Proposed Effective Date: August 8, 2017

Public Hearing:
Date: June 14, 2017
Time: 10:00 a.m.
Location: NC DSS McBryde Building 1st floor room 151, 820 South Boylan Avenue, Raleigh, NC 27603

Reason for Proposed Action:
10A NCAC 70G .0402(11) & (12) - is proposed for amendment to add the definition of "reasonable and prudent parent standard as defined in G.S. 131D-10.2A and the definition of "social worker".

The Social Worker Certification and Licensure Act (G.S. 90B) clearly defines those individuals who can use the title social worker. Child-placing agency rules for foster care must comply with the Social Worker Certification and Licensure Act (G.S. 90B).

10A NCAC 70G .0501 - is proposed for amendment to give agencies choices of titles other than social work supervisor or social worker. The references to the Office of State Personnel have been changed to the Office of State Human Resources. The hyperlinks for class specifications for Social Services Program Administrator I, Social Work Supervisor II and Social Worker II have been updated. Proposed rule amendment to 70G .0501(f) was to clarify training topic applying to both social work staff and their supervisors, no additional training is being required.

10A NCAC 70G .0501 - The Social Worker Certification and Licensure Act (G.S. 90B) clearly defines those individuals who can use the title social worker. Child-placing agency rules for foster care must comply with the Social Worker Certification and Licensure Act (G.S. 90B).

10A NCAC 70G .0501 - is proposed for amendment to give agencies choices of titles other than social work supervisor or social worker. The references to the Office of State Personnel have been changed to the Office of State Human Resources. The hyperlinks for class specifications for Social Services Program Administrator I, Social Work Supervisor II and Social Worker II have been updated.

Proposed rule amendment to 70G .0501(f) was to clarify training topic applying to both social work staff and their supervisors, no additional training is being required.

10A NCAC 70G .0503(g) - rule amendment proposal is to align with state and federal outcomes that children when possible should be placed in an effort to maintain their connections to their neighborhood, community, faith, extended family, tribe, school and friends.

10A NCAC 70G .0503(h) - rule amendment proposal is in accordance with 70B-903.1(d) that requires notice be given to the child’s parent or guardian when a change in placement is necessary. The proposed rule quantifies the notice that the supervising agency must provide.

10A NCAC 70G .0503(l) - rule amendment proposal is to move 70G .0510 Health Services as it relates to health services requirements.

10A NCAC 70G .0503(o)(6) - proposed rule amendment is in accordance with 131D-10.2A to add reasonable and prudent parent standard decision making as an item to be discussed when developing a child’s out-of-home family services agreement or person-centered plan.

10A NCAC 70G .0503(r) - rule amendment proposal is to quantify the required weekly 60 minutes of supervision per child to therapeutic foster parents to occur fifty percent of the time through face to face contact in the foster home. There are other precedent rules that support this quantification, existing rule 70E .0113 require that the licensing social worker to have two quarterly visits in the foster home and 70G .0503(O) requires that foster children be seen by the social worker or case manager face to face monthly. Quantifying the supervision of therapeutic foster parents to include face to face contact in the foster home provides the opportunity to support and provide therapeutic strategies in the environment that the foster parent and child reside. The remaining fifty percent of supervision time can occur where determined by the foster parent and supervising agency.

10A NCAC 70G .0504(d) - is proposed for amendment to add parent is to be included in the development of child’s out–of–home Family Services Agreement.

10A NCAC 70G .0506 - proposed rule revisions removes reference to current DSM IV; the Diagnostic and Statistical Manual of Mental Disorders frequently is updated and results in rules being obsolete.

10A NCAC 70G .0506(b) - proposed rule revision is obsolete; there are no licensed agencies providing these services requiring an agency to maintain such a record.

10A NCAC 70G .0506(d)(23), (24), (25), & (26) - proposed rule amendments are to clarify that results of criminal histories and finger print clearance that are required in 70E .1114 & .0116 are maintained in the foster parent home record by the supervising agency.

