(c) Savings institutions shall keep the following books and records at the institution, or at its parent holding company, unless another storage site is approved by the Commissioner of Banks in writing:

1. Alphabetical direct and indirect liability ledgers. Each institution shall keep an alphabetical direct and indirect liability ledger. The alphabetical direct liability ledger shall show each customer’s direct obligations owed to the institution by loan name or account number and the balance outstanding under each account. The alphabetical indirect liability ledger shall show each customer’s indirect obligations owed to the institution by loan name or account number and the balance outstanding under each account. The alphabetical direct liability ledger shall be kept in balance with the general ledger control. The alphabetical indirect liability ledger shall be updated at least monthly. Where the aggregate total of a customer’s direct and indirect obligations to the institution do not exceed twenty thousand dollars ($20,000), the indirect obligations of that customer may be omitted from the alphabetical indirect liability ledger. In an institution whose automated record system is not able to produce an alphabetical liability ledger, the institution shall produce an alphabetical listing of customers showing all of a customer’s loan or account numbers and the amount outstanding under each account number when called upon by representatives of the Commissioner of Banks. Each institution shall produce both the direct and indirect liability ledgers in hard copy form upon request by representatives of the Commissioner of Banks.

2. Monthly reconciliation of accounts with correspondent banks. A record shall be kept showing the monthly reconciliation of each account with correspondent banks. A signed review of such reconciliations shall be made by an officer or employee of the institution other than the person responsible for preparing the reconciliation.

3. Purchases and sales of securities. A record shall be kept of purchases and sales of securities. The record shall include the following:
   (A) dates of purchases and sales;
   (B) interest rates;
   (C) maturities;
   (D) par value;
   (E) cost value;
   (F) all write-ups or write-downs;
   (G) a full description of the security;
   (H) from whom purchased;
   (I) to whom sold;
   (J) purchase price;
   (K) selling price; and
   (L) when, where, and why pledged or deposited.

This record shall be maintained in balance with the general ledger control.

4. Charge-offs. A record shall be kept of all items charged-off and of all recoveries. All charge-offs shall be authorized or approved by the executive committee or by the board of directors, and such action shall be recorded in their minutes. The charge-off record shall show the date of the charge-off, a description of the asset, and the amount of the charge-off. The record shall be supported by the actual charged-off items or the final disposition of any charged-off item. The record of recoveries shall show the date and amount of each recovery.

5. Records of real estate. A record shall be kept of all parcels owned, including the banking house. The record shall show when the property was acquired, how the property was acquired, the cost of the property, the book value of the property, and detailed income and expense reports relating to the property. This record shall be supported by appraisals, title certificates showing assessed value, tax receipts, and hazard insurance policies relating to the property. Every savings institution shall appraise the value of each parcel of real estate taken in satisfaction of debts previously contracted at the time of acquisition. The report of each appraisal shall be submitted in writing to the Board of Directors and shall be kept in the records of the savings institution.

6. Meeting minutes. Minutes of all board of directors’ meetings, board committee meetings, and members and stockholders meetings shall be kept showing any action resulting from the meeting. All minutes shall be signed by the chairman and the secretary of such meeting.

7. Cash items held over. A daily record shall be kept of all cash items held over from the day’s business, including all checks that would cause an overdraft if handled according to the institution’s check-posting policy. This record shall be kept in balance with the general ledger control and shall identify the account on which the item is drawn or is obligated for payment, the reason the item is being held, the date the item was placed in the cash items account, and the amount of the item.
(8) Record of income and expenses. A detailed record of income and expenses shall be kept and balanced monthly. A report of this record shall be made to the executive committee or board of directors, and the receipt of same shall be noted in the meeting minutes.

(d) Unless another storage site is approved by the Commissioner of Banks in writing, the books and records of the institution's parent holding company shall be kept at the institution or at the institution's parent holding company; and the books and records of an affiliate of the institution shall be kept at the affiliate, the institution, or the institution's parent holding company.

(f) Based upon the financial condition of a savings institution as determined by examination or otherwise, the Commissioner of Banks may require a savings institution to prepare or maintain different or additional books, records, and reports.

(a) be signed or otherwise properly executed;
(b) be dated within 18 months preceding the origination date of the credit obligation;
(c) be renewed within 18 months after the date of the last financial statement on file;
(d) be addressed to or made for the lending savings institution; and
(e) include information reflecting the assets, liabilities, net worth, and income of the borrower.

(2) Financial Statement Exceptions. A savings institution may waive the financial statement required by Item (1) of this Rule for credit granted under a credit card. For an individual whose unsecured obligations consist of consumer loans scheduled to be repaid in at least quarterly installments, a savings institution may substitute a current credit bureau report for the financial statement required by Item (1) of this Rule. A credit bureau report shall be within 18 months from its date of issue.

(3) Personal Property Appraisals. Appraisals on personal property used as collateral for a loan shall be obtained and shall be completed as follows:

(a) Except as provided by Sub-item (3)(c) of this Rule a written appraisal of personal property used to collateralize any loan shall be made or approved.

(b) Requirements. The appraisal required by this Item shall include:

(i) the name of the borrower;
(ii) the date the appraisal was made;
(iii) the value of the collateral;
(iv) the signatures of two people making the appraisal;

(ii) on loans fully secured by obligations of the United States or the State of North Carolina;
(iii) on loans fully secured by deposits in the savings institution maintaining the loan account; or
(iv) on loans fully secured by the cash surrender or loan value of life insurance policies.

