

Environment, Health and Safety Program Manager/Consultant

DESCRIPTION OF WORK: Positions in this banded class plan, coordinate, and manage EHS programs. They may supervise professionals and technicians, along with support personnel. These managers use their knowledge of EHS practices to oversee a variety of activities, examples including but not limited to industrial hygiene, radiation safety, ergonomics, emergency management, environmental protection, biological safety, or occupational safety. They determine technical goals within broad outlines provided in conjunction with higher-level managers and senior administrators, including finance, research, and other leaders. Managers use communication skills to establish detailed plans to accomplish goals. They establish administrative procedures and policies to promote/encourage compliance with applicable best practices and state and federal requirements. They apply their knowledge of administrative procedures, such as budgeting, human resources, and supervision. Managers provide leadership in the planning, organizing and managing of work operations, objectives and goal setting. Positions may set budgets for programs and allocate staff, training, and resources. Positions hire and supervise EHS professionals, technicians, and support personnel to carry out specific parts of each program.
