Dear Mr. Holec:

This refers to five annexations (Ordinance Nos. 11-062, 11-063, 11-074, 11-075 and 11-079), and their designation to districts of the City of Greenville In Pitt County, North Carolina, submitted to the Attorney General pursuant to Section 5 of the Voting Rights Act of 1965, 42 U.S.C. 1973c. Re: Request for Advisory Opinion pursuant to N.C.G.S. § 163-278.23

Gentlemen:

I am in receipt of your January 19, 2012 request for an advisory opinion pursuant to N.C.G.S. § 163-278.23. The following advisory opinion is based upon the information provided in your letter.

You asked whether a referendum committee may enter into an agreement with a candidate campaign committee, political party committee, or other political committee in which the referendum committee receives access to the committee’s mailing list under conditions that you describe in scenarios A, B and C (reprinted verbatim below). This response will address each scenario separately.

A. The referendum committee would make a monetary payment to the other committee for the use of the list.

Your letter indicates that it should be assumed that “the referendum committee has received corporate, union, or other contributions prohibited being made directly to a candidate-benefitting committee.” Therefore, pursuant to N.C.G.S. § 163-278.13(e1), “No referendum committee which received any contribution from a corporation, labor union, insurance company, business entity, or professional association may make any contribution to another referendum committee, to a candidate or to a political committee.” A monetary payment would be considered a contribution as provided in N.C.G.S. § 163-278.6(6). As you’ve noted, the definition does not provide an exception to this payment being
deemed a contribution, even if something of value is received by the entity making payment.

B. The referendum committee would not make a monetary payment to the other committee for the list, but would agree to perform “clean-up work” on the list (updating addresses, identifying names that should be removed or added, etc.) and to share the finished “clean-up work” with the other committee.

If the candidate committee provided the list to the referendum committee without payment it would be considered an in-kind contribution. The candidate committee would need to determine whether the in-kind contribution would meet one of the permissible expenditure purposes found in N.C.G.S. § 163-278.16B. It would appear that among these nine purposes, the in-kind contribution would have to be considered either as a result of the campaign for office or as a result of holding public office.

If the “clean-up work” resulted in an additional value to the mailing list, then the referendum committee could not give the additional value to the candidate committee, since such a value would constitute a violation under N.C.G.S. § 163-278.13(e1).

C. The referendum committee would not make a monetary payment to the other committee for the list, but perform “clean-up work” on the list, and the other committee would pay the referendum committee fair market value for the clean-up work.

In this scenario, the candidate committee would make an in-kind contribution of the mailing list to the referendum committee. As discussed in scenario B, this would be permissible if providing the list to the referendum committee were a permissible expenditure as defined by N.C.G.S. § 163-278.16B. Additionally, it would also not only be permissible but the candidate committee would be required to make payment to the referendum committee for the increased value of the mailing list due to the “clean-up work” performed.

The third-party marketplace would be appropriate to determine the fair market value of the “improved” list. The information used to substantiate the fair market value to be paid by the candidate committee should be submitted to the candidate committee for its records. If the candidate committee or the referendum committee would like guidance on whether the documentation is sufficient to satisfy a fair market value payment, either committee should consult our office.
This opinion is based upon the information provided in your January 19, 2012 letter. If any information in that letter should change, you should consult with our office to ensure that this opinion would still be binding. Finally, this opinion will be filed with the Codifier of Rules to be published unedited in the North Carolina Register and the North Carolina Administrative Code.

Sincerely,

Gary O. Bartlett

TITLE 07 – DEPARTMENT OF CULTURAL RESOURCES

Notice is hereby given in accordance with G.S. 150B-21.2 that the NC Department of Cultural Resources intends to amend the rule cited as 07 NCAC 04N .0202.

