**Class Concept**
Positions in this class perform technical and professional assignments in the design, development, and implementation of policies, processes, and procedures for psychometrically reliable and valid educational assessments, as well as the administration of these instruments, for the statewide public schools testing program. Work includes the development and production of program evaluation studies, research studies and reports, and policies on effective educational practices. Work is advanced and technical, requiring knowledge of elementary and secondary education programs, knowledge of statistics and testing, and the ability to communicate effectively with other agency professionals and school administrators. Positions serve as staff specialists with more limited scope projects and/or provide assistance to II level positions and report to Education Testing/Accountability Section Chief positions.

**Recruitment Standards**

**Knowledge, Skills, and Abilities**
- Working knowledge of elementary and secondary education programs.
- Basic knowledge of statistics and testing.
