How North Carolina Ranks

Introduction

The information in this report provides a snapshot of North Carolina in relation to other states.

From the *Statistical Abstract of the United States* presentation of data about the nation and states, the State Data Center in the North Carolina Office of State Budget and Management selected data items and calculated North Carolina's rank among the states and the District of Columbia. While the U.S. Census Bureau discontinued the *Statistical Abstract of the United States* in 2012, the State Data Center continues to update the How North Carolina Ranks document by researching data sources formerly cited in the *Statistical Abstract*.

Data items are shown in twelve major topic areas for North Carolina, the United States, and North Carolina's rank. When North Carolina is tied with one or more states or the District of Columbia, the rank shown is shared by all the states with that same data value.

Data users may explore other years of historical data and produce their own rankings by using the State Comparisons database created by the State Data Center. Clicking the name of any data item in the report takes the user directly to the database for viewing additional information on that item.

The definitions provided in this document come directly from the state comparisons database and may refer to years of historical data that do not appear here.

For comments and suggestions regarding this publication, please e-mail the State Data Center at sdc@osbm.nc.gov.

* The Dropout Rate for Grades 1-12 comes directly from the National Center for Education Statistics.

[Map showing 50 states ranked from 1 to 50 by gasoline tax rate, with North Carolina marked.]
POPULATION AND HOUSING

Total Population

Resident Population (000)
Total resident population of the area as counted on April 1 in decennial census years and as estimated for July 1 of intercensal years. Data are shown for present area of state. Data for 1980 show corrected population counts for the nation but not for states. The 1990 data show corrections processed through August 1997 and results of special censuses. The 2000 data reflect modifications to the Census 2000 population as documented in the Count Question Resolution program, updates to the Boundary and Annexation Survey, and geographic program revisions. Data from U.S. Census Bureau, Current Population Reports, P25-1106; “Table CO-EST2001-12-00 - Time Series of Intercensal State Population Estimates: April 1, 1990 to April 1, 2000” (published 11 April 2002); and “Table 1: Annual Estimates of the Resident Population for the United States, Regions, and States, and for Puerto Rico: April 1, 2000 to July 1, 2008 (NST-EST2008-01)” (published 22 December 2008). See http://www.census.gov/popest/estimates.html.

Population Per Square Mile Land Area

Pct of Population Classified as Urban
Percent of total resident population classified as living in urban areas. The definition of urban requires consideration of the density of population in very small geographic areas, so it is only measured at the time of the decennial census. While the definition of urban population is complex, it generally involves persons living in densely settled areas. The definition of urban population has been modified over time. For Census 2000, the Census Bureau classified “urban” as population located within densely settled territory, defined as core census block groups or blocks that have a population density of at least 1,000 people per square mile and surrounding census blocks that have an overall density of at least 500 people per square mile. In addition, under certain conditions, less densely settled territory may be considered urban. Data from U.S. Census Bureau, “Census of Population and Housing, Population and Housing Unit Counts” and “Census Summary File 1 Final National File.”
How North Carolina Ranks

Definitions

Pct of Population in Core-Based Areas
Percent of total resident population that is living in areas classified as core-based statistical areas. 2000 as of April 1; 2008 as of July 1. Covers core-based statistical areas (metropolitan and micropolitan statistical areas) as defined by the U.S. Office of Management and Budget as of November 2007. All geographic boundaries for 2000 to 2008 population estimates are defined as of January 1, 2008. An entire county is classified as either metropolitan or non-metropolitan. This concept is very different from urban/rural. Data for 1990 are from US Census Bureau, "1990 Census of Population and Housing Unit Counts, CPH-2-1." Data for 2000, 2005 and 2006 "Annual Estimates of the Population for Counties: April 1, 2000 to July 1, 2006" (CO-EST2006-01); published 22 March 2007; http://www.census.gov/popest/counties/CO-EST2006-01.html\ and 2000 Census of Population and Housing, Population and Housing Unit Counts PHC-1. Data for 2008 are from U.S. Census Bureau, "Metropolitan and Micropolitan Statistical Area Estimates Population and Population Change by CBSA Status" (published 19 March 2009); and unpublished data. See http://www.census.gov/popest/estimates.html.

Migration

Immigrants from Other Countries Admitted
Immigrants to the United States are aliens admitted for legal permanent residence in the United States. Data are for year ending September 30. Immigration statistics are prepared from entry visas and change of immigration status forms and are published annually by the U.S. Department of Homeland Security, Office of Immigration Statistics. The category, immigrant, includes persons who may have entered the US as nonimmigrants or refugees, but who subsequently changed their status to that of a permanent resident. The US totals include Guam, Puerto Rico, Northern Mariana Islands, Virgin Islands, Armed Services posts, and other or unknown areas not shown separately. Data from U.S. Department of Homeland Security, Office of Immigration Statistics "Yearbook of Immigration Statistics." See http://www.dhs.gov/ximqtn/statistics/publications/yearbook.shtm .

Age, Race, Sex

Pct of Population Under 5 Years
Percent of the counted or estimated total resident population that is under 5 years of age, that is, ages 0-4. Often used as a proxy for percent "preschool children". Data for census years are counts as of April 1; data for other years are as of July 1. Data from U.S. Census Bureau, "Annual Estimates of the Resident Population by Sex and Age for States and for Puerto Rico: April 1, 2000 to July 1, 2008" (released May 14, 2009). See http://www.census.gov/popest/states/asrh/SC-EST2008-02.html.

Pct of Population Aged 5-17
Percent of the counted or estimated total resident population that is aged 5-17. Often used as a proxy for percent "school-age children". Data for census years are counts as of April 1; data for other years are as of July 1. Data from U.S. Census Bureau, "Annual Estimates of the Resident Population by Sex and Age for States and for Puerto Rico: April 1, 2000 to July 1, 2008" (released May 14, 2009). See http://www.census.gov/popest/states/asrh/SC-EST2008-02.html .

Population Age Under 18
A count or estimate of the resident population under age 18, that is, ages 0-17. Often used as a proxy for "children". Data for census years are counts as of April 1; data for other years are as of July
How North Carolina Ranks

Definitions

Pct of Population Aged 18-24

Percent of the counted or estimated total resident population that is aged 18-24. Often used as a proxy for percent "college-age population". Data for census years are counts as of April 1; data for other years are as of July 1. Data from U.S Census Bureau, "Annual Estimates of the Resident Population by Sex and Age for States and for Puerto Rico: April 1, 2000 to July 1, 2008" (released May 14, 2009). See http://www.census.gov/popest/states/asrh/SC-EST2008-02.html.

Pct of Population Aged 25-64

Percent of the counted or estimated total resident population that is aged 25-64. This group added to the percent of population between 18 and 24 is often used as a proxy for percent "working-age population". Data for census years are counts as of April 1; data for other years are as of July 1. Data from "Annual Estimates of the Resident Population by Sex and Age for States and for Puerto Rico: April 1, 2000 to July 1, 2008" (released May 14, 2009). See http://www.census.gov/popest/states/asrh/SC-EST2008-02.html.

Pct of Population Aged 65 or Older

Percent of the counted or estimated total resident population that is aged 65 or older. Often used as a proxy for percent "elderly". Data for census years are counts as of April 1; data for other years are as of July 1. Data from U.S Census Bureau, "Annual Estimates of the Resident Population by Sex and Age for States and for Puerto Rico: April 1, 2000 to July 1, 2008" (released May 14, 2009). See http://www.census.gov/popest/states/asrh/SC-EST2008-02.html.