Link to agency website pursuant to G.S. 150B-19.1(c): http://www.ncdcr.gov

Proposed Effective Date: August 1, 2012

Public Hearing:
Date: May 16, 2012
Time: 10:30 a.m.-11:00 a.m.
Location: Historic Sites Conference Room, Dobbs Building, 2nd floor, 430 N. Salisbury Street, Raleigh, NC 27603

Reason for Proposed Action:
NC Transportation Museum Fees
State Historic sites needs to amend the rule to add admission charges to offset the loss of revenue from fiscal year 2011-12 budget cuts. Session Law 2011-145, Section 21.1 established the Transportation Museum special fund. The special fund consists of all receipts derived at the NC Transportation Museum. The special fund will cover all costs associated with the operation and maintenance of the NC Transportation Museum. Senate Appropriations Committee Report on the Continuation, Expansion and Capital Budgets (2011 Budget Technical Corrections) transfers the Transportation Museum to 50 percent receipts-support in FY 2011-12 and total receipts-support in FY 2012-13. A temporary rule is currently in place for the amended rule change.
Sources:

Fees at other State Historic Sites
The proposed amended rule also includes fee increases at three other historic sites: Thomas Wolf Memorial, Reed Gold Mine, and Historic Bath. Thomas Wolf Memorial and Historic Bath have not had fee increases since 1990. From fiscal year 2008-09 to fiscal year 2011-12, State Historic Sites has had total budget cuts to its appropriation of over 17 percent. Of the 17 percent, 6 percent of the cuts applied directly to the NC Transportation Museum.
To mitigate the budget cuts, Session Law 2011-213 established a special revenue fund for State Historic Sites to help support operations. The special revenue fund consists of all receipts derived from the lease or rental of property or facilities, disposition of structures or products of the land, and admissions and fees collected at the State Historic Sites. The revenues in the Fund may be used only for the operation, interpretation, maintenance, preservation, development, and expansion of the individual State Historic Site where the receipts are generated. The Division of Historic Sites has identified Thomas Wolf Memorial, Reed Gold Mine, and Historic Bath as popular historic sites where fee increases would best generate additional revenue for the special fund.

TITLE 13 – DEPARTMENT OF LABOR

Notice is hereby given in accordance with G.S. 150B-21.2 that the Commissioner of Labor intends to adopt the rules cited as 13 NCAC 12.0901-.0906.

Link to agency website pursuant to G.S. 150B-19.1(c):

Proposed Effective Date: October 1, 2012

Public Hearing:
Date: April 18, 2012
Time: 10:00 a.m.
Location: 4 West Edenton Street, 2nd Floor, Raleigh, NC 27601

Reason for Proposed Action: On June 18, 2011, the General Assembly read three times and ratified Session Law 2011-263 and the same was approved on June 23, 2011. SL 2011-263 was an Act to require counties, cities, and certain employers to use the federal E-Verify program to verify the work authorization of newly hired employees. Section 3 of the Act amended Chapter 64 of the General Statutes to add "Article 2 – Verification of Work Authorization" which places the responsibility for enforcement of the Article (as it relates to private employers in North Carolina) with the Commissioner of Labor. G.S. 64-37 specifically gives the Commissioner the authority to adopt rules needed to implement the Article. Therefore, the adoption of 13 NCAC 12.0901 – 12.0906 as administrative rules is necessary to: clarify certain provisions of Chapter 64 for the regulated community; establish guidelines for filing complaints; and to promote ease and understanding, along with a smooth implementation, of the requirement to verify the work authorization of new employees through the federal E-Verify system.

Procedure by which a person can object to the agency on a proposed rule: Objections to the proposed rules may be submitted, in writing, to Erin T. Gould, Assistant Rulemaking Coordinator, via United States mail at the following address: 1101 Mail Service Center, Raleigh, North Carolina 27699-1101; or via facsimile at (919) 733-4235. Objections may also be submitted during the public hearings conducted on these rules, which are noticed above. Objections shall include the specific rule citation(s) for the objectionable rule(s), the nature of the objection(s), and the complete name(s) and contact information for the individual(s) submitting the objection. Objections must be received by 5:00 p.m. on June 1, 2012.