10A NCAC 70G .0507(f) - proposed rule amendment requiring child placing agencies for foster care develop and implement...
policies and procedures in accordance with G.S. 131D-10.2A that creates the “reasonable and prudent parent standard” to be used for foster children. This statute brings State law in line with Federal Law established by P.L. 113-183. The goals of the reasonable and prudent parent standard are to provide children and youth in foster care with access to normal childhood experiences and empower the placement provider to engage in activities which promote well-being. The rule amendment directs agencies on areas that must be addressed in their policies and procedures.

10A NCAC 70G .0510 - is proposed for amendment to change the name of the rule section from Medication Administration Requirements to Health Services to align with other licensure rule sections. Existing health related rules located in less appropriate sections have been moved to the Health Services section to give medical and health related the importance needed.

10A NCAC 70G .0510(6) - is proposed for amendment to align with existing rules in 70E .1102(1)(f) to child placing agencies for foster care.

10A NCAC 70G .0510(c) - proposed rule amendment to remove the requirement to return unused prescription medications to a pharmacy and refer to Food and Drug Administration (FDA) for proper disposal. Pharmacy will no longer accept unused medications.

10A NCAC 70G .0510(e) & (f) - is proposed for amendment to move existing rule for 70G .0503 Placement Services to Health Services.

10A NCAC 70G .0510(g) - is proposed for amendment to align with existing rule in 70I .0604 for residential child care, appropriate dental care should be obtained for all foster children and not only limited to children placed in residential child care. The obtainment of dental care is widely a practice observed in foster placements as required by Federal well-being outcomes for children in care.

10A NCAC 70G .0512(f) - proposed rule amendments eliminates the use of prone or face down position restraints from crisis intervention techniques in accordance with signed written communication dated November 12, 2012 by the NC DHHS Secretary. DSS sent out written communication to all licensed agencies to inform providers, this proposed rule only clarifies this practice that can place children's safety at risk.

10A NCAC 70G .0513 - proposed rule amendment to comply with Federal Public Law 113-183 signed into law by the President effective September 29, 2014. The purpose of the legislation was to identify and protect children and youth at risk of sex trafficking. The law requires the title IV-E agencies must develop and implement protocols to report children and youth immediately on missing or abducted to law enforcement to be entered in the National Crime Information Center database (NCIC) and to the National Center for Missing and Exploited Children.

SECTION .0400 – GENERAL

10A NCAC 70G .0402 DEFINITIONS

Except when the context of the Rule indicates that the term has a different meaning the following definitions shall apply to the rules in Subchapter 70G:

(1) "Agency” means a child placing agency as defined in G.S. 131D-10.2 that is authorized by law to receive children for purposes of placement in foster homes or adoptive homes.

(2) "Family Foster Home" has the meaning as defined in G.S. 131D-10.2(8).

(3) "Family Foster Care" means a planned, goal-directed service in which the temporary protection and care of children take place in a family foster home. Family foster care is a child welfare service for children and their parents who must live apart from each other for a period of time due to abuse, neglect, dependency, or other circumstances necessitating out-of-home care.

(4) "Guardian" means an individual as defined in G.S. 7B-600 who is appointed by the court to serve as the guardian of the person for a juvenile. The guardian shall have the care, custody, and control of the juvenile or may arrange a suitable placement for the juvenile and may represent the juvenile in legal actions.
before any court. The guardian may consent to certain actions on the part of the juvenile in place of the parent including marriage, enlisting in the armed forces and enrollment in school. The guardian may also consent to any necessary remedial, psychological, medical, or surgical treatment for the juvenile. Guardian also means an individual appointed by the clerk of court in North Carolina to exercise all the powers conferred by G.S. 35A-1241, including a standby guardian appointed under Article 21A of Chapter 35A whose authority has actually commenced and also means an individual appointed in another jurisdiction according to the law of that jurisdiction who has the powers consistent with G.S. 35A-1241.

(5) "Legal Custodian" means a person or agency that has been awarded legal custody of a juvenile by a court of competent jurisdiction.

(6) "Licensing Authority" means the North Carolina Division of Social Services.

(7) "Out-of-Home Family Services Agreement" is a Division of Social Services document required of all children in the custody of a county department of social services receiving family foster care services or therapeutic foster care services. This agreement is used to define the primary permanency plan; to identify the family's strengths and needs; to set objectives and case activities to assist the family in resolving those issues that place the child at risk; to specify consequences if the plan does or does not succeed; and to establish the alternative permanency plan if the primary plan does not succeed. The agreement must address the services to be provided or arranged; the visitation plan designed to maintain links with the family; expectations of the family, agency, placement provider and community members; target dates; and expected outcomes.

