

REQUEST FOR TECHNICAL CHANGE

AGENCY: Department of Transportation, Division of Motor Vehicles

RULE CITATION: 19A NCAC 03B .0801

DEADLINE FOR RECEIPT: Wednesday, October 13, 2021

NOTE: This request when viewed on computer extends several pages. Please be sure you have reached the end of the document.

The Rules Review Commission staff has completed its review of this Rule prior to the Commission's next meeting. The Commission has not yet reviewed this Rule and therefore there has not been a determination as to whether the Rule will be approved. You may call our office to inquire concerning the staff recommendation.

In reviewing this Rule, the staff recommends the following technical changes be made:

Overall, what is the intent of this Rule and when is it applicable? I note that G.S. 20-37.13(a) says "for the purpose of skills testing and determining commercial drivers license classification, only the manufacturer's GVWR shall be used." So, assuming that this Rule is applicable to the commercial drivers license classifications, is this Rule necessary? If so, this Rule appears to provide other options (as in the registered weight or actual weight) and appears to potentially conflict with statute.

Please revise the first sentence of line 5 to be a complete sentence. This may aid in the clarity of this Rule.

On line 6, what is a "combination vehicle"?

Please add any relevant additional authority to the History Note.

Please retype the rule accordingly and resubmit it to our office at 1711 New Hope Church Road, Raleigh, North Carolina 27609.