(d) Renewal Exceptions. Appraisals need not be renewed biennially where a motor vehicle or mobile home is the sole or partial collateral for a loan.

(e) Single Signature Exception. An appraisal may be performed and signed by only one person where a motor vehicle or mobile home is the sole collateral for a loan.

(4) Real Estate Appraisals. Unless otherwise provided, all real estate taken as security for loans shall be appraised in the form and manner set forth in Sub-item (4)(a) through (4)(c) of this Rule. In addition, the appraisal shall be independent in that the appraiser shall not be involved in the loan transaction secured by the property being appraised and shall have no interest, financial or otherwise, in the property.

(a) The savings institution may elect to waive the requirement for an appraisal of real estate given as security for loans of fifty thousand dollars ($50,000) or less.

(b) Appraisals of real estate given as security for loans over fifty thousand dollars ($50,000), but not exceeding two hundred fifty thousand dollars ($250,000), whether directly or indirectly pledged as collateral, shall be prepared by:

(iii) A state-licensed real estate appraiser, state-certified real estate appraiser, or a person certified as a real estate appraiser by an appraisal trade organization approved by the savings institution to perform an appraisal.

(c) Appraisals prepared pursuant to Sub-item (4)(b) of this Rule shall be in writing and shall be signed and dated by the person or persons making the appraisal. The appraisal shall identify the loan transaction for which it was made; identify the current balance of any senior lien and the identity of the holder of the lien, if any; segregate values of improvements from values of the land; and describe the property so as to make it identifiable. If a professional appraisal form is used that does not include this information, the savings institution shall complete and attach to the appraisal its own appraisal summary form disclosing the required information. The appraisal shall state the basis or approach used to determine the value of the property. Acceptable approaches to determining the value of real property are:

(i) the current cost of replacing a property, less depreciation relating to deterioration from functional or economic obsolescence;

(ii) the value indicated by recent sales of comparable properties in the market and other market factors such as listings and offers to sell; or

(iii) the value that the property's net earning power will support, based on a capitalization of net income.

(d) All real estate given as security for loans in an amount over two hundred fifty thousand dollars ($250,000), whether directly or indirectly pledged as collateral, shall be appraised, and such appraisal shall be subject to the provisions of 12 C.F.R. 323.1 through 12 C.F.R. 323.7, which are hereby incorporated by reference including subsequent amendments or additions. (a) the loan is primarily secured by real property and only secondarily by the borrower's general credit-worthiness; and

(b) the amount of the loan secured by the real property is fifty thousand dollars ($50,000) or more.

(6) Stock Certificate and Stock Powers. Where stock certificates or similar negotiable securities are accepted as collateral for a loan, each certificate shall be either endorsed and witnessed or accompanied by a stock power signed and witnessed in ink. Where such collateral is in the name of someone other than the maker or endorser of the note, there shall be on file in the savings institution written authority from the collateral owner permitting the hypothecation of the collateral.

(7) Corporate Resolutions. A loan made directly to a corporation shall be supported by a certified copy of a resolution of the board of directors of the corporation authorizing the loan transaction.

(8) Partnership Declaration. A loan made directly to a partnership shall be supported by a declaration of the general partners showing the composition of the partnership, and unless all partners sign the note, the authority of the partner(s) executing the note to bind the partnership.

(9) Limited Liability Company Certification. A loan made directly to a limited liability company shall be supported by a certification of a manager thereof that the loan has been duly authorized by the limited liability company.

Proposed Effective Date: October 1, 2017

Public Hearing:
Date: July 31, 2017
Time: 12:00 p.m.
Location: NCSBE, 441 N. Harrington Street, Raleigh, NC 27603

Reason for Proposed Action:
08 NCAC 01 .0106 – Establishes standards for the Executive Director's exercise of statutory emergency authority to change election schedules. This comes in the wake of Hurricane Matthew, the need for a clearly defined processes became clear. 08 NCAC 02 .0110 – Adopts the rule followed by SBE during the In re Consolidated Election Protests hearing. Specifically, it adds Subsection (e) to clarify that canvass proceeds unless the protest involves the tabulation of ballots or the qualifications of a voters sufficient in number to change the outcome of an election. 08 NCAC 02 .0111 – This amendment largely rewrites the protest form. It would clarify the standard of review, require a certification that the facts alleged are true and accurate, and require attorneys to indicate that they represent the protestor, among other things. 08 NCAC 02 .0114 – This proposed rule would provide a process whereby the Executive Director can recommend that a protest be dismissed, which may become effective if no single Board Member raises an objection. A similar process is enacted for county boards of election. The rule is important to the expeditious review while avoiding unnecessary costs and delay associated with a hearing while ensuring due process. 08 NCAC 05 .0111 – There are very few counties with fewer than 6, 501 voters. G.S. 163-36 allows those counties to operate a modified schedule, if allowed by the State board. This new rule would set a minimum operating schedule of Monday, Wednesday, and Friday for those counties. 08 NCAC 10B .0109 - This proposed rule would codify SBE's current requirements for the organization of voting sites. The requirements are presently set out in numbered memos and other guidance. The rule sets out the organization of a voting site and describes responsibilities assigned to election officials at each station. 08 NCAC 16 .0101 – The new section clarifies the types of facilities at which appointed bipartisan assistance teams (M.A.T.) may assist voters. 08 NCAC 16 .0102 – The new section mandates that M.A.T. members cannot be CBE members or CBE employees. This responds to a circumstance raised in the last cycle and addresses concerns over conflicts of interest or apparent conflicts of interest.
08 NCAC 16 .0104 – The new sections clarify that a M.A.T. member may assist the voter to sign/mark the absentee form or to coordinate a return visit for that purpose. The revision also allows coordination between CBIs to send M.A.T. members to assist a voter who may be in a care facility outside their county of registration.

