

# walk SMART INC

## FOR DRIVERS

### STOP, LOOK, LISTEN

Always take time to observe your surroundings before crossing the street. Look left, look right, and look left again.

### USE CROSSWALKS

Use crosswalks whenever you can. If there are no crosswalks, then you should cross at the nearest intersection.

### SEE AND BE SEEN

Always make sure you can clearly be seen by drivers. Cross in open areas free of obstruction and wear bright colors at night.

### MAKE EYE CONTACT

It establishes non-verbal communication between you and the driver, which helps keep everyone safe.