Comments may be submitted to: Erin T. Gould, 1101 Mail service Center, Raleigh, NC 27699-1101; phone (919) 733-7885; fax (919) 733-4235; email erin.gould@labor.nc.gov

Comment period ends: June 1, 2012

Procedure for Subjecting a Proposed Rule to Legislative Review: If an objection is not resolved prior to the adoption of the rule, a person may also submit written objections to the Rules Review Commission after the adoption of the Rule. If the Rules Review Commission receives written and signed objections after the adoption of the Rule in accordance with G.S. 150B-21.3(b2) from 10 or more persons clearly requesting review by the legislature and the Rules Review Commission approves the rule, the rule will become effective as provided in G.S. 150B-21.3(b1). The Commission will receive written objections until 5:00 p.m. on the day following the day the Commission approves the rule. Procedure by which a person can object to the agency on a proposed rule: Any person who objects to the adoption of a permanent rule may submit written comments to the agency by hard copy: NC Department of Transportation – Attn: Rule-Making Coordinator, 1501 Mail Service Center, Raleigh, NC 27699-1501; or by electronic copy: http://www.ncdot.gov/about/regulations/rules/ and click on the following link, "To submit comments on proposed rules or for questions on NC Department of Transportation rule-making please Contact Us."

Exception: A mobile modular mobile or modular unit with maximum measurements of 16 feet wide unit and a 3 inch gutter edge may be issued a permit. If blades of construction equipment or front end loader buckets cannot be angled to extend no more than 14 feet across the roadway, they shall be removed. A blade, bucket or other attachment that is an original part of the equipment as manufactured may be hauled with the equipment without being considered a divisible load. A 14 feet wide mobile modular mobile or modular home unit with a roof overhang not to exceed exceeding a total of 12 inches may be transported with a bay window, room extension, or porch providing the protrusion does not extend beyond the maximum 12 inches of roof overhang or the total width of overhang on the appropriate side of the home. An extender shall be placed on the front and rear of the mobile home with a length to extend horizontally equal to but not beyond the extreme outermost edge of the home's extension. The extenders shall have retro-reflective sheeting, a minimum of 4 inches, which shall be Type III high intensity (encapsulated lens) or Type IV high performance (prismatic) with alternating fluorescent yellow and black diagonal stripes sloping towards the outside of the home with a minimum area of 288 square inches. The bottom of the extenders shall be 6 feet to 8 feet above the road surface with a 5 inch amber flashing beacon mounted on the top of each extender. (e) The standards for analysis, extreme wheelbase requirements, weight distribution and axle configuration requirements are based on a Department of Transportation engineering study with consideration of the infrastructure being crossed along the permitted route of travel. The maximum permissible weights for non-divisible loads are as follows:

(1) The maximum single trip and annual permit weight allowed for a specific vehicle or vehicle combination not including off highway construction equipment without an engineering study is:

- Steer Axle: 12,000 pounds
- Single axle: 25,000 pounds
- Tandem axle: 50,000 pounds
- Tridem axle: 60,000 pounds
- Four or more axle group: 68,000 pounds
- Five or more axle group: 68,000 pounds

(2) Three axle single vehicle may have a maximum gross weight up to 70,000 pounds, requires an engineering study.

(3) A vehicle combination consisting of a power unit and trailer hauling a sealed ship container may qualify for a specific route overweight permit not to exceed 94,500 pounds provided the vehicle:

(A) Is going to or from a designated seaport (to include in state and out of state) and has been or shall be transported by marine shipment;

(B) Is licensed for the maximum allowable weight for a 51 feet extreme wheelbase measurement specified in G.S. 20-118;

(C) Does not exceed maximum dimensions of width, height and length specified in Chapter 20 of the General Statutes; G.S. 20-116;

(D) Is a vehicle combination with at least five axles; and

(E) Has proper documentation (shippers bill of lading or trucking bill of lading) of sealed commodity being transported available for law enforcement officer inspection.

(f) Overlength permits shall be limited as follows:

(1) Single trip permits are limited to 105 feet inclusive of the towing vehicle. Approval may be given by the Central Permit Office for permitted loads in excess of 105 feet after review of geographic route of travel, consideration of local construction projects and other dimensions of the load, load:

(2) Mobile or modular home units shall not exceed a length of 76 feet and a total overall 80 feet inclusive of a 4 foot trailer.
(2) Annual (blanket) permits shall not be issued for lengths to exceed 25105 feet. Mobile/modular home permits may be issued for a length not to exceed 105 feet.

