Primary nursery areas are those areas in the estuarine system where initial post-larval development takes place. These are areas where populations are uniformly early juveniles. Secondary nursery areas are those areas in the estuarine system where later juvenile development takes place. Populations are composed of developing sub-adults of similar size that have migrated from an upstream primary nursery area to the secondary nursery area located in the middle portion of the estuarine system.
(g) **Shellfish producing habitats.** Historic "Shellfish producing habitats" means historic or existing areas that shellfish, such as clams, oysters, scallops, mussels, and whelks use to reproduce and survive because of such favorable conditions as bottom type, salinity, currents, cover, and cultch. These areas may be identified by the presence of above-ground leaves, below-ground rhizomes, or reproductive structures associated with one or more SAV species and include the sediment within these areas; or

(ii) have been vegetated by one or more of the species identified in Sub-item (4)(i)(i) of this Rule within the past 10 annual growing seasons and that meet the average physical requirements of water depth (six feet or less), average light availability (secchi depth of one foot or more), and limited wave exposure that characterize the environment suitable for growth of SAV. The past presence of SAV may be demonstrated by aerial photography, SAV survey, map, or other documentation. An extension of the past 10 annual growing seasons criteria may be considered when average environmental conditions are altered by drought, rainfall, or storm force winds.

This habitat occurs in both subtidal and intertidal zones and may occur in isolated patches or cover extensive areas. In defining SAV habitat, the Marine Fisheries Commission recognizes the Aquatic Weed Control Act of 1991 (G.S. 113A-220 et. seq.) and does not intend the submerged aquatic vegetation definition, or this Rule or Rules 03K 0304.15A NCAC 03K .0304 and .0404, to apply to or conflict with the non-development control activities authorized by that Act.

(a) All requests for a declaratory ruling shall be filed submitted in writing with the Director of the Marine Fisheries Commission Chair and addressed to the Marine Fisheries Commission Office, Division of Marine Fisheries, Department of Environment and Natural Resources (DENR), 3441 Arendell Street, P.O. Box 769, Morehead City, North Carolina 28557.

(b) All requests shall include the following:

(1) the aggrieved person's name and address;
(2) the rule, statute, or order upon which a ruling is desired;
(3) a concise statement as to whether the request is for a ruling on:
   (A) the validity of a rule or rule;
   (B) the applicability of a rule, order or statute to a given factual situation; or
   (C) a conflict or inconsistency within the Commission or the Department of Environmental Quality regarding interpretation of a law or rule adopted by the Commission;
(4) arguments or data which demonstrate that the petitioner is aggrieved by the rule or statute or its potential application to him; the petitioner;
(5) a statement of the consequences of a failure to issue a declaratory ruling in favor of the petitioner;
(6) a draft of the proposed ruling; and
(7) a statement of whether an oral argument is desired, and, if so, the reasons for requesting such an oral argument.

(b)(c) A request for a ruling on the validity of a Commission rule shall state the petitioner's reasons for questioning the validity of the rule and a brief or legal memorandum supporting the petitioner's position. A request for a ruling on the applicability of a rule, order, or statute must include a description of the statement of the specific facts to a given factual situation on which the ruling is to be based and documentation supporting those facts. A request for a ruling on the validity of a Commission rule must state the aggrieved person's reasons for questioning the validity of the rule. A request for a ruling to resolve a conflict or inconsistency within the Commission or the Department regarding interpretation of a law or rule adopted by the Commission shall include a written description identifying the conflict or inconsistency, the interpretation provided by the agency, and the law or rule in question. A person may ask for both multiple types of declaratory rulings in a single request. A request for a ruling must include or be accompanied by:

(1) a statement of the facts proposed for adoption by the Commission; and
(2) a draft of the proposed ruling.

(d) In the manner provided in G.S. 150B-23(d), any other person may request to intervene in the request for declaratory ruling. The request to intervene shall be determined by the Commission Chair.

(e) Before deciding the merits of the request, the Commission may:
(1) request additional written submissions from petitioner(s);
(2) request a written response from the Division staff or any other person; or
(3) hear oral argument from the petitioner(s) and Division staff.

(d) Unless the Division waives the opportunity to be heard, it shall be a party to any request for declaratory ruling. Upon written request, the requesting party and the Division may each be allowed to present oral arguments to the Commission at a regularly scheduled meeting. Neither party may offer testimony or conduct cross-examination before the Commission. The declaratory ruling shall be determined on the basis of the statement of facts submitted by the parties.

(e) Whenever the Commission believes "for good cause" that the issuance of a declaratory ruling is undesirable, the Commission may refuse to issue such ruling. The Commission shall notify in writing the person requesting the ruling, stating the reasons for the refusal to issue a ruling on the request.

(f) For purposes of Paragraph (e) of this Rule, the Commission shall ordinarily refuse to issue a ruling on a request for declaratory ruling on finding that:

(1) the petitioner(s) and the Division cannot agree on a set of facts sufficient to support a meaningful ruling;
(2) there has been a similar determination in a previous contested case or declaratory ruling;
(3) the matter is the subject of a pending contested case hearing or litigation in any North Carolina or federal court; or
(4) no genuine controversy exists as to the application of a statute or rule to the factual situation presented.

(g) The Commission shall keep a record of each declaratory ruling, which shall include at a minimum the following items:

(1) the request for a ruling;
(2) any written submissions by the parties;
(3) the statement of facts on which the ruling was based;

(5) any other matter considered by the Commission in making the decision; and
(6) the declaratory ruling, or the decision to refuse to issue a declaratory ruling, together with the reasons therefore.

(h) A declaratory ruling is binding on the Commission and the person requesting it unless it is altered or set aside by the court. The Commission may not retroactively change a declaratory ruling, but nothing in this Section prevents the Commission from prospectively changing a ruling.

(i) Unless the requesting party consents to the delay, failure of the Commission to issue a ruling on the merits or deny the request within 60 days of receipt of the request for such ruling shall constitute a denial of the request as well as a denial of the merits of the request and shall be subject to judicial review.
