

## ON-SITE EVENT HEALTH AND SAFETY PRECAUTIONS

LabCorp Employer Services (LES) continues to actively monitor the COVID-19 situation and the updates provided by the CDC and other public health authorities.

**LES's current primary focus is on the well-being and safety of our employees and the customers we serve. As employers begin to resume screening programs and other onsite wellness activities, LES will be implementing COVID-19 process changes to help ensure a safe environment and experiences.**

These safety measures may include, but are not limited to:

- Continue to follow CDC guidelines and provide staff with recommended personal protection equipment (PPE).
- Continue to follow safe practices
  - Frequent cleaning/disinfecting of high-touch areas (registration, for example)
  - Frequent cleaning/sanitizing of screening stations
  - Washing hands often and using hand sanitizer before and after use of gloves
- Limit participant contact - participants will be greeted with a smile and nod
- Continual screening of on-site staff for symptoms of possible COVID-19 exposure
- Comply with social distancing requirements at all on-site events.

With regard to social distancing, LES will support clients in their social distancing practices by assisting with appointment timing, room set-up, staffing and flow rates.

**Staff will receive ongoing training as a reminder of safe practices, as well as, limited contact protocols, room set-up, and monitoring of participant flow.**