08 NCAC 18 .0101 – The proposed rule would allow a person qualified to assist a disabled voter to deposit his or her absentee ballot into the closest U.S. mail depository or mailbox.

08 NCAC 18 .0102 – The proposed rule would codify a best practice requiring that those who deliver absentee ballots to the CBE also to complete a form identifying themselves. This is to comply better with statutory requirements that specify who may return an absentee ballot to the CBE office.

08 NCAC 20 .0101 – The proposed rule would codify SBE guidance from numbered memos regarding election observers at early voting sites and precinct locations.

(a) Dismissal on the basis of one or more defects listed in
Paragraph (b) of this Rule may be entered administratively in the
manner described in Paragraphs (c) through (e) of this Rule, or by
a majority vote of the county board of elections or of the State
Board of Elections.
(b) The county board of elections shall, and the State Board of
Elections may, dismiss any matter purporting to arise under G.S.
163-182.9 on the following bases:

(1) The matter fails to contest the manner in which
votes were counted or results tabulated, or fails
to allege a violation of election law or
irregularity or misconduct sufficient to cast
doubt on the results of the election;

(2) The individual submitting the matter was
neither a registered voter eligible to participate
in the protested contest within the county nor a
candidate for nomination or election in the
protested contest;

(3) The matter was submitted after the statutory
deadline, filed on improper or incomplete
forms, or was brought in the incorrect
jurisdiction;

(4) The protest is duplicative or was made in bad
faith or for the purpose of delay;

(5) The protest filing, taking into account the
totality of the circumstances, fails to include
evidence which, if true, substantiates the
probable occurrence of an outcome-
determinative defect in the manner in which
votes were counted or results tabulated, or the
probable occurrence of an outcome-
determinative violation of election law,
irregularity, or misconduct; or

(6) The matter, including the initial filing and all
subsequent oral or written submissions, fails to
allege facts sufficient to constitute substantial
evidence of the occurrence of an
outcome-determinative violation of election
law, irregularity, or misconduct.

Nothing in this rule shall be construed to limit the State Board in
its exercise under G.S. 163-182.12.
(c) If the matter is filed with a county board of elections, the
county director of elections shall promptly review the allegations
and evidence presented in or attached to the filing. If the director
of elections finds that the filing must be dismissed pursuant to
Paragraph (b) of this Rule, the director shall transmit his or her
administrative recommendation that the matter be dismissed,
citing applicable defects and the requirements of this Rule. The
director's administrative recommendation shall be transmitted in
writing to the county board members and the executive director
of the State Board no later than two business days after the matter
was filed. The director of elections shall attempt to confirm that
the county board members have received all filings and the
director's administrative recommendation before proceeding to
issue a notice of dismissal. The executive director of the State
Board may designate an appropriate proxy authorized to receive
notices required under this Paragraph. Nothing in this Paragraph
shall delay the county board of elections in proceeding to consider
the protest required under G.S. 163-182.10. If after two calendar
days, following the transmission required under this Paragraph, neither a county board member nor the executive director of the State Board has raised any oral or written objection to the county director's recommendation for administrative dismissal, the county director shall issue a written notice of administrative dismissal to the individual(s) who has filed the matter. The notice shall:

(1) Be sent by certified mail or commercial courier such that the date of delivery may be verified, unless the recipient has agreed in writing to receive notice by electronic means.

(2) State that the matter was provided to the county board of elections members, but will not be heard by the county board.

(3) State that the matter has been dismissed administratively, citing this rule and all applicable bases listed in Paragraph (b) of this Rule.

(4) Enclose an appeal form required under Paragraph (d) of this Rule.

If within two calendar days, any county board member or the executive director of the State Board of Elections raises any oral or written objection to the recommendation for administrative dismissal by the county director, the county board of elections shall proceed to hear the matter. An objection raised under this Subparagraph shall in no way affect or limit the county board of election's authority to dismiss the matter under Paragraph (b) of this Rule or any other basis permitted by law.

(d) Individuals subject to an administrative dismissal entered by the director of elections may appeal the decision to the executive director of the State Board of Elections. All appeals brought under this Paragraph shall be in writing on a form prescribed under this Paragraph and must be received by the State Board of Elections office no later than five business days after receipt of the written notice of administrative dismissal from the county director. The State Board of Elections shall be deemed to have received the written appeal when it receives the physical form required under this Paragraph either by U.S. mail, courier service, or hand delivery. All appeals shall be made on a form that includes the following statements:

(1) I am appealing from an administrative dismissal of a matter that I filed at the [county name] Board of Elections on [date].