Pct of Population White

Percent of the population designated as being White alone (i.e, multiple races not specified), regardless of Hispanic origin status. The White population is a count of the resident population self-identified as White. Data for census year are counts as of April 1, and data for other years are as of July 1. Includes Armed Forces stationed in area.

The US Office of Management and Budget redefined racial categories prior to the 2000 census and gave individuals the opportunity to specify multiple races. Before the 2000 census, "White" was selected by those persons who considered themselves to be White; individuals were not given the opportunity to select multiple races. With the 2000 census and following, "White alone" was selected by those persons who considered themselves to be White and did not designate a second racial category even though selection of multiple races was allowed. It is not appropriate to compare tabulations by race prior to and after the 2000 census.

### How North Carolina Ranks

#### Definitions

**Pct of Population White, Non-Hispanic**

Percent of the population designated as being White alone, non-Hispanic (i.e., multiple races not specified). The White alone, non-Hispanic population is a count of the resident population self-identified as White only, non-Hispanic or Latino. Data for census year are counts as of April 1, and data for other years are as of July 1. Hispanic origin is considered an ethnicity, and not a racial category. Persons of Hispanic origin may be of any race.

The US Office of Management and Budget redefined racial categories prior to the 2000 census and gave individuals the opportunity to specify multiple races. Before the 2000 census, “White” was selected by those persons who considered themselves to be White; individuals were not given the opportunity to select multiple races. With the 2000 census and following, “White alone” was selected by those persons who considered themselves to be White and who did not designate a second racial category even though selection of multiple races was allowed. It is not appropriate to compare tabulations by race prior to and after the 2000 census.

**Pct of Population Black**

Percent of the population designated as being Black or African American alone (i.e., multiple races not specified), regardless of Hispanic origin status. The Black or African American population is a count of the resident population self-identified as Black or African American. Data for census year are counts as of April 1, and data for other years are as of July 1. Includes Armed Forces stationed in the area.

The US Office of Management and Budget redefined racial categories prior to the 2000 census and gave individuals the opportunity to specify multiple races. Before the 2000 census, “Black” was selected by those persons who considered themselves to be Black and who were not given the opportunity to select multiple races. With the 2000 census and following, "Black only" was selected by those persons who considered themselves to be Black and who did not designate a second racial category. Hispanic origin is considered an ethnicity, and not a racial category. It is not appropriate to compare tabulations by race prior to and after the 2000 census.

**Pct of Population Hispanic**

Percent of the total population designated as being of Hispanic or Latino origin. A count of the resident population self-identified as being of Hispanic or Latino origin. Data for census year are counts as of April 1, and data for other years are as of July 1. Hispanic origin is considered an ethnicity, and not a racial category. Persons of Hispanic or Latino origin may be of any race. Data from U.S. Census Bureau, "Demographic Profiles: Census 2000"; and Data for 2000 to 2008: "Annual State Resident Population Estimates for 6 Race Groups (5 Race Alone Groups and One Group with Two or more Race Groups) by Age, Sex, and Hispanic Origin: April 1, 2000 to July 1, 2008"; (released May 14, 2009). See [http://www.census.gov/popest/estimates.html](http://www.census.gov/popest/estimates.html).
How North Carolina Ranks

Definitions

Group with Two or more Race Groups) by Age, Sex, and Hispanic Origin: April 1, 2000 to July 1, 2008”; See http://www.census.gov/popest/estimates.html.

Special Populations

Veterans (000)

Total veterans, in thousands, by state. The latest years are based on published Census 2000 data, supplemented by special data extracts prepared for the VA Office of the Actuary by the Census Bureau. This estimate and projection is also based on data provided by the Defense Manpower Data Center on service member separations from active duty, information from the DoD Office of the Actuary, and Department of Veteran Affairs administrative data from the Veterans Benefits Administration and the Veterans Health Administration. Veterans serving in more than one period of service are counted only once in the total. Data include current civilians discharged from active duty, other than for training only without service-connected disability. Data from U.S. Department of Veterans Affairs, Office of Policy, Planning & Preparedness; 'Annual Report of the Secretary of Veterans Affairs'; http://www1.va.gov/vetdata/.

Living Arrangements, Marital Status

Households (000)

Total households, in thousands, by state as of April. A household refers to all persons occupying a housing unit, which is a house, an apartment or other group of rooms, or a single room that constitutes separate living quarters. A household includes the related family members and all unrelated persons, if any, such as lodgers, foster children, wards, or employees who share the housing unit. A person living alone or a group of unrelated persons sharing the same housing unit is also counted as a household. Data from U.S. Census Bureau, "2000 Census of Population and Housing, Profiles of General Demographic Characteristic"; http://www.census.gov/Press-Release/www/2002/demoprofiles.html. Beginning in 2011 intercensal data are estimates from the American Community Survey.

Persons Per Household

Number of persons per household, by state, as of April. Also referred to as average household size. See variable 4640 for a definition of a household. Data from U.S. Census Bureau,’2000 Census of Population and Housing, Profiles of General Demographic Characteristics”; http://www.census.gov/Press-Release/www/2002/demoprofiles.html. Beginning in 2011 intercensal data are estimates from the American Community Survey.

Housing Characteristics

Home Ownership Rate

The proportion of owner households to the total number of occupied households, expressed as a percentage. Based on the Current Population Survey/Housing Vacancy Survey. Data from U.S. Census Bureau, "Housing Vacancies and Home Ownership." See http://www.census.gov/housing/hvs/index.html.

VITAL STATISTICS AND HEALTH

Vital Statistics

Registered Live Births to US Residents

Births per 1000 Persons
Number of registered live births during the calendar year per 1,000 estimated population (Population is for April 1 of census years and for July 1 of other years). Excludes births to nonresidents of the US. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports (NVSR), Births: Preliminary Data for 2007, Volume 57, Number 12, March 18, 2009. See [http://www.cdc.gov/nchs/births.htm](http://www.cdc.gov/nchs/births.htm).

White, Non-Hispanic Births
Number of registered White, non-Hispanic live births during the calendar year, excluding births to nonresidents of the United States. Data by race for births are based on information contained in the certificates of registration. Birth data are tabulated primarily by race of the mother. Persons of Hispanic origin may be of any race. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports (NVSR), Births: Preliminary Data for 2007, Volume 57, Number 12, March 18, 2009. See [http://www.cdc.gov/nchs/births.htm](http://www.cdc.gov/nchs/births.htm).
How North Carolina Ranks

Definitions

Black, Non-Hispanic Births

Number of registered Black, non-Hispanic live births during the calendar year, excluding births to nonresidents of the United States. Data by race for births are based on information contained in the certificates of registration. Birth data are tabulated primarily by race of the mother. Hispanic origin of the mother is reported and tabulated independently of race. Persons of Hispanic origin may be of any race. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports (NVSR), Births: Preliminary Data for 2007, Volume 57, Number 12, March 18, 2009. See http://www.cdc.gov/nchs/births.htm.

Hispanic Births

Number of registered Hispanic live births during the calendar year, excluding births to nonresidents of the United States. Data by race for births are based on information contained in the certificates of registration. Hispanic origin of the mother is reported and tabulated independently of race. Persons of Hispanic origin may be of any race. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports (NVSR), Births: Preliminary Data for 2007, Volume 57, Number 12, March 18, 2009. See http://www.cdc.gov/nchs/births.htm.

