

Spotfire Shootout

Each state park will receive a small set of flames and a red-cockaded woodpecker at your annual I&E plan meeting.

Enhance it by:

- Print and laminate large fire placards
- Paint wood panels, attach on hinges
- Cut and paint wood shapes

Give kids backpack pump nozzles (don't let them wear it, just hold the nozzle), or use squirt guns, super soakers, etc. to knock down the flames.

Include fire adapted species that are happy to live in fire and get wet!

MEMI, CACR, WEWO and others have experimented with this
