Deep Industry Knowledge

• CLA’s Governmental Retirement Plan Team currently provides audit and consulting services to more than 20 state and local governmental defined contribution plans across the country. In addition, the key personnel assigned to this engagement focus almost exclusively on governmental benefit plans. The knowledge gained from specializing in this unique niche enables our professionals to provide extraordinary service to our governmental DC clients coupled with methodologies which enhance efficiencies and quality.
Scope of Engagement

• Perform an Audit of the North Carolina Supplemental Retirement Plans’ (401K & 457) Financial Statements for 2016 Under U.S. Generally Accepted Auditing Standards and U.S. Generally Accepted Government Auditing Standards

The primary objective of our audit is to express an opinion on the fair presentation of the financial statements.

We plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements, whether caused by error or fraud. Because of the nature of audit evidence and the characteristics of fraud, we are to obtain reasonable, not absolute, assurance that material misstatements are detected. We have no responsibility to obtain reasonable assurance that misstatements, whether caused by error or fraud, that are not material to the financial statements are detected.

• Serve as a Resource throughout the Year

- The audit committee can put more focus on risk management and internal controls.
- Provides another “set of eyes” ensuring reports are understandable, moving the reports from “jargon” to information.
- Enhances credibility (financial statements, internal audit, CFO and finance departments).