(3) Front overhang may not exceed the length of 3 feet specified in Chapter 20 unless if transported otherwise would create a safety hazard. If the front overhang exceeds 3 feet, an overlength permit may be issued.

(g) An Overheight Permit Application for heights in excess of 14 feet must be submitted in writing to the Central Permit Office at least two working days prior to the anticipated date of movement. The issuance of the permit does not imply nor guarantee the clearance for the permitted load and all vertical clearances shall be checked by the permittee prior to movement underneath.

(h) Movement of all vehicles and vehicle combinations subject to this rule shall be made as follows:

(1) Movement shall be made between sunrise and sunset Monday through Saturday. Sunday travel may be authorized from sunrise to sunset after consideration of the overall permitted dimensions. Exception: A 16 feet wide mobile/modular mobile or modular home unit with a maximum 3 inch gutter edge is restricted to travel from 9:00 a.m. to 2:30 p.m. Monday through Saturday. A 16 feet wide unit is authorized to continue operation after 2:30 p.m., but not beyond sunset, when traveling on an approved route as determined by an engineering study and the unit is being exported out-of-state. Additional time restrictions may be set by the issuing office if it is in the best interest for safety or to expedite flow of traffic.

(2) No movement is permitted for a vehicle/vehicle combination after noon on the weekday preceding the six holidays of New Years Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day and no movement is permitted until noon on the weekday following a holiday. If the observed holiday falls on the weekend, travel is restricted from 12:00 noon on the preceding Friday through 12:00 noon on the following Monday.

(3) Continuous travel (24 hour/7 day/365 days a year) (24 hours a day, 7 days a week, 365 days per year) is authorized for any vehicle/vehicle combination up to but not to exceed a permitted gross weight of 112,000 pounds provided the permitted vehicle has no other over legal dimension of width, height or length included in the permitted move. Exception: Self-propelled equipment may be authorized for continuous travel with overhang tongue. Total length inclusive of the towing vehicle is of 105 feet; and

(4) Permitted vehicles owned or leased by the same company or permitted vehicles originating at the same location shall travel at a distance of not less than two miles apart. Convoy travel is not authorized except as directed by law enforcement escort.

(5) If blades of construction equipment or front end loader buckets cannot be angled to extend no more than 14 feet across the roadway, they shall be removed. A blade, bucket or other attachment that is an original part of the equipment as manufactured may be hauled with the equipment without being considered a divisible load.

(i) The speed of permitted moves shall be that which is reasonable and prudent for the load, considering weight and bulk, under conditions existing at the time; however, the maximum speed shall not exceed the posted speed limit. A towing unit and mobile/modular mobile or modular home combination shall not exceed a maximum speed of 60 miles per hour. The driver of the permitted vehicle shall avoid creating traffic congestion by periodically relinquishing the traffic way to allow the passage of following vehicles when a build up of traffic occurs.

(j) Additional safety measures are as follows:

(1) A yellow banner measuring a total length of 7 feet x 18 inches high bearing the legend "Oversize Load" in 10 inches black letters. 1.5 inches wide brush stroke shall be displayed in one or two pieces totaling the required length on the front and rear bumpers of a permitted vehicle/vehicle combination with a width greater than 10 feet. A towing unit mobile/modular home combination shall display banners of the size specified bearing the legend "Oversize ______ feet Load" identifying the nominal width of the unit in transport. Escort vehicles shall display banners as previously specified in this Subparagraph with the exception of length to extend the entire width of the bumpers;

(2) Red or orange flags measuring 18 inches square shall be displayed on all sides at the
widest point of load for all loads in excess of 8 feet 6 inches wide but the flags shall be so mounted as to not increase the overall width of the load;

(3) All permitted vehicles/vehicle combinations shall be equipped with tires of the size specified and the required number of axles equipped with operable brakes in good working condition as provided in North Carolina Statutes and Motor Carrier and Housing and Urban Development (HUD) regulations;

(4) Rear view mirrors and other safety devices on towing units attached for movement of overwidth loads shall be removed or retracted to conform with legal width when unit is not towing/hauling such vehicle or load; and

(5) Flashing amber lights shall be used as determined by the issuing permit office.