(2) I received an administrative notice of dismissal on [date].

(3) I have enclosed a copy of my original materials filed with the county board of elections.

YES  NO

(4) I have enclosed a copy of the written notice of administrative dismissal.

YES  NO

(5) This matter should be heard for the following reasons:

If within two business days after the receipt of an appeal, the executive director shall transmit a copy of the appeal to the State Board of Elections members along with a written statement indicating the executive director's administrative determination either to grant or to deny the appeal. If the executive director's administrative determination is to grant the appeal, the executive director shall issue written notice to the county board of elections and to the appealing party indicating that the matter is remanded to the county board of elections for a hearing. The executive director's administrative determination under this Subparagraph shall in no way affect the county board of election's authority to dismiss the matter under Paragraph (b) of this Rule or any other basis permitted by law. If the executive director's administrative determination is to deny the appeal, but any State Board of Elections member raises any oral or written objection within three calendar days, the executive director shall grant the appeal, issue written notice, and remand the matter to the county board of elections. If no State Board of Elections member raises any oral or written objection within three calendar days, the executive director shall issue a written notice to the appealing party and to the county board of elections stating that the appeal is denied. Dismissal under this Subparagraph shall be considered a final agency action for purposes of seeking judicial review.

(f) If the matter is filed directly with the State Board of Elections, the executive director of the State Board of Elections shall proceed in a manner substantially similar to that process outlined in Paragraph (b) of this Rule, including distribution to the State Board of Elections members, the opportunity to interpose an objection, and the issuance of notice, except that there shall be no right of appeal under Paragraph (d) of this Rule and that the executive director may administratively remand the matter for hearing by the county board of elections in the manner prescribed under Paragraph (e) of this Rule.

(g) The executive director of the State Board of Elections may delegate to counsel responsibilities under this Section.

08 NCAC 10B .0109 VOTING SITE UNIFORMITY

(a) Station Set-Up. All equipment and furniture in the voting enclosure shall be arranged so that it can be seen from the public space of the voting enclosure. Each voting enclosure shall contain at a minimum:

1. Check-in station, where voters may provide any required identification information and declare their intent to vote. The check-in station shall include the following:
   (A) Voter lists or pollbooks. If the voting site utilizes an electronic pollbook, the site must also maintain a backup hardcopy for use in the event of technical difficulty or disruption;
   (B) Authorization to Vote Forms and labels on Election Day or One-Stop Absentee Applications during the one-stop early voting period, and all such other supplies as may be required by the Executive Director of the State Board of Elections;
   (C) Guides, signage, and all other materials as may be required by the Executive Director of the State Board of Elections, displayed in the manner specified.

2. Ballot station, where elections officials distribute official ballots and provide ballot-marking instructions to voters who have completed required vote-authorization document(s).

3. Help station, where voters can receive assistance if there is any issue checking in the voter, pursue provisional voting, and where voter challenges shall be heard.

4. Voting stations (or “booths”) shall be situated in a manner that ensures the privacy of the voter's selections and shall be maintained in an orderly manner clear of electioneering materials and sample ballots. The number of booths shall not be fewer than a minimum number determined by the county board of elections, unless a greater number is specified by the Executive Director of the State Board of Elections.

5. Exit station, where an election official ensures ballots are appropriately placed in the tabulator or ballot box.

6. Curbside station, where qualified voters may vote curbside in accordance with Rule .0108 of this Section.

(b) Technology and Connectivity. Every voting enclosure must have access to a phone or other device, including a cell phone when service is available in the building, that facilitates communication with the county board of elections office and emergency services. The county board of elections office shall keep a record of contact information for each voting enclosure within the county and ensure all elections officials have contact information for the county board of elections office and emergency services. Elections officials shall monitor the phone or device.

(c) Check-in Station. Persons seeking to vote shall enter the voting enclosure through the appropriate entrance and present at the Check-in Station. The election official at the check-in station shall:

1. Ask the voter to state their current name. If, due to disability, a voter is unable to state his or her name, he or she may otherwise signal to the elections official, including by way of a person providing assistance or through documents. The election official shall indicate that state law requires that the voter state his or her name, subject to any applicable disability exceptions.

2. Ask the voter to state the address where he or she resided for at least 30 days as of Election Day. The election official shall indicate that state law requires that the voter state his or her
address, subject to any applicable disability exceptions.

(3) Announce the name and address of the voter and inform the voter they are required by state law to do so.

(4) If the election is a partisan primary: Ask the voter to indicate his or her party affiliation or, if the voter is unaffiliated, to state which of the available primary ballot he or she prefers;

(5) If required under State or Federal law, ask the voter to provide acceptable identification. Examine identification document presented by the voter.

(6) Search and correctly identify the voter in the pollbook or its equivalent.

(7) Make any updates or corrections to the voter's name in the voter record.

(8) Update the voter's address in the voter record (or alternately, complete documentation to make that change if the process is not automatic), if the voter has moved to a new address in the county and will have lived at the address for at least 30 days as of the date of the election.

(9) If the voter does not present acceptable identification necessary to verify the identity of a previously unverified voter:

   (A) Provide the help referral form provided by the State Board of Elections

   (B) Direct the voter to the Help Station

(10) Provide the voter with an authorization to vote document or one-stop application and ask the voter to confirm the information and sign the document. The vote-authorizing documents should be numbered sequentially to aid in the voting site's required ballot reconciliation process.

