Class Concept
These positions perform professional operating or cost accounting work requiring knowledge of the theory and practice of recording, classifying, examining, and analyzing the data and records of financial transactions. Positions at this level are responsible for managing the financial office for agencies, universities or facilities and may be the top level financial position within a medium to large agency or department. Some responsibilities include: overseeing a fiscal program of an agency, university or facility; assisting top level management with strategic budget planning, business organization, and quality assurance.

Recruitment Standards

Knowledge, Skills, and Abilities
- Thorough knowledge of accounting principles and practices.
- Considerable knowledge of governmental accounting methods, procedures and financial practices.
- Ability to direct the work of lower level accountants and support personnel.
- Ability to interpret and apply complex Federal and State fiscal regulations.
- Ability to use accounting judgment and theory to a wide variety of situations that are not covered by regulations or precedent.
- Ability to develop complex accounting worksheets and reports.
- Ability to present results of analysis to program administrators and negotiate changes and/or implementations.

Minimum Education and Experience
Bachelor’s degree in accounting, or a degree in business administration, finance or public administration or a related discipline from an appropriately accredited institution with 18 semester hours of accounting coursework; and two years of accounting/auditing experience in the preparation of interpretive or analytical accounting/financial statements and reports; or equivalent combination of education and experience.

Note: This is a generalized representation of positions in this class and is not intended to identify essential functions per ADA.