(k)(7) The object to be transported shall not be loaded or parked, day or night, on the highway right of way without specific permission from the office issuing the permit after confirmation of an emergency condition.

(4)(8) No move shall be made when weather conditions render visibility less than 500 feet for a person or vehicle. Moves shall not be made when highway is covered with snow or ice or at any time travel conditions are considered unsafe by the Division of Highways, State Highway Patrol or other Law Enforcement Officers having jurisdiction. Movement of a mobile/modular mobile or modular unit exceeding a width of 10 feet is prohibited when wind velocities exceed 25 miles per hour in gusts.

(m)(9) All obstructions, including traffic signals, signs and utility lines shall be removed immediately prior to and replaced immediately after the move at the expense of the mover, provided arrangements for and approval from the owner is obtained. In no event are trees, Trees, shrubs, or official signs to shall not be cut, trimmed or removed without personal approval from the Division of Highways District Engineer having jurisdiction over the area involved. In determining whether to grant approval, the district engineer shall consider the species, age and appearance of the tree or shrub in question and its contribution to the aesthetics of the immediate area.

(m)(10) The Department of Transportation may require escort vehicles to accompany oversize or overweight loads. The weight, width of load, width of pavement, height, length of combination, length of overhang, maximum speed of vehicle, geographical route of travel, weather conditions and restricted time of travel shall be considered to determine escort requirements.

(j)(i) Additional safety measures are as follows:

(1) A yellow banner measuring a total length of 7 feet x 18 inches high bearing the legend "Oversize Load" in 10 inch black letters 1.5 inch wide brush stroke shall be displayed in one or two pieces totaling the required length on the front and rear bumpers of a permitted vehicle and vehicle combination with a width greater than 10 feet. TITLE 10A – DEPARTMENT OF HEALTH AND HUMAN SERVICES

10A NCAC 10.0203 RATES FOR SUBSIDIZED CHILD CARE

(a) The payment rates for child care centers, family child care homes, and nonlicensed child care homes are implemented in accordance with the annual appropriations act.

(b) Centers, as defined in G.S. 110-86(3), which are certified as developmental day centers by the Division of Child Development and Early Education and serve children who meet the definition of special needs set forth in 10A NCAC 10.0910 are exempt from the provisions of Paragraph (a) of this Rule. The payment rates for special needs children served in developmental day centers are calculated by deducting the total revenues per child month from the total costs per child month. That rate is then multiplied by the current inflation percentage provided by the Office of State Budget and Management. For typically developing children enrolled in developmental day centers, the rates shall exclude those costs associated exclusively with serving children with special needs. The payment rates for special needs children and typically developing children served in developmental day centers are calculated every two years and are implemented as funding allows.

(c) Any Local Purchasing Agency (LPA) approved child care provider not included in Paragraph (b) of this Rule who provides care to children who meet the definition of special needs set forth in 10A NCAC 10.0910 may be paid a supplemental rate above the provider's LPA approved rate for a particular age group. The supplemental rate shall be based on actual additional documented costs incurred by the provider in serving the child with special needs. The costs shall be determined by the early intervention specialist, the local education agency's exceptional children program specialist, the local purchasing agency, and the provider based on the plan developed to meet the child's individual needs.

(d) The reimbursement of additional fees as charged by centers is limited to registration fees. The payment rate for registration fees is determined by the annual appropriations act. Registration fees may not be paid more than twice per year per child regardless of the type of center.

(e) Purchasing agencies may negotiate with child care center providers for purchase of child care services at payment rates lower than those prescribed by this Rule, only with approval from the Division. Approval shall be granted if it can be determined that a non-negotiated payment rate would have a negative impact on the purchasing agency's ability to purchase subsidized child care services, based on the following factors:

   (1) the number of children on the waiting list for subsidized child care services;

   (2) whether the non-negotiated rates exceed the rates for services paid by private paying families in the service area; and

   (3) the amount of subsidized child care funds available.