(11) Sign the authorization to vote document or one-stop application before directing the voter to the ballot station where, provided the voter is duly registered and has not been successfully challenged, the official assigned to distribute the official ballots shall hand the voter the official ballot that voter is entitled to vote, or that voter shall be directed to the voting equipment that produces the official ballot.

(12) Refer a voter who is not found to be registered or cannot be directed to the ballot station to the help station for the purpose of receiving alternate voting options.

(d) Ballot Station. The ballot station official shall accept the vote-authorizing document from the voter and review the form carefully and ensure that it is signed by the voter. For counties using paper ballots, the official shall retrieve the ballot style listed on the vote-authorizing document. If the voting site has more than one ballot style, the official must scan the barcode on the ballot style retrieved and then scan the barcode on the vote-authorizing document to ensure that the voter is issued the correct ballot.

During one-stop absentee voting, before issuing the ballot to the voter, the precinct official shall record the absentee application number on the ballot. For counties whose paper ballots are coded by style the official must record the precinct/voter tabulation district number on the ballot. The official shall sequentially number the authorization to vote document or one-stop application. Next, the precinct official shall:

1. Direct the voter to the voting equipment and provide instructions as necessary;
2. Instruct the voter to mark the ballot before placing the ballot into the tabulator;
3. Provide the voter with any technical information the voter desires as necessary to enable voting; and
4. If a voter makes a mistake and asks for a new ballot, the ballot station official shall follow procedures pursuant to Rule .0104 of this Section.

(e) Help Station. The help station is the location in the voting enclosure for discussion with voters about irregular situations including provisional voting or precinct transfers. A voter may be sent to the help station if there is some issue with the voter's registration or the voter is unable to receive a regular ballot. Each individual help station shall have:

1. A Voting Site Station Guide available and on display as directed by the State Board of Elections;
2. Supplies as specified by the State Board of Elections; and
3. At least one voting booth set up at or near the station for provisional voters to mark their ballots.

(f) Exit Station. An election official shall be posted at the exit point of a voting enclosure where paper ballots are used and shall ensure only official ballots are deposited into the tabulator or ballot box. The exit station official shall ensure that no provisional ballots are placed in the ballot box and that voters do not leave the voting enclosure with a ballot.

(g) Curbside Station. Every voting site in the state shall have an area where qualified voters may vote curbside in accordance with Rule .0108 of this Section.

(b) For every primary or election listed in Paragraph (a) of this Rule, the Team shall be made available in each county to assist patients and residents in every covered facility in that county in requesting or casting absentee ballots as provided by Subchapter VII of Chapter 163 of the General Statutes. For the purposes of this Chapter Rule, a "covered facility" is any facility hospital, clinic, nursing home, or rest home that provides residential or in-

(b) If a facility, or a patient or resident of a facility, requests a visit by the Team, the County Board of Elections shall notify the Team and schedule the visit(s) within seven calendar days if it is able to do so. If the county Board of Elections is unable to schedule the visit within seven calendar days, the voter may obtain such assistance from any person other than:

None of the persons listed in Subparagraphs (1) through (4) of this Paragraph may sign the application or certificate as a witness for the patient.

(c) On a facility visit, the composition of the visiting Team members shall comply with the requirements of Rule .0102(a)(1) or (a)(2) of this Section.

(d) All Team members shall remain within the immediate presence of each other while visiting or assisting patients or residents.

(e) At each facility visit, the Team shall provide the following assistance to patients or residents who request it:

(1) Assistance in requesting a mail-in absentee ballot: The Team shall collect any request forms submitted by voters and deliver those request forms immediately to the County Board of Elections office upon leaving the facility. Upon the voter’s request, the Team may also:

(B) Coordinate a return visit to assist the voter in completing the absentee ballot.

(2) Assistance in casting a mail-in absentee ballot: Before providing assistance in voting by mail-in absentee ballot, a Team member shall be in the immediate presence of another Team member whose registration is not affiliated with the same political party. Team members shall sign the return envelope as witnesses to the marking of the mail-in absentee ballot. If the Team members provide assistance in marking the mail-in absentee ballot, the Team members shall also sign the voter’s return envelope to indicate that they provided assistance in marking the ballot.

(f) The Team shall make and keep a record containing the names of all voters who received assistance or cast an absentee ballot during a visit as directed by the County Board of Elections.
Elections, elections, and submit that record to the County Board of Elections.

Any individual who assists in the manner described in this Rule shall indicate that he or she assisted the voter by marking the space provided for assistants on the return envelope containing the executed absentee ballot. Reliance on this Rule shall be limited to cases in which a voter is unable to place the ballot into the mail due to his or her disability. This Rule is adopted in accord with Title II of the Americans with Disabilities Act of 1990, which provides that “no qualified individual with a disability shall, by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of a public entity, or be subjected to discrimination by any such entity.”

