER 02L - GROUNDWATER CLASSIFICATION AND STANDARDS

SECTION .0200 - CLASSIFICATIONS AND GROUNDWATER QUALITY STANDARDS

15A NCAC 02L .0202 GROUNDWATER QUALITY STANDARDS

(a) The groundwater quality standards for the protection of the groundwaters of the state are those specified in this Rule. They are the maximum allowable concentrations resulting from any discharge of contaminants to the land or waters of the state, which may be tolerated without creating a threat to human health or which would otherwise render the groundwater unsuitable for its intended best usage.

(b) The groundwater quality standards for contaminants specified in Paragraphs (g) and (h) of this Rule shall be as listed, except that:

1. Where the standard for a substance is less than the practical quantitation limit, the detection of that substance at or above the practical quantitation limit shall constitute a violation of the standard.

2. Where two or more substances exist in combination, the Director shall consider the effects of chemical interactions as determined by the Division of Public Health and may establish maximum concentrations at values less than those established in accordance with Paragraphs (c), (g), or (h) of this Rule. In the absence of information to the contrary, in accordance with Paragraph (d) of this Rule, the carcinogenic risks associated with carcinogens present shall be considered additive and the toxic effects associated with non-carcinogens present shall also be considered additive.

3. Where naturally occurring substances exceed the established standard, the standard shall be the naturally occurring concentration as determined by the Director.

(c) Except for tracers used in concentrations which have been determined by the Division of Public Health to be protective of human health, and the use of which has been permitted by the Division, substances which are not naturally occurring and for which no standard is specified shall not be permitted in detectable concentrations at or above the practical quantitation limit at or above the practical quantitation limit in Class GA or Class GSA groundwaters. Any person may petition the Director to establish an interim maximum allowable concentration for a substance for which a standard has not been established under this Rule. The petitioner shall submit relevant toxicological and epidemiological data, study results, and calculations necessary to establish a standard in accordance with Paragraph (d) of this Rule. Within three months after the establishment of an interim maximum allowable concentration for a substance by the Director, the Director shall initiate action to consider adoption of a standard for that substance.

(d) Groundwater quality standards for substances in Class GA and Class GSA groundwaters are established as the least of:

1. Systemic threshold concentration calculated as follows: [Reference Dose (mg/kg/day) x 70 kg (adult body weight) x Relative Source Contribution (.10 for inorganics; .20 for organics)] / [2 liters/day (avg. water consumption)];

2. Concentration which corresponds to an incremental lifetime cancer risk of 1x10^-6;

3. Taste threshold limit value;

4. Odor threshold limit value;

5. Maximum contaminant level; or

(e) The following references, in order of preference, shall be used in establishing concentrations of substances which correspond to levels described in Paragraph (d) of this Rule.

(2) Health Advisories (U.S. EPA Office of Drinking Water).
(3) Other health risk assessment data published by U.S. EPA.
(4) Other appropriate, published health risk assessment data, and scientifically valid peer-reviewed published toxicological data.

(f) Groundwater quality standards specified in Paragraphs (g) and (h) of this Rule and interim maximum allowable concentrations established pursuant to Paragraph (c) of this Rule shall be reviewed on a triennial basis. Appropriate modifications to established standards shall be made in accordance with the procedure prescribed in Paragraph (d) of this Rule where modifications are considered appropriate based on data published subsequent to the previous review.

(g) Class GA Standards. Where not otherwise indicated, the standard refers to the total concentration in milligrams micrograms per liter of any constituent in a dissolved, colloidal or particulate form which is mobile in groundwater. This does not apply to sediment or other particulate matter which is preserved in a groundwater sample as a result of well construction or sampling procedures.