(8) "Owner" means any person who holds an ownership interest of five percent or more of the applicant. A person includes a sole proprietor, co-owner, partner or shareholder, principal or affiliate, or any person who is the applicant or any owner of the applicant.

(9) "Parent" means the birth parent or adoptive parent.

(10) "Person-Centered Plan" is a Division of Mental Health, Developmental Disabilities and Substance Abuse Services document and must be completed on all children receiving therapeutic foster care services. The person-centered plan is the umbrella under which all planning for treatment, services and supports occurs. Person-centered planning begins with the identification of the reason the individual/family is requesting assistance. It focuses on the identification of the individual's/family's needs and desired life outcomes—not just a request for a specific service. The plan captures all goals and objectives and outlines each team member's responsibilities within the plan.

(11) "Social worker" shall mean those who have a bachelor's, master's, or doctorate degree in social work from a social work program accredited by the Council on Social Work Education (CSWE) as provided in the Social Worker Certification and Licensure Act (G.S. 90B).

Public Hearing:
Date: June 14, 2017
Time: 10:00 a.m.
Location: NC DSS McBryde Building 1st Floor Room 151, 820 South Boylan Avenue, Raleigh, NC 27603

Reason for Proposed Action:

10A NCAC 70K .0101(a) - is proposed for rule amendment to clarify that residential maternity homes cannot simultaneously be licensed as residential child-care facilities. Program requirements are different and mutually exclusive for each type of facility. The current rule is clear that residential maternity homes cannot also be licensed as facilities licensed under G.S. 122C, but the proposed amendment is necessary to make it clear agencies cannot have dual licenses under 10A NCAC 70K and 10A NCAC 70I.

10A NCAC 70K .0101(b) - is proposed rule amendment in accordance G.S. 131D-10.2 that creates the "reasonable and prudent parent standard" to be used for foster children. This statute brings State law in line with Federal Law established by P.L. 113-183. The goals of the reasonable and prudent parent standard are to provide children and youth in foster care with access to normal childhood experiences and empower the placement provider to engage in activities which promote well-being.

10A NCAC 70K .0201(a)(1) - proposed rule revisions include references to the Office of State Personnel have been changed to the Office of State Human Resources. The hyperlinks for class specifications for Social Services Program Administrator I, Social Work Supervisor II and Social Worker II have been updated.

10A NCAC 70K .0201(a)(3) & (4) - are proposed for amendment to comply with the Social Worker Certification and Licensure Act (G.S. 90B). The proposed amendment gives agencies choices of titles other than social work supervisor or social worker.

10A NCAC 70K .0201(f)(2)(X) and (Y) - is proposed for amendment to state that residential maternity home staff have written staff development plans that includes training components on trauma informed care and reasonable & prudent parent standard. The proposed amendment does not require additional hours only that these components be included in the staff’s development plans.

10A NCAC 70K .0201(f)(3) - is proposed for amendment to state that residential maternity home staff shall successfully complete certification in first aid, CPR and universal precautions. “Successfully completed” is defined as demonstrating competency, as evaluated by the instructor who has been approved by the American Heart Association, the American Red Cross, or other organizations approved by the Division of Social Services to provide first-aid, CPR and universal precautions. If staff cannot demonstrate competencies residents will be at risk. (Amended rule 10A .1117 is based on child care rule 10A NCAC 09.0705).

10A NCAC 70K .0202(c) - proposed rule amendment to clarify consent for psychological and psychiatric services for minors in accordance with G.S. 7B-505.1.

CHAPTER 07 - COASTAL MANAGEMENT

SUBCHAPTER 07H - STATE GUIDELINES FOR AREAS OF ENVIRONMENTAL CONCERN

SECTION .0300 - OCEAN HAZARD AREAS

15A NCAC 07H .0306 GENERAL USE STANDARDS FOR OCEAN HAZARD AREAS

(a) In order to protect life and property, all development not otherwise specifically exempted or allowed by law or elsewhere in the Coastal Resources Commission's rules shall be located according to whichever of the following is applicable:

(1) The ocean hazard setback for development is measured in a landward direction from the vegetation line, the static vegetation line, or the measurement line, whichever is applicable.