(f) Child care services funds shall not be used to pay for services provided by the Department of Health and Human Services, Division of Public Health or the Department of Public Instruction, Division of Exceptional Children's Services for that portion of the service delivery costs which are reimbursed by the Division of Public Health or Department of Public Instruction.

15A NCAC 02D .1903 OPEN BURNING WITHOUT AN AIR QUALITY PERMIT

(a) All open burning is prohibited except open burning allowed under Paragraph (b) of this Rule or Rule .1904 of this Section. Except as allowed under Paragraphs (b)(3) through (b)(9) of this Rule, open burning shall not be initiated in an air quality forecast area that the Department, or the Forsyth County Environmental Affairs Department for the Triad air quality forecast area, has forecasted to be in an Air Quality Action Day Code "Orange" or above during the time period covered by that forecast.

(b) The following types of open burning are permissible without an air quality permit:

(1) open burning of leaves, tree branches or yard trimmings, excluding logs and stumps, if the following conditions are met:

(A) The material burned originates on the premises of private residences and is burned on those premises;

(B) There are no public pickup services available;

(C) Non-vegetative materials, such as household garbage, lumber, or any other synthetic materials are not burned;

(D) The burning is initiated no earlier than 8:00 a.m. and no additional combustible material is added to the fire between 6:00 p.m. on one day and 8:00 a.m. on the following day;

(E) The burning does not create a nuisance; and

(F) Material is not burned when the North Carolina Forest Service has banned burning for that area.

(2) open burning for land clearing or right-of-way maintenance if the following conditions are met:

(A) The wind direction at the time that the burning is initiated and the wind direction as forecasted by the National Weather Service at the time that the burning is initiated are away from any area, including public roads within 250 feet of the burning as measured from the edge of the pavement or other roadway surface, which may be affected by smoke, ash,
or other air pollutants from the burning;

(B) The location of the burning is at least 500 feet from any dwelling, group of dwellings, or commercial or institutional establishment, or other occupied structure not located on the property on which the burning is conducted. The regional office supervisor may grant exceptions to the setback requirements if:

(i) a signed, written statement waiving objections to the open burning associated with the land clearing operation is obtained and submitted to, and the exception granted by, the regional office supervisor before the burning begins from a resident or an owner of each dwelling, commercial or institutional establishment, or other occupied structure within 500 feet of the open burning site. In the case of a lease or rental agreement, the lessee or renter shall be the person from whom permission shall be gained prior to any burning; or

(ii) an air curtain burner that complies with Rule .1904 of this Section, is utilized at the open burning site.

Factors that the regional supervisor shall consider in deciding to grant the exception include: all the persons who need to sign the statement waiving the objection have signed it; the location of the burn; and the type, amount, and nature of the combustible substances. The regional supervisor shall not grant a waiver if a college, school, licensed day care, hospital, licensed rest home, or other similar institution is less than 500 feet from the proposed burn site when such institution is occupied.

(C) Only land-cleared plant growth is burned. Heavy oils, asphaltic materials such as shingles and other roofing materials, items containing natural or synthetic rubber, or any materials other than plant growth shall not be burned; however, kerosene, distillate oil, or diesel fuel may be used to start the fire;

(D) Initial burning begins only between the hours of 8:00 a.m. and 6:00 p.m., and no combustible material is added to the fire between 6:00 p.m. on one day and 8:00 a.m. on the following day;

(E) No fires are initiated or vegetation added to existing fires when the North Carolina Forest Service has banned burning for that area; and

(F) Materials are not carried off-site or transported over public roads for open burning unless the materials are carried off-site or transported over public roads to facilities permitted according to Rule .1904 of this Section for the operation of an air curtain burner at a permanent site;

(3) camp fires and fires used solely for outdoor cooking and other recreational purposes, or for ceremonial occasions, or for human warmth and comfort and which do not create a nuisance and do not use synthetic materials or refuse or salvageable materials for fuel;

(4) fires purposely set to public or private forest land for forest management practices for which burning is acceptable to the North Carolina Forest Service and which follow the smoke management plan as outlined in the North Carolina Forest Service's smoke management program;