Pct of Births That Are Low Birth Weight

Percentage of total registered calendar-year births for which the baby weighed less than 2,500 grams (5 pounds, 8 ounces). Excludes births to nonresidents of the US. US figures are based on 100 percent of all births in all states and DC. Data from US National Center for Health Statistics, "Vital Statistics of the United States" and "National Vital Statistics Reports." See http://www.cdc.gov/nchs/nvss.htm.

Pct of Births to Teenage Mothers

Percentage of total calendar-year registered births that occurred to mothers aged 19 years or younger. Age of mother is recorded on birth certificates. Excludes births to nonresidents of the US. US figures are based on 100 percent of all births in all states and DC. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports (NVSR), Births: Preliminary Data for 2007, Volume 57, Number 12, March 18, 2009. See http://www.cdc.gov/nchs/births.htm.

Pct of Births to Unmarried Women

Percentage of total calendar-year registered births that occurred to unmarried mothers. Marital status of mother is recorded on birth certificates. For some states, marital status of mother is inferred. Excludes births to nonresidents of the US. US figures are based on 100 percent of all births in all states and DC. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports (NVSR), Births: Preliminary Data for 2007, Volume 57, Number 12, March 18, 2009. See http://www.cdc.gov/nchs/births.htm.

Deaths to US Residents

How North Carolina Ranks

Definitions

Deaths per 1000 Population
Calendar-year resident deaths per 1,000 resident population. Excluded are deaths to nonresidents of US. Resident population is that enumerated as of April 1 for census years and that estimated as of July 1 for other years. Caution should be used in comparing death rates by state; rates are affected by population composition. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports (NVSR), Deaths: Final Data for 2007, Vol. 58, No. 19, May 2010, and earlier reports. See http://www.cdc.gov/nchs/deaths.htm.

Infant Deaths Per 1000 Live Births, Total
Calendar-year resident deaths of infants under 1 year old per 1,000 live resident births. Excludes fetal deaths. Excluded are deaths to nonresidents of US. Data from US National Center for Health Statistics, "Vital Statistics of the United States" and "National Vital Statistics Reports (NVSR)". See http://www.cdc.gov/nchs/deaths.htm.

Infant Deaths Per 1000 Live Births, White
Calendar-year resident deaths of White infants under 1 year old per 1,000 live resident White births. Excludes fetal deaths. Excluded are deaths to nonresidents of US. Race is provided on death certificates and race of mother on birth certificates. A blank means either that the figure does not meet publication standards or that the base figure is too small to meet statistical standards for reliability. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports (NVSR), Deaths: Final Data for 2006, Volume 57, Number 14, April 17, 2009 and earlier reports. See http://www.cdc.gov/nchs/deaths.htm.

Infant Deaths Per 1000 Live Births, Black
Calendar-year resident deaths of Black infants under 1 year old per 1,000 live resident Black births. Excluded are deaths to nonresidents of US. Race is provided on death certificates and race of mother on birth certificates. A blank means either that the figure does not meet publication standards or that the base figure is too small to meet statistical standards for reliability. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports (NVSR), Deaths: Final Data for 2006, Volume 57, Number 14, April 17, 2009 and earlier reports. See http://www.cdc.gov/nchs/deaths.htm.

Heart Disease Deaths per 100,000 Population
Calendar-year resident deaths caused by heart disease per 100,000 resident population. Excludes nonresidents of the US. Causes of death are classified using the tenth revision of International Classification of Diseases according to rules that require selection of the single underlying cause of death. Population for the denominator is from enumeration or estimates of population as July 1. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports, (NVSR), Deaths: Final Data for 2006, Volume 57, Number 14, April 17, 2009. See http://www.cdc.gov/nchs/deaths.htm.

Cancer Deaths Per 100,000 Population
Calendar-year resident deaths caused by cancer per 100,000 resident population. Excludes nonresidents of the US. Causes of death are classified using the tenth revision of International Classification of Diseases according to rules that require selection of the single underlying cause of death. Population for the denominator is from enumeration or estimates of population as of July 1. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports, (NVSR), Deaths: Final Data for 2006, Volume 57, Number 14, April 17, 2009. See http://www.cdc.gov/nchs/deaths.htm.
How North Carolina Ranks

Definitions

Cerebrovascular Deaths Per 100,000 Pop
Calendar-year resident deaths caused by cerebrovascular diseases per 100,000 resident population. Cerebrovascular diseases include allied conditions. Excludes nonresidents of the US. Causes of death are classified using the tenth revision of International Classification of Diseases according to rules that require selection of the single underlying cause of death. Population for the denominator is from enumeration or estimates of population as of July 1. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports, (NVSR), Deaths: Final Data for 2006, Volume 57, Number 14, April 17, 2009. See http://www.cdc.gov/nchs/deaths.htm.

Motor Vehicle Deaths Per 100,000 Population
Calendar-year resident deaths caused by motor vehicle accidents per 100,000 resident population. Excludes nonresidents of the US. Causes of death are classified using the tenth revision of International Classification of Diseases according to rules that require selection of the single underlying cause of death. Population for the denominator is from enumeration or estimates of population as of July 1. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports, (NVSR), Deaths: Final Data for 2006, Volume 57, Number 14, April 17, 2009. See http://www.cdc.gov/nchs/deaths.htm.

Chr Lower Resp Dis Deaths Per 100,000 Pop
Calendar-year resident deaths caused by chronic lower respiratory diseases per 100,000 resident population. Chronic lower respiratory diseases include allied conditions. Included are bronchitis (unless it is specified as acute bronchitis), emphysema, asthma, bronchiectasis, and chronic airway obstruction not elsewhere classified. The vast majority of the deaths in this category are attributed to "chronic airway obstruction not elsewhere classified." Excludes nonresidents of the US. Causes of death are classified using the tenth revision of International Classification of Diseases according to rules that require selection of the single underlying cause of death. Population for the denominator is from enumeration or estimates of population as of July 1. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports, (NVSR), Deaths: Final Data for 2006, Volume 57, Number 14, April 17, 2009. See http://www.cdc.gov/nchs/deaths.htm.

Abortions Per 1,000 Women Age 15-44
Abortions performed per 1,000 women aged 15-44. Estimate of women aged 15-44 is for July 1 of the reference year, while number of abortions is for the calendar year. Number of abortions from surveys of hospitals, clinics, and physicians identified as providers of abortion services, conducted by the Alan Guttmacher Institute. Zero may represent a figure that rounds to 0. Data from S. K. Henshaw and J. Van Vort, "Abortion Services in the United States, Family Planning Perspectives"; from S. K. Henshaw, "Abortion Incidence and Services in the United States, Family Planning Perspectives"; from L. B. Finer and S. K. Henshaw, "Abortion Incidence and Services in the United States in 2000, Perspectives on Sexual and Reproductive Health"; R.K. Jones et al., Abortion in the United States: Incidence and Access to Services, 2005, Perspectives on Sexual and Reproductive Health 40:6, 2008; and unpublished data. From 2009 data are from the U.S. Centers for Disease Control and Prevention annual Abortion Surveillance Reports.