(2) In areas with a development line, the ocean hazard setback line shall be set at a distance in accordance with Subparagraphs (a)(3) through (9) of this Rule. In no case shall new development be sited seaward of the development line.

In no case shall a development line be created or extended below the mean high water line, on state owned lands, or oceanward of the mean high water line or perpetual property easement line, whichever is more restrictive.

The setback distance shall be determined by both the size of development and the shoreline long term erosion rate as defined in Rule .0304 of this Section. "Development size" is defined by total floor area for structures and buildings or total area of footprint for development other than structures and buildings. Total floor area includes the following:

(A) The total square footage of heated or air-conditioned living space;

(B) The total square footage of parking elevated above ground level; and

(C) The total square footage of non-heated or non-air-conditioned areas elevated above ground level, excluding attic space that is not designed to be load-bearing.

Decks, roof-covered porches, and walkways shall not be included in the total floor area unless they are enclosed with material other than screen mesh or are being converted into an enclosed space with material other than screen mesh.

With the exception of those types of development defined in 15A NCAC 07H .0309, no development, including any portion of a building or structure, shall extend oceanward of the ocean hazard setback distance. This includes roof overhangs and elevated structural components that are cantilevered, knee braced, or otherwise extended beyond the support of pilings or footings. The ocean hazard setback is established based on the following criteria:

(A) A building or other structure less than 5,000 square feet requires a minimum setback of 60 feet or 30 times the shoreline erosion rate, whichever is greater;

(B) A building or other structure greater than or equal to 5,000 square feet but less than 10,000 square feet requires a minimum setback of 120 feet or 60 times the shoreline erosion rate, whichever is greater;

(C) A building or other structure greater than or equal to 10,000 square feet but less than 20,000 square feet requires a minimum setback of 130 feet or 60 times the shoreline erosion rate, whichever is greater;

(D) A building or other structure greater than or equal to 20,000 square feet but
less than 40,000 square feet requires a minimum setback of 140 feet or 70 times the shoreline erosion rate, whichever is greater;

(E) A building or other structure greater than or equal to 40,000 square feet but less than 60,000 square feet requires a minimum setback of 150 feet or 75 times the shoreline erosion rate, whichever is greater;

(F) A building or other structure greater than or equal to 60,000 square feet but less than 80,000 square feet requires a minimum setback of 160 feet or 80 times the shoreline erosion rate, whichever is greater;

(G) A building or other structure greater than or equal to 80,000 square feet but less than 100,000 square feet requires a minimum setback of 170 feet or 85 times the shoreline erosion rate, whichever is greater;

(H) A building or other structure greater than or equal to 100,000 square feet requires a minimum setback of 180 feet or 90 times the shoreline erosion rate, whichever is greater;

(I) Infrastructure that is linear in nature such as roads, bridges, pedestrian access such as boardwalks and sidewalks, and utilities providing for the transmission of electricity, water, telephone, cable television, data, storm water, and sewer requires a minimum setback of 60 feet or 30 times the shoreline erosion rate, whichever is greater;

(J) Parking lots greater than or equal to 5,000 square feet require a setback of 120 feet or 60 times the shoreline erosion rate, whichever is greater;

(K) Notwithstanding any other setback requirement of this Subparagraph, a building or other structure greater than or equal to 5,000 square feet in a community with a static line exception in accordance with 15A NCAC 07J .1200 requires a minimum setback of 120 feet or 60 times the shoreline erosion rate in place at the time of permit issuance, whichever is greater. The setback shall be measured landward from either the static vegetation line, the vegetation line, or measurement line, whichever is farthest landward; and

(L) Notwithstanding any other setback requirement of this Subparagraph, replacement of single-family or duplex residential structures with a total floor area greater than 5,000 square feet, and commercial and multi-family residential structures with a total floor area no greater than 10,000 square feet, shall be allowed provided that the structure meets the following criteria:

(i) the structure was originally constructed prior to August 11, 2009;

(ii) the structure as replaced does not exceed the original footprint or square footage;

(iii) it is not possible for the structure to be rebuilt in a location that meets the ocean hazard setback criteria required under Subparagraph (a)(5) of this Rule;

(iv) the structure as replaced meets the minimum setback required under Part (a)(5)(A) of this Rule; and

(v) the structure is rebuilt as far landward on the lot as feasible.