21 NCAC 02 .0206 REQUIREMENT FOR AND USE OF PROFESSIONAL SEAL

(a) As more fully set out in this Rule, an architect must seal his/her work whether or not the work is for an exempt project as defined in North Carolina General Statute 83A-13. An architect shall not sign nor seal drawings, specifications, reports or other professional work which were not prepared by the architect or under his/her responsible control. Documents shall be sealed as follows:

(1) An architect may sign or seal those portions of the professional work that:
   (A) were prepared by or under the responsible control of persons who are registered architects in this state if the architect has reviewed in whole or in part such portions and has either coordinated their preparation or integrated them into his or her work; and
   (B) are not required by law to be prepared by or under the responsible control of an architect if the architect has reviewed and adopted in whole or in part such portions and has integrated them into his or her work.

(2) Individual Seal Design shall be as follows:

Every licensed architect shall have an individual seal which shall be composed of two concentric circles with outer and inner circle diameters of approximately 1.5 inches and 1 inch respectively. The architect's name and primary place of business shall be between the inner and outer circles. The words "Registered Architect, North Carolina" shall be along the inside perimeter of the inner circle. The architect's North Carolina registration number shall be in the center of the inner circle. The original signature of the individual named on the seal and date is a required part of an individual seal and a seal image lacking said signature and date is incomplete and shall not be considered a "seal" for purposes of these Rules. (See facsimile on Board web site.)

(A) The seal may be a rubber stamp, embossed seal, computer-generated seal, or other facsimile that becomes a permanent addition to original drawings or sets of specifications for use in this State. For the purposes of this Rule, the term "for use in this State" means drawings and sets of specifications prepared for bidding, procurement, permitting or for construction. For purposes of this Rule, "original" means the version of drawings and sets of specifications from which all lawful copies can be made.

(B) The standard design of the seal shall be two concentric circles in which "North Carolina" and the name of the licensee are placed within the outermost circle and in which the license number of the licensee and "Registered Architect" placed within the innermost circle. The size shall be 1 1/2 to 1 3/4 inches in diameter.

(C) The original, handwritten, signature of the individual named on the seal shall be considered part of an individual seal and shall appear across the face of
each original seal imprint along with the date of affixation.

(3) Firm Seal Design shall be as follows: Design. Every firm shall have a firm seal, which shall be composed of two concentric circles with outer and inner circle diameters of approximately 1.5 inches and 1 inch respectively. The Architectural Firm's approved North Carolina name and place of business shall be between the inner and outer circles. Seals shall be made as follows:

(A) The seal may be a rubber stamp, embossed seal, computer-generated seal, or other facsimile that becomes a permanent addition to drawings or sets of specifications. The design of the seal shall be two concentric circles in which the Architectural Firm's approved name and "North Carolina" shall be between the inner and outer circles and the firm's license registration number is placed within the innermost circle. The size shall be 1 1/2 to 1 3/4 inches in diameter. For a Professional Corporation the words "Registered Architectural Corporation, North Carolina" shall be along the inside perimeter of the inner circle. The firm's North Carolina registration number shall be in the center of the inner circle. (See facsimile on Board web site.)

(B) For a Professional Corporation the words "Registered Architectural Corporation, North Carolina" shall be along the inside perimeter of the inner circle. (See facsimile on Board web site.) For a Professional Limited Liability Company the words "Registered Architectural Company" shall be along the inside perimeter of the inner circle. The firm's North Carolina registration number shall be in the center of the inner circle. (See facsimile on the Board web site.)

A sole proprietorship is not required to have a firm seal and shall seal all work with the individual seal as set forth in Subparagraph (2) of this Paragraph.

(4) Seal Types. The seal required for use on original technical submissions not intended for duplication shall be of a type which will produce an impression facsimile of the seal, or a rubber stamp which will produce an ink facsimile of the seal. The seal required for use on original technical submissions intended for duplication shall be of a type which will produce an ink facsimile of the seal such as a rubber stamp, or a substantially similar electronic or digital representation of the design. The use of pre-printed documents bearing a pre-printed facsimile of the signed and dated seal is prohibited.

(5) Individual Seal, Signature and Date Required. Architects shall affix their seal on one original of all their drawings and sets of specifications prepared by them for use in this State as follows:

(A) on the cover sheet of each design and on each drawing prepared by the architect for the design;

(B) on the index page identifying each set of specifications; and

(C) on the index page of all other technical submissions. For the purposes of this Rule, technical submissions refer to plans, drawings, specifications, studies, addenda and other technical reports prepared for use in this state in the course of practicing architecture.

The original signature of the individual named on the seal shall be considered part of an individual seal and shall appear across the face of each original seal imprint along with the date of affixation. For the purposes of this Rule, the term "for use in this State" means drawings and sets of specifications prepared for bidding, procurement, permitting or for construction. For purposes of this Rule, "original" means the version of drawings and sets of specifications from which all lawful copies can be made. Presentation documents (renderings, drawings used to communicate conceptual information only) shall not be sealed or signed.

(6) The seal required for use on original technical submissions prepared by licensed professional consultants (for example, structural, mechanical or electrical engineers) retained by the architect shall bear the seal and registration number of the consultant responsible therefore and shall not be sealed by the architect.

(7) Documents considered incomplete by the architect may be released for interim review without the architect's seal or signature affixed, but shall be dated, bear the architect’s name and be conspicuously marked to indicate the documents are for interim review and not intended for bidding, procurement, permit, or construction purposes.

