I would like to object to this proposed temporary rule because I believe The North Carolina Wildlife did not follow the proper steps.

1 They put out the public notice on 5-12-21 for the hearing on 5-13-21 that I was on and I pointed this out and on the morning on 5-18-21 the notice was gone from the site.

2 It states that the department has to notify all interested parties and of the 29 people I know that submitted letters for Legislative review have not been notified.

3 Then on 6-4-21 Wildlife put out a notice for a Special Special Meeting on Chronic Wasting Disease and never said they would vote on the Temporary Rule.

4 On the first online comment the vote was 224 Against and 109 For the rule. They didn't put out the number for the comments for 5-13-21 meeting but there was 6 comments against and none for.

5 On the meeting agenda page 14 at the bottom it said One public hearing was held May 19 2021 where 24 people in attendance that is not correct it was on 5-13-21

I feel the wildlife is being vindictive and unjust if this needed to be a temporary rule they would have filled it last year when it started and with all the shady things I am listing and I have screen shots and print outs to back up .

If this goes through I can assure you this will go to the court system!!!

Thank you
Travis Narron

- 1 The Proposed Rules were put out in the Wildlife Proposed Regulation site and on their Latest News site on 5-4-21 but this not meet the criteria of a PUBLIC NOTICE which was posted one day before the Hearing and Rule say must give 5 days Notice.
- 2 The Legislative Review letter must have name and address for a reason and Rule says ALL INTERESTED PARTIES Must be Notified not Heads or Leads If Wildlife sent out 2550 emails to the heads and leads how many individuals did not get Notified.
- 3 The 6-4-21 Notice for the 6-9-21 Special Special Hearing on Chronic Wasting said nothing of any other business during that meeting But the Agency voted on the Temporary Rule and passed while no one was watching had to go to the minutes of the meeting to see.
- 4 If this Rule had 2550 interested Heads and Lead I this we Have a Right to Know the total count for and against this Rule.
- 5 As for the Typo as the agency calls it and all the other irregularities of this Whole process if I as a mechanic for the city can find all these things that don't look Right I wonder what a Real Attorney will find. Looks like we will just have to see.