(6) If a primary dune exists in the AEC on or landward of the lot where the development is proposed the development shall be landward of the crest of the primary dune, the ocean hazard setback, or development line, whichever is farthest from vegetation line, static vegetation line, or measurement line, whichever is applicable. For existing lots, however, where setting the development landward of the crest of the primary dune would preclude any practical use of the lot, development may be located oceanward of the primary dune. In such cases, the development may be located landward of the ocean hazard setback, but shall not be located on or oceanward of a frontal dune or the development line. The words "existing lots" in this Rule shall mean a lot or tract of land which, as of June 1, 1979, is specifically described in a recorded plat and cannot be enlarged by combining the lot or tract of land with a contiguous lot(s) or tract(s) of land under the same ownership.

(7) If no primary dune exists, but a frontal dune does exist in the AEC on or landward of the lot where the development is proposed, the development shall be set landward of the frontal dune, ocean hazard setback, or development line, whichever is farthest from the vegetation line, static vegetation line, or measurement line, whichever is applicable.

(8) If neither a primary nor frontal dune exists in the AEC on or landward of the lot where
development is proposed, the structure shall be landward of the ocean hazard setback or development line, whichever is more restrictive.

(9) Structural additions or increases in the footprint or total floor area of a building or structure represent expansions to the total floor area and shall meet the setback requirements established in this Rule and 15A NCAC 07H .0309(a). New development landward of the applicable setback may be cosmetically, but shall not be structurally, attached to an existing structure that does not conform with current setback requirements.

(10) Established common law and statutory public rights of access to and use of public trust lands and waters in ocean hazard areas shall not be eliminated or restricted. Development shall not encroach upon public accessways, nor shall it limit the intended use of the accessways.

(11) Beach fill as defined in Rule .0305(a)(7) of this Section, represents a temporary response to coastal erosion, and compatible beach fill as defined in 15A NCAC 07H .0312 may be expected to erode at least as fast as, if not faster than, the pre-project beach. Furthermore, there is no assurance of future funding or beach-compatible sediment for continued beach fill projects and project maintenance. A vegetation line that becomes established oceanward of the pre-project vegetation line in an area that has received beach fill may be more vulnerable to natural hazards along the oceanfront if the beach fill project is not maintained. A development setback measured from the vegetation line may provide less protection from ocean hazards. Therefore, development setbacks in areas that have received large-scale beach fill as defined in 15A NCAC 07H .0305 shall be measured landward from the static line exception defined in Rule .0309(b) of this Rule. This static line exception applies to development of the large-scale beach fill project. The static line exception shall also allow development greater than 5,000 square feet to use the setback provisions defined in Part (a)(5)(K) of this Rule in areas that lie within the jurisdictional boundary of the petitioner, as well as the boundaries of the large-scale beach fill project. The procedures for a static line exception request are defined in 15A NCAC 07J .1200. If the request is approved, the Coastal Resources Commission shall allow development setbacks to be measured from a vegetation line that is oceanward of the static vegetation line under the following conditions:

(A) Development meets all setback requirements from the vegetation line defined in Subparagraphs (a)(1) and (a)(5) of this Rule;

(B) Development setbacks shall be calculated from the shoreline erosion rate in place at the time of permit issuance;

(C) No portion of a building or structure, including roof overhangs and elevated portions that are cantilevered, knee braced, or otherwise extended beyond the support of pilings or footings, extends oceanward of the landward-most adjacent building or structure. When the configuration of a lot precludes the placement of a building or structure in line with the landward-most adjacent building or structure, an average line of construction shall be determined by the Division of Coastal Management on a case-by-case basis in order to determine an ocean hazard setback that is landward of the vegetation line, a distance no less than 30 times the shoreline erosion rate or 60 feet, whichever is greater;

(D) With the exception of swimming pools, the development defined in Rule .0309(a) of this Section shall be allowed oceanward of the static vegetation line; and

(E) Development shall not be eligible for the exception defined in Rule .0309(b) of this Section.

