Kristen Woodruff
North District
Superintendent

GIVEAWAY

NATURAL RESOURCES AT N.C. STATE PARKS

The division's Natural Resources Program provides field, planning, and construction staff with technical expertise on issues such as rare species protection, exotic species control, monitoring, prescribed fire, forestry, restoration, scientific research, environmental review and compliance, and landscape planning. No aspect of a park's operations functions in isolation. Everything that we do to improve customer services has an impact on the environment and every action we take to protect or enhance the environment has an impact on visitors.

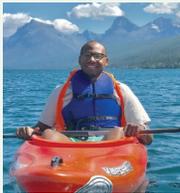

Jon Blanchard
Natural Resources Program Manager

GIVEAWAY

OPPORTUNITIES IN PARKS

Parks offer several opportunities for people to connect with each other, the natural world, themselves, and more. From job opportunities to recreational activities, the possibilities are endless. Learn from professionals sharing their perspectives on opportunities available in parks.

Diquan Edmonds
Program Coordinator
North Carolina Recreation
and Park Association