Abortions Performed (000)
Number of abortions, in thousands during the calendar year, from surveys of hospitals, clinics, and physicians identified as providers of abortion services, conducted by the Alan Guttmacher Institute. Zero may represent a figure that rounds to 0. Data from S. K. Henshaw and J. Van Vort, "Abortion Services in the United States, Family Planning Perspectives"; from S. K. Henshaw, "Abortion Incidence and Services in the United States, Family Planning Perspectives"; from L. B. Finer and S. K. Henshaw, "Abortion Incidence and Services in the United States in 2000, Perspectives on Sexual and Reproductive Health"; R.K. Jones et al., Abortion in the United States: Incidence and Access to Services, 2005, Perspectives on Sexual and Reproductive Health 40:6, 2008; and unpublished data. From 2009 data are from the U.S. Centers for Disease Control and Prevention annual Abortion Surveillance Reports.
How North Carolina Ranks

Definitions

Cases of AIDS Reported
Reported cases of AIDS during the calendar year. These statistics are collected and compiled from reports to the National Notifiable Diseases Surveillance System (NNDSS), which is operated by the Centers for Disease Control (CDC) in collaboration with the Council of State and Territorial Epidemiologists (CSTE). AIDS is one of the diseases included in the Healthy People 2000 Indicators series. The U.S. totals for 1997 and later include cases among persons with unknown state of residence. Data from U.S. Centers for Disease Control and Prevention, "Summary of Notifiable Diseases, United States, Morbidity and Mortality Weekly Report." See http://www.cdc.gov/mmwr/.

Cases of Syphilis Reported
Reported cases of syphilis during the calendar year. These statistics are collected and compiled from reports to the National Notifiable Diseases Surveillance System (NNDSS), which is operated by the Centers for Disease Control (CDC) in collaboration with the Council of State and Territorial Epidemiologists (CSTE). Syphilis is one of the diseases included in the Healthy People 2000 Indicators series. Data from U.S. Centers for Disease Control and Prevention, "Summary of Notifiable Diseases, United States, Morbidity and Mortality Weekly Report." See http://www.cdc.gov/mmwr/.

Cases of Tuberculosis Reported
Reported cases of tuberculosis during the calendar year. These statistics are collected and compiled from reports to the National Notifiable Diseases Surveillance System (NNDSS), which is operated by the Centers for Disease Control (CDC) in collaboration with the Council of State and Territorial Epidemiologists (CSTE). Tuberculosis is one of the diseases included in the Healthy People 2000 Indicators series. Data from U.S. Centers for Disease Control and Prevention, "Summary of Notifiable Diseases, United States, Morbidity and Mortality Weekly Report." See http://www.cdc.gov/mmwr/.

Cases of Measles Reported
Reported cases of measles during the calendar year. These statistics are collected and compiled from reports to the National Notifiable Diseases Surveillance System (NNDSS), which is operated by the Centers for Disease Control (CDC) in collaboration with the Council of State and Territorial Epidemiologists (CSTE). Measles is one of the diseases included in the Healthy People 2000 Indicators series. Data from US Centers for Disease Control and Prevention, "Summary of Notifiable Diseases, United States, Morbidity and Mortality Weekly Report." See http://www.cdc.gov/mmwr/.

Pct of Tot Pop Over 18 That Smokes Cigarettes
Percent of adult civilian, noninstitutionalized population age 18 and over that smokes cigarettes. Current cigarette smoking is defined as persons who reported having smoked 100 or more cigarettes during their lifetime and who currently smoke every day or some days. Based on the Behavioral Risk Factor Surveillance System, a telephone survey of health behaviors of the civilian, noninstitutionalized US population, 18 years old and over. The US value represents the median value.

Definitions

**Marriages Per 1,000 Population**
Number of marriages performed by place of occurrence per 1,000 resident population. Marriages are for the calendar year, and resident population is enumerated as of April 1 for 1990 and 2000; estimated as of July 1 for all other years. For Arizona, New Mexico and New York, some figures for marriages are marriage licenses issued. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports (NVSR), Births, Marriages, Divorces, and Deaths: Provisional Data for 2008, Volume 57, Number 19, July 29, 2009 and prior reports. See http://www.cdc.gov/nchs/mardiv.htm.

**Divorces Per 1,000 Population**
Number of divorces, including annulments, of per 1,000 resident population. Divorces are for the calendar year, and resident population is enumerated as of April 1 for census years and estimated as of July 1 for other years. US totals for the number of divorces is an estimate which includes states not reporting. For Arizona, New Mexico, and New York some figures for marriages are marriage licenses issued. Data from U.S. National Center for Health Statistics, National Vital Statistics Reports (NVSR), Births, Marriages, Divorces, and Deaths: Provisional Data for 2008, Volume 57, Number 19, July 29, 2009 and prior reports. See http://www.cdc.gov/nchs/mardiv.htm.

**Health Practitioners**

**Active Nonfederal Physicians per 100,000 Pop**
Number of active nonfederal physicians per 100,000 resident population, by state, as of December 31. (Population is based on U.S. Census Bureau estimates as of July 1.) Excludes doctors of osteopathy and physicians with addresses unknown. 2002 and earlier data exclude federally-employed persons. Includes all physicians not classified according to activity status. Data from Physicians: American Medical Association, Chicago, IL, Physician Characteristics and Distribution in the U.S., annual (copyright); From 2010 physician and surgeon data is from the U.S. Census Bureau, American Community Survey, annual single-year estimates.

**Active Nonfederal Nurses per 100,000 Pop**

**Health Facilities and Utilization**

**Community Hospital Beds (000)**
Number of beds, in thousands, in community hospitals, by state. Community hospitals are nonfederal short-term (average length of stay less than thirty days) general and special hospitals, including obstetrics and gynecology; eye, ear, nose, and throat; rehabilitation; orthopedic; chronic; and others. Excluded are psychiatric, tuberculosis, alcoholism, and chemical dependency hospitals and hospital units of institutions. Data from Health Forum, an American Hospital Association Company, Chicago, IL, "Hospital Statistics [Year] Edition," and prior years (copyrighted); http://www.ahadata.com/. 
How North Carolina Ranks

Definitions

Pct of Persons Not Covered by Health Insurance
Estimated percent of persons not covered by health insurance, by state. Based on the Current Population Survey (CPS) and subject to sampling error. Beginning with the release of revised 1999 data, the Census Bureau added health insurance verification questions to the CPS to increase accuracy of the statistics. Consequently, from 1999 on, health insurance estimates are not directly comparable with estimates from earlier years. Data from U.S. Census Bureau, Current Population Reports; Income, Poverty, and Health Insurance Coverage in the United States: 2007, P60-235; (issued August 2008). Table HI05. Health Insurance Coverage Status and Type of Coverage by State and age for all People: 2007. See http://www.census.gov/hhes/www/hlthins/hlthins.html.

Pct of Children Not Covered, Health Insurance

Pct of Population Enrolled in HMO
Percent of the population enrolled in Health Maintenance Organizations (HMOs), by state. HMOs are prepaid health plans that provide comprehensive care to members via designated providers, have a fixed periodic payment for services, and require members to belong to the plan for a specific period, usually one year. Data are based on a census of health maintenance organizations. Data for 1995 are for pure and open-ended enrollment as of January 1. Data for 1996 and beyond are for total enrollment as of January 1. Data from InterStudy Publications, St. Paul, MN, "The InterStudy Competitive Edge," annual (copyrighted); http://www.interstudypublications.com/. From 2014 total state HMO enrollment data is reported as of January 1 by The Henry J. Kaiser Family Foundation http://kff.org/other/state-indicator/total-hmo-enrollment/ and US Census Bureau annual state population estimates.