TITLE 02 – DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES

02 NCAC 38 .0701 ADOPTION BY REFERENCE
The following are incorporated by reference, including subsequent amendments, as standards for storage, handling and installation of liquefied petroleum gas:

(1) National Fire Protection Association, Pamphlet No. 58 (NFPA 58), "Liquefied Petroleum Gas Code," with the following
additions and exceptions:
(a) All cut-off valves and regulating equipment exposed to rain, sleet, or snow shall be protected against such elements either by design or by a hood;
(b) "Firm Foundation" as used in NFPA 58 means that the foundation material has a level top surface, rests on solid ground, is constructed of a masonry material or wood treated to prevent decay by moisture rot and will not settle, careen or deteriorate;
(c) No person shall use liquefied petroleum gas as a source of pressure in lieu of compressed air in spray guns or other pressure operated equipment;
(d) Piping, tubing or regulators shall be considered well supported when they are rigidly fastened in their intended position;
(e) At bulk storage installations, the bulkhead and the plant piping on the hose side of the bulkhead shall be designed and constructed so that an application of force from the hose side will not result in damage to the plant piping on the tank side of the bulkhead. In addition, the bulkhead shall incorporate a means, for instance, mechanical or pneumatic, to automatically close emergency valves in the event of a pull away;
(f) As an alternative to the requirement for a fire safety analysis the owner, or his designee, of an LP-gas facility which utilizes individual storage containers in excess of 4,000 gallons water capacity, storage containers interconnected through the liquid withdrawal outlets of the containers with an aggregate water capacity in excess of 4,000 gallons, or storage containers interconnected through the vapor withdrawal outlets of the containers with an aggregate capacity in excess of 6,000 gallons, shall, for all installations of containers of such capacity or for additions to an existing LP-gas facility which result in containers of such capacity, meet with fire officials for the jurisdiction in which the facility is located in order to:
   (i) review potential exposure to fire hazards to or from real property which is adjacent to such facility;
   (ii) identify emergency access routes to such facility; and
   (iii) review the equipment and emergency shut-down procedures for the facility.
   The owner of such facility or his designee shall document in writing the time, date and place of such meeting(s), the participants in the meeting, and the discussions at the meeting in order to provide a written record. This documentation shall be made available to the Department not later than 60 days after installation of the new or additional containers.
Compliance with the availability requirement shall be met by having a copy of the documentation kept on site or at the owner's office and immediately available for review by NCDA&CS inspection personnel.
This meeting, review, and documentation shall be repeated when NCDA&CS determines that the plant design has changed or that potential exposures have significantly changed, so as to increase the likelihood of injury.
(g) An LP-gas facility which utilizes storage containers that are interconnected through the vapor withdrawal outlets of the containers only with an aggregate water capacity in excess of 4,000 gallons, but not in excess of 6,000 gallons, shall be exempt from the requirements of a fire safety analysis;
(h) A fire safety analysis as described in NFPA 58 may be prepared by the owner of an LP-Gas facility, or by an employee of such owner in the course of the employee's employment, and the Department shall not require that it be prepared, approved or sealed by a professional engineer. Note: This is in keeping with a formal interpretation (F.I. No.: 58-01-2) by the technical committee for Liquefied Petroleum Gases issued by the National Fire Protection Association on November 7, 2001, with an effective date of November 27, 2001. However, the North Carolina Board of Examiners for Engineers and Surveyors regulates the practice of engineering, and has taken the position that the preparation of a fire safety analysis constitutes the practice of engineering; and
(i) Section 1.3.2 (11) of NFPA 58 (2008 Edition), or equivalent provisions in later editions, shall not apply.

(2) National Fire Protection Association, Pamphlet No. 54, "National Fuel Gas Code," with the addition that underground service piping shall rise above ground immediately before entering a building.

Copies of Pamphlet No. 54, Pamphlet No. 58 and Pamphlet No. 30A are available for inspection in the Office of the Director of the Standards Division. They may be obtained at a cost of forty-four dollars ($44.00) each for Pamphlet Nos. 54 and 58 and for thirty-four dollars and fifty cents ($34.50) for Pamphlet 30A (August 2008 price), plus shipping, by contacting National Fire Protection Association, Inc., 1 Batterymarch Park, Quincy, Massachusetts 02269, by calling them at 800-344-3555, or by accessing them on the Internet at www.nfpacatalog.org.