(5) fires purposely set to agricultural lands for disease and pest control and fires set for other agricultural or apicultural practices for which burning is currently acceptable to the Department of Agriculture;

(6) fires purposely set for wildlife management practices for which burning is currently acceptable to the Wildlife Resource Commission;

(7) fires for the disposal of dangerous materials when it is the safest and most practical method of disposal;

(8) fires purposely set by manufacturers of fire-extinguishing materials or equipment, testing laboratories, or other persons, for the purpose of testing or developing these materials or equipment in accordance with a standard qualification program;

(9) fires purposely set for the instruction and training of fire-fighting personnel at permanent fire-fighting training facilities;

(10) fires purposely set for the instruction and training of fire-fighting personnel when conducted under the supervision of or with the cooperation of one or more of the following agencies:

(A) the North Carolina Forest Service;
(B) the North Carolina Insurance Department;
(C) North Carolina technical institutes; or
(D) North Carolina community colleges, including:
   (i) the North Carolina Fire College; or
   (ii) the North Carolina Rescue College;

(11) fires not described in Subparagraphs (9) or (10) of this Paragraph, purposely set for the instruction and training of fire-fighting personnel, provided that:
   (A) The regional office supervisor of the appropriate regional office and the HHCB have been notified according to the procedures and deadlines contained in the appropriate regional notification form. This form may be obtained by writing the appropriate regional office at the address in Rule .1905 of this Section and requesting it, and
   (B) The regional office supervisor has granted permission for the burning. Factors that the regional office supervisor shall consider in granting permission for the burning include type, amount, and nature of combustible substances. The regional office supervisor shall not grant permission for the burning of salvageable items, such as insulated wire and electric motors or if the primary purpose of the fire is to dispose of synthetic materials or refuse. The regional office supervisor shall not grant permission for the burning of salvageable items, such as insulated wire and electric motors or if the primary purpose of the fire is to dispose of synthetic materials or refuse. The regional office supervisor shall not grant permission for the burning. The regional office supervisor shall not grant permission for the burning include type, amount, location of the burning, and nature of combustible substances. The regional office supervisor shall not grant permission for the burning if the primary purpose of the fire is to dispose of synthetic materials or refuse or recovery of salvageable materials. Fires authorized under this Subparagraph shall comply with the conditions of Subparagraph (b)(2) of this Rule.

(c) The authority to conduct open burning under this Section does not exempt or excuse any person from the consequences, damages or injuries that may result from this conduct. It does not excuse or exempt any person from complying with all applicable laws, ordinances, rules or orders of any other governmental entity having jurisdiction even though the open burning is conducted in compliance with this Section.

