Tips & Tricks: Mass Editing Requisition Lines

When creating an eRequisition with multiple line items, users can mass edit the line items to set the same information for multiple lines, which is useful when setting account codes and adjusting the vendor location. Commodity codes can also be changed using the mass edit function as long as the items being edited are non-catalog items.

1. To mass edit line items, place a check in the checkbox beside each line item to be edited and click the ‘Edit’ button.

2. Edit the necessary fields.

3. Click ‘Next’ to review the mass edit changes.
4. Review the modified fields and click ‘Done’ to complete the mass edit and apply the changes.

More information on mass editing line items can be found in the ‘Edit Line Item’ job aid on the E-Procurement Training Page.