Nursery areas are those areas in which for reasons such as food, cover, bottom type, salinity, temperature and other factors, young finfish and crustaceans spend the major portion of their initial growing season. Primary nursery areas are those areas in the estuarine system where initial post-larval development takes place. These are areas where populations are uniformly early juveniles. Secondary nursery areas are those areas in the estuarine system where later juvenile development takes place. Populations are composed of developing sub-adults of similar size which have migrated from an upstream primary nursery area to the secondary nursery area located in the middle portion of the estuarine system.

(g) Shellfish producing habitats. Shellfish producing habitats are those areas in which shellfish, such as clams, oysters, scallops, mussels, and whelks, whether historically or currently, reproduce and survive because of such favorable conditions as bottom type, salinity, currents, cover, and cultch. Included are those shellfish producing areas closed to shellfish harvest due to pollution.

(h) Strategic Habitat Areas. Strategic Habitat Areas are locations of individual fish habitats or systems of habitats that provide exceptional habitat functions or that are particularly at risk due to imminent threats, vulnerability, or rarity.

(i) Submerged aquatic vegetation habitat. Submerged aquatic vegetation (SAV) habitat is submerged lands that:

(i) are vegetated with one or more species of submerged aquatic vegetation including bushy pondweed or southern naiad (Najas guadalupensis), coontail (Ceratophyllum demersum), eelgrass (Zostera marina), horned pondweed (Zannichellia palustris), naiads (Najas spp.), redhead grass (Potamogeton perfoliatus), sago pondweed (Stuckenia pectinata, formerly Potamogeton pectinatus), shoalgrass (Halodule wrightii), slender pondweed (Potamogeton pusillus), water stargrass (Heteranthera dubia), water starwort (Callitriche heterophylla), waterweeds (Elodea spp.), widgeongrass (Ruppia maritima) and wild celery (Vallisneria americana). These areas may be identified by the presence of above-ground leaves, below-ground rhizomes, or reproductive structures associated with one or more SAV species and include the sediment within these areas; or

(ii) have been vegetated by one or more of the species identified in Sub-item (4)(i)(i) of this Rule within the past 10 annual growing seasons and that meet the average physical requirements of water depth (six feet or less), average light availability (secchi depth of one foot or more), and limited wave exposure that characterize the environment suitable for growth of SAV. The past presence of SAV may be demonstrated by aerial photography, SAV survey, map, or other
documentation. An extension of the past 10 annual growing seasons criteria may be considered when average environmental conditions are altered by drought, rainfall, or storm force winds.

This habitat occurs in both subtidal and intertidal zones and may occur in isolated patches or cover extensive areas. In defining SAV habitat, the Marine Fisheries Commission recognizes the Aquatic Weed Control Act of 1991 (G.S. 113A-220 et. seq.) and does not intend the submerged aquatic vegetation definition, or rules 15A NCAC 03K .0304, .0404 and 03I .0101, to apply to or conflict with the non-development control activities authorized by that Act.

(5) Licenses, permits, leases and franchises, and record keeping:

(a) Assignment. Temporary transferal to another person of privileges under a license for which assignment is permitted. The person assigning the license delegates the privileges permitted under the license to be exercised by the assignee, but retains the power to revoke the assignment at any time, is still the responsible party for the license.

(b) Designee. Any person who is under the direct control of the permittee or who is employed by or under contract to the permittee for the purposes authorized by the permit.

(c) For Hire Vessel. As defined by G.S. 113-174 when the vessel is fishing in state waters or when the vessel originates from or returns to a North Carolina port.

(d) Holder. A person who has been lawfully issued in their name a license, permit, franchise, lease, or assignment.

(e) Land:

(i) For commercial fishing operations, when fish reach the shore or a structure connected to the shore.

(ii) For purposes of trip tickets, when fish reach a licensed seafood dealer, or where the fisherman is the dealer, when the fish reaches the shore or a structure connected to the shore.

(iii) For recreational fishing operations, when fish are retained in possession by the fisherman.

(f) Licensee. Any person holding a valid license from the Department to take or deal in marine fisheries resources.

(g) Master. Captain of a vessel or one who commands and has control, authority, or power over a vessel.

(h) New fish dealer. Any fish dealer making application for a fish dealer license who did not possess a valid dealer license for the previous license year in that name or ocean pier license in that name on June 30, 1999. For purposes of license issuance, adding new categories to an existing fish dealers license does not constitute a new dealer.