15A NCAC 02D .1904 AIR CURTAIN BURNERS
(a) Air quality permits are required for air curtain burners subject to 40 CFR 60.2245 through 60.2265, 60.2810 through 60.2870, 60.2970 through 60.2975, or 60.3062 through 60.3069 or located at permanent sites or where materials are transported in from another site. Air quality permits are not required for air curtain burners located at temporary land clearing or right-of-way maintenance sites for less than nine months unless they are subject to 40 CFR 60.2245 through 60.2265, 60.2810 through 60.2870, 60.2970 through 60.2975, or 60.3062 through 60.3069. The operation of air curtain burners in particulate and ozone nonattainment areas shall cease in any area that has been forecasted by the Department, or the Forsyth County Environmental Affairs Department for the Triad air quality forecast area, to be in an Air Quality Action Day Code "Orange" or above during the time period covered by that forecast.
(b) Air curtain burners shall comply with the following conditions and stipulations:
   (1) The wind direction at the time that the burning is initiated and the wind direction as forecasted by the National Weather Service during the time of the burning shall be away from any area, including public roads within 250 feet of the burning as measured from the edge of the pavement or other roadway surface, which may be affected by smoke, ash, or other air pollutants from the burning;
(2) Only collected land clearing and yard waste materials may be burned. Heavy oils, asphaltic materials, items containing natural or synthetic rubber, tires, grass clippings, collected leaves, paper products, plastics, general trash, garbage, or any materials containing painted or treated wood materials shall not be burned. Leaves still on trees or brush may be burned; No fires shall be started or material added to existing fires when the North Carolina Forest Service has banned burning for that area; Burning shall be conducted only between the hours of 8:00 a.m. and 6:00 p.m.; The air curtain burner shall not be operated more than the maximum source operating hours-per-day and days-per-week. The maximum source operating hours-per-day and days-per-week shall be set to protect the ambient air quality standard and prevention of significant deterioration (PSD) increment for particulate. The maximum source operating hours-per-day and days-per-week shall be determined using the modeling procedures in Rule .1106(b), (c), and (f) of this Subchapter. This Subparagraph shall not apply to temporary air curtain burners; An air curtain burner with an air quality permit shall have onsite at all times during operation of the burner a visible emissions reader certified according to 40 CFR Part 60, Method 9 to read visible emissions; and the facility shall test for visible emissions within five days after initial operation and within 90 days before permit expiration; Air curtain burners shall meet manufacturer’s specifications for operation and upkeep to ensure complete burning of material charged into the pit. Manufacturer’s specifications shall be kept on site and be available for inspection by Division staff; Except during start-up, visible emissions shall not exceed ten percent opacity when averaged over a six-minute period except that one six-minute period with an average opacity of more than ten percent but no more than 35 percent shall be allowed for any one-hour period. During start-up, the visible emissions shall not exceed 35 percent opacity when averaged over a six-minute period. Start-up shall not last for more than 45 minutes, and there shall be no more than one start-up per day. Instead of complying with the opacity standards in this Subparagraph, air curtain burners subject to: (A) 40 CFR 60.2245 through 60.2265 shall comply with the opacity standards in 40 CFR 60.2250; (B) 40 CFR 60.2810 through 60.2870 shall comply with the opacity standards in 40 CFR 60.2860; (C) 40 CFR 60.2970 through 60.2975 shall comply with the opacity standards in 40 CFR 60.2971; or (D) 40 CFR 60.3062 through 60.3069 shall comply with the opacity standards in 40 CFR 60.3066; The owner or operator of an air curtain burner shall not allow ash to build up in the pit to a depth higher than one-third of the depth of the pit or to the point where the ash begins to impede combustion, whichever occurs first. The owner or operator of an air curtain burner shall allow the ashes to cool and water the ash prior to its removal to prevent the ash from becoming airborne; The owner or operator of an air curtain burner shall not load material into the air curtain burner such that it will protrude above the air curtain; Only distillate oil, kerosene, diesel fuel, natural gas, or liquefied petroleum gas may be used to start the fire; and The location of the burning shall be at least 300 feet from any dwelling, group of dwellings, or commercial or institutional establishment, or other occupied structure not located on the property on which the burning is conducted. The regional office supervisor may grant exceptions to the setback requirements if a signed, written statement waiving objections to the air curtain burning is obtained from a resident or an owner of each dwelling, commercial or institutional establishment, or other occupied structure within 300 feet of the burning site. In case of a lease or rental agreement, the lessee or renter, and the property owner shall sign the statement waiving objections to the burning. The statement shall be submitted to and approved by the regional office supervisor before initiation of the burn. Factors that the regional supervisor shall consider in deciding to grant the exception include: all the persons who need to sign the statement waiving the objection have signed it; the location of the burn; and the type, amount, and nature of the combustible substances. Compliance with this Rule does not relieve any owner or operator of an air curtain burner from the necessity of complying with other rules in this Section or any other air quality rules. (c) Recordkeeping Requirements. The owner or operator of an air curtain burner at a permanent site shall keep a daily log of specific materials burned and amounts of material burned in pounds per hour and tons per year. The logs at a permanent air curtain burner site shall be maintained on site for a minimum of two years and shall be available at all times for inspection by the Division of Air Quality. The owner or operator of an air curtain burner at a temporary site shall keep a log of total number of
tons burned per temporary site. Additionally, the owner or operator of air curtain burner subject to:

 (1) 40 CFR 60.2245 through 60.2265 shall comply with the monitoring, recordkeeping, and reporting requirements in 40 CFR 60.2265;