(8) Sheets or Pages Prepared By Licensed Professional Consultants. Those sheets or pages prepared by licensed professional consultants (for example, structural, mechanical or electrical engineers) retained by the architect shall bear the seal and registration number of the consultant responsible therefore and shall not be sealed by the architect.

(9) Original Signature. The use of signature reproductions such as rubber stamps, computer generated or other facsimiles are not permitted in lieu of actual handwritten and hand dated signatures; provided, however, a digital signature as defined in Paragraph (e) of this Rule may be used in lieu of a handwritten signature and handwritten date.
(10) Authorized. The use of the prescribed seal is an individual act whereby the architect must personally sign over the imprint of the seal. By sealing documents for use in this State an architect is representing that he/she as in responsible control over the content of such documents and has applied the required professional standard of care. The architect is responsible for security of the seal when not in use.

(11) Use of Firm Seal. The use of the firm seal does not replace the statutory requirement for an architect's individual seal as required in Paragraph (d). The firm seal must be affixed in addition to the individual seal on the cover sheet.

(b) Standard design. Prototypical Building design documents prepared by architects who are registered in this state or in their state of origin may be sealed by a succeeding licensed architect registered in North Carolina provided:

I have determined that they comply with existing local North Carolina codes, and I assume responsibility for the adequacy of the design for the specific application in North Carolina."

(c) Post Construction record drawings prepared by an architect, but based upon representations of contractors, are not plans that are for "bidding, procurement, permit or construction purposes" and therefore shall not be sealed by the architect as long as the documents bear the name of the architect and include language stating "these drawings are based in part upon the representations of others and are not for bidding, procurement, permit or construction purposes".

(d) Responsible Control. No architect shall affix his/her seal and signature to contract documents developed by others not under his responsible control. Responsible control includes that amount of control over and detailed professional knowledge of the content of technical submissions during their preparation as is ordinarily exercised by an architect applying the required professional standard of care, including:

(1) Dissemination of programmatic requirements;

(2) Ongoing coordination and correlation of services with other aspects of the total design of the project;

(3) Verification with consultant that owner's requirements are being met;

TITLE 02 - DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES

02 NCAC 09C .0507 PROCESSES AND CONTROLS

(a) Raw materials

(1) Upon receipt, fresh fish shall be inspected and washed before processing. Only fish free from adulteration and organoleptically detectable spoilage shall be processed.

(2) Upon receipt, every lot of fish that has been partially processed in another plant, including frozen fish, shall be inspected, and only fish free from adulteration and organoleptically detectable spoilage shall be processed.

(3) Fresh or partially processed fish, except those to be immediately processed, shall be iced or otherwise refrigerated to an internal temperature of 38 degrees fahrenheit or below upon receipt and shall be maintained at 38 degrees fahrenheit until the fish are to be processed.

(4) All fish received in a frozen state shall be either thawed promptly and processed, or stored at a temperature that will maintain it in a frozen state.

(b) Defrosting of frozen fish

(1) Defrosting shall be carried out in a sanitary manner and by such methods that the wholesomeness of the fish is not adversely affected. Frozen fish shall be defrosted:

(A) in air at 45 degrees fahrenheit or below until other than hard frozen; or

(B) in air so that the temperature in any part of the fish does not exceed 45 degrees fahrenheit; or

(C) in a continuous water-overflow thaw tank or spray system in such a manner that the temperature in any part of the fish does not exceed 45 degrees fahrenheit.

(2) When a thaw tank is used, fish shall not remain in the tank longer than one-half hour after they are completely defrosted.

(3) Fish entering the thaw tanks shall be free of exterior packaging material and free of liner material.

(4) After thawing, fish shall be washed with a water spray or a continuous workflow system.

(c) Presmoking operation

(1) Evisceration of fish shall be performed with minimum disturbance of intestinal tract contents.

(2) After evisceration, the fish (including the body cavity) shall be washed with a water spray or a continuous workflow system.

(3) All fish shall be dry-salted at a temperature not to exceed 38 degrees fahrenheit throughout the

(d) Heating, cooking, smoking operation

(1) A point-sensitive, continuous temperature-recording device shall be used to monitor both the internal temperature of the fish and the ambient temperature within the oven. Each recording-device record shall be identified as to the specific oven load and date processed.

(2) Hot-process smoked or hot-process smoke-flavored fish shall be heated by a controlled heat process that provides a monitoring system positioned in as many locations in the oven as necessary to assure a continuous temperature throughout each fish.

(3) The process selected by the processor shall be at least equivalent to a process established by a competent processing authority to achieve a safe product.

(e) Packing

(1) The finished product shall be handled only with clean, sanitized hands, gloves, or utensils.

(2) Manual manipulation of the finished product shall be kept to a minimum.

(3) The finished product shall be cooled to a temperature of 50 degrees fahrenheit or below within three hours after cooking and further cooled to a temperature of 38 degrees fahrenheit or below within 12 hours after cooking, and 38 degrees fahrenheit shall be maintained during all subsequent storage and distribution.

(4) The shipping containers, retail packages, and shipping records shall indicate by appropriate labeling the perishable nature of the product and shall specify that the product shall be...
(5) Permanently legible code marks shall be placed on the outer layer of every finished product package and master carton. Such marks shall identify the plant where packed, the date of packing, and the oven load. Records shall be so maintained as to provide positive identification; of the process procedures used for the manufacture of hot-process smoked or hot-process smoke-flavored fish; and of the distribution of the finished product.