(i) North Carolina Trip Ticket. Paper forms provided by the Division, and electronic data files generated from software provided by the Division, for the reporting of fisheries statistics, which include quantity, method and location of harvest.

(j) Office of the Division. Physical locations of the Division conducting license and permit transactions in Wilmington, Washington, Morehead City, Columbia, Roanoke Island and Elizabeth City, North Carolina. Other businesses or entities designated by the Secretary to issue Recreational Commercial Gear Licenses or Coastal Recreational Fishing Licenses are not considered Offices of the Division.

(k) Responsible party. Person who coordinates, supervises or otherwise directs operations of a business entity, such as a corporate officer or executive level supervisor of business operations and the person responsible for use of the issued license in compliance with applicable statutes and rules.

(l) Tournament Organizer. The person who coordinates, supervises or otherwise directs a recreational fishing tournament and is the holder of the Recreational Fishing Tournament License.

(m) Transaction. Act of doing business such that fish are sold, offered for sale, exchanged, bartered, distributed or landed.
(n) Transfer. Permanent transferal to another person of privileges under a license for which transfer is permitted. The person transferring the license retains no rights or interest under the license transferred.

15A NCAC 03L.0104 INTRODUCE, TRANSFER OR HOLD IMPORTED MARINE AND ESTUARINE ORGANISMS

(a) In order to protect the marine and estuarine resources of North Carolina from unacceptable risks from predators, pests, parasites, and disease, it is unlawful, without first obtaining a permit from the Fisheries Director or without obtaining live marine and estuarine organisms from a permit holder:

(1) To place into the coastal fishing waters of the state live marine and estuarine organisms not native to the state. For the purpose of this Rule, this action is an introduction.

(2) To place into the coastal fishing waters of the state live marine and estuarine organisms which are native but which originated outside the State's boundaries. For the purpose of this Rule, this action is a transfer.

(3) To hold or maintain any live marine or estuarine organism imported into the state in a quarantine or isolation system for live bait or use in an aquaculture operation as defined in 15A NCAC 03L.0101.

(4) To sell for bait any live marine or estuarine organism imported into the state.

(b) Any person desiring to obtain a Permit to Introduce, Transfer or Hold Imported Marine and Estuarine Organisms must make written application to the Division of Marine Fisheries, P.O. Box 769, Morehead City, NC 28557-0769. In order for the Fisheries Director to determine the level of risk to any native marine resource or the environment, the applicant shall provide:

(1) A certification from a pathologist that a sample of 60 organisms from proposed shipments are disease free or a certification from a governmental veterinary service that the organisms to be shipped were produced in an area or facility free of diseases posing a risk to North Carolina's estuarine resources, or their environment, as determined by the Fisheries Director; and

(2) A certification from a biologist or veterinarian that macroscopic and microscopic examination indicates the shipment contains only those species identified on the permit application.

(c) The Fisheries Director shall require disinfection, quarantine or destruction of organisms and transfer materials as a condition of the permit, upon finding the importation poses a risk to North Carolina's estuarine resources, or their environment.

(d) The Fisheries Director may hold public meetings prior to granting permits for activities specified in Paragraph (a) of this Rule to gather information concerning risks to native marine resources or the environment.

15A NCAC 03J.0502 POUND NET SET PERMIT APPLICATION AND PROCESSING

(a) All initial, renewal or transfer applications for Pound Net Set Permits, and the operation of such pound net sets, shall comply with the rules governing all permits as provided in 15A NCAC 03O.0502. The procedures and requirements for obtaining permits are set forth in 15A NCAC 03O.0501.

(b) Applicants for Pound Net Set permits shall meet the following eligibility requirements as determined by the Fisheries Director:

(1) Applicant is an individual and not a corporation, partnership, organization or other entity;

(2) Applicant has in the past complied with fisheries rules and laws and does not have any licenses or privileges under suspension or revocation. In addition, a history of habitual fisheries violations evidenced by eight or more convictions in 10 years shall make an individual ineligible.

