**NOTES:**

- OSHR notifies BEACON when a Range Revision has been approved and ready for entry. OM Tier 4 Production Support must process the change on the Job prior to PA initiating the Range Revision Workflow on the employee.
- If funding is not available HR PA still initiates the Range Revision WF Action and chooses the appropriate reason for the employee. HR must then execute PA30 Maintain Master Data (IT0052-subtype 0100 Wage Maintenance) to reserve the balance.