(b) In order to avoid weakening the protective nature of ocean beaches and primary and frontal dunes, no development shall be permitted that involves the removal or relocation of primary or frontal dune sand or vegetation thereon that would adversely affect the integrity of the dune. Other dunes within the ocean...
hazard area shall not be disturbed unless the development of the property is otherwise impracticable. Any disturbance of these other dunes shall be allowed only to the extent permitted by 15A NCAC 07H .0308(b).

(c) Development shall not cause irreversible damage to historic architectural or archaeological resources as documented by the local historic commission, the North Carolina Department of Natural and Cultural Resources, or the National Historical Registry.

(d) Development shall comply with minimum lot size and setback requirements established by local regulations.

(e) Mobile homes shall not be placed within the high hazard flood area unless they are within mobile home parks existing as of June 1, 1979.

(f) Development shall comply with the general management objective for ocean hazard areas set forth in 15A NCAC 07H .0303.

(g) Development shall not interfere with legal access to, or use of, public resources, nor shall such development increase the risk of damage to public trust areas.

(h) Development proposals shall incorporate measures to avoid or minimize adverse impacts of the project. These measures shall be implemented at the applicant's expense and may include actions that:

(1) minimize or avoid adverse impacts by limiting the magnitude or degree of the action;
(2) restore the affected environment; or
(3) compensate for the adverse impacts by replacing or providing substitute resources.

(i) Prior to the issuance of any permit for development in the ocean hazard AECs, there shall be a written acknowledgment from the applicant to the Division of Coastal Management that the applicant is aware of the risks associated with development in this hazardous area and the limited suitability of this area for permanent structures. By granting permits, the Coastal Resources Commission does not guarantee the safety of the development and assumes no liability for future damage to the development.

(j) All relocation of structures requires permit approval. Structures relocated with public funds shall comply with the applicable setback line as well as other applicable AEC rules. Structures including septic tanks and other essential accessories relocated entirely with non-public funds shall be relocated the maximum feasible distance landward of the present location. Septic tanks may not be located oceanward of the primary structure. All relocation of structures shall meet all other applicable local and state rules.

(k) Permits shall include the condition that any structure shall be relocated or dismantled when it becomes imminently threatened by changes in shoreline configuration as defined in 15A NCAC 07H .0308(a)(2)(B). Any such structure shall be relocated or dismantled within two years of the time when it becomes imminently threatened, and in any case upon its collapse or subsidence. However, if natural shoreline recovery or beach fill takes place within two years of the time the structure becomes imminently threatened, so that the structure is no longer imminently threatened, then it need not be relocated or dismantled at that time. This permit condition shall not affect the permit holder's right to seek authorization of temporary protective measures allowed under 15A NCAC 07H .0308(a)(2).

Authority G.S. 113A-107; 113A-113(b)(6); 113A-124.

SUBCHAPTER 07J - PROCEDURES FOR PROCESSING AND ENFORCEMENT OF MAJOR AND MINOR DEVELOPMENT PERMITS, VARIANCE REQUESTS, APPEALS FROM PERMIT DECISIONS, DECLARATORY RULINGS, AND STATIC LINE EXCEPTIONS

SECTION .1300 – DEVELOPMENT LINE PROCEDURES

15A NCAC 07J .1301 REQUESTING THE DEVELOPMENT LINE

(a) Any local government, group of local governments involved in a regional beach fill project, or qualified owner's association with territorial jurisdiction over an area that is subject to ocean hazard area setbacks pursuant to 15A NCAC 07H .0305, may petition the Coastal Resources Commission for a development line for the purposes of siting oceanfront development in accordance with the provisions of this Section. A "qualified owner's association" is an owner's association defined in G.S. 47F-1-103(3) that has authority to approve the locations of structures on lots within the territorial jurisdiction of the association and has jurisdiction over at least one mile of ocean shoreline.

(b) A development line request applies to the entire large-scale project area as defined in 15A NCAC 07H .0305(a)(7), and at the petitioner's request may be extended to include the entire oceanfront jurisdiction or legal boundary of the petitioner.