(3) Applicant has in the past complied with all permit conditions, rules and laws related to pound nets.

(4) Applicant holds proper valid license(s) and permit(s) necessary to fish the type of net indicated in the application.

(c) Applications for Pound Net Set permits shall include the following:

(1) A base map provided by the Division indicating the proposed set location including an inset vicinity map showing the location of the proposed set with detail sufficient to permit on-site identification and location.

(2) Declaration of the type of pound net that will be deployed at the site. One of the following pound net fisheries shall be specified:
(A) Flounder pound net set;
(B) Bait pound net set;
(C) Shrimp pound net set;
(D) Blue crab pound net set;
(E) Other finfish pound net set.

(d) For proposed new location(s), the Fisheries Director shall issue a public notice of intent to consider issuance of a Pound Net Set Permit allowing for public comment for 20 days, and after the comment period, may hold public meetings to take comments on the proposed pound net set. If the Director does not approve or deny the application within 90 days of receipt of a complete and verified application, the application is deemed denied. The applicant shall be notified of denial in writing. Approval is conditional based upon the applicant's continuing compliance with eligibility requirements set out in Paragraph (e) of this Rule and specific conditions contained on the Pound Net Set Permit. The final decision to approve or deny the Pound Net Set Permit application may be appealed by the applicant by filing a petition for a contested case hearing, in writing, within 60 days from the date of mailing notice of such final decision to the applicant, with the Office of Administrative Hearings.

(e) In order for a site to be deemed suitable for a pound net set, the proposed set location shall meet the following criteria as determined by the Fisheries Director:

1. The proposed pound net set, either alone or when considered cumulatively with other existing pound net sets in the area, will not interfere with public navigation or with existing, traditional uses of the area other than navigation, and will not violate 15A NCAC 03J .0101 and .0102;
2. The proposed pound net set will not interfere with the rights of any riparian or littoral landowner, including the construction or use of piers;
3. The proposed pound net set will not, by its proximate location, interfere with existing pound net sets in the area. Flounder or other finfish pound net sets will be a minimum of 1,000 yards, as measured in a perpendicular direction, from any point on a line following the permitted location of existing pound net sets; except (A) in Chowan River as referenced in 15A NCAC 03J .0203; and (B) for renewal of pound net sets permitted prior to January 1, 2003;
4. The proposed shrimp or blue crab pound net set will be a minimum of 300 yards, as measured in a perpendicular direction, from any point on a line following the permitted location of existing pound net sets;
5. The proposed pound net set is not located in Core Sound in areas designated in 15A NCAC 03R .0113 except that only those Pound Net Set Permits valid within the specified area as of March 1, 1994, may be renewed or transferred subject to the requirements of this Rule; and
6. Issuance of the proposed Pound Net Set Permit is in compliance with management measures adopted in fishery management plans.

CHAPTER 25 - OFFICE OF STATE PERSONNEL

25 NCAC 01D .0116  SIGN-ON BONUS
When the Legislature appropriates funds to use for a sign-on bonus for a certain occupational group, the following provisions shall apply unless otherwise provided by Statute or session law:

(1) A sign-on bonus is a lump sum payment that serves as a recruitment incentive to aid in the employment of individuals in critical positions that have labor market shortages which affect the business needs of the agency and which impair the delivery of essential services.

(2) Labor market shortages are defined through significant vacancy rates, turnover rates, difficulty in recruitment and fluctuating market conditions. Agencies will track and provide data related to these factors for the specific occupation in the bonus program.

(3) Turnover and vacancy rates in an occupation that are five percent or higher as compared to agency-wide and statewide rates for all occupations are significant. Recruitment difficulty is defined by active recruitment of positions that required more than six months to obtain a qualified applicant pool. Fluctuating market conditions are identified as competitors begin to rapidly increase pay and offer new incentives such as bonuses.

(4) The amount of the bonus shall be determined based on labor market data and available funds.

(5) An employee shall receive one-half of the bonus in the first paycheck and will receive a second installment after successful completion of 36 consecutive months provided the employee retain eligibility as outlined in this Rule. Bonuses for part-time employees are pro-rated.