SOCIAL AND HUMAN SERVICES

Public Assistance and Social Insurance Recipients

Pct of All Households That Receive Food Stamps

Avg Monthly Benefits of Food Stamps ($mil)
### Persons Served by Nat School Lunch Prgm (000)

Persons served, in thousands, by the National School Lunch Program, by state. Participation data are nine-month averages; summer months (June-August) are excluded. Participation is based on average daily meals divided by an attendance factor of 0.927. Data from U.S. Dept. of Agriculture, Food and Nutrition Service, "Annual Historical Review of FNS Programs" and unpublished data; http://www.fns.usda.gov/fns/; and "Food and Nutrition Service, Program Data"; http://www.fns.usda.gov/pd/.

### Cost of National School Lunch Program ($mil)

Cost, in millions of dollars, of the National School Lunch Program, by state. Program costs are for federal cash reimbursements to states based on per meal rates that are adjusted annually to offset changes in food prices. Administrative costs are not included. Cash payments include the costs of snacks served under the National School Lunch Program as well as lunches. National school lunch outlets include public and private elementary and secondary schools and residential child care institutions. Data from U.S. Dept. of Agriculture, Food and Nutrition Service, "Annual Historical Review of FNS Programs" and unpublished data; http://www.fns.usda.gov/fns/; and "Food and Nutrition Service, Program Data"; http://www.fns.usda.gov/pd/.

### Avg Mo Families Receiving TANF (000)

Average monthly number of families, in thousands, receiving Temporary Assistance for Needy Families (TANF) for the calendar year (except as noted), by state. Data for 2002 include the months of January-September only. TANF replaced the programs called Aid to Dependent Children (1936-1962) and Aid to Families with Dependent Children (1962-1996) after the passage of the new welfare law, the Personal Responsibility and Work Opportunity Reconciliation Act of 1996. Under this federal law, entitlement to assistance ceased and was replaced by the requirement to work in exchange for time-limited assistance. Data from U.S. Administration for Children and Families, unpublished; http://www.acf.dhhs.gov/programs/ofa/.

### Supplemental Security Income Recipients (000)

Number of recipients, in thousands, of Supplemental Security Income (SSI), by state, as of December of the year shown. The SSI program provides cash assistance to low-income aged, blind, or disabled persons in the 50 states, the District of Columbia, and the Northern Mariana Islands. The states and other jurisdictions have the option of supplementing their residents' SSI payments and may choose to have the additional payments administered by the federal government. When a state chooses federal administration, the Social Security Administration maintains the payment records and issues the federal payment and the state supplement in one check. The data presented here are for federal and/or federally administered state payments only. Data from U.S. Social Security Administration, Annual Statistical Supplement to the Social Security Bulletin; See http://www.ssa.gov/policy/.

### Supplemental Security Income Payments ($mil)

Amount of payments, in millions of dollars, to Supplemental Security Income (SSI) recipients, as of the calendar year, by state. (See variable 4607 for an explanation of the SSI program.) The states have the option of supplementing their residents' SSI payments and may choose to have the additional payments administered by the federal government. When a state chooses federal administration, the Social Security Administration maintains the payment records and issues the federal payment and the state supplement in one check. The data presented here are for federal...
How North Carolina Ranks

Definitions

and/or federally administered state payments only. Data from U.S. Social Security Administration, Annual Statistical Supplement to the Social Security Bulletin; See http://www.ssa.gov/policy/.

Children

Reports of Child Abuse and Neglect
Number of reports of child abuse and neglect, by state. Data are based on reports alleging child abuse and neglect that were referred for investigation by the respective child protective services agency in each state. The reporting period may be either calendar or fiscal year. Data from U.S. Department of Health and Human Services, Administration for Children and Families, Statistics and Research, Child Maltreatment annual. See http://www.acf.hhs.gov/programs/cb/stats_research/index.htm. From 2010 data are included only for those states that reported both screened-in and screened-out referrals (reports).

Victims of Child Abuse and Neglect
Number of child victims of abuse and neglect, by state. Victims of maltreatment are defined as children subject of substantiated, indicated, or alternative response-victim maltreatment. Data are based on reports alleging child abuse and neglect that were referred for investigation by the respective child protective services agency in each state. The reporting period may be either calendar or fiscal year. Data from U.S. Department of Health and Human Services, Administration for Children and Families, Statistics and Research, Child Maltreatment annual. See http://www.acf.hhs.gov/programs/cb/stats_research/index.htm.

Licensed Child Care Centers & Family Providers
Number of licensed child care centers (as of February of the year shown) and family child care providers (as of August of the year shown), by state. Data from Children's Foundation, Washington, DC, "Child Care Center Licensing Study" and "Family Child Care Licensing Study," annual, copyrighted; http://www.childrensfoundation.net. From 2006, data are from the U.S. Census Bureau annual County Business Patterns.

Medicaid/Medicare

Medicare Payments Per Enrollee
Medicare payments, in dollars, per enrollee by state, for the fiscal year ending in the year shown. Data from U.S. Centers for Medicare and Medicaid Services, "Medicare Estimated Benefit Payments By State for Fiscal Year ..."; http://www.hcfa.gov/stats/. As of 2001, these data are no longer provided. The payments are based on the state of the provider or plan; hence, the average payment per beneficiary is not meaningful. Total estimated benefit payments by state, beginning with 2001, are available from the source at www.cms.hhs.gov/statistics/feeforservice/default.asp. Beginning with 2011, data are from the Centers for Medicare and Medicaid Services, Medicare and Medicaid Statistical Supplement annual and represent total program payments per enrollee for Medicare beneficiaries for the calendar year. Medicare enrollees in managed care plans are not included in the denominator used to calculate average payments. From 2013 data are for actual per capita costs from the Centers for Medicare and Medicaid Services, Medicare Geographic Variation, Public Use File; https://www.cms.gov/Research-Statistics-Data-and-Systems/Statistics-Trends-and-Reports/Medicare-Geographic-Variation/.

Pct of Medicaid Enrollment in Managed Care

Transfer Payments to Individuals, by Type

Avg Mo Benefit, Social Security for Retired
Average monthly Social Security benefit, in dollars, for retired workers, by state, as of December of the year shown. Data are based on a ten-percent sample of administrative records and exclude persons with special benefits. Data from U.S. Social Security Administration, Annual Statistical Supplement to the Social Security Bulletin. See http://www.ssa.gov/policy/docs/statcomps.

Avg Mo Benefit, Social Security for Disabled
Average monthly Social Security benefit, in dollars, for disabled workers, by state, as of December of the year shown. Data are based on a ten-percent sample of administrative records. Data from U.S. Social Security Administration, Annual Statistical Supplement to the Social Security Bulletin. See http://www.ssa.gov/policy/docs/statcomps.

Avg Mo Benefit, Social Security for Widow/ers
Average monthly Social Security benefit, in dollars, for widows and widowers, by state, as of December of the year shown. Data are based on a ten-percent sample of administrative records and include nondisabled widows and widowers only. Data from U.S. Social Security Administration, Annual Statistical Supplement to the Social Security Bulletin. See http://www.ssa.gov/policy/docs/statcomps.

EDUCATION

Enrollment

Enrollment in Degree-Granting Insts (000)
Total enrollment, in thousands, in degree-granting institutions, by state. Data represent the opening fall enrollment of resident and extension students attending full time or part time. Data exclude students taking courses by mail, radio, or TV, and students in branches of U.S. institutions operated in foreign countries. Data from U.S. National Center for Education Statistics, “Digest of Education Statistics,” annual; http://nces.ed.gov.