(c) The petitioner shall utilize an adjacent neighbor sight-line approach, resulting in an average line of structures. In areas where the seaward edge of existing development is not linear, the petitioner may determine an average line of construction on a case-by-case basis. In no case shall a development line be established seaward of the most seaward structure within the petitioner's oceanfront jurisdiction.

(d) An existing structure that is oceanward of an approved development line may remain in place until damaged greater than 50 percent in accordance with Rule .0210 of this Subchapter. At that time it may only be replaced landward of the development line, and shall meet the applicable ocean hazard setback requirements as defined in 15A NCAC 07H .0306(a).

(e) A request for a development line or amendment shall be made in writing by the petitioner and submitted to the CRC by sending the written request to the Director of the Division of Coastal Management. A complete request shall include the following:

(1) A detailed survey of the development line using on-ground observation and survey, or aerial imagery along the oceanfront jurisdiction or legal boundary; any local regulations associated with the development line; a record of local adoption of the development line by the petitioner; and documentation of incorporation of development line into local ordinances or rules and regulations of an owner's association.

(2) The survey shall include the development line and static vegetation line, line, static vegetation line, mean high water line, and any other
information the Coastal Resources Commission deems necessary for a review of the petitioner's proposed development line.

Surveyed development line spatial data in a geographic information systems (GIS) format referencing North Carolina State Plane North American Datum 83 US Survey Foot, to include Federal Geographic Data Committee (FGDC) compliant metadata.

(f) Once a development line is approved by the Coastal Resources Commission, only the petitioner may request a change or reestablishment of the position of the development line.

(g) A development line request shall be submitted to the Director of the Division of Coastal Management, 400 Commerce Avenue, Morehead City, NC 28557. Written acknowledgement of the receipt of a completed development line request, including notification of the date of the meeting at which the request will be considered by the Coastal Resources Commission, shall be provided to the petitioner by the Division of Coastal Management.

(h) The Coastal Resources Commission shall consider a development line request no later than the second scheduled meeting following the date of receipt of a complete request by the Division of Coastal Management, except when the petitioner and the Division of Coastal Management agree upon a later date.

Proposed Effective Date: October 1, 2017

Public Hearing:
Date: April 4, 2017
Time: 10:00 a.m.
Location: WRC Headquarters 5th Floor, 1751 Varsity Drive, Raleigh, NC 27606

Reason for Proposed Action:
15A NCAC 10F.0303 – Beaufort County submitted an application for a no-wake zone in the waters of Little Creek, a tributary of Blounts Creek. Staff identified hazards to boater safety that include a shallow creek with approximately 15 docks. Boaters who use the nearby Blounts Creek Boating Access Area enter and exit Little Creek at high speeds, posing dangers to those who swim and recreate in the creek.

15A NCAC 10F.0323 – Burke County submitted a formal application and resolution requesting a no-wake zone on Lake James in the waters of Sherman's Hollow Cove and contiguous with the waters within 50 yards of Linville Point. The no wake zone is necessary to mitigate hazards to boater and swimmer safety. Sherman’s Hollow Cove is narrow with obstructed views, and heavy boat traffic along Linville Point poses dangers to swimmers and kayakers.

15A NCAC 10F .0339 – McDowell County submitted an application for amendments to 15A NCAC 10F.0339 for no-wake zones on Lake James to mitigate hazards to boater safety. An extension of the no-wake zone at Marion Moose Club is requested because the area is heavily populated with many docks and a narrow shallow channel. There is a blind bend in the channel and there have been several boating incidents there. A no-wake zone within 50 yards of the shoreline of the peninsula at Wateryln Cove Subdivision will mitigate hazards to boaters and swimmers near shore who are endangered by vessels travelling at high speeds in the area. A technical correction is requested to clarify the parameters of the existing no-wake zone at Plantation Point Cove. A no-wake zone is already marked within 50 yards of a boating access area at hidden Cove. This no-wake zone needs to be codified in the NCAC. Amendments under 10F.0339 (a)(11) and (a)(12) will remove no-wake zones at campgrounds that no longer exist or are not navigable and enforceable.