(f) Testing. Microbiological and chemical examination of in-line and finished product samples shall be conducted with sufficient frequency to assure that processing steps and sanitary procedures are adequate.

02 NCAC 09C .0703 SOURCE APPROVAL

(a) If the proposed source is from an existing approved public water supply system, the provisions of Paragraphs (b), (c), and (d) of this Rule shall not apply.

(b) If the proposed source is a well, the provisions of 15A NCAC 18C, Rules Governing Public Water Supplies, shall apply. Copies are available upon request from the Public Water Supply Section.

(c) If the proposed source is a spring, source approval is reviewed in a two step process. The first step is approval of the spring site. A representative of the Department of Environmental Quality shall conduct an initial site investigation. Consideration shall be given to spring location, potential for surface water influence, hydrological and geological features, proximity of potential sources of pollution, and site ownership and control.

(1) If the investigation reveals influence by surface water or other factors which render the site unsuitable for development as a safe water source, the investigation shall be terminated.

(2) If the investigation does not reveal influence by surface waters, and all other factors as set forth in this Rule are considered satisfactory for site development, the provisions of Paragraph (d) of this Rule shall apply.

(3) If the investigation reveals factors set forth in this Rule which warrant further investigation, the Department of Environmental Quality may require, as a condition for continued investigation, evaluation of the site or specific factors influencing the site by a geologist or engineer licensed to practice in North Carolina. If the Department of Environmental Quality determines that the investigation and report illustrate that the questionable factors do not hinder the suitability of the site to produce a safe water source, the provisions of Paragraph (d) of this Rule shall apply.

(d) In the second step of the spring investigation, spring water shall be sampled and data collected to determine the capability of source water to meet current North Carolina drinking water quality standards under the most severe anticipated environmental conditions. The following requirements shall apply to the water sampling and data collection process:

(1) Sampling and data collection shall be conducted by the spring owner or his representative for the following parameters:

- Flow in gallons per minute (on-site measurement);
- Precipitation in inches (on-site measurement);
- Temperature (on-site measurement);
- pH;
- Conductivity;
- Turbidity;
- Coliform bacteria; and
- Microscopic analysis for organic debris, larvae, animal or insect parts, algae, diatoms, rotifers, coccidia and giardia cysts.

(2) The minimum sampling and data collection period shall be six consecutive months. The period shall also include a minimum of two storm events (two or more inches of rainfall in a 24-hour period). It is the owner's responsibility to monitor rainfall in the vicinity of the spring site.

(3) Water samples for parameters (1)(A) through (1)(F) of this Paragraph shall be collected and analyzed within 24 hours and then twice a week for two weeks. Water samples for parameter (1)(G) of this Paragraph shall be collected and analyzed at least monthly and an additional sample shall be collected and analyzed within 24 hours after each storm event. Water samples for parameter (1)(H) of this Paragraph shall be collected and analyzed at least weekly on the same day of the week before a storm event occurs. After a storm event occurs, water samples for parameters (1)(A) through (1)(F) of this Paragraph shall be collected and analyzed within 24 hours and then twice a week for two weeks. Water samples for parameter (1)(G) of this Paragraph shall be collected and analyzed at least monthly and an additional sample shall be collected and analyzed within 24 hours after each storm event. Water samples for parameter (1)(H) of this Paragraph shall be conducted during the first month of the sampling period, and at least one of the samples shall be collected within 24 hours of a storm event.

(4) The owner may develop or begin to develop a spring before beginning the process of sample collection and analysis. Unfavorable sample results shall not be discounted on the basis of inadequate spring development at the time of sample collection. If the owner intends to develop the spring in its final form before monitoring, he shall complete the requirements of Paragraph (e) of this Rule prior to construction.
(5) Water sample collection and analysis shall be conducted in accordance with the recommendations of the current edition of "Standard Methods for the Examination of Water and Wastewater" which is adopted by reference at 02 NCAC 09B .0116(n), including subsequent amendments and editions. Water sample analyses for parameters (1)(D) through (1)(H) of this paragraph shall be conducted by a laboratory certified by the State of North Carolina. All measurements and sample results (with attached laboratory analysis reports) shall be kept in a tabular form and submitted to the Department of Environmental Quality at the end of the monitoring period. Upon review of the data, sample results and sample analysis, the Department of Environmental Quality shall determine the capability of the source to meet current North Carolina drinking water quality standard. If the water source is determined to be unsatisfactory, the investigation shall be terminated. If the source is determined to be satisfactory, the provisions of Paragraph (e) of this Rule shall apply.

CPA's work products are deliverables set forth in the terms of the engagement, such as tax returns.

(d) Once a CPA has complied with these requirements, he or she shall not be under any further ethical obligation to:

2. provide the requested records in any format usable by the client. The CPA is not required to convert records that are not in electronic format to electronic format. If the client requests records in a specific format and the records are available in such format within the CPA's custody and control, the client's request should be honored. In addition, the CPA is not required to provide the client with formulas, unless the formulas support the client's underlying accounting or other records or the CPA was engaged to provide such formulas as part of a completed work product; and

3. make and retain copies of any records that the CPA returned or provided to the client.