Enrollment Rate for Public Grades K-12
Percent of persons 5-17 years old enrolled in public school grades K-12, by state, as of the fall of the year shown. Data are based on enumerated resident population as of April 1, 1980, 1990, and 2000 and estimated resident population as of July 1 for other years. Figures include unclassified students. Statistics for 2002 are preliminary. Data from U.S. National Center for Education Statistics, “Digest of Education Statistics,” annual; http://nces.ed.gov.

Educational Attainment

Public High School Graduates (000)
Number, in thousands, of public high school graduates, by state, for the school year ending in the year shown. Figures for most current year are estimates. From 2014 data are projections. Data from U.S. National Center for Education Statistics, "Digest of Education Statistics," annual; http://nces.ed.gov/programs/digest .

Pct of Pop 25 & Over, High Sch Grad or More
Percent of the population 25 years old and older who are high school graduates or have attained even more education, by state. 1990 and 2000 as of April. 2007, represents annual averages for calendar year. Based on the 1990 and 2000 Census of Population and the American Community Survey, which includes the household population and the population living in institutions, college dormitories, and other group quarters.

Pct of Pop 25 & Over, College Grad or More
Percent of the population 25 years old and older who are college graduates or have attained even more education, by state. 1990 and 2000 as of April. 2007, represents annual averages for calendar year. For persons 25 years old and over. Based on the 1990 and 2000 Census of Population and the American Community Survey, which includes the household population and the population living in institutions, college dormitories, and other group quarters.

Dropout Rate for Grades 9-12 (Pct)
Number of public school students who dropped out of grades 9-12 during the preceding year divided by the total number of public school students enrolled in grades 9-12 in the state during that year. Dropouts include all persons who were enrolled in public school at some time during the previous school year, were not enrolled at the beginning of the current school year (defined as October 1), and had not graduated from high school or completed a state- or district-approved education program. In addition, the individuals did not meet any of these conditions: transfer to another public school district, private school, or state- or district-approved education program; temporary school-recognized absence due to suspension or school-approved education program; or death. The year 2001 in LINC for this variable refers to the 2001-2002 school year.

Finances

Avg Salary, Public Elem/Sec Teachers ($000)
Average salary, in thousands of dollars, of public school elementary and secondary classroom teachers, by state. Data are estimates for the school year ending in June of the year shown.

Counts were estimated for Illinois, Kansas, Kentucky, Montana, and New Hampshire because complete data were not available. Counts were also estimated for Vermont 1997 data and Wisconsin 1998 data. Data from U.S. Federal Bureau of Investigation, "Crime in the United States," annual; https://ucr.fbi.gov/crime-in-the-u.s/.

Property Crimes Per 100,000 Population

Total property crime offenses known to the police per 100,000 population. Based on Census Bureau estimated resident population. For the District of Columbia, offenses reported by the police at the National Zoo were included. Crime counts were estimated for Illinois, Kansas, Kentucky, Montana, and New Hampshire because complete data were not available. Counts were also estimated for Vermont 1997 data and Wisconsin 1998 data. Data from U.S. Federal Bureau of Investigation, "Crime in the United States," annual; https://ucr.fbi.gov/crime-in-the-u.s/.

Corrections Populations

Annual Pct Change in Number of Prisoners

Percent increase or decrease in the number of prisoners incarcerated by a state. State-level data exclude federal inmates. Both jail and prison inmates are included for Alaska, Connecticut, Delaware, District of Columbia, Hawaii, Rhode Island, and Vermont (states with a combined jail and prison system). In Arizona, Florida, Georgia, Illinois, Iowa, Massachusetts, and Michigan numbers are for custody rather than jurisdiction counts. Data not available for Delaware because reporting criteria were expanded in 1999 to include home confinement clients in supervised custody facilities; comparable counts for 1998 were not available. Reporting criteria changed in 1999 for Idaho, New York, Tennessee, Texas, and Utah; percent calculated based on counts adjusted for comparable reporting. Data from U.S. Bureau of Justice Statistics, Prisoners in 2001, Series NCJ 195189; and earlier reports; https://www.bjs.gov/.

Criminal Justice Expenses Per Capita

Operating expenses for police, judicial/legal, and corrections calculated on a per capita, fiscal year basis. Data from U.S. Bureau of Justice Statistics, Expenditures and Employment Statistics, series NCJ 224394; https://www.bjs.gov/ From 2013 data are public safety expenditures as reported by the US Census Bureau State and Local Government Finance annual.

All other years are based on estimated resident population as of July 1. Includes local shares of state imposed taxes. Data from U.S. Census Bureau, “State Government Finances”; https://www.census.gov/govs/.

Per Capita State Govt General Expenditure
Per capita state government general expenditure, in dollars, by state for the fiscal year ending in the year shown. Data for 2000 are based on enumerated resident population as of April 1. All other years are based on estimated resident population as of July 1. Data from U.S. Census Bureau, “State Government Finances”; https://www.census.gov/govs/ and unpublished data.

Per Capita State Govt Debt Outstanding
Per capita state government debt outstanding, in dollars, by state for the fiscal year ending in the year shown. Data for 2000 are based on enumerated resident population as of April 1. All other years are based on estimated resident population as of July 1. Data from U.S. Census Bureau, “State Government Finances”; https://www.census.gov/govs/ and unpublished data.

State Lottery Revenue ($mil)
Total revenue from a state lottery in millions of dollars for fiscal years. Excludes commissions. These states have no lotteries: Alabama, Alaska, Hawaii, Mississippi, Nevada, North Dakota, Oklahoma, Tennessee, Utah, and Wyoming. Data from U.S. Census Bureau, unpublished; http://www.census.gov/.

Per Capita Federal Funds Distribution
Per capita federal funds, in dollars, distributed to the states for the year ending September 30. Based on Census Bureau resident population as of July 1. Data from U.S. Census Bureau, “Consolidated Federal Funds Report,” annual; http://www.census.gov/govs/www/cffr.html. The Federal Financial Statistics Program and Consolidated Federal Funds Report were terminated. Beginning with 2011, data shown are total federal spending including contracts, grants, direct payments, insurance, loans/guarantees, and others for federal fiscal year in billions of dollars. Data from USASpending "http://www.USASpending.gov ".

Per Capita Federal Govt Balance of Payment
Per capita balance of payments, defined as the difference between federal spending received and taxes paid, between each state and the federal government for the year ending September 30. States that receive more from federal spending within their borders than they pay in federal taxes have a positive balance of payments and have a net gain in economic activity due to federal policies. States that pay more in federal taxes than they receive in federal spending have a negative balance of payments. Each state thus indirectly subsidizes other states or is subsidized by them. Federal spending within the states includes defense and excludes interest payments on the federal debt. Data from Jay H. Walder and Herman B. Leonard, “The Federal Budget and the States,” Taubman Center for State and Local Government, John F. Kennedy School of Government, Harvard University, annual; http://www.ksg.harvard.edu/taubmancenter/.
EMPLOYMENT AND INCOME

Labor Force

Civilian Labor Force (000)
Civilian labor force, in thousands, by state. Annual averages of monthly figures for civilian noninstitutional population, 16 years old and over. Because of separate processing and weighting procedures, the totals for the U.S. may differ from results obtained by aggregating totals for states. Data from U.S. Bureau of Labor Statistics, "Local Area Unemployment Statistics, Geographic Profile of Employment and Unemployment, [Year]”; [website].

