**Brief Description of Program:**

NC Moving Ahead is intended to advance transportation projects across the state. The program provides for improvements to highways, public transportation, rail, bicycle and pedestrian, and ferry facilities.

Local recipients for NC Moving Ahead funds for public transportation are identified from several sources, including the State Transportation Improvement Program (STIP) list of unfunded transit projects. The recommended project list is approved by the NC Board of Transportation and reviewed by Joint Transportation Oversight Committee of the General Assembly. Following review, selected projects are notified. Expenses incurred in accordance with the Grant Agreement are reimbursed to the subrecipient once claims are submitted with appropriate documentation, are processed and approved for payment. The recipient may request advance payment for major construction projects.

*On NCDOT's confirmation Grant Master List (GML), the NC Moving Ahead program disbursements are identified as State No.: DOT-22*

**Organizations Funded:**       Private       Local Government       Both