(6) Eligibility for the initial sign-on bonus:
(a) A newly employed permanent full-time and permanent part-time employee who is employed to work at least 36 months is eligible for a sign-on bonus. An employee who works 30 to 40 hours per week is considered full-time for this purpose. An employee who works at least 20 hours but less than 30 hours per week is part-time;
(b) An employee who has worked in a State agency within the last twelve months is not eligible to receive a sign-on bonus and shall remain ineligible for twelve months from the separation date;
(c) An employee who has previously received a sign-on bonus under the agency's bonus program is not eligible for a sign-on bonus;
(d) A sign-on bonus shall not be paid when contract placement or recruitment fees are paid by the agency in connection with the employment.

(7) Eligibility for the final sign-on bonus installment:
(a) An employee who remains employed in same agency and the occupational
area for 36 consecutive months is eligible for the final installment of the sign-on bonus payment;
(b) An employee who is subsequently promoted to a classification in the same occupational area is eligible for the final installment after completion of 36 consecutive months;
(c) An employee whose performance rating at any time is not at or above "good" or "meets" or who has documented disciplinary actions for misconduct or performance shall be ineligible for the final sign-on bonus installment;
(d) An employee who receives a sign-on bonus who subsequently transfers to another agency before the completion of 36 consecutive months is not eligible for the final sign-on bonus installment; and
(e) An employee with less than 24 months of consecutive service who changes from a permanent 30 to 40 hour appointment to a permanent 20 but less than 30 hour appointment is not eligible for the final sign-on bonus installment.

(7) Repayment of Sign-on Bonus:
(a) An employee who terminates employment with the agency, either voluntarily or involuntarily, before the completion of 36 months of consecutive service shall repay a prorated amount of the sign-on bonus based on months of service completed;
(b) The repayment shall be based on the following formula:
(i) $ of Initial Sign-on Bonus Received / 36 Months = prorated Monthly Amount; and
(ii) Prorated Monthly amount x (36 Months – Months Worked) = Amount due; and
(c) The amount due shall be deducted in full from the employee's final paycheck. If the amount deducted exceeds the final paycheck, the remaining balance shall be paid in full to the agency within 60 days from the last date of employment.

(8) Credit for Consecutive Service:
(a) One month of credit toward the 36 months is granted for each month that the employee is in pay status for one-half or more of the scheduled workdays and holidays in the pay period; and
(b) Time on military leave or workers' compensation leave applies to consecutive service with the final installment being paid when the employees return to work.

(9) The agency shall:
(a) Develop and submit a plan for administering the bonus to the Office of State Personnel that includes the following:
(i) Regional market data that identifies the practices of competitors for bonus programs and defines the agency's practice; and
(ii) Guidelines for administration of the bonus program within the agency that defines eligibility, method of payment, and criteria for repayment;
(b) Submit to the Office of State Personnel the base line data related to vacancy rates, turnover, recruitment issues, and market conditions for the occupation no later than 30 days from the approval of the agency plan; and
(c) Submit yearly reports to the Office of State Personnel that detail the vacancy rates, turnover, recruitment issues, and market conditions for the occupation.

(10) The Office of State Personnel shall:
(a) Review and approve or disapprove agency plans according to the standards in this Rule;
(b) Monitor and audit agency adherence to their plan and State Personnel Commission; and
(c) Analyze yearly data from the agency related to vacancy, turnover, recruitment and market to report the impact of the bonus program in the annual Compensation and Benefits Report to the NC General Assembly.

25 NCAC 01D .2701 SEVERANCE SALARY CONTINUATION
G.S. 143-27.2 provides for severance salary continuation or a discontinued service retirement allowance when the Director of the Budget determines that the closing of a State institution or a reduction-in-force will accomplish economies in the State Budget, provided reemployment is not available. "Economies in
the State Budget" means economies resulting from elimination of a job and its responsibilities or from a lack of funds to support the job. The provisions outlined below provide for uniform application of severance salary continuation for eligible employees:

(1) Eligible Employees:

(a) A full-time or part-time (20 hours or over) employee with a permanent appointment who does not obtain another permanent or time-limited permanent job in State government or any other permanent position that is funded in part or in whole by the State by the effective date of the separation shall be eligible for severance salary continuation. Also eligible are employees with trainee appointments who have completed six months of service, and employees who had a permanent appointment prior to entering a trainee appointment;

(b) An employee with a probationary, temporary or intermittent appointment is not eligible for severance salary continuation;

(c) An employee separated from a time-limited permanent appointment is not eligible for severance salary continuation. If the appointment extends beyond three years, the appointment is made permanent and the employee becomes eligible for severance salary continuation;

(d) An employee who is separated or scheduled to be separated due to reduction in force and who applies for retirement benefits based on early retirement, service retirement, long term disability or a discontinued service retirement as provided by G.S. 143-27.2 shall not be eligible for severance salary continuation. An employee who is eligible for early or service retirement may elect to delay retirement and receive severance salary continuation;

(e) An employee who is reemployed from any retired status with the State and who is subsequently terminated as a result of reduction in force shall be eligible for severance salary continuation;

(f) An employee who is receiving workers' compensation or short-term disability payments is eligible for severance salary continuation;

(g) An employee on leave with pay or leave without pay shall be separated on the effective date of the reduction-in-force, the same as other employees, and shall be eligible to receive severance salary continuation;

(h) An employee with a permanent appointment separated by reduction-in-force, may accept a temporary State position and remain eligible to receive severance salary continuation in accordance with this Section;

(i) An employee may continue to receive severance salary continuation if reemployed under a contractual arrangement in a State university or community college in accordance with G.S. 143-27.2. However, an employee receiving salary continuation may not be reemployed in any other State agency until 12 months have elapsed since the separation; and

(j) An employee with a permanent appointment scheduled to be separated through reduction-in-force may decline a lower level position with regard to salary grade (or salary grade equivalency), salary rate or appointment type and retain eligibility for severance salary continuation.

(2) Amount and Method of Payment:

(a) Severance salary continuation shall be based on total State service and supplemented by an age adjustment factor as follows:

(i) Amount of Salary Continuation:

<table>
<thead>
<tr>
<th>Years of Service</th>
<th>Payment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than 1 year</td>
<td>2 weeks</td>
</tr>
<tr>
<td>1 but less than 5 years</td>
<td>1 month</td>
</tr>
<tr>
<td>5 but less than 10 years</td>
<td>2 months</td>
</tr>
<tr>
<td>10 but less than 20 years</td>
<td>3 months</td>
</tr>
<tr>
<td>20 or more years</td>
<td>4 months</td>
</tr>
</tbody>
</table>

(ii) Age Adjustment Factor: An employee qualifies for the age adjustment factor at 40 years of age. To compute the amount of the adjustment, 2.5 percent of the annual base salary shall be added for
each full year over 39 years of age; however, the total age adjustment factor payment shall be
limited by the service payment and cannot exceed the total service payments;

(b) When calculating severance, the employee's annual salary at the
time of separation shall be used except when the employee has
received a promotion to a higher
salary grade (or salary grade
equivalency) and salary rate within
the previous 12 months. If an
employee has been promoted
within the last 12 months, the
salary used to calculate severance
is the employee's salary rate prior
to the promotion, including any
across-the-board legislative salary
increases since the promotion;

(c) Severance salary continuation shall
be paid on a pay period basis and is
not subject to employee or
employer retirement contributions,
and as a result, shall not be
included in computing average
final compensation for retirement
purposes;

(d) Any period covered by severance
salary continuation shall not be
credited as a period of state service;

(e) An employee who is reemployed in
any permanent position with the
State or any other permanent
position that is paid in part or in
whole by the State while receiving
severance salary continuation will
no longer be eligible for such pay
effective on the date of
reemployment;

(f) If an employee dies while receiving
severance salary continuation, the
balance of such payment shall be
made to the deceased employee's
death benefit beneficiary as
designated with the Teachers' and
State Employees' Retirement
System in a lump sum payment;

(g) Funds for severance salary
continuation shall be provided as
directed by the Office of State
Budget and Management.

(3) For each employee who receives severance
salary continuation, agencies shall show on
the separate form, Form PD-105, the
calculation and amount of such payment.