Unemployment Rate for Civilian Labor Force
Percent unemployed of the civilian labor force. Annual averages of monthly figures for civilian noninstitutional population, 16 years old and over. Because of separate processing and weighting procedures, the totals for the U.S. may differ from results obtained by aggregating totals for states. Data from U.S. Bureau of Labor Statistics, "Local Area Unemployment Statistics, Geographic Profile of Employment and Unemployment, [Year]”; [website].

Insured Unemployment Rate
Insured unemployment as percent of average covered employment in the previous year for civilian noninstitutional population 16 years old and over. The Federal-State Unemployment Insurance Program provides unemployment benefits to eligible workers who are unemployed through no fault of their own (as determined under state law), and meet other eligibility requirements of state law. Annual averages of monthly figures. Data from the U.S. Employment and Training Administration, "Unemployment Insurance Financial Data Handbook,” annual; [website].

Particip Rate, Males in Civilian Labor Force
Percent of male civilian noninstitutional population in the civilian labor force. Annual averages of monthly figures for civilian noninstitutional population, 16 years old and over. Because of separate processing and weighting procedures, the totals for the U.S. may differ from results obtained by aggregating totals for states. Data from U.S. Bureau of Labor Statistics, "Local Area Unemployment Statistics, Geographic Profile of Employment and Unemployment, [Year]”; [website].

Particip Rate, Females in Civilian Labor Force
Percent of female civilian noninstitutional population in the civilian labor force. Annual averages of monthly figures for civilian noninstitutional population, 16 years old and over. Because of separate processing and weighting procedures, the totals for the U.S. may differ from results obtained by aggregating totals for states. Data from U.S. Bureau of Labor Statistics, "Local Area Unemployment Statistics, Geographic Profile of Employment and Unemployment, [Year]”; [website].

Pct of Workers Covered by Unions
Percent of wage and salary workers in agriculture and non-agriculture covered by unions. Data represent union members by place of residence. Based on the Current Population Survey and subject to sampling error. See source for additional details. Data from Bureau of National Affairs, Inc., Washington DC, “Union Membership and Earnings Data Book: Compilations from the Current Population Survey,” (copyright by BNA PLUS), by Barry Hirsch of Trinity University, San Antonio, TX,

Definitions

Workers' Compensation ($mil)

Workers' compensation payments in millions of dollars, by state. Calendar-year data, except fiscal-year data for federal civilian and other programs and for some states with state funds for years 1980 to 1996. Payments represent compensation and medical benefits and include insurance losses paid by private insurance carriers (compiled from state workers' compensation agencies and A.M. Best Co.); disbursements of state funds (compiled from the A.M. Best Co. and state workers' compensation agencies); and self-insurance payments (compiled from state workers' compensation agencies and authors' estimates).

For 1992-1995, the total includes estimated amounts (see first figure following year below) in benefits under deductible provisions. Of this total, the indicated amount (see second figure) is not distributed by state.

1992: $1,250 million; $850
1993: $2,027 million; $820 million
1994: $2,841 million; $1,067 million
1995: $3,395 million; $1,301 million

Avg Weekly Unemployment Benefits

Income of Persons

Per Capita Personal Income

Per capita personal income, in constant 2005 dollars to 2009 in current-data-year dollars afterwards, by state. The personal income of a state is defined as the income received by, or on behalf of, all the residents of the state. It consists of the income received by persons from all sources, that is, from participation in production, from both government and business transfer payments, and from government interest (which is treated like a transfer payment). "Persons" consists of individuals, nonprofit institutions that primarily serve individuals, private noninsured welfare funds, and private trust funds.

Personal income is calculated as the sum of wage and salary disbursements, other labor income, proprietors' income with inventory valuation and capital consumption adjustments, rental income of persons with capital consumption adjustment, personal dividend income, personal interest income, and transfer payments to persons, less personal contributions for social insurance. State per capita personal income is calculated as the personal income of the residents of a state divided by the midyear resident population of the state.

Definitions

Per Cap Disposable Pers Inc

Per capita disposable personal income, in constant 2005 dollars to 2009 in current-data-year dollars afterwards, by state. The personal income of a state is defined as the income received by, or on behalf of, all the residents of the state. It consists of the income received by persons from all sources, that is, from participation in production, from both government and business transfer payments, and from government interest (which is treated like a transfer payment). "Persons" consists of individuals, nonprofit institutions that primarily serve individuals, private noninsured welfare funds, and private trust funds.

Disposable personal income is the income available to persons for spending or saving; it is calculated as personal income less personal tax and nontax payments. Personal tax and nontax payments consists of tax payments that are not chargeable to business expense and of certain other payments to government agencies (except government enterprises) that are treated like taxes. Personal taxes includes taxes on income, including realized net capital gains, taxes on transfers of estates and gifts, and taxes on personal property. Personal nontaxes includes donations and fees, fines, and forfeitures. State per capita disposable personal income is calculated as the disposable personal income of the residents of a state divided by the midyear resident population of the state. Data from U.S. Bureau of Economic Analysis, "Survey of Current Business," and unpublished data; http://www.bea.gov/regional/.

Earnings by Non-Farm, Non-Government Industry

Avg Hourly Earnings, Production Wrkrs, Manuf

Average hourly earnings, in dollars, of production workers in manufacturing industries, by state. Based on data from establishment reports. Includes all full- and part-time employees who worked during, or received pay for, any part of the pay period reported. Excludes proprietors, the self-employed, farm workers, unpaid family workers, private household workers, and Armed Forces. Based on the Current Employment Statistics Program.

Average hourly earnings, derived by dividing gross payrolls by total hours, reflect the actual earnings of workers, including premium pay. They differ from wage rates, which are the amounts stipulated for a given unit of work or time. Average hourly earnings do not represent total labor costs per hour for the employer because they exclude retroactive payments and irregular bonuses, employee benefits, and the employer’s share of payroll taxes. Earnings for those employees not covered under the production worker and nonsupervisory categories are not reflected in the estimates.

Household and Family Income

Median Houseld Money Income ($constant, curr)

Median household money income, in constant current-data-year dollars, by state. Median income is the amount which divides the income distribution into two equal groups, half having incomes above
the median, half having incomes below the median. The median for households is based on all households.

Data for 1999 and prior years reflect constant (1999) dollars, using the CPI-U-RS deflator. These data are based on the Current Population Survey, which is designed to collect reliable data on income primarily at the national level and secondarily at the regional level. When the income data are tabulated by state, the estimates are considered less reliable and, therefore, particular caution should be used when trying to interpret the results.

The 2000 data are based on sample data from the 2000 Census of Population and Housing and are actually household money income received during 1999.

Poverty

Pct of Persons Below Poverty Level
Percent of persons below poverty level, by state. Families and unrelated individuals are classified as being above or below the poverty level using the poverty index originated at the Social Security Administration in 1964 and revised by federal interagency committees in 1969 and 1980. The poverty index is based solely on money income and does not reflect the fact that many low-income persons receive noncash benefits, such as food stamps, Medicaid, and public housing. The index is based on the Department of Agriculture's 1961 Economy Food Plan and reflects the different consumption requirements of families based on their size and composition. The poverty thresholds are updated every year to reflect changes in the Consumer Price Index.

Data are based on the Current Population Survey (CPS) and on sample data from the 2000 Census of Population and Housing. The CPS is designed to collect reliable data on income primarily at the national level and secondarily at the regional level. When the income data are tabulated by state, the estimates are considered less reliable, and, therefore, particular caution should be used when trying to interpret the results.

