

Junior Ranger Program

The Junior Ranger program is correlated to K-5 curriculum standards and a great way to immerse students in any state park. Each student receives a book, teachers or park rangers guide students through activities, and students do a stewardship project. Each student is awarded a patch for completing the program.

Program Length: It takes at least four hours to complete the Junior Ranger program. We recommend it for classes taking an extended field trip, making multiple park visits, or able to complete some of the activities back at their school.

Scheduling Information: Contact the park office at least three weeks in advance to arrange the stewardship project and a park ranger program.
