Brief Description of Program:

The competitive North Carolina Science Museums Grant program is one of the many ways that the State of North Carolina invests in sustaining and advancing one of the most diverse and widespread networks of science museums in the country. These museums are critical resources for schools and communities in providing learning experiences in and out of the classroom that enhance science literacy.

Grant awards are based on criteria that promote the priorities of state government per G.S. § 143B-135.227, especially in the areas of economic development and education. Award expenditures are subject to 2 CFR 200 Subpart E - Cost Principles (§200.400 – §200.475).

Organizations Funded: Private Local Governemnt Both