Beginning in 1990, data is based on revised processing procedures and not directly comparable with prior years.

Beginning in 2001, data are 3 year averages with data reported as of the last year averaged (ie average of 1999-2001 is reported for 2001).

BUSINESS AND INDUSTRY

Current and Expanding Industry

Cases of Bankruptcy Filed (000)
Number, in thousands, of bankruptcy cases filed under the Bankruptcy Reform Act of 1978, by state, for the year ending June 30. Bankruptcy is the legal recognition that a company or individual is insolvent and must restructure or liquidate. Cases filed means the commencement of a proceeding through the presentation of a petition to the clerk of the court. U.S. total includes outlying areas not shown separately. Each judicial district in the country has a bankruptcy court. Each state has one or more districts. The bankruptcy courts generally have their own clerks’ offices. Data from Administrative Office of the U.S. Courts, "Statistical Tables for the Federal Judiciary"; http://www.uscourts.gov/statistics-reports/analysis-reports/statistical-tables-federal-judiciary.

Gross State Product ($bil, chained 09 dollars)
Gross state product (GSP) is the gross market value, in billions of chained dollars, of the goods and services attributable to labor and property located in a state. It is the state counterpart of the nation's gross domestic product (GDP).

In January 1996, the U.S. Bureau of Economic Analysis (BEA) replaced its fixed-weighted index as the featured measure of real GDP with an index based on chain-type annual weights. Changes in this measure of real output and prices are calculated as the average of changes based on weights for the current and preceding years. (Components of real output are weighted by price, and components of prices are weighted by output.)

These annual changes are “chained” (multiplied) together to form a time series that allows for the effects of changes in relative prices and changes in the composition of output over time. Quarterly and monthly changes are also based on annual weights. The new output indexes are expressed as 2000=100, and for recent years, in 2000 dollars; the new price indexes are based to 2000=100. From 2005 data are shown in billions of chained 2005 dollars. From 2010 data are shown in billions of chained 2009 dollars.

Business Starts

Business Failures
Business failures, by state. Failures include businesses that ceased operations following assignment or bankruptcy; ceased operations with losses to creditors after such actions as foreclosure or attachment; voluntarily withdrew, leaving unpaid debts; were involved in court actions, such as receivership, reorganization or arrangement; or voluntarily compromised with creditors. Data from Dun & Bradstreet Corporation, "Monthly Failure Report," (copyright). From 2000 source is U.S. Small

US Exports ($mil)

Value of U.S. exports, in millions of dollars, by state of origin. Export data by state denote the state (as reported by the exporter or agent on the shipper's export declaration) from which the merchandise actually starts its journey to the port of export. This location may not be, necessarily, the state where the merchandise is grown, produced, or manufactured nor necessarily the actual location of the exporter. In the case of consolidated shipments, it is the state of the commodity of greatest value or the state of consolidation. Foreign Trade Zone shipments are included in the U.S. total and distributed among individual states. Data from the U.S. Census Bureau, "U.S. International Trade in Goods and Services," Series FT-900, December issues; http://www.census.gov/foreign-trade/www/.

Value of Residential Constr Grants ($mil)

Value, in millions of dollars, of residential construction, including new structures and additions, in states in which work was actually done. Data from McGraw-Hill Construction Dodge, a Division of the McGraw-Hill Companies, New York, NY, (copyright). From 2008 data are from the US Census Bureau, Construction Spending; https://www.census.gov/construction/c30/c30index.html.

Value of Non-Residential Constr Grants ($mil)

Value, in millions of dollars, of non-residential construction, including new structures and additions, in states in which work was actually done. Data is from McGraw-Hill Construction Dodge, a Division of the McGraw-Hill Companies, New York, NY, (copyright). From 2008 data are from the US Census Bureau, Construction Spending; https://www.census.gov/construction/c30/c30index.html.

Research and Dev Exp from Industries($mil)

Research and development expenditures by industry, in millions of dollars, by state. Data refer to calendar years. In some instances, data may be withheld to avoiding disclosing information about individual companies; withheld data are displayed as blanks. Data from U.S. National Science Foundation. Data derived from "Research and Development in Industry," annual; "Academic Research and Development Expenditures," annual; and "Federal Funds For Research and Development," annual; http://www.nsf.gov/sbe/srs/start.htm. From 2008 data are reported from the Business Research and Development and Innovation Survey (BRDIS).

Research and Dev Exp from Univ & Coll($mil)

Research and development expenditures by universities and colleges, in millions of dollars, by state. Data refer to fiscal years but may serve as approximation to calendar year data. In some instances, data may be withheld to avoiding disclosing information about individual companies. Data from U.S. National Science Foundation. Data derived from "Research and Development in Industry," annual; "Academic Research and Development Expenditures," annual; and "Federal Funds For Research and Development," annual; http://www.nsf.gov/sbe/srs/start.htm. From 2010 data are reported from Higher Education Research and Development (HERD).

Pct Change in Retail Sales of Shopping Centers
Annual percentage change in retail sales of shopping centers, by state, as of December 31. A shopping center is a group of architecturally unified commercial establishments built on a site that is planned, developed, owned, and managed as an operating unit related in its location, size, and type of shops to the trade area that the unit serves. The unit provides on-site parking in definite relationship to the types and total size of the stores. The data source attempts to include all centers with three or more stores. Estimates are based on a sample of data available on shopping center properties. Minus sign (-) indicates decrease. Values that round to 0 are shown as 0.0.

Existing Home Sales (000)
Existing home sales, in thousands, by state. Includes condos and co-ops as well as single-family homes. Data from National Association of Realtors, Washington, DC, "Real Estate Outlook: Market Trends and Insights," monthly (copyright); http://www.realtor.org/research.

Service Industries

Empl in Services as Pct of Nonfarm Employment
Employment in services as a percentage of nonfarm employment, by state. Based on data from establishment reports. Includes all full- and part-time employees who worked during, or received pay for, any part of the pay period reported. Excludes proprietors, the self-employed, farm workers, unpaid family workers, private household workers, and Armed Forces. National totals may differ from the sum of the state figures because of differing benchmarks among states and differing industrial and geographic stratification.

Establishment data are based on the 1987 Standard Industrial Classification (SIC) manual, are adjusted to March employment benchmarks, and reflect historical corrections to previously published data. Compiled from data supplied by cooperating state agencies. Data from U.S. Bureau of Labor Statistics, "Employment and Earnings," monthly, May issues (state estimates) and June issues (national estimates); http://www.bls.gov/sae/home.htm.

Finance/Insurance/Real Estate Industries

Insured Financial Institutions
FDIC-insured financial institutions includes all commercial banks insured by the Federal Deposit Insurance Corporation (FDIC) either through the Bank Insurance Fund (BIF) or through the Savings Association Insurance Fund (SAIF). These institutions are regulated by and submit financial data to one of the three federal commercial bank regulators (the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation or the Office of the Comptroller of the Currency).

FDIC-insured financial institutions include the following categories of depository institutions: National banks; State-chartered banks and trust companies, except savings banks; Commercial banks, either national or state-chartered, insured either by the FDIC Bank Insurance Fund (BIF) or by the FDIC Savings Association Insurance Fund (SAIF); Other financial institutions which operate under general banking codes, or are specifically authorized by law to accept deposits and in practice do so, or the obligations of which are regarded as deposits for deposit insurance. Data from U.S. Federal Deposit Insurance Corporation, "Statistics on Banking," annual.
